JEEP® PERFORMANCE PARTS

Wide-Open Possibilities, Exceptional Durability, Original-Equipment Specs

When you're looking to maximize the no-excuses, rock-your-world experience – on-road or off – there's simply no better way to customize and accessorize your Jeep® vehicle than with Jeep® Performance Parts.

We affectionately refer to them as JPP, but they're Mopar® to the core. Mopar is Original Equipment (OE) for all FCA US Brand vehicles and the foundation of the company's worldwide parts and service enterprise. It means we understand a vehicle's original intent and have direct, exclusive access to a vehicle's specifications. It means we can design and test parts and accessories to the highest standards. For Jeep® Brand vehicle owners, it means Jeep® Performance Parts – built by us, easy to install, and a perfect match for your Jeep® vehicle. It just doesn't get any more original than this. Mopar means a pure Jeep® Brand experience.

JPP gear is a great mix of OE specs with generations of time-tested engineering expertise, pushed to the limit in real-life testing by people just like you – those with a relentless passion for taking a Jeep® vehicle to the next level, and the next adventure.

HOW IT ALL STARTED

Jeep® Performance Parts (JPP) became the best option for Jeep® vehicles by design. In 2012, the Mopar® and Jeep® Brands launched the Jeep® Performance Parts division to meet a specific need: delivering a cutting-edge portfolio of off-roading parts to cater to die-hard off-road enthusiasts. Who better to offer accessories for Jeep® vehicles than the people behind the Jeep® Brand itself?

As part of the Mopar® family, JPP uses specifically designed, built and quality-tested accessories to ensure serious off-roaders have access to high-end, hard-core quality Jeep® vehicle parts. The Mopar team's long and storied history of creating desirable high-end OE parts has earned them recognition with performance enthusiasts everywhere. And that's also true as they've produced a large portfolio of parts and accessories now bearing the JPP name.

WHERE YOU'LL FIND JPP TODAY

All around the globe, from fancy auto shows to bare-bones deserts to the unforgiving wilderness, Jeep® Performance Parts can be found just about everywhere performance enthusiasts gather and drive. Our one-of-a-kind JPP concept vehicles are designed and built in Detroit to inspire and generate feedback from our most loyal and passionate customers. JPP also displays concept cars at parts and accessories events throughout the year; in fact, our custom vehicles are so sought after, we even sponsor vehicle builds for various aftermarket suppliers and racers.

We do all this and more for the love of Jeep® vehicle drivers and their seemingly insatiable desire for powerful and truly functional parts and accessories. Our exceptional vehicle builds demonstrate to daily drivers, gearheads and off-road enthusiasts the possibilities of what Jeep® Performance Parts can do on both production and modified vehicles.

JPP. What's on your Jeep® vehicle?

JUST WHEN WE THINK WE'RE DONE, WE TEST MORE.

Why are our standards so high?

Because we know when you're off the grid – hours past the end of the pavement and miles from the nearest cell tower – you want strong, reliable parts that can take you anywhere.

That's why we conduct such a rigorous testing process. From computer-aided engineering to computer modeling to endless lab testing, we use every state-of-the-art FCA US LLC design, engineering and testing resource available to us.

**For example:**

- Our parts are tested to the everyday equivalent of 150,000 miles on-road and off-road.
- Extensive temperature testing to hot and cold extremes, as low as -40 F and as high as 200 F.
- X-ray analysis of raw materials and finished parts to make sure there are no internal voids.
- Impact testing for overall safety because we know our parts are going to see things that are a little more challenging than what most vehicles experience.
- Corrosion-testing – finishes are tested to the equivalent of 10 years of everyday use.
- Electrical product testing to make sure there is not any interference with Original Equipment electronics.
- Our graphics endure grueling testing – simulated sun-loads make sure that graphics will stay as sharp and vibrant as they were when you brought your Jeep® vehicle home.

Every single performance part endures rigorous testing to make sure it's ready for your next adventure – that's what sets us apart from other aftermarket companies. We're the same factory engineers who designed your vehicle, and we live by a few simple principles: Original Equipment specs, Integrated Engineering, robust design and rigorous testing. That's why authentic Jeep® Performance Parts fit well, install easily and work the way they should. We take pride in building parts that will take you to the ends of the earth – AND back.

