# WHY JEEP® PERFORMANCE PARTS?

## ADVENTURE ON.

Freedom. It's what makes the Jeep® brand unlike any other vehicle brand in the world. It's one of the main reasons why you drive yours and it's why our performance parts are unmatched. We have the freedom to build the parts that no other company can because we use Original Equipment (OE) specs, generations of engineering expertise and data, the top testing facilities and resources, and most of all, a relentless passion for taking your Jeep® brand vehicle to the next level.

## BEING THE OEM IS WHAT SETS US FREE.

We are the same Original Equipment Manufacturer (OEM) who painstakingly designed, meticulously engineered and brutally tested your Jeep® brand vehicle. No one else is more qualified to build your performance parts.

While aftermarket manufacturers use reverse engineering to try to get their measurements, we have the advantage of being the original engineers. We know all of our vehicles, inside and out. For instance, we know exactly where the holes are placed on your vehicle, so bolt-on application can allow for easy installation without concern of compromising your vehicle's integrity. Everything about our process is meant to push the limits of what's possible because, in many ways, this is the spirit of the Jeep® brand.

## GET THE BEST PARTS. BUILD THE BEST VEHICLE.

We make sure that when you enhance your Jeep® brand vehicle's capability, it's not at the expense of another system. Our engineers not only design our Lift Kits\* to increase your vehicle's performance on brutal terrain, but also know how you'll need to modify your vehicle's other systems (e.g., brakes and suspension) to ensure it still operates correctly — and optimally. Our parts embrace the philosophy that it's possible to make your vehicle more powerful and versatile without sacrificing its ride quality.

\*Jeep, Performance Parts Lift Kits and Off-Road Lights are aftermarket only and may not be installed by a Chrysler, Dodge, Jeep, or Ram dealer on any vehicle prior to its first retail sale, and may not be sold or financed in conjunction with the sale of a new vehicle. FCA US LLC does not authorize the installation of these parts on any vehicle prior to its first retail sale.

# TEST. TEST. TEST. WHEN WE'RE DONE, TEST MORE.

Why are our standards so high? Because we know when you're on an adventure — hours past the end of pavement and miles from the nearest cell tower — the last thing you want is to get stranded due to your newest off-road part not quite living up to the hype on its box.

Simply put, aftermarket companies just can't compete with our rigorous testing processes. We're the same factory engineers that designed your vehicle in the first place and we have access to the full range of FCA US LLC state-of-the-art design, engineering and testing resources.

And we use them — all of them — Computer-Aided Engineering, computer modeling, endless testing labs; simply because we hold ourselves to a higher standard. For example:

- Our parts are tested to the everyday equivalent of 150,000 miles, on-road AND off-road. That's the equivalent of six trips around the world!
- Extensive temperature testing to hot and cold extremes, as low as -40 F and as high as 140 F.
- X-ray analysis of raw materials and finished parts to make sure there are no internal voids.
- Comprehensive impact testing for overall safety. We know our parts are going to see boulders, streambeds and obstacles that are a little more challenging than what most vehicles experience, so we test to keep you and your vehicle in one piece.
- Corrosion-testing — Unique coatings are selected and tested to the equivalent of 10 years of everyday use.
- Electrical product testing to make sure they don't interfere with original equipment electronics — remotes, sound system, you name it. We make sure they're compatible.
- Even our graphics endure grueling testing — simulated sun-load tests to make sure they stay as sharp and vibrant years from now as the day you bought them.

---

## BE ORIGINAL — NOT A KNOCKOFF.

Our engineers live by a pretty simple philosophy: Original Equipment Specs. Integrated Engineering. Robust Design. Rigorous Testing. That's why authentic Jeep® Performance Parts fit right, install easily and work like they should — on Day One — and for a long, long time afterwards. You see, when you drive to the ends of the earth and beyond, our reputation is on the line too and we take pride in providing the parts that will get you there — AND back.

# PERFORMANCE CHASSIS

You didn't buy a Jeep® brand vehicle to decorate your driveway. Unleash it with custom chassis products that provide increased performance, ground clearance and exceptional off-road articulation — without sacrificing vehicle comfort and control.

# Lift Kits

One of the first things owners do is fit larger tires to their Wrangler vehicles. We offer 2" and 4" Lift Kits to allow the proper clearance to fit larger tires for improved ground clearance. Our Lift Kits are a complete system designed to provide the correct suspension geometry for a lifted vehicle. To enhance ride and handling, we have teamed with FOX to provide a set of shocks with proprietary tuning, specifically for a Wrangler with larger tires.

## Wrangler JL 2" Lift Kit With FOX Shocks

Jeep® Performance Parts 2" Lift Kits have been developed by Jeep® brand engineers and off-road enthusiasts to allow you to use larger tires. The Kit includes exclusive 2.5" diameter aluminum body monotube FOX Shocks for cooler operation. The Lift Kit increases axle articulation 24% over stock, allowing you to take on more challenging obstacles. Tire-to-ground contact — that all-important Contact Patch — and the longer front control arms optimize caster suspension tuning for on-road without compromising off-road capability. Our Kit works with Electronic Stability Control — specifically it meets FMVSS 126, the federal government's standard for ESC compliance. Rigorous testing for performance, durability and corrosion has been done to ensure years of trouble-free operation. Tires larger than production will require a 12mm wheel offset (Jeep® Performance Parts offers several styles; see the Performance Wheels & Components section in this catalog.) The Kit comes in a reusable Jeep® Performance Parts branded wooden crate.

### 2" Lift Kit With FOX Shocks\*

2018, 4-Door Jeep® Wrangler JL equipped with 2.0L engine.  
P/N 77072430AB

# Wrangler JK 2" Lift Kit With FOX Shocks

Features the FOX Shocks 2.0 Performance Series IFP shock. Its brushed aluminum shock body dissipates heat faster than conventional steel and combines with other race-inspired technology to provide incredible fade-free performance, precise handling and stability. Hard chrome-plated, heat-treated shock shaft and redundant sealing system does not require a dust boot. Includes four tuned coil springs, four FOX shocks, brake line and track bar brackets, 1310-Double Cardan front drive shaft and yoke (3.6L engine) and all the hardware required for a complete installation. Tires larger than production will require a 12mm wheel offset (Jeep® Performance Parts offers several styles; see the Performance Wheels & Components section in this catalog.)

## 2" Lift Kit With FOX Shocks\*

P/N 77070095AD

# Wrangler JK 4" Lift Kit With FOX Shocks

Raise your profile and enjoy the fun of off-roading and handling. Kit includes four specially tuned springs with dual-coat protective coating, four tuned FOX reservoir shocks, control arms, four brake lines, 1310-Double Cardan front drive shaft and yoke, front/rear track bar relocation and all necessary brackets. Also includes a FOX Steering Damper and our High Steer Conversion Kit to correct the steering geometry. Backed by one-year Mopar® limited warranty.

