New Product Showcase

1970-74 E-Body Windshield Moldings

Reproduction windshield molding set for 1970-74 E-Body models. This official Mopar Authentic Restoration Product features the correct stainless finish and contours for an original appearance and fit.

ME175931 1970-74 5 piece set 269.99 set

1964-71 Chrysler HEMI Edelbrock Dual-Quad Manifold

These Dual-Quad HEMI intake manifolds are intended for use with Gen II (1964-71) 426-572 HEMI engines operating in the 2,500 to 6,500+ range. These new intake manifolds are a single-plane Air-Gap® design with a dual square-bore 4150 style carburetor pad. Carburetor spacing and height are the same as Mopar Performance dual-quad, making it a direct bolt-on for all vehicles with a shaker hood. They also retain the same carburetor linkage location from the factory. The Dual-Quad HEMI manifold is compatible with factory style cylinder heads.

E7524 1964-71 479.99 ea

MW923

Cast Aluminum 17" Magnum 500 Wheel

Seventeen inch cast aluminum version of the Magnum 500 road wheels originally available on Mopar models. Wheels feature black powder coating with machined edges. Accepts original style center caps (sold separately).

Important: Not compatible with factory lug nuts. Use WK94 lug nuts on these wheels.

Note: Shipped overweight.

1964 Plymouth B-Body Park Lamp Lenses

Reproduction parking lamp lenses for 1964 Plymouth B-Body models. Manufactured to factory specifications with a special UV protector to prevent fading and cracking. Mounting gaskets are included.

MB280966 1964 69.99 pr

1969-71 Holley Six Pack Carburetors

These reproduction carburetors from Holley are nearly exact duplicates of the ones that came on 1969-71 six pack engines, from the vacuum hook-ups and fuel inlets to the dichromate finish.

Note: Only center carburetors have a choke. No further discounts apply.

Get The OER® Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

Manufacturing Authentic Products for The Restoration Industry

Learn more about OER online: www.oerparts.com

Look for the OER® symbol of quality throughout this catalog.

Classic Industries® Has More To Offer!

Discounted Products

Our Everyday Low Pricing Can't Be Beat!

When you see this symbol, it denotes items that have been priced below regular catalog pricing and often, below MSRP. These discounted items, kits, and sets are priced competitively for everyday savings. Because these are pre-discounted, they are exempt from further discounts or promotional offers. Additionally, some products that do not feature this symbol, such as special order items, may also be "discount exempt".

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv To View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries' new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

MOPAR Authentic Restoration Products

Only products identified with this logo are MOPAR Authentic Restoration Products. Classic Industries® advertises a variety of products with the above MOPAR Authentic Restoration Product logo. This logo indicates that the product is manufactured to MOPAR's specifications and licensed by Chrysler Group LLC as a MOPAR Authentic Restoration Product. Such products represent a prestigious class of restoration parts that are nearly identical to the original products offered by MOPAR in the 1960's and 1970's.

MOPAR, DODGE, HEMI, and PLYMOUTH vehicles, images, and logos are trademarks of Chrysler Group LLC used under license. © Chrysler Group LLC 2012.

MOPAR Official Licensed Product

MOPAR and Chrysler Group, LLC have officially licensed select items identified with this logo. MOPAR is a symbol of quality and performance, and only the best products are fit to carry the name of the brand. When a product is identified with this logo, you can be assured that such products are premier products in the industry.

MOPAR, DODGE, HEMI, and PLYMOUTH vehicles, images, and logos are trademarks of Chrysler Group LLC used under license. © Chrysler Group LLC 2012.

Gold Key is the Symbol of Interior Quality

When you see this symbol of quality, you know you're getting the best the market has to offer. This symbol will denote specialty interior products which are outstanding in fit, craftsmanship and manufacturing techniques. These products have been stringently tested over the course of years and fall into the Gold Key category.

Classic Industries® The Restorers Choice™

Count on the Classic Industries® Restorers Choice symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

Diamond Fleece™

- ★ Indoor/Outdoor Use
- ★ Triple Layer Material

Diamond Fleece fabric

Designed for indoor and occasional outdoor use, the Diamond Fleece™ is manufactured using 3 layer material which helps prevent dust and dirt penetration and damage from the sun's UV rays. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Non-scratch grommets are installed on each cover to allow the use of your tie-strap or lock.

- ★ Outdoor Use
- ★ Four Layers of Protection

OER AUTHORIZED

Our exclusive soft cotton lining provides added protection against dings and scratches.

Designed for outdoor use, the Weather Blocker™ cover is manufactured using a durable 4 layer material that provides a high level of protection against outdoor elements. The fourth layer is a soft cotton backing that further protects against scratches and dings. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. Specify blue, gray or tan.

Technalon delivers the best combination of water-resistant and breathable performance.

Gold Gray

Technalon Premium Car Covers

A high-tech 4-layer fabric, Technalon is lightweight, remains pliable in all weather conditions and resists rot, odors, and mildew. The outside and inside layers are made of long fibers which make the fabric strong, but very soft and non-abrasive. The middle layer is made of shorter fibers that catch water but allow the air to circulate. Specially developed for harsh outside weather conditions and will not freeze even in the coldest temperatures. Each cover is water-resistant and breathes, keeping your paint free from unwanted moisture between the paint and the car cover which could ruin your paint. Storage bag sold separately. Specify color when ordering.

DEER AUTHORIZED

Titanium and Titanium Plus car covers are designed for interior or outdoor use, they have a silver, highly reflective water repellent 100% polyester top layer that keeps your interior cool when in sunlight. Each cover is sewn

with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. With its reflective silver properties, Titanium Plus™ offers the ultimate UV protection. Non-scratch grommets are installed on each cover to allow the use of your tie-strap or lock.

Lightweight highly reflective material for added protection from harmful UV rays

Our exclusive soft cotton lining provides added protection against dings and scratches.

Gust Guard™ Cover Clamps **New!**

The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! If you need to leave your vehicle covered for extended periods of time (car show, outdoor storage) in locations where wind gust could be a problem, this kit is the answer. Includes 4 adjustable hem clamps, 2 "Quick Grip" friction locks and 2 - 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

CV7001 11.99 set

OEM Quality Molded Carpet

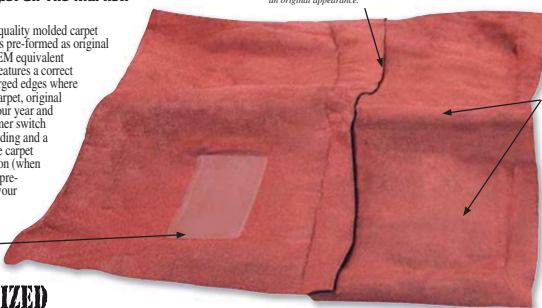

Treat Your Classic Plymouth or Dodge To The Highest Quality Molded Carpet On The Market!

Manufactured using OEM equivalent materials including color-matched edge binding offering an original appearance.

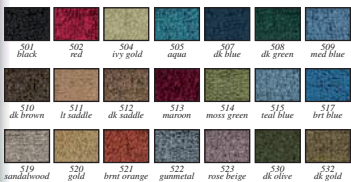

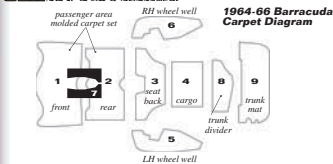

Absolutely the highest quality molded carpet available! All carpet is pre-formed as original and manufactured using OEM equivalent materials. Each carpet set features a correct heel pad, color-matched surged edges where front carpet overlaps rear carpet, original blend carpet material for your year and model, and includes a dimmer switch grommet. Features jute padding and a pre-cut grommet hole in the carpet for easy grommet installation (when applicable). Heat stamped, pre-formed and trimmed to fit your floor pan perfectly. Made in USA.

The heel pad is manufactured exactly as original. Each set features the correct configuration for each model year in the correct matching color.

Truly the finest form-fitted carpet available. Each set is molded to original floor pan specifications.

Quiet Ride Firewall & Seat Shelf Insulators

Your firewall insulation is the first line of defense against engine noise and heat; don't rely on lightweight OE insulation to keep your car comfortable and quiet. Quiet Ride Firewall & Seat Shelf Insulators are molded from thick, premium quality rubber, then fitted with additional sound and thermal insulation for unequalled noise and heat neutralizing. Insulators are year, make and model-specific so each insulator is sure to fit like a glove.