**THIS IS WHERE
YOUR DREAMS BEGIN.**

It's time to start your dream build. Check out the vehicles we've outfitted with Jeep® Performance Parts and Accessories on the following pages, and let your dreams run wild.

PERFORMANCE CHASSIS

Unleash your Jeep® vehicle into the wild with custom chassis products that provide increased performance, ground clearance and exceptional off-road articulation.

LIFT KITS*

STEERING DAMPERS

BIG BRAKE KITS

Jeep® Performance Parts Lift Kits* improve ground clearance and allow for larger tires. You can further enhance any ride with FOX shocks that are already tuned specifically for a Jeep® vehicle with larger tires.

**Jeep® GLADIATOR AND Jeep® WRANGLER JL
2" LIFT KIT WITH FOX SHOCKS***

Jeep® Performance Parts (JPP) 2" Lift Kits* have been developed by Jeep® Brand engineers and off-road enthusiasts, and allow you to use larger tires. The Kits include 2.5" diameter aluminum body monotube FOX shock absorbers for cooler operation. The Lift Kits increase articulation and tire-to-ground contact, and the longer front control arms optimize suspension tuning for on-road drivability while improving off-road capability. They work with electronic stability control although unique alignment specifications are required. The parts are easy to install as no driveshaft or brake line replacements are required. Rigorously tested for performance, durability and corrosion, the parts in this Kit are held to all FCA US LLC production standards. The Kit comes in a reusable Jeep® Branded wooden crate with a Jeep® Performance Parts Badge.

TALL JACK BASE

Single unit block made out of a polymer. Molded indentation designed to fit your factory scissor jack to keep it planted firmly in place when jacking the vehicle. Used as a stable base to help lift and extend the range of the production jack when vehicle is equipped with larger tires and/or Lift Kits* are present. Angled face to work as a wheel chock as well.

[MOPAR.COM/JPP](https://mopar.com/jpp)

JEEP® WRANGLER JK 2" LIFT KIT WITH FOX SHOCKS*

Features the FOX Shocks 2.0 Performance Series IFP shock. Its brushed aluminum shock body dissipates heat faster than conventional steel and combines with other race-inspired technology to provide incredible fade-free performance, precise handling and stability. Hard chrome-plated, heat-treated shock shaft and redundant sealing system does not require a dust boot. Includes four tuned coil springs, four FOX shocks, brake line and track bar brackets, 1310-Double Cardan front driveshaft and yoke (3.6L engine) and all the hardware required for a complete installation. Tires larger than production will require a 12mm wheel offset (Jeep® Performance Parts offers several styles; see the Performance Wheels & Tire Components section in this catalog).

JEEP® WRANGLER JK 4" LIFT KIT WITH FOX SHOCKS*

Raise your profile and enjoy the fun of off-roading and handling. Kit includes four specially tuned springs with dual-coat protective coating, four tuned FOX reservoir shocks, control arms, four brake lines, 1310-Double Cardan front driveshaft and yoke, front/rear track bar relocation and all necessary brackets. Also includes a FOX steering damper and our High-Steer Conversion Kit to correct the steering geometry.

Note: Production wheels will not work with this Kit. Min. of 12mm wheel offset required. Allows for up to 35" tires.

\$138.00

2007-2018, Jeep® Wrangler JK

Item is a Mopar® accessory that may require installation by your dealer. Actual price of item is determined by the dealer and may vary from price shown. List price does not include installation, other ancillary equipment or sales tax. See dealer for details.

[MOPAR.COM/JPP](https://mopar.com/jpp)

Big wheels and tires need big brakes. Our Big Brake Kits can help improve fade resistance and stopping power so your next adventure can take you further.

Note: 17" wheels or larger are required; however, not all 17" wheels will work. Be sure to check clearance before driving.

JEEP® WRANGLER JL BIG BRAKE KIT

Direct bolt-on, heavy-duty front and rear Big Brake Kit features front 330mm x 28mm vented rotors and 51mm 2-piston caliper, front brake lines, rear 342mm x 14mm solid rotors and 48mm single piston caliper, heavy-duty brake pads and hardware. Same as what comes standard on the Rubicon®. Replacement pads and rotors are available.