Note: Production wheels will not work with this kit. Min. of 12mm wheel offset required. Allows for up to 35" tires.

## 4" Lift Kit With FOX Shocks\*

2007–2018, 4-Door Jeep® Wrangler JK.  
P/N 77072353AC \$2,175.00

P/N 77072353AC

## 4" FOX Shock, Front

Front, includes one shock only.  
2007–2018, 4-Door Jeep® Wrangler JK.  
P/N 77072357 \$310.00

## 4" FOX Shock, Rear

Rear, includes one shock only.  
2007–2018, 4-Door Jeep® Wrangler JK.  
P/N 77072359 \$336.00

# Suspension Upgrades & Components

## Stabilizer Bar Links

Stabilizer Bar Link Kits.  
Front only. Recommended for Rubicon® to prevent production stabilizer bar binding during off-road driving. Easy installation with bolt-on components.

2007–2018, Jeep® Wrangler JK Rubicon®.  
P/N P5155512 \$106.00

Stabilizer Bar Quick Disconnects.  
Front only. Can be used with JPP 2" to 4" Lift Kits. Quick-release pins allow you to manually disconnect the front anti-sway bars, quickly and safely, to increase axle articulation in off-road situations.

2007–2011, Jeep® Wrangler JK non-Rubicon®.  
P/N P5155419 \$188.00

# Shock Replacement/ Upgrade for 2" & 4" Lift Kits

## Bilstein® Shocks, Front

2007–2011, Jeep® Wrangler JK.  
P/N P5155262 \$138.00

## Bilstein® Shocks, Rear

2007–2011, Jeep® Wrangler JK.  
P/N P5155263 \$142.00

## Performance Shocks, Front

2007–2011, Jeep® Wrangler JK.  
P/N P5155804 \$80.00

## Performance Shocks, Rear

2007–2011, Jeep® Wrangler JK.  
P/N P5155805 \$80.00

# Steering Dampers

Provides additional steering linkage damping necessary when vehicle is fitted with larger than stock tires.

## FOX Premium Steering Damper

2007–2018, Jeep® Wrangler JK.  
P/N 77072360 \$188.00

## Heavy Duty Steering Stabilizer

2007–2018, Jeep® Wrangler JK.  
P/N P5155264 \$125.00

## High-Steer Kit

Includes drag link, track bar bracket front, bushing. To be used with 3"–4" lift kits.

2007–2018, Jeep® Wrangler JK.  
P/N P5160094 \$336.00

P/N 77072434

## Big Brake Kits

While larger wheels and tires give you better capability while you're on the go, our Big Brake Kits enhance your stopping ability. These Big Brake Kits will improve fade resistance and increase your stopping power to make sure your Jeep® brand vehicle is ready for your next adventure.

Note: 17" wheels or larger are required; however, not all 17" wheels will work. Be sure to check clearance before driving.

### Wrangler JL Big Brake Kit

Note: Available for Sport model only.

Direct bolt-on heavy-duty front and rear big brake kit features front 330 x 28mm vented rotors and 51mm 2-piston caliper, front brake lines, rear 342 x 14mm solid rotors and 48mm single piston caliper, heavy-duty brake pads, and hardware. Same as what comes standard on the Rubicon®. Replacement pads and rotors are available.

2018, Jeep® Wrangler JL.  
P/N 77072434

\$875.00

### Wrangler JK Big Brake Kit

Front axle big brake kit features large 330mm rotors, big 54mm 2-piston calipers, brake lines and heavy-duty pads. Kit also includes a matching brake booster and a 21% larger master cylinder. Replacement pads and rotors are available.

2007–2018, Jeep® Wrangler JK.  
P/N P5160051AC

\$923.00

### Performance Master Cylinder and Booster

Includes reservoir.

2007–2018, Jeep® Wrangler JK.  
P/N P5160050

\$262.00

# PERFORMANCE WHEELS & COMPONENTS

If you're a hardcore off-roader, then your tires are as big as your ambition. Performance wheels and components are highly engineered to handle wider, aggressive off-road rubber, offer maximum traction and raise your profile (and your heart rate).

# Performance Wheels

Note: All wheels sold individually.

On the trail, rubber meets the rock. That's why the wheels from Jeep® Performance Parts are engineered to accommodate wider, aggressive off-road tires and cope with paths never touched by painted lines. 12mm offsets allow an upgrade to wider tires without frame interference.

## Wrangler JL Performance Wheels

### 17" Off-Road Wheel

17" x 8.5" x 12mm offset Cast Aluminum Wheel is rated for a 1,950-lb. load rating, a 5 x 5" bolt pattern and a 71.54mm pilot bore diameter. Also includes a Jeep® branded center cap in corresponding wheel finish.

17" Cast Aluminum Wheel — Black

2007–2018, Jeep® Wrangler JL and Jeep® Wrangler JK.  
P/N 77072470AB \$245.00

17" Cast Aluminum Wheel — Silver

2007–2018, Jeep® Wrangler JL and Jeep® Wrangler JK.  
P/N 77072472AB \$245.00

### 17" Satin-Carbon Off-Road Wheel

17" x 8.5" x 12mm offset Jeep® Performance Parts unique aluminum gear wheel is off-road capable. Wheel has a 1,950-lb. load rating, a 5 x 5" bolt pattern and a 71.54mm pilot bore diameter. Also includes a Jeep® branded center cap.

2017–2018, Jeep® Wrangler JL and Jeep® Wrangler JK.  
P/N 77072471AB \$265.00

# Beadlock-Capable Wheel

## Beadlock-Capable Wheel

17" x 8" Beadlock-Capable Wheel provides a backsparing of 4.4" (12mm offset). This wheel features dual bead seats. The outer bead of the tire can be mounted in a compliant inner location or in the outer location as a true beadlock with purchase of Functional Lock Ring Kit. Rim is satin black with a silver ring. This wheel features a protected valve stem design and meets all FCA US LLC standards for corrosion and load. This wheel has a 5 x 5" bolt pattern. Requires Functional Lock Ring Kit for True Beadlock Capability.

2007–2018, Jeep® Wrangler JL and Jeep® Wrangler JK.  
P/N 77072466AB \$395.00

## Functional Lock Ring Kit for True Beadlock Capability\*

Beadlock wheels clamp the outer tire bead to the rim, allowing you to run very low tire pressure for maximum traction and ride, when properly equipped with Functional Lock Ring Kit. Hardware included.

2007–2018, Jeep® Wrangler JL and Jeep® Wrangler JK.  
P/N P5160154 \$130.00

# Additional Performance Wheels

## 18" Cast Aluminum Wheel — Gloss Black

18" Cast Aluminum Rugged Off-Road Wheel in gloss black finish with a Jeep® branded center cap.