Insulation

Turn Your Car into a "Quiet Ride Comfort Zone"

This two-stage automotive insulation and sound damping system gives older cars the "quiet ride comfort" found in today's new cars. AcoustiShield sets are designed with current "state-of-the-art" automotive acoustic technology to control noise, vibration and heat in the passenger cabin. Sets include pre-sized Dynamat® damper pads, pre-trimmed heat shield/barrier panels, spray adhesive, sealing tape and fully illustrated instructions for a painless two-hour installation.

Note: Shipped ground only.

Interior Insulation

HushMat

- #1 Rated Automotive Thermal & Sound Insulator
- Reduces Firewall/Tunnel Heat by Over 40%
- Blocks Exhaust Drone From Entering Interior
- Hushmat Ultra Bonds To Every Surface

- Creates A 10 Db Barrier To Road & Engine Noise
- Performs In Temperatures Up To 550° F
- One Step Peel and Stick Application
- Flexible In All Climates — Molds &Contours Easily

HushMat Ultra Insulation

Starter Set

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250 silver..... 34.99 set
HM251 black..... 34.99 set

Door Set

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

HM200 silver..... 99.99 set
HM201 black..... 99.99 set

Trunk Set

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300 silver..... 144.99 set
HM301 black..... 144.99 set

HushMat Sound Absorbing Foam

1/8" Foam

Includes two 23" x 36" sheets of 1/8" Hushmat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8"..... 119.99 set

1/4" Foam

Includes two 23" x 36" sheets of 1/4" Hushmat Silencer Megabond foam. Apply directly on backs of door panels, headliners or under package trays.

HMF02 1/4"..... 171.99 set

1/2" Foam

Includes four 12" x 23" sheets of 1/2" Hushmat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2"..... 154.99 set

- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible, and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up To 300° F
- Aggressive Adhesion
- One Step Peel And Stick Application

Under Carpet Heat Shield & Sound Deadener

Made from fire resistant and sound absorbent fibers, then covered with heat reflective foil, these add a great deal of comfort to your car's interior. Each sound deadener sheet is 4' x 6' and can easily be cut to fit with household scissors.

CMD1003 4' x 6'..... 29.99 ea

Cool It Mat

The Cool-It Mat™ is composed of resin-bonded silica blanketing insulation sandwiched between a mylar facing on one side and a foil facing on the other. The highly-reflective mylar deflects heat away from surfaces, while the foil side faces away from the heat source to conduct any penetrating heat across its surface, thus providing the ultimate in heat protection. The silica blanketing is a dual-density composite and is the main sound insulator. It is easy to trim and can be applied with the provided push-in fasteners or with Thermo-Tec's Heavy-Duty Spray Adhesive.

Insulating Mat
TT1005 24" x 48"..... 31.99 ea
TT1006 48" x 48"..... 64.99 ea
Spray Adhesive
TT12005..... 16.99 ea

Thermo-Guard FR

This lightweight, durable shield does everything. It reduces sound, absorbs vibration, protects from radiant TT1005 heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high-tech foil heat barrier that blocks more than 90% of radiant heat. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

One-Side Foil
TT1055 24" x 48"..... 19.99 ea

- Soft, Plyable Foam Tape
- For Securing Wires & Cables
- Plus Hundreds of Other Uses
- One Step Peel & Stick Application

Multi-Purpose Quiet Tape

HushMat Quiet Tape is designed to prevent nuisance rattles by securing loose wires and cables. Strong adhesive adheres to virtually any surface!

QT01 1" x 20' roll..... 29.99 set

Custom Cut Insulation Kits

Each kit has been designed specifically for the vehicle application and contains CNC

precision cut sections of self-adhesive Dynamat material in the proper shapes, dimensions, and amounts to fit your vehicle exactly. Custom cut kits feature Dynamat Xtreme material with patented elastomeric VECTOR Chemistry from great sound deadening. With a .060" butyl layer and a .004" thick aluminum face.

Dynamat Xtreme Bulk Pack

Our new unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Xtreme Bulk Pack can be also used for trunk lids, roof, quarter panels and under the hood. Xtreme Pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. DynaTape is 1-1/2" x 30'. Made in USA.

Heavy Foam Backing As Original

Using quality materials is essential when restoring an interior. Although many manufacturers neglect this area, we insist on offering OEM-quality upholstery which features correct high density foam backing stitched into place as original. Once installed, you'll feel the difference!

USA
MADE IN AMERICA

Made in USA

Correct Grains and Colors

Each style and color is specifically produced to match the original upholstery in weight and grain. You'll get the factory-fresh appearance you want while maintaining the authenticity of your interior.

1971 Charger, GTX, Road Runner, Satellite, Super Bee Upholstery

El Paso grain inserts and Coachman grain outers for a factory look and feel. Fits 1971 Charger 500, Charger R/T, Super Bee, Satellite Sebring Plus, Road Runner & GTX. Made in USA.

A INTERIOR COMPONENTS

Bench Seat Upholstery

— DODGE & PLYMOUTH A-BODY • 1973-76 —

Heavy Foam Backing As Original

Quality is essential when replacing an interior. Although neglected by many manufacturers, our OEM quality upholstery features correct high density foam backing stitched into place exactly as original. Once it's installed, you'll feel the difference!

The Details Matter

Manufactured for correctness in every detail, right down to the stitching!

Correct Manufacturing Techniques

Our upholstery is professionally produced using exact factory specifications. Correct manufacturing techniques allow for a factory-quality appearance and easier installation.

Procar Rave Reclining Bucket Seats

ProCar RAVE seats provide high-tech styling with generous lateral support and the convenience of a recliner; perfect for the street enthusiast and occasional weekend warrior who is concerned with performance but still wants to drive comfortably when not on the track. These Performance Seats have openings to accommodate 5-point racing harnesses, an integrated recliner mechanism, large bolsters, and a fixed headrest. With ProCar seat mounting adaptors (sold separately), these seats are ready for direct bolt-in installation. The TIG-welded, all-steel frame is electrostatically coated for maximum strength and durability. Features include Procar's exclusive one-touch backrest recline/release. Seat sliders are included.

Note: Shipped double oversize.

1970-72 E-Body Bucket Seat Foam

1970-72 E-Body bucket seat foam came in four styles. Each bucket seat foam set includes one pair of seat bottoms, one pair of seat backs, and one pair of headrest cups. Choose the style of seat foam that matches your style of seat upholstery.

Important: During the years 1970-71 E-Body seat foam varied in shape according to the seat style and type of seat cover material being used. It is important that you order the seat foam that is correct for your specific seat style as the foam will not interchange.

Note: Single seat foam is shipped oversize. Pair of seat foam is shipped double oversize.

1970-71 E-Body Bucket Seat Foam, Style 1

Style 1 can be identified by the seat material, its shallow bolster and the vertical or horizontal pleats on the seat cover. Fits 1970-71 'Cuda (leather style), 1970-71 Barracuda Gran Coupe (leather style) and 1970 Challenger (vinyl style).

SF154	1970-71	per seat.....	129.99 ea
MD2011	1970-71	pair.....	233.99 pr

1971 E-Body Bucket Seat Foam, Style 2

Style 2 can be identified by the single vertical pleat that runs the entire length of the seat cover from top to bottom and a single horizontal pleat that forms a cross shape on the seat top. Fits 1971 Barracuda (standard style vinyl), 1971 'Cuda (standard style vinyl) and 1971 Challenger (standard style vinyl).

15123	1971	per seat.....	129.99 ea
MD2012	1971	pair.....	233.99 pr

1970-71 E-Body Bucket Seat Foam, Style 3

Style 3 can be identified by the seat material and by the pronounced bolster and inserts. This style fits 1970 'Cuda (vinyl), 1970 Barracuda Gran Coupe (vinyl or cloth) and 1971 Challenger (cloth).

SF153	1970-71	per seat.....	129.99 ea
MD2010	1970-71	pair.....	233.99 pr

1970-71 E-Body Bucket Seat Foam, Style 4

Style 4 can be identified by the seat material and by the horizontal lumbar bolster that runs across lower portion of seat back. This style fits 1971 'Cuda (deluxe vinyl style), 1970 Challenger (cloth style), 1970-71 Challenger (leather style), 1971 Challenger (deluxe vinyl style).