P/N 77072434

\$1,155.00

P/N 77073015AA

BEADLOCK-CAPABLE WHEEL

17" x 8" Beadlock-Capable Wheel provides a backspacing of 4.4" (12mm offset). This wheel features dual bead seats. The outer bead of the tire can be mounted in a compliant inner location or in the outer location as a true beadlock with purchase of Functional Lock Ring Kit. Wheel is satin black with a tech silver beauty ring. Beauty ring is paintable. This wheel features a protected valve stem design, a 5" x 5" bolt pattern, and meets all FCA US LLC standards for corrosion and load. Requires Functional Lock Ring Kit, sold separately, for true beadlock capability.

[MOPAR.COM/JPP](https://mopar.com/jpp)

JEEP® WRANGLER JL TAILGATE REINFORCEMENT & SPARE TIRE CARRIERS

Tailgate Reinforcement System

Swing Gate Hinge Reinforcement allows for larger tires to be mounted on the swing gate. The reinforcement is powder-coated black and works with production hinge for easier installation. Requires Oversized Spare Tire Carrier Modification Kit (P/N 82215355AC). For use with tires up to 37". Also provides mounting provisions for other accessories.

P/N 82215356AC

\$873.00

2018–2022, Jeep® Wrangler JL

Oversized Spare Tire Carrier Modification Kit

Modification Kit provides various spacers to adjust the production spare tire carrier in order to accommodate larger tire assembly. The carrier is painted with a corrosion-resistant black finish. Requires Tailgate Reinforcement System (P/N 82215356AC).

P/N 82215355AC

\$486.00

2018–2022, Jeep® Wrangler JL

Center High-Mount Stop Light (CHMSL) Relocation Kit

CHMSL Relocation Kit allows you to add larger tires on the spare tire mount and move the CHMSL to the center of the spare tire. Can be used with the Oversized Spare Tire Carrier Modification Kit (P/N 82215355AC), Tailgate Reinforcement System (P/N 82215356AC) or as a stand-alone component.

Note: Not compatible with Mopar® spare tire covers.

P/N 82215349AB

\$108.00

2018–2022, Jeep® Wrangler JL

JEEP® WRANGLER JK TAILGATE REINFORCEMENT & SPARE TIRE CARRIERS

Tailgate Reinforcement System

Cast Aluminum Tailgate Reinforcement replaces the stock hinges and supports the spare tire mount. This tailgate hinge system mounts to existing body attachment locations and can be used with or without the production tire carrier. Requires Oversized Spare Tire Carrier Modification Kit (P/N 82215713). For use with tires over 33".

P/N 82214770AC

\$1,045.00

2007–2018, Jeep® Wrangler JK

Oversized Spare Tire Carrier Modification Kit

Oversized Spare Tire Carrier is adjustable for different size tires and wheel offsets. Use with cast tailgate reinforcement. Required for tires over 33" in diameter with tailgate reinforcement.

P/N 82215713

\$458.00

2007–2018, Jeep® Wrangler JK

Item is a Mopar, accessory that may require installation by your dealer. Actual price of item is determined by the dealer and may vary from price shown. List price does not include installation, other ancillary equipment or sales tax. See dealer for details.

ULTIMATE DANA 44™ ADVANTEK® AXLE

The Dana 44™ AdvanTEK® Front Axle Assembly provides improved off-road capability and additional ground clearance. Delivered as a complete assembly and designed as a direct bolt-on, they are available with your choice of gear ratios (4.88, 5.38) to better accommodate different tire sizes. Features heat-treated SAE-4340 chromoly axle shafts with large 1410 series universal joints load-rated at 3,600 Nm. Includes a selectable electronic locker and necessary suspension brackets. Nodular iron, Jeep® Branded differential cover with extra ribbing offers added strength, and ½" rotated high-clearance carrier provides additional ground clearance.

1/2" ROTATED HIGH-CLEARANCE CARRIER

Take on even the most brutal terrain with the high-clearance carrier design of these superior axles.