2014–2018, Jeep® Grand Cherokee.  
P/N 82212154AB \$435.00

## 17" Cast Aluminum Wheel — Black Semi Gloss

17" x 7.5" x 31mm Cast Aluminum Trailhawk Wheel, fully painted black semi gloss.

2014–2018, Jeep® Cherokee.  
P/N 82214010AB \$347.00

## 18" Cast Aluminum Wheel — Black

18" x 7.5" x 44.45mm Cast Aluminum jet black wheel has a 1,600-lb. load rating, a 5 x 5" bolt pattern and a 71.54mm pilot bore diameter. Also includes a black Jeep® branded center cap.

2014–2018, Jeep® Grand Cherokee.  
P/N 82219010AC \$243.00

## Standard Steel Wheel

17" x 7.5" x 47.3mm offset Steel Wheel for winter tires or off-road use. (Production sizing is 17" x 7.5" x 44.5mm offset.)

2007–2018, Jeep® Wrangler JK.  
P/N 52124455AB \$175.00

P/N 52124455AB

P/N 82219010AC

# Wrangler JL Tailgate Reinforcement & Spare Tire Carriers

## Tailgate Reinforcement System

Swing Gate Hinge Reinforcement allows for larger tires to be mounted on the swing gate. The reinforcement is powder-coated black and works with production hinge for easier installation. Requires Oversized Spare Tire Carrier Modification Kit (P/N 82215355). For use with tires up to 37". Also provides mounting provisions for other accessories.

2018, Jeep® Wrangler JL.  
P/N 82215356AB \$625.00

## Oversized Spare Tire Carrier Modification Kit

Modification Kit provides various spacers to adjust the production spare tire carrier in order to accommodate larger tire assembly. The carrier is painted with a corrosion-resistant black finish. Requires Tailgate Reinforcement System (P/N 82215356AB).

2018, Jeep® Wrangler JL.  
P/N 82215355 \$275.00

## Center High-Mount Stop Light (CHMSL) Relocation Kit

CHMSL Relocation Kit allows you to add larger tires on the spare tire mount and move the CHMSL to the center of the spare tire. Can be used with the Oversized Spare Tire Carrier Modification Kit (P/N 82215355), Tailgate Reinforcement System (P/N 82215356AB) or as a stand-alone component.

2018, Jeep® Wrangler JL.  
P/N 82215349 \$85.00

P/N 82215356AB

P/N 82215355

P/N 82215349

# Wrangler JK Tailgate Reinforcement & Spare Tire Carriers

P/N 82214770AC

## Tailgate Reinforcement System

Cast Aluminum Tailgate Reinforcement replaces the stock hinges and supports the spare tire mount. This tailgate hinge system mounts to existing body attachment locations and can be used with or without the production tire carrier. Requires Oversized Spare Tire Carrier Modification Kit (P/N 82215713). For use with tires over 33".

2007–2018, Jeep® Wrangler JK.  
P/N 82214770AC

\$713.00

## Oversized Spare Tire Carrier Modification Kit

Oversized Spare Tire Carrier is adjustable for different size tires and wheel offsets. Use with cast tailgate reinforcement. Required for tires over 33" in diameter with tailgate reinforcement.

2007–2018, Jeep® Wrangler JK.  
P/N 82215713

\$305.00

# Wrangler JL Tail Jack Base

Single unit block made out of a polymer. Molded indentation designed to fit your factory scissor jack to keep it planted firmly in place when jacking the vehicle. Used as a stable base to help lift and extend the range of the production jack when vehicle is equipped with larger tires and/or lift kits are present. Angled face to work as a wheel chock as well.

2018, Jeep® Wrangler JL.  
P/N 82215637AB

\$69.00

P/N 82215637AB

# PERFORMANCE DRIVE COMPONENTS

If the terrain isn't challenging, you might as well stay home. Feed the addiction of finding your next adventure with durable axle components that deliver the handling and capability Jeep® brand vehicles are famous for.

# Crate Axle Assemblies

Front and rear axle assemblies will provide the next level of off-road performance for your Jeep® brand vehicle and are direct bolt-on replacements. These axles are shipped with current Wrangler Rubicon® suspension mounting brackets installed. Adaptation of these units into previous models is the responsibility of the purchaser. These axles come completely assembled with 4.10 gear and electric selectable locking differential.

P/N 77072405

P/N 77072406

P/N P5153825AI

P/N P5153826AG

## Wrangler JL Rubicon® Crate Axle

Crate Axle Assembly is the same as the production Rubicon® Axle Assembly, a 4.10 ratio. Assemblies come with electric lockers.

Wrangler Rubicon® Axle Assembly, Front.

Note: Does not come with brakes.

2018, Jeep® Wrangler JL.

**P/N 77072405**

## Wrangler JK Dana 60™ Crate Axle Assembly

Dana 60™ Crate Axles for '07-'18 Wrangler models feature electric locking differential, including wheel-speed sensors and a choice of 4.88 or 5.38 final drive gearing. A special high-clearance cast carrier housing provides 14.5mm improvement in ground clearance over a standard Dana 60™. This housing provides an integrated upper control arm mount and a Jeep® branded heavy-duty cast iron differential cover. Front axle features massive SPL 70 universal joints. The production steering linkage is compatible with this axle and mounts 2 inches higher than production. Rear axle is equipped with 32-spline chromoly shafts, electric locker, choice of gear ratios, heavy-duty brakes, cast iron differential cover, 1350 U-joint yoke and all brackets.

**Coming to an off-road adventure near you ...**

... a new, super-rugged, ready-for-anything Jeep® Axle.  
The Ultimate Dana 44.

**Stay tuned.**

## **Mopar Vehicle Protection (MVP) Custom Calibration Program**

When a 2018 or newer Wrangler (JL) is modified with oversize tires (33" or larger), or there is a change to axle or transfer case ratios, the odometer and speedometer should be recalibrated to maintain accurate readings. The MVP Custom Calibration is a dealer-performed vehicle reconfiguration allowing:

- Vehicle's cyber security gateway to remain functional
- Accurate speedometer and odometer readings with larger tires
- Changes to axle or transfer case ratios
- Prevention of inadvertent faults or warnings due to compatibility with vehicle's electrical system

**See your dealer for more information.**

# Axle Bracket Kits

For the builders who want to install their own axle, Jeep® Performance Parts offers all of the necessary brackets in one kit. The kit consists of the upper and lower control arm mounts, shock mounts, spring mounts and track bar mounts. These parts are raw steel, ready for welding. This is a package of the production-stamped brackets.

## Axle Brackets

Axle Brackets, Front.  
2007–2018, Jeep® Wrangler JK.

# OFF-ROAD ACCESSORIES

A Jeep® brand vehicle is the only vehicle that looks better dirty. Get out there and take it places no one has been before. And take it confidently, with obsessively engineered and tested accessories, including rock rails, bumpers, winches, skid plates and more.