1970-74 E-Body Bucket Seat Latch Kit

Reproduction bucket seat latch kit for 1970-74 E-Body models. Includes latch, catch, and spacer. Must re-use original hardware. MP17101 1970-74 LH..... 69.99 kit
MP17102 1970-74 RH..... 69.99 kit

1968-70 A & B-Body Headrest Gaskets

If you are dyeing or refurbishing your original headrests, complete the job with a new set of gaskets for an authentic original appearance. The gaskets install on the bottom side of the headrest where the post inserts into the headrest pad. They are designed to cover the unsightly hole in between the two posts for a pleasant factory fresh appearance. For 1968-70 A-Body models as well as 1968-70 B-Body models. MD2046 1968-70..... 19.99 pr

1968-70 A & B-Body Headrest Chrome Bands

Repair your 1968-70 molded headrests with a new set of chrome bands. If your headrests are in good shape other than the chrome band, this is an economical alternative to replacing the entire headrest. Each kit comes with enough material to do two headrests. For 1968-70 A-Body models as well as 1968-70 B-Body cars. MD2021 1968-70..... 49.99 pr

New!

Cosmetically correct from the mounting posts to the material grain.

Features correct chrome molding that wraps around the headrest.

1968-70 Molded Headrests

Missing or deteriorated headrests no longer have to be a headache. Replace your damaged or missing originals with a quality set from Classic Industries™. These correct replacement headrests will fit 1968-70 A-Body models including Barrauda, Dart and Valiant as well as 1968-70 B-Body models including Belvedere, Coronet, GTX, Road Runner, Satellite and Super Bee. Each set of headrests features the posts and correct molding. Available for bench or bucket seats. MD2015 1968-70 bench seats..... 294.99 set
MD2019 1968-70 bucket seats..... 324.99 set

1968-70 Headrest Rebuild Kit with Bezels

This comprehensive kit will repair inoperable headrests in 1968-70 A-Body models as well as 1968-70 B-Body models. Each kit includes everything required to get both of your headrests operating smoothly. Can also be used to install headrests in a car not originally equipped with headrests. Whether your car was equipped with bucket seats or bench seats, we have a kit for your seat configuration. MD2047 1968-70 bucket seats..... 134.99 set
MD2048 1968-70 bench seats..... 134.99 set

1969-70 B-Body Headrest Bezels

Reproduction of the bench seat headrest post bezels for 1969-70 Charger and Road Runner models. Manufactured as original with a bright chrome finish. Includes attaching screws. 2 required per headrest. Sold individually. 2942847 1969-70 bench seat..... 9.99 ea

New!

1968-70 Bench Seat Release Knob & Bezel

OER® reproduction bench seat back release knob and bezel for 1968-70 Dodge and Plymouth A.B. & E-Body models. Manufactured from die-cast zinc with a chrome finish as original. Sold individually, two required per seat. Knob includes installation screw. MD475013 1968-70 knob..... 19.99 ea
MD475006 1968-70 bezel..... 31.99 ea

1969 Coronet/Super Bee Seat Medallions

Die cast reproduction seat medallions for 1969 Coronet and Super Bee models with bucket seats. Features correct glossy black fill as original. Product of Canada. MD15102 1969..... 54.99 pr

1970-74 Injection Molded Bucket Seat Backs

Reproduction seat back panels for 1970-72 A-Body, 1970-71 B-Body, and 1970-74 E-Body models. Manufactured in injection molded ABS plastic with the correct Coachman grain to duplicate the originals precisely. Two styles are offered to fit the high back bucket seats in A-Body, B-Body and E-Body vehicles. There was a mid-year change in seat backs during the 1971 model year which resulted in there being an "early style" and "late style" seat back. The "early style" seat backs have a square look and shorter hinge extensions and are for 1970-71 models built through 12/01/70. The "late style" seat backs are more pointed at the top, have longer hinge extensions and are for vehicles built from 12/02/70. Sold as a pair.

Important: A design change during the 1971 model year resulted in different seat designs. Please order according to date of manufacture.
Note: Please add three digit color code when ordering.

1970-71 A, B, & E-Body

Note: Early "square-look" design for 1970-71 vehicles built up to 12/01/1970.

1970-74 Vacuum Formed Bucket Seat Backs

These seat backs are vacuum formed in ABS plastic with a Coachman grain just like the originals and are offered in twelve original colors. Two styles are offered to fit the high back bucket seats in A-Body, B-Body and E-Body vehicles. There was a mid-year change in seat backs during the 1971 model year which resulted in there being an "early style" and "late style" seat back. The "early style" seat backs have a square look and shorter hinge extensions and are for 1970-71 models built through 12/01/70. 1968-69 Bucket Seat Back Boards

Reproduction seat back boards for 1968-69 A and B-body models equipped with bucket seats. Each pair is die-cut from durable fiberboard. The upper board installs beneath the foam cap on the upper portion of the seat back and then the seat cover fits over it. The lower board is ready to be covered in your choice of vinyl and then it installs with clips to conceal and cover the open portion of the seat back. For 1968-69 A-Body and 1968-69 B-Body vehicles. Sold as a pair. One pair required per vehicle.

Note: Must raise bottom edge rails to install lower panel.

Seat Belt Components

Universal Fit Bucket Seat Belts

The closest thing to a factory installed seat belt yet! These aftermarket seat belts are designed for an OE appearance without the high cost of OE. Unlike other seat belts which require assembly, these units are ready to bolt in and are available in 4 popular colors.

Note: Non-retractable type. Sold per seat (order 2 for both bucket seats). Not to be used in conjunction with factory shoulder harnesses. Not for use with bench seats or rear seats. Hardware and bolts for installation not included. DOT requires 3-point harness for 1973 and later models.

MB204101

1968-74 3 Point Retractable Seat Belts

Add a new level of safety to your Mopar with these high quality 3 point retractable seat belts. Complete with front lap and shoulder belts, retractors, all necessary stainless steel brackets, stainless steel hardware and installation instructions. Easily installs using factory seat belt mount holes and all brackets are designed to fit your floor pan's contours perfectly for a beautiful installation. Each seat belt is safety tested at the factory for safety and quality assurance. Fits 1968-74 A, B and E-Body vehicles.

Important: Seat belt extenders are available to allow these seat belts to be used with bench seat applications using the seat belts listed below only. The 15" extenders will add approximately 5" length to the belt. The 16" extenders will add approximately 6" in length. **Note:** Please add two digit color when ordering.

1971-74 B-Body Lower Door & Quarter Panels

Manufactured with vacuum-formed plastic, these panels are molded in your choice of black or white or can be ordered in a variety of factory dyed colors to match your upholstery. Front panels do not include armrest pads, which are sold separately. Rear quarter panels feature molded plastic armrest pad. For 1971-74 Charger, GTX, Road Runner, Satellite or Super Bee. Made in USA.

Important: The black and white panels feature molded-in color and can be installed as-is. However, additional preparation and painting may be required to eliminate tooling marks and any small scratches molded into the plastic. All other colors should require no additional preparation prior to installation. If you do not see your color listed, order the white panels and dye them to the desired color.

Note: Please add 3 digit color code when ordering.

1968-70 B-Body Kick Panels

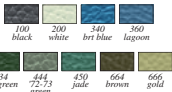

Replace damaged or missing kick panels and bring your interior back to life. Manufactured with vacuum formed plastic, these kick panels are molded in your choice of black or white. A variety of factory dyed colors are also available to match your upholstery. For colors not offered, we recommend that you order the white panels and dye them to match your interior using OER® vinyl dye sold separately. For 1966-70 B-Body vehicles including Belvedere, Charger, Coronet, GTX, Road Runner, Satellite and Super Bee. Made in USA.

Important: The black and white panels feature molded-in color and can be installed as-is. However for show quality vehicles, additional preparation and painting may be required to eliminate tooling marks and any small scratches molded into the plastic. Colors other than black or white have been prepped and dyed at the factory and should require no additional preparation prior to installation.

1962-76 Headliner Insulation

Headliner insulation is glued directly to the roof prior to headliner installation to reduce heat and improve sound deadening of the passenger compartment.

MB454

Headliner and Upholstery Tool

Great for tucking headliner or upholstery material into tedious channels without damaging the material. When replacing your upholstery or headliner be sure you have all the necessary tools. This tool helps you to evenly tuck the excess materials into the correct channels giving your finished job a clean, professional look. Easy to use around curves and near corners.

A7672 9.99 ea

Headliner Installation Glue

Replace your headliner easily with the correct glue application used to adhere the headliner to the roof panel. This is specially designed for use with early style headliners. This can contains 4 fluid ounces with a handy brush for easy application of glue. You will need this special glue if you are installing the headliner yourself. Be sure to have all the equipment you need to get professional results.

1968-74 B & E-Body Pillar Post Molding

Replacement pillar post moldings for 1968-70 B-Body and 1970-74 E-Body models. Made with vacuum formed plastic, these pillar post moldings are molded in your choice of black or white or can also be ordered in a variety of factory dyed colors to match your upholstery. B-Body moldings available only in black. Made in USA. Important: The black and white moldings feature molded-in color and can be installed as-is. However, for show quality vehicles, additional preparation and painting may be required to eliminate tooling marks and any small scratches molded into the plastic. Colors other than black or white have been prepped and dyed at the factory and should require no additional preparation prior to installation.