“JPP's Ultimate Dana 44™ AdvanTEK® axles are built strong so hardcore Jeep® Wrangler off-roaders can go where others fear to tread. High-strength features include AdvanTEK® Gear technology that reduces gear set packaging, allowing for a condensed carrier and improving ground clearance. We are proud to offer these axles through the Jeep® Performance Parts program.”

WINCHES AND ACCESSORIES

Exclusive Jeep® Performance Parts Rubicon® Winch

Completely waterproof and submersible to ensure reliable operation during water fording and other adverse conditions. Includes 100 feet of Warn Spydura™ Synthetic Rope (the strongest, most feature packed synthetic rope on the market today). Finished in three-stage zinc phosphate, e-coat and powder coating. Fasteners treated with anti-corrosive Magni 565 coating. This Winch should be paired with the Front Bumper End Caps (P/N 82215115AB) to maintain equivalent airbag performance.

Note: Do not attempt water fording unless depth is known and consistent with the vehicle's water fording rating in the Owner's Manual. Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off road responsibly in approved areas.

OFF-ROAD LED LIGHTS*

See the world in a different light with our advanced, LED-technology Off-Road Lights Kit. By emitting an extraordinary actual output lumen count of 4,600 for each 5" Light and 8,000 lumens for each 7" Light in actual output (versus the industry raw count), these Lights provide superior performance without shadows and give increased visibility for a more secure off-road driving experience.

Made with an extremely durable, commercial-grade aluminum body, this Kit has been brutally tested in the field through vigorous shake and water pressure testing (IP69K rated). Each Kit contains 2 LED Lights, covers and wiring harness. The wiring harness includes pigtail with ground eyelet and blunt-cut circuit for power connection. These Kits pair well with our Auxiliary Switch Bank Kits on page 53. Off-Road Lights must remain turned off, or covered, on public roadways.

EXHAUST SYSTEMS

PERFORMANCE INTAKE SYSTEMS

These bolt-on systems are designed to allow cooler outside air to flow through a directional filter, directly into the intake manifold. They provide noticeable horsepower and torque gains under varying atmospheric conditions. Kits include all mounting hardware and a washable/reusable filter. Do not oil Dry Media filters.

Cold Air Intake Systems

Cold Air Intake featuring Jeep® Brand logo and reusable black and silver drop-in filter. Draws fresh air from outside vehicle from hood cutout to increase engine performance. Includes bezel to finish cutout.

MOPAR® PARTS & ACCESSORIES LIMITED WARRANTIES

MOPAR® BASIC LIMITED WARRANTY

Except as noted below, Mopar®, Parts and Magneti Marelli® Offered by Mopar®, parts installed by an authorized FCA US LLC dealership, including Chrysler, Dodge, Jeep®, Ram, FIAT® and Alfa Romeo locations, are warranted against defects in workmanship or materials for 24 months/unlimited miles for both parts and labor. Mopar Parts sold wholesale to an automotive service facility and installed by a professional technician are warranted against defects in workmanship or materials for 24 months/unlimited miles for parts and up to \$150.00 in labor. Mopar Parts and Magneti Marelli® Offered by Mopar®, parts sold over-the-counter for vehicle owner or do-it-yourself installation are warranted against defects in workmanship or materials for 24 months/unlimited miles for parts exchange only.

Mopar Parts and Magneti Marelli® Offered by Mopar®, parts replaced on an FCA US LLC vehicle still covered by the FCA US LLC New Vehicle Basic Limited Warranty are warranted for the remainder of the 3-Year/36,000-Mile New Vehicle Basic Limited Warranty, or for the Mopar 24-Month Basic Limited Warranty from the original purchase date, whichever is more favorable to the customer.

The Mopar Basic Limited Warranty covers the cost of towing a vehicle to the nearest authorized FCA US LLC dealership if the failure of a covered part causes the vehicle to be inoperative. If a Mopar part or a Magneti Marelli® Offered by Mopar®, part is installed in an FCA US LLC vehicle by an authorized FCA US LLC dealer, and if, while that part is still under warranty, it causes other parts to be damaged or to fail, those other parts will be repaired or replaced under warranty, regardless of whether the other parts were covered by an FCA US LLC warranty at the time of failure. These warranties are the only express warranties made by FCA US LLC for Mopar Parts and Accessories and Magneti Marelli® Offered by Mopar®, parts. Except where prohibited by law, this warranty is the sole and exclusive remedy. No person, including a dealer or employee of FCA US LLC or its affiliated corporations, has the authority to vary or change these warranties.