# Wrangler JL Bumpers

## Rubicon® Steel 3-pc. Bumper, Front

Front off-road bumper, same as production, is the complete 3-pc. steel assembly including end caps.

2018, 2-Door and 4-Door Jeep® Wrangler JL.  
P/N 82215121AB

\$995.00

## Rubicon® Steel Stubby Bumper, Front

Rubicon® Steel 1-pc. Bumper, same as production front steel bumper. The “Stubby” bumper is the center piece of the Rubicon® bumper and you can add the Front Bumper End Caps (P/N 82215115AB) to this bumper to create the complete Rubicon® bumper. This steel, winch-capable bumper assembly must be used with the production steel skid plate (P/N 82215183).

2018, 2-Door and 4-Door Jeep® Wrangler JL.  
P/N 82215120

\$895.00

P/N 82215121AB

## Front Bumper End Caps

For Rubicon® Steel 1-pc Bumper. Add this kit to complete full Rubicon® bumper kit.

2018, 2-Door and 4-Door Jeep® Wrangler JL.  
P/N 82215115AB

\$250.00

P/N 82215351

## Grille and Winch Guard Hoop

Grille and Winch Guard designed with two-inch, black, powder-coated steel. Bolts to the stock steel front bumper with no drilling or alteration of the bumper.

2018, Jeep® Wrangler JL Rubicon®.  
P/N 82215351

\$249.00

## Rubicon® Steel Rear Bumper

Rear off-road bumper, same as production, matches front Rubicon® bumper. Bumper is steel with black, e-coated finish.

2018, 2-Door and 4-Door Jeep® Wrangler JL.  
P/N 82215342AB

\$745.00

P/N 82215342AB

# Wrangler JK Bumpers

Steel high-clearance bumpers are tough and heavily gusseted for strength. Functional and strong, these bumpers have many must-have features built in. All bumpers are compatible with airbag system and will maintain proper deployment.

## Rubicon® Steel 3-pc. Bumper, Front

Same as Rubicon® 10th Anniversary, Rubicon® Hard Rock and Rubicon® X Bumper. Bumper is winch mount-capable and comes with red tow hooks and fog lamps. If desired, also order front bumper skid plate (P/N 82214330).

2007–2018, Jeep® Wrangler JK.  
P/N 82213653AB \$1,445.00

## Rubicon® Steel Stubby Bumper, Front

Rubicon® Steel 1-pc. Bumper, same as production front steel bumper. The “Stubby” bumper is the center piece of the Rubicon® bumper and you can add the Front Bumper End Caps (P/N 82214754AB) to this bumper to create the complete Rubicon® bumper.

2007–2018, Jeep® Wrangler JK.  
P/N 82214565AB \$905.00

## Front Bumper End Caps

For Rubicon® Steel Stubby Bumper. Add end caps to complete bumper kit.

2007–2018, Jeep® Wrangler JK.  
P/N 82214754AB \$565.00

## Aero End Caps

“Aero” Bumper End Cap, designed to be used with Rubicon® Steel Bumpers.

2007–2018, Jeep® Wrangler JK.  
P/N 82214403AB \$258.00

## Grille and Winch Guard Hoop

Grille and Winch Guard bolts to the Rubicon® Steel Front Bumpers with a no-drill installation. Powder-coated finish to match the front bumper assembly.

2007–2018, Jeep® Wrangler JK.  
P/N 77072349 \$259.00

## Rubicon® Steel Rear Bumper

Same as Rubicon® 10th Anniversary, Rubicon® Hard Rock and Rubicon® X Bumper.

2007–2018, Jeep® Wrangler JK.  
P/N 82213654 \$882.00

## Heavy-Duty Steel 1-pc. Bumper, Front

Front, satin black, includes Winch Mount, integrated production Fog Lamp mounting provisions, license plate holes, and Tubular Grille/Winch Guard. Compatible with production tow hooks. Also order lower skid plate (P/N 82213581AB) to replace plastic air dam if desired.

2007–2018, Jeep® Wrangler JK.  
P/N 82213575AC \$1,310.00

## Heavy-Duty Steel 1-pc. Bumper, Front

Front, satin black, without winch mount provision. Includes holes for production fog lamps. Appearance is same as P/N 82213575AC.

2007–2018, Jeep® Wrangler JK.  
P/N 82213578AC \$975.00

## Heavy-Duty Rear Bumper

Satin black and includes tow eyes. Compatible with production hitch.

2007–2018, Jeep® Wrangler JK.  
P/N 82213579AC \$1,080.00

# Wrangler JK Winches & Accessories

## Exclusive Jeep® Performance Parts Rubicon® Winch

Completely waterproof and submersible to ensure reliable operation during water fording and other adverse conditions. Includes 100 feet of Warn Spydura™ Synthetic Rope (the strongest, most feature-packed synthetic rope on the market today). Finished in three-stage zinc phosphate, e-coat and powder coating. Fasteners treated with anti-corrosive Magni 565 coating. This winch should be paired with the Front Bumper End Caps (P/N 82215115AB) to maintain equivalent airbag performance.

2007–2018, Jeep® Wrangler JK.  
P/N P5160095AC \$1,595.00

## Jeep® Trail Rated® Winch Accessory Kit

Trail Rated® Kit contains a Jeep® branded 22-foot, 18,000-lb. tensile strength tow strap, two 3/4" D-rings, a carabiner and a pair of Jeep® branded gloves, all in a red nylon carrying bag with a black Jeep® brand logo.

2007–2018, Jeep® Brand Vehicles.  
P/N 82213901AB \$200.00

## Warn M8000 Winch

Features an 8,000-lb. line pull, automatic brake, 3-stage planetary gear set with 216:1 gear ratio, a Hawse fairlead, 80 feet of 5/16" steel cable, and a remote control with 12-foot lead.

2007–2018, Jeep® Wrangler JK.  
P/N 82202191AC \$851.00

## Warn 9.5ti Thermometric Winch

Features a 9,500-lb. line pull, temperature feedback, extreme-duty waterproofing, Hawse fairlead and 125 feet of 5/16" steel cable. Remote control is included.

1997–2016, Jeep® Wrangler JK.  
P/N 82209325AE \$1,470.00

## Replacement Winch Line

Blue. For all 9,500-lb. winches, 3/8" diameter.

2007–2018, Jeep® Wrangler JK.  
P/N 510RR211 \$457.00

## Winch Mounting Kit

For Premium, MOAB, Winter, Backcountry and Call of Duty Bumpers.

1997–2015, Jeep® Wrangler JK.  
P/N 82213164 \$403.00

## Winch Mounting Plate

Winch Mounting Plate for the Rubicon® Steel Bumpers. Use Fairlead Adapter (P/N 82214851) for off-set winches (Warn 9.5 or M8000) or (P/N 82214787) for centered winches (Rubicon®). Some bumper modification required on bumpers built before June 2015.