Note: *Please add three digit color code when ordering.

Original Style Replacement Sun Visors

A first for the Mopar industry, Legendary Auto Interiors® has gone the extra mile to produce correct looking Mopar sun visors down to the smallest detail. These sun visors feature the year-correct Crosshatch, Cologne, Coachman or Oxford grain vinyl, original shape, correct thickness, and colors more vibrant than the other replacement sun visors on the market.

Note: Please specify color when ordering.

1965-66 Crosshatch Grain (Headliners Only)

1969-72 Fine Pembrok Grain

1964-76 OE Style Headliners

These headliners feature year-correct Crosshatch or Fine Pembrok grain, heavy cotton/poly cloth backing and colors more vibrant than other headliners on the market. **Important:** Crosshatch grain vinyl is specific to 1965-66 applications and Fine Pembrok vinyl is specific to 1969-72 application. These headliners may not be cosmetically correct for other year applications. **Note:** Please add three digit color code when ordering. No further discounts apply.

Rear View Mirror w/VFD Temp & Compass

This rear view mirror features an outdoor temperature indicator and a path point compass system to add modern convenience to any classic vehicle. The vacuum fluorescent digital display matches Dakota Digital instrument systems and shows compass and temperature readings simultaneously. Night vision safety feature provides auto-dimming feature to reduce glare. VFD compass/temperature mirror uses a universal glue-on style mount. Temperature range -31° to 131°F.
 DD10601 229.99 ea

MD7124

Interior Screw Sets

Be sure to have the correct fasteners on hand when you put your interior back together with our convenient screw sets!

1963-75 Interior Screw Sets

Tempted to substitute a fastener with an incorrect head, thread or washer design because you've lost the originals and can't find the correct replacement? Spending too much time searching for and cleaning up rusty or dirty original fasteners? Don't cut corners or waste valuable time when it comes to fasteners. Purchase the set from Classic Industries® and rest assured that you have the correct fastener on hand when it's time to put your interior back together. Our handy interior screw kits contain most of the visible essential screws used for installing key items such as the brake release handle, interior mirror, pillar post moldings, coat hooks, dash panels, dome light, door frame, door seal, kick panels, light switch, quarter seals, seat latch, sill plates, sun visors, interior windshield moldings and more! Screw count and application will vary by model and year.

1960-76 Package Trays

ME120612

ME100101

1960-76 Mopar Package Trays

Replace the rear package tray in your Mopar with a brand new die-cast package tray from Classic Industries®. These replacement package trays install inside the vehicle between the top of the rear seat and the rear window. Most trays are available as standard without speaker cutouts or as a deluxe tray with cutouts for speakers. These trays are manufactured to exacting standards with the highest quality materials and workmanship to offer a replacement panel that is as close to original as possible. Please specify color when ordering. Made in USA.

1962-76 Package Tray Insulation

Reduce road noise, exhaust noise, heat and fumes in the passenger compartment by replacing or adding jute padding insulation beneath the package tray in your Mopar. Die-cut to fit your specific vehicle, these insulation pads are an inexpensive way to provide you and your passengers with a more comfortable atmosphere while driving.

1963-76 Dash Pad Covers

Conceal unsightly cracks or discolored areas of your dash pad with an ABS plastic dash pad cover as an easy and economical alternative to replacing the entire dash pad. Vacuum-molded from thick, durable ABS material, these dash pad covers will not crack when exposed to extreme hot or cold temperatures like the original vinyl-

skinned dash pads. Each dash cover will easily install right over your existing original dash without using any special tools. E-Body dash covers will cover the nameplate on the RH side of the original dash. Specify color when ordering. Made in the USA. *Note: Shipped oversize.*

E DASH & CONSOLE COMPONENTS

Instrument Cluster

1967-71 A-Body Rallye Dash Gauge Parts

1967-71 A-Body Rallye dash cluster parts from Classic Industries®. Replace original indicator lenses, dash reset knobs, and gauge lenses. Original outer lenses that are scratched, cloudy, yellowed or covered in overspray can be very difficult to see through and even more difficult to repair. Applications are available for 1967-69 Barracuda and Rallye dash equipped vehicles such as 1970 Dart Swinger 340, 1970-71 Duster 340 and 1971 Demon 340.

Note: Original lenses were accented with satin black in the chrome center. These have a chrome center, but black accent can be painted on for a more original look.

New!

1970-74 E-Body Rallye Gauge Cluster Parts

Renew the instrumentation in your 1970-74 E-Body with brand new gauge cluster components from Classic Industries®. We offer new lenses that are replacements of the original and include the correct light tubes. New housings, gauge indicator lenses and gauge reset parts are also available. Applications are available for 1970-74 Rallye gauge equipped E-Body vehicles.

Note: Identification of gauge cluster is important. On 1970-71 models, the dash reset knobs protrude through the outer bezel of the gauge. On the 1972-74 models, the reset knobs protrude directly out of the gauge face through the clear plastic lens.

MA1525

1967-71 A-Body Rallye Tachometers

Replacement tachometers that feature the authentic appearance of original Rallye tachs, but are internally updated with modern electronic technology. This allows them to work with many different types of ignition systems including breaker point ignition, electronic ignition and even MSD or Pertronix ignition systems. Applications are available for 1967-71 A-Body vehicles equipped with Rallye dash.

1962-75 Circuit Boards

Reproduction printed circuit boards for 1962-75 Mopar muscle car applications. These boards are made from flame-resistant fiberglass for strength and superior bonding with the copper traces. Nickel-plated connector pins and circuit traces prevent corrosion. Boards with voltage limiters also feature fully soldered socket connections instead of the faulty original press-on connections. Each board is fully tested for quality assurance.

1960-75 A-Body Gauge Decal Sets

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine-cut from high quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a semi-flat background finish. In fact, these are the only decals with an OE finish available on the market.

1965-74 Supplemental Gauge Face Decals and Stencils

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine-cut from high quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a correct semi-flat background finish. These are the only decals on the market with an OE finish. Use with our premium dash decal sets for complete restoration.

Note: *Installs on lens to cover over MPH markings. **Installs on speedometer, lens must have lettering removed.

1970-74 E-Body Digital 6-Gauge Instrument Panels

These panels feature 3-3/8" Speedometer and Tachometer, and 2-1/16" Oil Pressure, Water Temperature, Fuel Level and Voltmeter gauges. LED turn signal, parking brake, and high-beam indicators are included. Panels are also available without gauges to customize with the gauges of your choice.

Important: Four 1/8" holes must be drilled for LED indicators.
 Note: No further discounts apply.

1968-70 B-Body VHX Instruments

VHX Systems fit directly into the stock Rallye gauge bezel of 1968-70 B-Body models without modification, adding a wealth of features to this iconic vehicle. Features fully lit needles, backlit faces and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. Mounts directly to the stock dash housing for simple installation. The VHX series is loaded with features including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user-customizable display feedback. Available in black or silver alloy face, with either blue, red, or white numeration and backlighting. Please specify blue, red, or white illumination when ordering.

Note: Gauge bezel not included.

Custom ABS Gauge Panels

Thermo-formed ABS gauge panels are designed with rigid base materials, heavy-duty mounting bosses, and deep recessed gauge pockets to provide a high performance appearance. The small gauge openings measure 2-1/16" and the speedo and tach openings measure 3-3/8". Available with a textured black, simulated brushed aluminum, or simulated carbon fiber finish.

Note: These panels do not feature the provision for the convertible top switch.

Performance Gauges

Bosch Super Tac II

Bosch's Super Tac II features internal dial lighting, accurate air coil meters, 250° dial sweep, 8,000RPM limit and adjustable red line pointer. Works on 4, 6 or 8 cylinder engines. Functions with breaker-point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware. Available in 3-3/8" or 2-5/8".

- 3-3/8" Super Tac II**
ST7901 black dial, chrome bezel 31.99 ea

Bosch Retro Tachometers

Carefully reproduced to match original dimensions. 360° lighting avoids uneven spots for better night visibility. These tachometers will put the finishing touches on your restoration project. Tachometer measures 3-3/8" and has 8,000 RPM limit.

