

FORTY YEARS LATER, MOPAR® IS RESURRECTING THE DRAG RACE PACKAGE CAR IN ITS DODGE CHALLENGER DRAG RACE PACKAGE CAR PROGRAM.

- Based on the '08 Dodge Challenger SRT8®
- Factory-prepped car begins with a special "Body-in-White" from the Brampton, Ontario, Canada assembly plant
- Weight reduced by 1,000 pounds by removing major components and systems
- Unique components added such as lift-off hood with functional scoop, Viper-style front seats, polycarbonate door windows and more
- Available engines include 5.7-liter, HEMI®, 6.1-liter HEMI and 5.9-liter Magnum® Wedge
- Mopar's drag race package car will be eligible to run in three categories (Stock, Super Stock and Comp Eliminator) and potentially 40 classes in NHRA/IHRA competition
- Priced from low-to-mid \$30,000s!

Visit Mopar.com in the coming weeks for more information on ordering.