2013–2018, Jeep® Wrangler JK.  
P/N 82214786AB \$347.00

## Fairlead Mounting Plate

Rubicon® Winch (Centered).

2007–2018, Jeep® Wrangler JK.  
P/N 82214787 \$41.05

## Fairlead Mounting Plate

All non-centered winches.

2007–2018, Jeep® Wrangler JK.  
P/N 82214851 \$41.05

## Polished Aluminum Fairlead

Compatible with synthetic winch rope and is a service part component for Fairlead Mounting Plate (P/N 82214851).

1987–2018, Jeep® Wrangler YJ/TJ/JK.  
P/N 123RR801 \$78.70

# Tow Hooks

Rated with a capacity up to 5,500 pounds or 1.5 times the vehicle's Gross Vehicle Weight Rating (GVWR), depending on vehicle. Tow Hooks securely mount to the frame and are fully tested for durability and capacity.

## Grand Cherokee Tow Hooks

Front Tow Hooks. Black, set of 2.  
2005–2010, Jeep® Grand Cherokee.  
P/N 82208987 \$143.00

Front Tow Hooks. Set of 2, same as production.  
2011–2018, Jeep® Grand Cherokee.  
P/N 82212095 \$235.00

Rear Single Tow Hook. For use on vehicles  
without hitch receiver.  
2005–2010, Jeep® Grand Cherokee.  
P/N 82208711AB \$89.00

## Wrangler JK Tow Hooks

Front Tow Hooks. Black, set of 2. A template is provided for  
trimming the plastic bumper.

2007–2018, Jeep® Wrangler JK.  
P/N 82210256 \$142.00

P/N 82210256

# Skid Plates

Skid Plates provide extra protection to vital vehicle components when traveling off-road.

## Front Bumper Skid Plate

Skid Plate designed to fit under the front bumper. Same as production Rubicon® Skid Plate. For use with the production steel front bumper only.

2018, Jeep® Wrangler JL.  
P/N 82215183 \$245.00

## Front Bumper Skid Plate

Steering Linkage and Electronic Anti-Sway Bar Disconnect Skid Plate, under bumper. Same as production 10th Anniversary and Rubicon® X. For use on 10th Anniversary and Rubicon® X bumpers.

2007–2018, Jeep® Wrangler JK.  
P/N 82214330 \$215.00

## Evaporative Fuel Canister Skid Plate

2007–2018, Jeep® Wrangler JK.  
P/N 800RR340 \$145.00

## Front Suspension Skid Plate

Steel.  
2005–2010, Jeep® Grand Cherokee.  
P/N 82208713 \$67.00

# Off-Road Lights & Installation Kits

When you're traveling off the beaten path at night, it's important to have a clear picture of what lies ahead. For excellent illumination, choose these easy-to-mount lights.

## LED Lights\*

See the world like new with our advanced, LED-technology Off-Road Lights Kit. By emitting an extraordinary actual output lumen count of 4,800 for each 5" Light and 8,000 lumens for each 7" Light in actual output (versus the industry raw count), these lights provide superior performance without black spots and provide more visibility for a more secure off-road driving experience. Made with an extremely durable, commercial-grade aluminum body, this kit has been brutally tested in the field through vigorous shake and water pressure testing (validated to be water submersible to one meter). Each kit contains 2 LED lights, covers and wiring harness. The wiring harness includes pigtail with ground eyelet and blunt-cut circuit for power connection. These kits pair well with our Auxiliary Switch Bank Kits on page 35. Off-road lights must remain turned off, or covered, on public roadways.

5" Off-Road LED Light Kit

# Rock Rails & Tube Steps

Jeep® Performance Parts Rock Rails and Tube Steps are constructed of heavy-gauge steel tubing to take on the toughest trails. These meet FCA US LLC production standards for corrosion resistance, while being fully functional and providing rocker panel and lower body-side protection.

## Jeep® Performance Parts Rock Rails

These are designed to meet the demands of the off-roader and provide added vehicle body protection. They are fabricated using zinc-coated steel for superior corrosion resistance and roll-formed. The outer surface is e-coated and then Durabull® coated (truck bedliner coating) providing superior protection and durability.

2018, 2-Door Jeep® Wrangler JL.  
P/N 82215129AB \$825.00

2018, 4-Door Jeep® Wrangler JL.  
P/N 82215165AB \$925.00

## Rubicon® Rock Rails

These are made of black, powder-coated steel and are the same as production Rubicon® Rock Rails.

2018, 2-Door Jeep® Wrangler JL.  
P/N 82215128 \$345.00

2018, 4-Door Jeep® Wrangler JL.  
P/N 82215126 \$370.00

P/N 82215764

An aerial, long-exposure photograph of a multi-lane highway interchange in a city. The highway curves through the frame, with light trails from vehicles. In the background, a dense city skyline with various skyscrapers is visible under a hazy sky. The overall image is in grayscale, with a dark overlay.

# ENGINE COMPONENTS

For something so fierce, your Jeep® brand vehicle has a big heart. Amplify your engine's performance with rigorously tested, factory-engineered intake and exhaust systems that increase horsepower and torque — because turning back was never an option.

# Performance Intake Systems

These bolt-on systems are designed to allow cooler outside air to flow through a directional filter, directly into the intake manifold. They provide noticeable horsepower and torque gains under varying atmospheric conditions. Kits include all mounting hardware and a washable/reusable filter. Do not oil Dry Media filters.

P/N 77072433

## Wrangler JL Cold Air Intake Systems

Cold Air Intake featuring Jeep® brand logo and reusable black and silver drop-in filter. Draws fresh air from outside vehicle from hood cut-out to increase engine performance. Includes bezel to finish cut-out.

2018, Jeep® Wrangler JL equipped 3.6L engine only.  
P/N 77072433 \$445.00

## Additional Jeep® Brand Vehicles Cold Air Intake Systems

2012–2018, Jeep® Wrangler JK equipped with 3.6L engine.

P/N '68303088AA

Visit [cratehemi.com](http://cratehemi.com) to learn about these legendary engines — including the new 426 HEMI® Engine — and the simple step-by-step process of installing a Crate HEMI® Engine into your Jeep® brand vehicle.

#CrateHEMI

# Oil Pumps

These heavy-duty, high-output oil pump assemblies provide up to a 25% increase in oil volume. This is the ideal replacement for stock pump in high-performance applications.

P/N P4529228AD

## Heavy-Duty Oil Pumps

All 4.0L Jeep® Brand Engines.  
P/N P4529227 \$83.00

All 4.2L Jeep® Brand Engines.  
P/N P4529241 \$99.00

# Gaskets

## Gasket Kit

Includes Oil Pan, Cylinder Head, Valve Cover, Timing Chain Case Cover, Intake Manifold, Oil Pump Gaskets.