Important: Tachometers operate on 1, 2, 4, 6, 8 or 10 cylinder engines with most factory or aftermarket ignition systems.
ST8802 full sweep w/adj. redline 109.99 ea
ST88R short sweep 109.99 ea

Bosch Super Tac III

Solid metal casing with a striking reflective chrome finish. Features a blue shift light. The Super Tac III is fast, accurate and reliable, thanks to vibration proof air-core meter construction. 0-10,000 RPM. Internal settings for 2, 4, 6 and 8 cylinder engines. Pointer return to zero feature. Adjustable swivel mounting foot for mounting at any angle. Modern DIS applications are covered by the 2 cylinder setting.

New!

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal-float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Note: Sending units are available in lengths from 4" to 24" and are sold in 1" increments.

Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or re-calibrating due to tire or gear changes; this unit requires a one time setup and you're done.

Auto Meter Prestige In-Dash Gauges

Auto Meter's new Prestige Series gauges have the precision and reliability you've come to expect from Auto Meter, but with a stunning new look. These gauges achieve their elegant style with brushed aluminum centers, fully lit vintage-style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through-the-dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units. *Note: No further discounts apply.*

In-Dash Speedos & Tachs

Our In-Dash Speedometers and Tachometers feature our famous high performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges proven high performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability & readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested & race proven, these units use precision senders to keep hazardous fluids out of the driver's compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quickreacting, precise air core movements to give you all the information that you need.

Important: Electric speedometers operate on 500-100,000 pulses/mile sensing units. Existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's wack sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.
Note: All Auto Meter gauges are discount exempt.

ULTRA-LITE

Ultra Lite gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy to read.

Z-Series gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy to read.

Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility.

Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high performance line easy to read with a crisp, no-nonsense modern appearance.

C₂ gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

NEXUS

Nexus gauges feature a bright Super Bezel and black dial with red accent band. The lens is dark tinted for a low key appearance when off. When illuminated, the patented LED lighting technology provides lighted pointer and "through-the-dial" display.

Ultra Lite II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

VES

ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

COBALT

Cobalt gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, ray look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

Sport Comp II gauges feature a satin anodized Super Bezel and black dials with white numbering and increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent from your OE dash lighting.

AMERICAN MUSCLE

The American Muscle Street Rod Series features advanced hybrid dial technology combining Auto Meter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

SPORT-H-COMP

Sport Comp gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high performance line easy to read with a crisp, no-nonsense modern appearance.

TRADITIONAL CHROME™

Traditional Chrome gauges feature the trademarked competition appearance and rugged, reliable performance of a chrome bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy to read with a crisp, no-nonsense nostalgic appearance.

E DASH & CONSOLE COMPONENTS

Gauge Accessories

LED Replacement Bulbs

Upgrade your standard instrument lighting with intense LEDs. For all Auto Meter gauges (except clocks, A/F ratio, & Autogage), speedometers and tachometers. Does not work with Digital & LED Lit Gauges (i.e. Cobalt, C2, NV, Phantom II, Sport-Comp II, Ultra-Lite II). Sold individually.

Note: No further discounts apply.

Tachometers - Twist-In Bulb

AM3295	green	14.99 ea
AM3294	red	12.99 ea
AM3296	blue	14.99 ea
AM3297	amber	12.99 ea

AM3285	green	15.99 ea
AM3284	red	11.99 ea
AM3286	blue	15.99 ea
AM3287	amber	12.99 ea

Light Bulb Covers

For optional lighting color on most gauges. Does not work with digital & LED lit gauges (i.e. Cobalt, C2, NV, Phantom II, Sport-Comp II, Ultra-Lite II). Set of 3.

Note: No further discounts apply.

AM3215	green	7.99 set
AM3214	red	7.99 set
AM3207	blue	9.99 set
AM3208	yellow	9.99 set

MCX Series In-Dash Gauges

Features a domed lens, bright white dial face, black numbering and increments and fluorescent red pointers and a chrome Super Bezel. When lit for night time use, the gauges display "full dial" white illumination provided by patented LED lighting technology. The light intensity can be controlled through the optional LED Lighting Dimmer independently from your OE dash lighting (available separately).

Important: Electric speedometers operate on 500-200,000 pulse/inch sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM3291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.

Note: No further discounts apply.

Distributorless Tach Adapter

This tachadapter is designed to adapt a standard ignition tachometer. Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

Note: For use with distributorless ignition systems only. No further discounts apply.

AM9117	tach adapter	96.99 ea
--------	--------------	----------

LED Lighting Dimmer

This compact separate module is designed to allow for isolated dimming for all Auto Meter gauges utilizing LED lighting technology separate from your vehicle's OEM dash.

Note: No further discounts apply.

AM9114	LED Dimmer	34.99 ea
--------	------------	----------

Universal Gauge Harness

If you want to keep your under-dash area organized or you think that you need to remove gauges from time to time then you need to install our universal gauge harness. It will connect all major brand gauges including Auto Meter and VDO and works with most dash layouts and sizes.

Note: No further discounts apply.

1963-70 RetroSound Redondo Radios

The new RetroSound® Redondo radio is the only radio made specifically for late 1960's to early 1970's Mopar vehicles that originally came supplied with the distinctive "thumb-roller" radio controls and the two knob style. The Redondo display face and push-buttons are independently adjustable, making it easy to install into any Mopar vehicle in which a part of the dash fascia separates the original radio dial from the push-buttons. Now you can enjoy all the modern conveniences with classic Mopar styling.

Universal Fit Retro-Look CD Player

Since the invention of the CD player, classic car owners have had few options for their classic interior. Not anymore! Say hello to the first CD player with an authentic vintage look. Featuring classic inspired styling with chrome-rimmed dual control knobs and fitted black or chrome display bezel, this CD player is designed to fit "DIN" (approx. 7.2" X 2.11" radio openings (most '84 up models) or vehicles modified for DIN radios (single CD players). Featuring a fold down, fully detachable front panel, these do more than just play CDs- this in-car-entertainment system is equipped with USB/SD/MMC and Aux-In jack interfaces and offers MP3 and WMA playback capability as well as an AM/FM radio. What's more, the extra-large, multi-color screen displays the artist name and song title. The CD/MP3 deck features Electronic Shock protection, 4 x 40 watts of power, 1-pair of RCA pre-outs.

Low Profile Replacement Speakers

These 4" x 6" oval speakers include grills, they are designed and sized to fit in an OEM or a custom location, due to their ultra thin mounting profile, you can mount it places other speakers cannot fit. Please note that you are purchasing TWO 4" x 6" Single Voice Coil speakers, which are full range speakers with a low profile cool flame style Mylar tweeter assembly, Single Voice Coil System, rigid poly cone, Santoprene surround, 1.65" thin mounting depth and custom tooled low carbon steel chrome basket.

Single Voice Coil - Universal Application

RB338 150 watts max 4" x 6"..... 79.99 pr

UNDERCOVER I Stealth Speaker

This speaker system is designed specifically for under seat or horizontal wall installations. The compact ABS housing contains one 5-1/2" woofer and Piezo tweeter in each enclosure and is only 2-7/8" high x 8" x 11". This system sounds very good and can handle up to 120 watts. For a great sound combine these with one of our DVC (dual voice coil) speakers in the dash and you'll have a great system without any vehicle modifications.

S5060 6 OHM..... 109.99 pr

UNDERCOVER II Upgrade Speakers

We have developed the UNDERCOVER II with an 8" woofer and 2 Piezo tweeters in each box. This system can be mounted in many of the same locations as the regular UNDERCOVER. With the 8" woofer in UNDERCOVER II you get a much fuller deeper sound. These are a great addition to our Concours series radios with their 200 watt capacity. Sold in pairs. Measure 11"W x 12.5"D x 3"H

Note: These speakers have a 4 ohm rating. Check for compatibility with your audio system.

S5064 129.99 pr

MB2099

1968-69 Road Runner Dual Speakers

Upgrade your original single dash speaker to a dual speaker system. This speaker set is available for 1968-69 Road Runner models and features two 4" speakers in your choice of 30-watt or 80-watt amperage.

- 35-100 Hz Frequency Response Range

Powered 8" Subwoofer

Retrosound's new powered subwoofer is a great way to add some bass to your audio system. This low profile subwoofer features a die-cast aluminum enclosure for optimal heat dissipation and has a compact footprint for easy mounting under or behind seats. Measures 9" x 2.75" x 13.75".

RB450 8" subwoofer..... 199.99 ea

Portable MP3/Media Adapter

You now have the freedom to listen to your favorite music in your classic car with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off the personal player. A great way to preserve the original appearance and maximize your vehicle's collector value while still listening to your tunes in modern style!

14923 RediRad adapter..... 99.99 ea

Listen To Your Radio Without The Key

This allows you to continue listening to the radio for 15 minutes or until a door is opened without leaving the electric fan or other accessories running. And you're not limited to just the radio; this device could be wired to control all accessory power so you still have control of the power windows after the key is off.