The limited warranty period starts on the day the part is sold, as reported on the sales receipt, to the consumer. Warranty period does not restart after repair. The limited warranty is not transferable. When the vehicle is sold or otherwise disposed of (i.e., the vehicle is no longer titled in consumer's name), the limited warranty ends. CONSUMER MUST KEEP ORIGINAL RECEIPT.

Mopar Parts and Magneti Marelli® Offered by Mopar®, parts sold with a separate manufacturer's warranty are not eligible for the Mopar warranty. Warranty information on these parts is provided with the part or in its packaging. Examples include: Garmin navigation, TomTom navigation, Katzkin® leather, Koss headphones, truck bedliners, Truck Hero tonneau covers, SuperLift, paint sealant and fabric protection.

Exceptions

The following Mopar products have time and mileage limitations or warranty coverage that differs from the general coverage described above: Mopar Batteries; Magneti Marelli® Offered by Mopar®, Batteries; Mopar Collision Parts; Mopar Windshield Made With Corning Gorilla Glass; Mopar Catalytic Converters; Mopar Gaskets and Seals; Magneti Marelli® Offered by Mopar®, Catalytic Converters; Mopar Powertrain; Mopar Remanufactured Powertrain; Mopar HEMI® Crate Engine Kit; Mopar Performance Parts; Mopar Lifetime Limited Warranty on Value Line Brake Pads/Shoes, Value Line Shocks/Struts and Value Line Mufflers; Magneti Marelli® Offered by Mopar®, Brake Pads/Shoes and Shocks/Struts.

MOPAR PERFORMANCE PARTS LIMITED WARRANTY

Notice

Federal and many state laws prohibit the removal, modification or rendering inoperative of any part or element of design affecting emissions or safety on motor vehicles used for transporting persons or property on a public street or highway. Violation may result in a fine imposed for each vehicle impacted. Many performance parts listed in this catalog cannot be used on vehicles used on public streets or highways. These parts may be used only on vehicles used solely in sanctioned off-highway events. No other applications for these parts are intended or implied. Those parts that have been granted an exemption by the California Air Resources Board (CARB) or meet the EPA requirements of memorandum 1A are legal for highway use in California, New York and Massachusetts and are noted as such.

Mopar Performance Parts Beginning with "770..."

Mopar Basic Limited Warranty: Except as noted below, Mopar Performance Parts beginning with "770..." installed by an authorized FCA US LLC dealership, including Chrysler, Dodge, Jeep®, Ram, FIAT® and Alfa Romeo locations are warranted against defects in workmanship or materials for 24 months/unlimited miles from date of purchase for both parts and labor. Mopar parts sold wholesale to an automotive service facility and installed by a professional technician are warranted against defects in workmanship or materials for 24 months/unlimited miles from date of purchase for parts and up to \$150.00 in labor. Mopar parts and Magneti Marelli® Offered by Mopar®, parts sold over-the-counter for vehicle owner or do-it-yourself installation are warranted against defects in workmanship or materials for 24 months/unlimited miles from date of purchase for parts exchange only. Mopar parts and Magneti Marelli® Offered by Mopar®, parts replaced on an FCA US LLC vehicle still covered by the FCA US LLC New Vehicle Basic Limited Warranty are warranted for the remainder of the 3-year/36,000-Mile New Vehicle Basic Limited Warranty, or for the Mopar 24-month Basic Limited Warranty from the original installation date, whichever is more favorable to the customer. CUSTOMER MUST KEEP ORIGINAL RECEIPT.

Mopar Performance Parts Beginning with "PW..."