1987–1998, All 4.0L Jeep® Brand Engines.  
P/N P4529245 \$63.00

## Intake/Exhaust Manifold

Jeep® brand six-cylinder engines use a common intake/exhaust manifold gasket design. This gasket is designed for direct replacement.

All six-cylinder, 4.0L Jeep® Brand Engines.  
P/N P4529243 \$14.60

## Cylinder Heads, Gasket

Bore: 3.875", Thickness: .043", Composite Material. Sold individually.  
All 4.0L Jeep® Brand Engines.  
P/N P4529242 \$83.00

# Camshafts, Lifters & Hardware

## Hydraulic Camshaft

.430/.430 Lift.  
Up to '98 models, All 4.0L Jeep® Brand Engines.  
P/N P4529228AD \$236.00

## Hydraulic Tappet

Sold individually.  
All 2.5L/4.0L Jeep® Brand Engines.  
P/N P4529220AB \$17.90

# Roller Chain & Sprockets

High-strength double roller chain and sprocket sets provide added durability and decreased rotational friction compared to production silent chains. Sets include Magnafluxed sprockets and roller timing chain.

Double, 1-Bolt Mount, One Keyway.  
Up to '98 models, All 2.5L and 4.0L Jeep® Brand Engines.  
P/N P5249519 \$165.00

# Valves & Valvetrain Hardware

## Valve Keepers

Single-groove style valve keepers are made from hardened steel. Each features an eight-degree angle and an 8mm stem diameter. Sold in cylinder head sets of 16 (note that two sets are required for all six-cylinder and V8 engines).

Note: Does not fit P/N P5153847 head.

2.5L/4.0L/5.2L/5.9L Truck Magnum/Jeep® Brand Engines.  
P/N P4529218 \$15.15

## Valve Seals

8mm Stem.  
All 4.0L Jeep® Brand Engines.  
P/N P4529240 \$20.45

## Retainer, Valve Springs

Steel; use with Conical Springs (P/N P4529215).

All 2.5L/4.0L Jeep® Brand Engines.  
P/N P4529217 \$9.10

## Valve Springs For 2.5L/4.0L Jeep® Brand Engines

Cylindrical.  
1981–1987, 2.5L/4.0L Jeep® Brand Engines.

\$39.00

P/N 82215524

P/N 82215390

## Sun Bonnet Soft Top

Sun Bonnet Soft Top is black mesh. Installed when hard top or soft top is not installed. Provides shade for front-seat passengers.

2018, 2-Door Jeep® Wrangler JL.

P/N 82215389

\$150.00

2018, 4-Door Jeep® Wrangler JL.

P/N 82215390

\$150.00

## All-Weather Mats

All-Weather Mats are the high-wall, bucket style to provide maximum coverage and protect your floor from wetness, snow, mud, dirt and grime. This four-mat set comes in black and features a terrain-style design and red Jeep® brand logo on the front mats. The front mats are designed to fit the vehicle floor drain holes to allow for draining without removing the mat. Each mat features nibbed backing and grommets for retention posts (two for each front mat and one for each rear mat) to keep them in place. The mats pass all FCA US LLC production tests for cleanability, extreme temperatures, weathering, strength and soiling.

2018, 2-Door Jeep® Wrangler JL.

P/N 82215202AD

\$150.00

2018, 4-Door Jeep® Wrangler JL.