1962-74 Flaming River Tilt Columns

Get an all-new USA-made Flaming River Tilt Steering Column for your Mopar and stop the search for a used or rebuilt original. Flaming River offers keyed and non-keyed slip adjustable tilt columns that can be used for a variety of Mopar applications from 1962-74. The column is an overall length of 45 inches including an additional slip shaft extension. This allows for 1-1/2" of slip movement and includes a universal joint for direct connection to the steering box. Each column includes new turn signal/hazard switch and female adaptor plug kit for connecting to original wiring harness. All Flaming River® columns are made from 304 grade stainless steel.

Note: May need to reuse mounting parts from old column or use a column drop for mounting column to dash. Horn relay, hazard kit and steering wheel adaptor may be required (sold separately). No further discounts apply.

NRG Steering Wheels

Short Hub Adapter **New!**

This short hub unit was designed to mount an aftermarket steering wheel/quick release combination close to the original orientation. Manufactured from the highest quality aluminum using a solid, one-piece design for maximum strength and durability.

Note: Must use with one of our Quick Release or Tilt systems.

152780 black..... 129.99 ea

Generation 2.0 Quick Release System

These 2.0 quick-release units feature many options that conventional Ball-Lock quick release systems do not offer, such as specially designed raised sections to protect hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last. Available in black with a carbon fiber ring or in a variety of other colors with titanium chrome ring.

Note: Must use in conjunction with the Short Hub Adapter.

With Carbon Fiber Ring

With Titanium Ring
152782BK black..... 129.99 ea
152782GM gun metal..... 129.99 ea
152782GL silver..... 129.99 ea

Generation 2.8 Quick Release System

The Gen 2.8 Quick Release provides all the benefits of the 2.0 Generation Systems ball-locking quick release system with the added benefit of an upgraded Diamond Cut flared ring. This provides leverage and grip for the pull ring allowing much easier release of the steering wheel. Perfect for race applications where gloves are required. Choose from a selection of colors.

Note: Must use in conjunction with the Short Hub Adapter.
152784BK black..... 154.99 ea
152784GM gun metal..... 154.99 ea
152784GL silver..... 154.99 ea

1/2" Steering Wheel Spacers **New!**

Bring your steering wheel closer with this 1/2" spacer. Manufactured from CNC machined aluminum with counter sunk mounting holes to the hub, and a universal 6 bolt mounting pattern.

152779B black..... 24.99 ea
152779G silver..... 24.99 ea

Quick Tilt/Lock System **New!**

By allowing the steering wheel to tilt out of the way in one quick motion and combining a patented locking system to secure the wheel once the tilt is engaged, this system provides an added layer of anti-theft security without sacrificing convenience.

Note: Requires short hub adapter. Not compatible with quick lock or quick release units.

152772B black..... 259.99 ea
152772G silver..... 259.99 ea

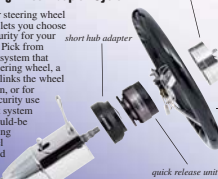

NRG's Steering Wheel Adapter System:

NRG's modular steering wheel adapter system lets you choose the level of security for your classic vehicle. Pick from a quick release system that removes the steering wheel, a tilt-lock that unlinks the wheel from the column, or for total vehicle security use the Quick Lock system to prevent a would-be thief from placing a steering wheel onto the hub and driving away.

NRG steering wheel

NRG

- Manufactured from the highest quality aircraft aluminum.
- All Quick Release units feature a ball locking mechanism.
- Will work with all 1961-76 Mopar columns.
- Compatible with all Flaming River and Thidit Columns.

NRG Quick Lock System

A perfect complement to the Quick Release Systems, these units quickly and easily disable the steering hub by preventing the placement of a steering wheel onto the hub. Manufactured from solid steel and utilizing a Ball-Lock design and key mechanism. Available in various color finishes.

Note: Must use with either the 2.0 or the 2.8 quick release system.

1967-69 Dart, Barracuda Billet Throttle Assemblies and Pedals

These 1967-69 Dart, Barracuda billet aluminum throttle pedal assemblies are made to bolt into the factory mounting location on the firewall without any drilling or modification. Designed with an internal spanner nut to maintain perfect pedal tension, this throttle assembly eliminates the possibility of excess slop in the pedal. Brake and clutch pedal pads are fashioned after their OEM counterparts and feature hidden screws that allow them to bolt to the steel pedal with a clean finish. Offered in brushed or black finish with rubber inserts for style and functionality.

Eliminator Floor Mount Gas Pedals

The Eliminator floor mount gas pedal is precision crafted from billet aluminum and designed to eliminate routing cables through the firewall. It includes an adjustable aluminum splined shaft and stainless steel under-the-floor cable mounting bracket. Can be mounted in multiple positions for various floor and toe board angles, while pedal travel stops are built in. Pedal floor spacers are recommended when installing the pedal on vehicles with thick carpet or under carpet padding.

Important: Requires a Car-To-Fit Lokar throttle cable.

Brake Cables and Components

Available in Original Material or Long Lasting Stainless Steel!

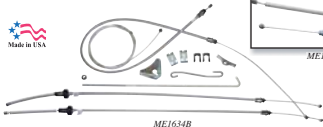

Dodge & Plymouth Park Brake Cables and Cable Sets

Parking brake cables and components for 1963-74 model vehicles. Available in original material or stainless steel; these park brake components are available individually or as a complete set. Please add the suffix to the end of the part number for the finish of your choice. Made in USA.

Important: All our complete sets will include all the necessary individual hardware pieces for that specific set. Individual hardware pieces also sold individually.
Note: A-Body and E-Body cables came from the factory two ways: 2 short rear cables and intermediate, or 1 short and 1 long cable.

Under-Dash Parking Brake Cables

Lokar connector cables are designed to mount directly to the under-dash, foot operated brake and connect with Lokar universal rear brake cables. These cut-to-fit 6' long cables are available with either a black or stainless steel housing.

EC8001	stainless steel housing.....	129.99 ea
EC8001B	black housing.....	84.99 ea

Universal Rear Parking Brake Cables

Lokar universal rear brake cables are designed to work with the Lokar Under-Dash foot operated brake cables. The outer housing is designed with a specially extruded liner for extended life of the cable and the stainless cable resists moisture. Features adjustable cable lock and clevis and come complete with two 8' cut-to-fit housings, cables, cable bracket and spacers. Available with either a black or stainless steel housing.

EC80	stainless steel housing.....	199.99 ea
EC80B	black housing.....	139.99 ea

Under-Dash Park Brake Pedal Assembly

This foot operated park brake assembly gives you ease of operation along with a clean, out of the way appearance. Available in 2 styles and 3 different finishes, these pedal assemblies feature dash-to-fire all adjustability, adaptable mounting location capability and hidden, heat treated gears and mechanisms for an uncluttered finish. They also include a rubber stop for quiet pedal return, as well as complete hardware and instructions. Connector cables sold separately.

Car Art by David Snyder

This collection of limited edition prints is numbered and hand signed by the artist, David Snyder. Each represents 200 to 300 hours of painting, historical research and fine tuning. The original painting is meticulously hand painted without any computer generated or airbrushed art. Own one of these limited edition prints!

"Back to Brice" Limited Edition Print

At the August Mopar Nationals, the party always moves to Brice Road. Mopars light up the night as the sun goes down on Reynoldsburg, Ohio. Fans cheer as drivers put on this unofficial parade. "Back to Brice" is limited to 750 signed and numbered prints. Printed on high-quality acid-free stock trimmed to 20" x 36", image measures 15.5" x 34".
DSP101 "Back to Brice"..... 110.99 ea

"Sweetest" Limited Edition Print

In 1972, there were many ways to satisfy your sweet tooth, but the best way to satisfy the need for ground pounding horsepower from a Hemi Challenger, Cuda, Roadrunner or Charger Daytona. There was just one word for the experience: "Sweetest!". Just 950 signed and numbered prints will be produced. Printed on high quality acid-free stock and trimmed to 22" x 28", image measures 18.5" x 26".
DSP102 "Sweetest"..... 90.99 ea

"Mopar Strip" Limited Edition Print

"Mopar Strip" gives us a nostalgic look back at the glitz and glamour of the iconic landmarks along Las Vegas Boulevard in 1972 with some of the best Mopar Muscle in the foreground. Just 950 signed and numbered prints will be produced. Each print is signed and numbered by the artist. Printed on premium, acid-free stock trimmed to 23" x 36", image measures 19.5" x 34".
DSP103 "Mopar Strip"..... 110.99 ea