Mopar PW Performance Parts Limited Warranty: Mopar PW Performance Parts are those parts with a part number beginning in "PW" and do not include any other Performance Parts. Except as noted below, Mopar PW Performance Parts installed by an authorized FCA US LLC dealership, including Chrysler, Dodge, Jeep®, Ram, FIAT®, and Alfa Romeo locations are warranted against defects in workmanship or materials for 12 months/12,000 miles for both parts and labor from date of purchase. Mopar PW Performance Parts sold wholesale to an automotive service facility and installed by a professional technician are warranted against defects in workmanship or materials for 12 months/12,000 miles from date of purchase for parts and up to \$150.00 in labor. Mopar PW Performance Parts sold over-the-counter for vehicle owner or do-it-yourself installation are warranted against defects in workmanship or materials for 12 months/12,000 miles from date of purchase for parts exchange only. CUSTOMER MUST KEEP ORIGINAL RECEIPT.

Mopar Performance Parts Beginning with "P51..."

No Parts Warranty – "As Is"

Mopar Performance Parts with part numbers beginning with "P51..." are sold "as is" without warranty coverage of any kind by Mopar unless otherwise noted. Mopar Performance Gen II crate engine assemblies are warranted for "parts only" "as delivered" against defects in materials or workmanship for 90 days from the date of purchase. The following covered components for Mopar Performance engine assemblies, which prove to be defective in materials or workmanship, will be replaced on an exchange basis for 90 days: cylinder blocks and all internal parts; cylinder head assemblies; intake manifold; core plugs; valve covers; oil pan; timing gear and/or chain and cover; water pump; gaskets and seals. The limited warranty period starts on the day the part is sold, as reported on the sales receipt, to the consumer. The limited warranty is not transferable. When the vehicle is sold or otherwise disposed of (i.e., the vehicle is no longer titled in consumer's name), the limited warranty ends. CONSUMER MUST KEEP ORIGINAL RECEIPT.

Implied warranties, such as warranties of merchantability, are excluded. (An implied warranty of merchantability means that the part is reasonably fit for the general purpose for which it was sold.) The entire risk as to quality and performance of such parts is with the buyer. Should such parts prove defective following their purchase, the buyer, and not the manufacturer, distributor or retailer, assumes the entire cost of all necessary servicing or repair. Chrysler, Dodge, Jeep, and Ram vehicle and parts warranties are voided if the vehicle or parts are used for competition. The addition of performance parts does not by itself void a vehicle's warranty. However, added performance parts (parts not originally supplied on the vehicle from the factory) are not covered by the vehicle's warranty, and any failure that they may cause is not covered by the vehicle's warranty.

Mopar Limited Warranties do not cover any incidental or consequential damages connected with the failure of the part under warranty. Such damages include lost time, inconvenience, the loss of the use of your vehicle, the cost of rental cars, gasoline, telephone, travel or lodging; the loss of personal or commercial property; or the loss of revenue. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

Your warranties can also be restricted by FCA US LLC, as set forth in the New Vehicle Limited Warranty. If your New Vehicle Limited Warranty is restricted by FCA US LLC, coverage under your Mopar Parts and Accessories Limited Warranties may also be restricted or denied.

Emissions Statement

Mopar Performance Parts customers are responsible for complying with applicable federal, state and local environmental laws and regulations. Many Mopar Performance Parts and components are designed to be equipped in vehicles that are operated not on streets or highways (such as vehicles intended for competition or off-road use). Motor vehicles designed for transport on streets or highways and equipped with such parts may cause such motor vehicles to be out of compliance with applicable emissions standards. It may be a violation of federal and state law to operate such motor vehicles equipped with such parts, except where vehicles equipped with such parts are operated not on streets or highways and where such vehicles lack features customarily associated with safe and practical highway use.

HOW TO OBTAIN WARRANTY SERVICE

Where both parts and labor are covered warranty items, repair will be made by any FCA US LLC dealership at no charge. Where parts only are covered, the FCA US LLC dealership will provide replacement parts at no charge. It is recommended that vehicles be taken to the selling dealership or to the dealer who sold or installed the Mopar part or accessory. However, replacement parts or service under warranty may be obtained from any authorized FCA US LLC dealer.

WHAT IS NOT COVERED:

Mopar warranties cover neither non-FCA US LLC or non-Mopar Parts, components or equipment. These warranties also do not cover the costs of any repairs or adjustments that might be caused by or needed because of the use or installation of any non-FCA US LLC or non-Mopar Parts, equipment, materials or additives.