P/N 82215203AD

\$150.00

# Youth

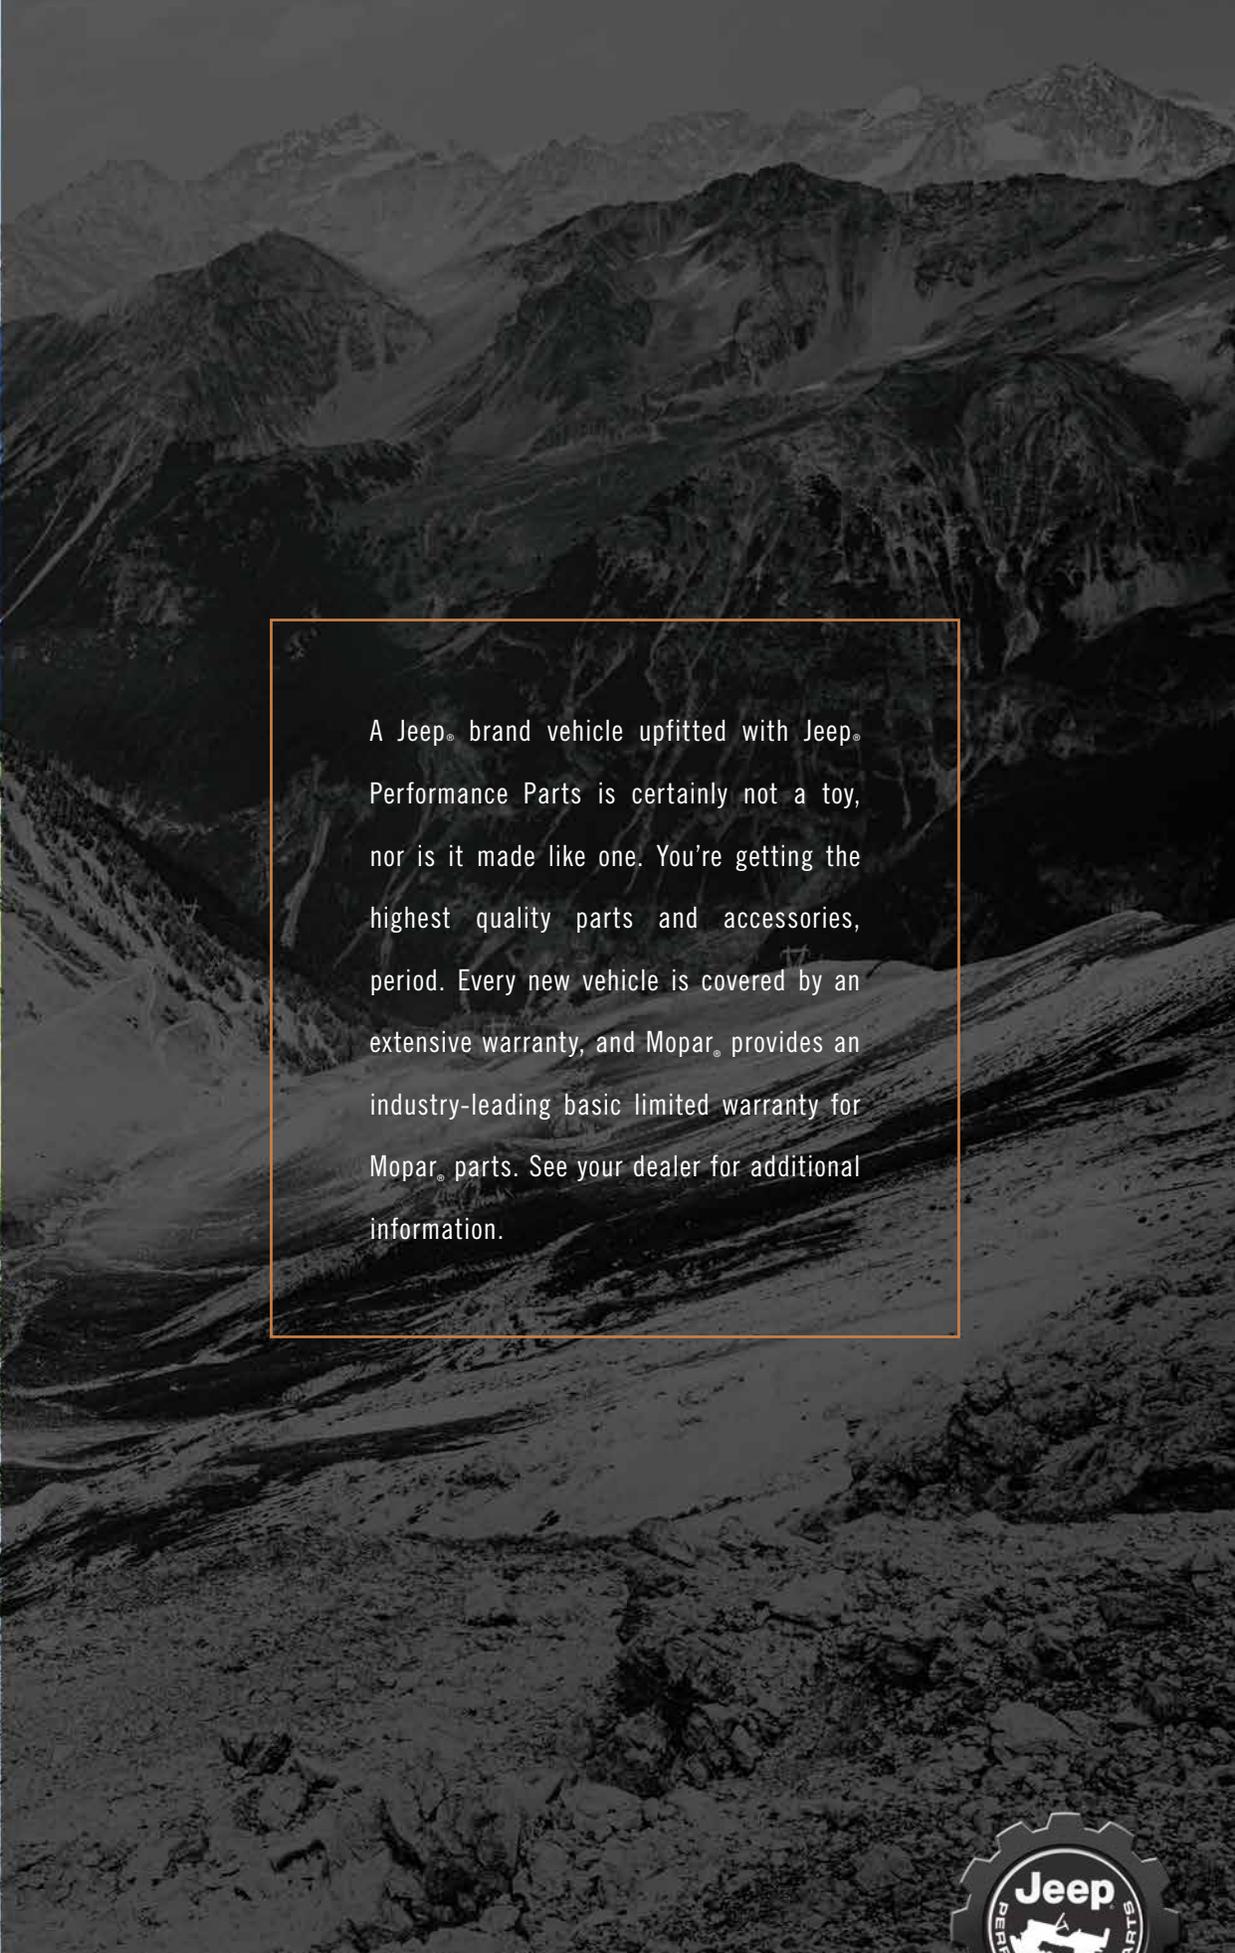

No matter what your age, show off your Jeep® Gear in style.

Order official Jeep® Gear at [gear.jeep.com](http://gear.jeep.com)

An aerial photograph of a rugged, mountainous landscape. The terrain is dark and textured, with a winding road or path visible. A river or stream flows through the valley, creating a meandering path. The overall tone is dark and moody, with a slight orange tint on the left side of the image.

# LIMITED WARRANTIES

A Jeep® brand vehicle upfitted with Jeep® Performance Parts is certainly not a toy, nor is it made like one. You're getting the highest quality parts and accessories, period. Every new vehicle is covered by an extensive warranty, and Mopar® provides an industry-leading basic limited warranty for Mopar® parts. See your dealer for additional information.

# Limited Warranties & Regulatory Statements

## Mopar® Basic Limited Warranty

Except as noted below, Mopar® Parts and Magneti Marelli Offered by Mopar parts installed by an authorized FCA US LLC dealership, including Chrysler, Dodge, Jeep®, Ram, FIAT® and Alfa Romeo locations are warranted against defects in workmanship or materials for 24 months/unlimited miles for both parts and labor. Mopar Parts sold wholesale to an automotive service facility and installed by a professional technician are warranted against defects in workmanship or materials for 24 months/unlimited miles for parts and up to \$150.00 in labor. Mopar Parts and Magneti Marelli Offered by Mopar parts sold over-the-counter for vehicle owner or do-it-yourself installation are warranted against defects in workmanship or materials for 24 months/unlimited miles for parts exchange only.

Mopar Parts and Magneti Marelli Offered by Mopar parts replaced on an FCA US LLC vehicle still covered by the FCA US LLC New Vehicle Basic Limited Warranty are warranted for the remainder of the 3-Year/36,000-Mile New Vehicle Basic Limited Warranty, or for the Mopar 24-Month Basic Limited Warranty from the original installation date, whichever is more favorable to the customer.

The Mopar Basic Limited Warranty covers the cost of towing a vehicle to the nearest authorized FCA US LLC dealership if the failure of a covered part causes the vehicle to be inoperative. If a Mopar part or a Magneti Marelli Offered by Mopar part is installed in an FCA US LLC vehicle by an authorized FCA US LLC dealer, and if, while that part is still under warranty, it causes other parts to be damaged or to fail, those other parts will be repaired or replaced under warranty, regardless of whether the other parts were covered by an FCA US LLC warranty at the time of failure. These warranties are the only express warranties made by FCA US LLC for Mopar Parts and Accessories and Magneti Marelli Offered by Mopar parts. Except where prohibited by law, this warranty is the sole and exclusive remedy. No person, including a dealer or employee of FCA US LLC or its affiliated corporations, has the authority to vary or change these warranties.