"Fish Food" Limited Edition Print

Plymouth beat Ford in the Pony Car War by just two weeks with the Barracuda—it was the first and it became the best. Other pony cars were just "fish food" as the Hemi Cuda became king of the street. Just 950 signed and numbered "Fish Food" prints will be produced. Printed on high quality, acid-free stock trimmed to 22" x 28", image measures 18" x 24".
DSP104 "Fish Food"..... 85.99 ea

"Fun in the Sun" Limited Edition Print

Celebrate the pinnacle of convertibles and those lazy, fun-filled summer days of sun and surf at the beach with "Fun in the Sun", featuring some of the best Mopar drop tops from Chrysler, Dodge, Plymouth and DeSoto. Limited edition of just 950 signed and numbered prints. Image size 18" x 26.5" on 22" x 28" heavy paper.
DSP105 "Fun in the Sun"..... 85.99 ea

"Quick and Dependable" Limited Edition Print

This print, entitled "Quick and Dependable," puts the spotlight on a Dodge dealership packed with performance. This painting captures the spirit of Mopar performance with this painting. Each print is signed and numbered by the artist, David Snyder, and is also signed by "Mr. Norm" Kraus of the famous Grand Spaulding Dodge dealership. Print measures 18" x 26" and is printed on high quality, acid-free stock trimmed to 22" x 28".

Commemorative Metal Signs

A Classic Industries® exclusive! These PhotoSteel signs display your favorite Mopar emblems and logos on corrosion-resistant steel. These signs can be used even in harsh outdoor environments and are sturdy enough to be mounted on a wall without framing, to stand independently, to use as a table top, or to hang freely from the ceiling. Heavy gauge steel construction provides a rich, substantial feel that will continue to impress for years to come.

1960-76 Mopar Owners Manuals

1960-76 Dodge and Plymouth owners manuals. Sometimes called an "operating manual," these are the manuals that are typically found in the vehicle's glove box. They are used to acquaint the owner with the operating controls of the vehicle and recommends certain maintenance and minor service procedures. Provides brief specifications, capacities and other service information.

1960-76 Shop Manuals

Dodge shop manuals which cover body, chassis and mechanical service on 1960-76 models. Includes sections on the engine, transmission, suspension, brakes, driveline, electrical, doors, windows, etc. They also include wiring diagrams. Text, accompanied by diagrams or illustrations, explains how to disassemble, repair and reassemble the various components and frequently include troubleshooting information.

Automotive Manuals

1960-76 Factory Shop Manuals on CD Rom

The information provided on each CD-ROM includes virtually all the information you'll find in a factory shop manual. This unique concept gives you the ability to view on your personal computer, complete factory technical information on the make and model of your vehicle. You can print out just that portion of the manual that's needed, or go to the index and type in the part that you're trying to locate. If several manuals are required for a particular make and model, all are supplied on a single CD for your convenience.

Note: CD's are non-returnable once opened.

1967-76 Dodge Dart & Plymouth Valiant Manual

Haynes manuals are a series of practical manuals aimed at both the do-it-yourselfer and professional garage mechanics. Primarily focused on maintenance and repair of your classic Mopar, this manual covers Dodge Dart, Demon, Plymouth Valiant, Duster & Barracuda (1967 thru 1969) and 6 cylinder engines for 1967 thru 1976. With a Haynes manual, you can do it yourself - from basic maintenance to in-depth repairs. Based on a complete teardown of the vehicle. Clear instructions and hundreds of photographs show each step. Whether you're a beginner or a pro, this book will be a big help to you.

L1242 1967-76..... 29.99 ea

1971-89 Mopar Rear-Wheel Drive Vehicles Manual

Haynes manuals are a series of practical manuals aimed at both the do-it-yourselfer and professional garage mechanics. Primarily focused on maintenance and repair of your classic Mopar, this manual covers Dodge, Plymouth and Chrysler vehicles from 1971 through 1989. With a Haynes manual, you can do it yourself - from basic maintenance to in-depth repairs. Based on a complete teardown of the vehicle. Clear instructions and hundreds of photographs will show each step.

Automotive Literature

The Hemi in the Barn: More Great Stories of Automotive Archaeology

More than forty new stories of amazing finds and automotive resurrections. Avid collectors big and small recall the thrills of the hunt, the tips and hunches

followed, clues pursued, the heart-stopping payoff. There was a Plymouth Superbird found buried in a hedge out of sight in Alabama. There's the find of legendary race builder Smokey Yunick's Boss 302 Trans-Am car. As entertaining as these tales are and some are truly corkers, they're also full of tantalizing hints and suggestions for readers setting off on their own adventures in automotive archaeology. 6" x 9", 256 pages. L10412 paperback 19.99 ea

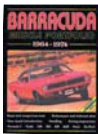

Dodge Dynamite!

An action-packed story of how Dodge came about and how it became the car to beat. High-octane images show the record-breakers, film stars, racecars and concepts, doing what Dodge does best - going faster than anyone else, in superb style. Softbound, 8-1/8" x 9-7/8", 175 pages. L1046 29.99 ea

Barracuda Muscle Portfolio 1964-1974

Covers Plymouth Barracuda 1964 to 1974, including Formula S, Cuda 340, 383, 440, AAR, Hemi and Six Pack. Includes driving impressions, first drives, road tests, comparison tests, long-term tests, handling and more. Thirty-five articles from the pages of Car and Driver, Motor Trend, Road & Track, Sports Car Graphic, Car Life and many others. Softbound, 8-1/2" x 11" 140 pages. L1059 24.99 ea

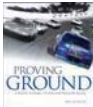

Charger Muscle Portfolio 1966-74

Complete with road tests, comparison tests and hundreds of articles on Dodge Chargers from 1966 to 1974! Softbound, 8" x 10-3/4", 140 pages. L1007 24.99 ea

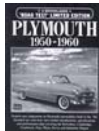

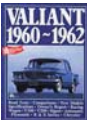

Proving Ground: A History of Dodge, Chrysler and Plymouth Racing

From the early decades of the Indy 500 to the modern super-speedways of NASCAR, from the 24 Hours of Le Mans sports car race to drag racing's 4.5-second quarter-mile runs, this is the story of one company's pursuit of performance and the glory that came with it. Full of hundreds of color and black and white photos, we hear tales of the Hemi, the Superbird, Don Garlits, Richard Petty and many other legends. Noted author and Chrysler enthusiast Jim Schild tells the whole MOPAR story, from door-banging Trans Am racing, to land speed records on the salt flats of Bonneville, from the legendary C-300 to the road-shredding Dodge Viper. Hardbound, 9-1/4" x 10-7/8", 192 pages. L1045 39.99 ea

Chrysler Road Test Book: Valiant 1960-62

The Valiant was introduced by Chrysler in the compact car category to rival the Corvair and Falcon. Reaction to the styling was ambivalent but all agreed that the engine and transmission were good. A Station Wagon was introduced the following year. By 1962 there were seven models with many improvements under the skin including a larger fuel tank. This is a book of contemporary road test, technical and specification data, model introductions, drivers impressions, long-term tests, racing. Models covered include: V200 Station Wagon, V200, Signet 200, 170, S Automatic, R & S Series. Softbound, 7-3/4" x 10-3/4", 100 pages. L1010 19.99 ea

Plymouth 1950-60

Road and comparison tests, specs, model introductions, performance data and owners reports for the Belvedere, Cambridge, Cranbrook, Fury, Plaza, Savoy and Suburban Wagon. Softbound, 8" x 10-3/4", 92 pages. L1037 19.99 ea

Plymouth Fury 1956-1976

Road and comparison tests, specs, model introductions, performance data and owners reports for the Fury I, II, III, Sport, VIP Gran Coupe & sedan with convertible and wagon variations. Softbound, 8" x 10-3/4", 136 pages. L1008 29.99 ea

Dodge Dart 1960-76

Includes road and comparison tests plus technical reports, performance data and specifications on the Custom, Demon, GT, GTS, Phoenix, Pioneer, Ramcharger, Sececa, Sport, SE, Swinger, 270, 330, 440 and the D-500 Sedan, Coupe, Wagon and Convertible. 39 articles are sourced from Automobile Topics, Autopost, Buyers Guide, Car and Driver, Car Craft, Car Facts, Car Guide, Car Life, Cars, High Performance Cars, Hot Rod, Motor Life, Motor Trend, Motorcycle and Road Test. Softbound, 8" x 10-1/2", 136 pages. L1003 29.99 ea