Mopar warranties do not cover the costs of repairing damage or conditions caused by fire or accident; by abuse, negligence or misuse (for example: driving over curbs, or overloading or racing the vehicle); by improper adjustment, alteration or failure to maintain the vehicle on which parts are installed; or corrosion or damage caused by the use of caustic materials.

Mopar warranties do not cover parts installed on a vehicle used for racing or competition, nor do they cover the repair of any damage or conditions caused by racing or competition.

Mopar warranties do not cover the costs of repairing or replacing any part due to damage caused by poor or improper maintenance, contaminated fuels, or the use of fuels, oils, lubricants or fluids of a type other than those recommended in your Owner's Manual.

Mopar warranties do not cover the costs of damage caused by environmental factors or "acts of God." "Environmental factors" include such items as airborne fallout, chemicals, tree sap, salt, ocean spray and road hazards. "Acts of God" include such things as hail, floods, windstorms, lightning, tornadoes, sandstorms and earthquakes.

Mopar warranties do not apply to parts installed on a vehicle that has had its odometer or emissions systems tampered with or disconnected, or that has been declared a total loss by any insurance company, or is rebuilt after being declared a total loss; or is issued a certificate of title indicating that it is designated as "salvage," "junk," "rebuilt" or words of similar import. FCA US LLC will deny warranty coverage without notice if it finds that a vehicle is ineligible for warranty coverage because it has been salvaged or declared a total loss as set forth in this paragraph.

Mopar Limited Warranties do not cover any incidental or consequential damages connected with the failure of the part under warranty. Such damages include lost time; inconvenience; the loss of the use of your vehicle; the cost of rental cars, gasoline, telephone, travel or lodging; the loss of personal or commercial property; or the loss of revenue. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

Your warranties can also be restricted by FCA US LLC, as set forth in the New Vehicle Limited Warranty. If your New Vehicle Limited Warranty is restricted by FCA US LLC, coverage under your Mopar Parts and Accessories Limited Warranties may also be restricted or denied.

OTHER TERMS:

To the extent allowed by law, any implied warranties, including any implied warranty of merchantability or fitness for a particular purpose, are limited in duration to the duration of these express warranties. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

These warranties are the only express warranties made by FCA US LLC for Mopar Parts and Accessories. Except where prohibited by law, this warranty is the sole and exclusive remedy.

No person, including a dealer or employee of FCA US LLC, has the authority to vary or change these warranties.

Michigan law governs this warranty to the extent allowed by law. Interpretation of the terms of this warranty must be done using Michigan law.

These limited warranties give you specific legal rights and you may also have other rights which vary from state to state.

NOTE TO DEALER:

MOPAR WARRANTY REGISTRATION AND REPLACEMENT PROCEDURES

The Dealer must notify FCA US LLC whenever you install Accessory Upgrades. Transmit the Option Update via DealerCONNECT Service Tab > Vehicle Option Update.

NOTE TO INTERNATIONAL DEALERS AND DISTRIBUTORS:

The accessories in this catalog were designed, engineered and approved for use in the United States and may not comply fully with regulations in your country. Before ordering these accessories, please confirm that they meet all local regulations. Special discounts, display items, promotional offers and supplier ship direct (SSD) shipments apply only to the United States.

COMPLIANCE STATEMENT

*Jeep® Performance Parts, including Lift Kits, are designated as "Off-Road Only" parts and have not been evaluated or tested for crashworthiness or compliance with safety standards. Jeep® Performance Parts noted as "Off-Road Only" are aftermarket only, may not be installed by a Chrysler, Dodge, Jeep®, Ram or FIAT® dealer on a new vehicle, and may not be sold or financed in conjunction with the sale of a new vehicle. FCA US LLC does not authorize the installation of any part noted as "Off-Road Only" on any vehicle prior to its first retail sale.

**Do not drive your vehicle on public roads with the original equipment doors removed, as you will lose the protection they can provide. Tube Door Kits are intended for use during off-road operation only. All occupants must wear seat belts during off-road operation with doors removed or Tube Door Kits installed.