Mopar Parts and Magneti Marelli Offered by Mopar parts sold with a separate manufacturer's warranty are not eligible for the Mopar warranty. Warranty information on these parts is provided with the part or in its packaging. Examples include: Garmin navigation, TomTom navigation, Katzkin leather, Koss headphones, truck bedliners, paint sealant and fabric protection.

## Exceptions

The following Mopar products have time and mileage limitations or warranty coverage that differs from the general coverage described above: Mopar Batteries, Magneti Marelli Offered by Mopar Batteries, Mopar Collision Parts, Mopar Windshield Made with Corning Gorilla Glass, Mopar Catalytic Converters, Mopar Gaskets and Seals, Magneti Marelli Offered by Mopar Catalytic Converters, Mopar Powertrain, Mopar Remanufactured Powertrain, Mopar HEMI®, Crate Engine Kit, Mopar Performance Parts, Mopar Lifetime Limited Warranty on Value Line Brake Pads/Shoes, Value Line Shocks/Struts and Value Line Mufflers and Magneti Marelli Offered by Mopar Brake Pads/Shoes and Shocks/Struts.

# Jeep® Performance Parts Limited Warranty & Regulatory Statements

## Notice

Federal and many state laws prohibit the removal, modification or rendering inoperative of any part or element of design affecting emissions or safety on motor vehicles used for transporting persons or property on a public street or highway. Violation may result in a fine imposed for each vehicle impacted. Many performance parts listed in this catalog cannot be used on vehicles used on public streets or highways. These parts may be used only on vehicles used solely in sanctioned off-highway events. No other applications for these parts are intended or implied. Those parts that have been granted an exemption by the California Air Resources Board (CARB) or meet the EPA requirements of memorandum 1A are legal for highway use in California, New York and Massachusetts and are noted as such.

## No Parts Warranty — “As Is”

Mopar® Performance Parts with part numbers beginning with “P” are sold “as-is” without warranty coverage of any kind by Mopar unless otherwise noted.

Mopar Performance Gen II crate engine assemblies are warranted for “parts only” “as delivered” against defects in materials or workmanship for 90 days from the date of purchase. The following covered components for Mopar Performance engine assemblies, which prove to be defective in materials or workmanship, will be replaced on an exchange basis for 90 days: cylinder blocks and all internal parts; cylinder head assemblies; intake manifold; core plugs; valve covers; oil pan; timing gear and/or chain and cover; water pump; gaskets and seals.

Other parts listed with a “PW” prefix part number are covered under a 12-Month Limited Warranty. “PW” prefix parts installed by an authorized dealer are warranted against normal defects in material and workmanship for 12 months/unlimited miles from the date of purchase for both parts and labor. “PW” prefix parts NOT installed by an authorized dealer are warranted against normal defects in material and workmanship for 12 months/unlimited miles from the date of purchase for parts (exchange) only. The warranty does not cover labor charges or applicable taxes. **CUSTOMER MUST KEEP ORIGINAL RECEIPT.**

The limited warranty period starts on the day the part is sold, as reported on the sales receipt, to the consumer. The limited warranty is not transferable. When the vehicle is sold or otherwise disposed of (i.e., the vehicle is no longer titled in consumer’s name), the limited warranty ends. **CUSTOMER MUST KEEP ORIGINAL RECEIPT.**

Implied warranties, such as warranties of merchantability, are excluded. (An implied warranty of merchantability means that the part is reasonably fit for the general purpose for which it was sold.) The entire risk as to quality and performance of such parts is with the buyer. Should such parts prove defective following their purchase, the buyer and not the manufacturer, distributor or retailer, assumes the entire cost of all necessary servicing or repair. Chrysler, Dodge, Jeep® and Ram vehicle and parts warranties are voided if the vehicle or parts are used for competition. The addition of performance parts does not by itself void a vehicle’s warranty. However, added performance parts (parts not originally supplied on the vehicle from the factory) are not covered by the vehicle’s warranty, and any failure that they may cause is not covered by the vehicle’s warranty.

Mopar Limited Warranties do not cover any incidental or consequential damages connected with the failure of the part under warranty. Such damages include lost time, inconvenience, the loss of the use of your vehicle, the cost of rental cars, gasoline, telephone, travel or lodging; the loss of personal or commercial property; or the loss of revenue. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

Your warranties can also be restricted by FCA US LLC, as set forth in the New Vehicle Limited Warranty. If your New Vehicle Limited Warranty is restricted by FCA US LLC, coverage under your Mopar Parts and Accessories Limited Warranties may also be restricted or denied.

## Emissions Statement

Mopar Performance customers are responsible for complying with applicable federal state and local environmental laws and regulations. Many Mopar Performance Parts and components are designed to be equipped in vehicles that are operated not on streets or highways (such as vehicles intended for competition or off-road use). Motor vehicles designed for transport on streets or highways and equipped with such parts may cause such motor vehicles to be out of compliance with applicable emissions standards. It may be a violation of federal and state law to operate such motor vehicles equipped with such parts, except where vehicles equipped with such parts are operated not on streets or highways and where such vehicles lack features customarily associated with safe and practical highway use.

If you install such parts on a motor vehicle, and your motor vehicle fails a required state or local inspection and maintenance (I/M) emissions test, including any test required to maintain or renew your motor vehicle’s registration, or if your motor vehicle is subject to an emissions recall, in either case, FCA US LLC may not be required to repair your motor vehicle under the emissions warranty, and you may be required to remove those parts and replace them with other parts at your own expense in order to obtain repairs necessary to pass the I/M emissions test or to ensure your motor vehicle is compliant with applicable emissions standards after the recall repair.

### **NOTE TO DEALER:**

#### **MOPAR WARRANTY REGISTRATION AND REPLACEMENT PROCEDURES**

The Dealer must notify FCA US LLC whenever you install Accessory Upgrades.

Transmit the Option Update via DealerCONNECT Service Tab > Vehicle Option Update.

### **NOTE TO INTERNATIONAL DEALERS AND DISTRIBUTORS:**

The accessories in this catalog were designed, engineered and approved for use in the United States and may not comply fully with regulations in your country. Before ordering these accessories, please confirm that they meet all local regulations. Special discounts, display items, promotional offers and supplier ship direct (SSD) shipments apply only to the United States.

\*Jeep® Performance Parts Lift Kits and Off-Road Lights are aftermarket only and may not be installed by a Chrysler, Dodge, Jeep® or Ram dealer on any vehicle prior to its first retail sale, and may not be sold or financed in conjunction with the sale of a new vehicle. FCA US LLC does not authorize the installation of these parts on any vehicle prior to its first retail sale.

To see the full line of Jeep® Performance Parts, visit [mopar.com/jpp](http://mopar.com/jpp)