Plymouth Muscle Portfolio

This story of Plymouths muscle cars told through road tests and contemporary articles. Fully reported on are the Barracuda with the formidable Formula S package plus the Belvedere Satellite, GTX and Road Runner. Also covered are the Duster and Sport Fury and the legendary V8 Hemi and Magnum Power plants. Included are full specifications and performance data. Softbound, 8" x 11", 136 pages. L1011 24.99 ea

The Complete Book of Classic Dodge and Plymouth Muscle

This gorgeously illustrated work takes readers the curtain down on American muscle car production. With extensive details, specs, and spectacular photographs, this book stands alone as the ultimate resource on America's muscle cars. Flexibound, 288 pages, 9-1/4" x 10-5/8". L44774 34.99 ea

Dodge Muscle Portfolio 1964-71

Fully Illustrated articles from the worlds leading automotive magazines deliver the information you're looking for. Each book in this popular series contains road tests, driving impressions, specs, technical data new model reports and comparison tests. Terrific references for enthusiasts restoring their cars to original condition. Softbound, 8" x 11", 136 pages. L1012 29.99 ea

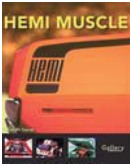

Automotive Literature

Hemi Muscle Cars

Since the early years of the internal combustion engine, engineers recognized that the hemispherical head design, which utilized dome-shaped combustion chambers, generated phenomenal horsepower. After World War II, Chrysler applied this technology to a 330-cubic-inch V-8 destined for its 1951 production cars. This engine became so dominant on America's racetracks and boulevards that its nickname "Hemi" came to symbolize the ultimate in American performance. "Hemi Muscle Cars" tells the story of the magnificent Hemi-powered performance cars and explains why the Hemi has blown away the competition for six decades and still does so today. More importantly, the book shows how this potent engine became a cultural icon, how it came to define American performance cars. Hardcover, 10-1/2" x 12", 336 pages. L1043 49.99 ea

Hemi Muscle

In this value-priced celebration of Hemi muscle cars, author and photographer Robert Genat celebrates the word that has been synonymous with speed, power and muscle. Named for its hemispherically shaped combustion chambers, Chrysler's iconic engine has powered some of the most powerful automobiles down America's highways, drag strips and race tracks. This book on Hemi muscle cars profiles all of the great cars that have carried the Hemi badge, from muscle car legends like the Road Runner, Challenger, 'Cuda and Superbird to emerging legends like Dodge Hemi trucks and the next generation of Charger hitting the streets. Softbound, 6-1/2" x 8-1/4", 192 pages. L1039 39.99 ea

Challenger & Barracuda 1970-74

Renowned for their sleek shape and prodigious power, Mopar's Challenger and Barracuda were among the top cars of the muscle car era, generating a fervent following that continues to this day. Collectors Originality Guide Challenger and Barracuda 1970-1974 presents all the information you need regarding correct parts, finishes, options, and trim pieces for all the versions of the E-Body Dodge Challenger and Plymouth Barracuda, built from 1970 to 1974. Author, photographer, and MOPAR expert Jim Schild sorts out all of the details about these prized cars, including the dizzying variety of engine options. Filled with high-quality, detailed photos of excellent originals or very accurate restorations, this book is a resource that no E-Body enthusiast can do without. Softbound, 8-3/4" x 11-1/2", 128 pages. L1092 24.99 ea

Muscle Cars

Muscle Cars explores this era and the current models in a broad survey of classic muscle and today's new machines. Each chapter is organized around a theme (milestones, factory racers, etc), each model getting a multi-page spread of full-color photography, performance stats, trivia, and more. Photos and stories from the people who built and raced these amazing machines make the book a must-read for any fan of American muscle. Paperback, 240 pages, 6-1/2" x 8-1/4". L13877 19.99 ea

Street Machines: Classics, Muscle Cars, Modern

Any custom automotive project begins with making choices. There are choices under the hood, such as which engine will match well with a certain chassis and transmission. There are aesthetic choices, like whether to use custom or stock wheels, what paint scheme will look best, and what type of interior will be comfortable as well as eye catching. Street Machines: Classic, Muscle, Modern is the ideal resource for anyone looking to build a powerful and stylish modified street machine. Paperback, 160 pages, 8-1/4" x 10-5/8". L39077 24.99 ea

Virgil Exner: Visioneer

The official biography of the man who brought his own personal style to the world of industrial design. His thrilling automobile designs from the mid-fifties took the world by storm and put Chrysler at the top. With 150 color images throughout, this is a unique and fascinating insight into a pivotal player in the development of the modern automobile. Hardcover, 160 pages, 8" x 10". L41188 39.99 ea

Hemi: The Ultimate American V8

Take a high-octane tour through the design, development and muscle cars behind the greatest V-8 in Detroit history. Fire-breathing Mopars come roaring to life, from the 1951 Chrysler Saratoga through the muscle cars of the 1960s and 70s right up to the newest Hemis in Dodge's line of cars and pickups. Packed with facts and fascinating details, the book features cutaways of the most collectible Hemi-powered cars in history, as well as a look at Hemi clones and race cars. From the Hemi high-powered past to its scorching present, from its greatest racetrack feats to high-performance street achievements, this full-color, full-throttle history truly conveys the power of the ultimate American V-8. Softbound, 10" x 10", 168 pages. L1091 24.99 ea

Dodge 100 Years

In Dodge 100 Years, renowned automotive journalist Matt DeLorenzo provides an unrivaled chronicle of Dodge throughout the past century. Starting with the company's modest beginnings in the 1900s, DeLorenzo recounts the brothers' story from their decision to venture into full automotive manufacturing, to their untimely deaths in 1920, and finally the company's purchase by Chrysler in 1928. The Dodge story is not without its struggles: while the division played a key part in the muscle car wars of the 1960s and early '70s, the oil crisis of 1973 took its toll on Dodge and Chrysler as other manufacturers moved toward more efficient models. Hardcover, 10" x 12-1/4", 192 pages. L45528 44.99 ea

The Ultimate Guide to Muscle Cars

Muscle cars are loud, proud and in your face, with no other pretensions than to be just that. They may be simple, even crude, but for roaring, pumping, tire-smoking standing starts, they are the business. To the youth culture of America, raised on drag racing, red-light street racing and hot-rodding, they are irresistible. The late 1960s was the heyday of the muscle car, before soaring accident rates and insurance premiums, tougher safety and emissions legislation, and finally an oil crisis, made excessive horsepower seem irresponsible. They may be a little more high-tech, but muscle cars are definitely back with a vengeance! Hardcover, 448 pages, 11" x 8-1/2". L13730 24.99 ea

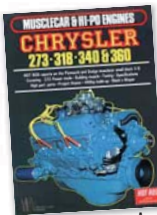

Top Muscle: The Rarest Cars from America's Fastest Decade

A muscle-car book unlike any other, featuring the rarest vehicles on Earth. Top Muscle chronicles the ultimate collection of these super-rare high-performance beasts. These cars represent the absolute zenith of the most valuable collector cars in existence, with fascinating histories that illuminate the wildest age in American automotive history. Features over 600 cars. Hardcover, 224 pages, 9-7/8" x 11-1/4". L45146 49.99 ea

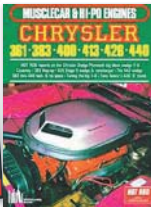

Automotive Manuals

Rebuild or hot-rod your engine with manuals for your small or big-block Mopar V8!

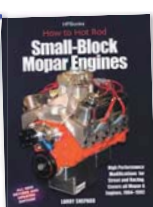

A

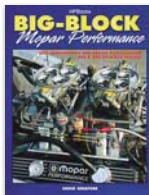

B

C

D

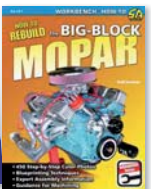

E

F

G

H

A - Chrysler 273-318-340 & 360

Straight from the pages of Hot Rod magazine come these tips and techniques to boost performance and build reliable horsepower. For street or strip, squeeze more horses and performance from your muscle machine. Make it move with Hot Rod and the Musclecar & Hi-Po Engine series. Softbound, 7-3/4" x 10-1/2", 100 pages.

L1050..... 19.99 ea

B - Chrysler 361-383-400-413-416-440

From the pages of Hot Rod magazine comes bolt-on, tuning tips and power secrets for the fabulous muscle engines of the 60s and 70s. Over 20 reprinted articles, each filled with great tips to hype your horsepower for street or strip. See what the muscle craze was all about, as only Hot Rod magazine can tell it. Softbound, 8" x 10-3/4", 100 pages.

L1051..... 19.99 ea

C - How to Build Big Inch Mopar Small Blocks

This book shows you how to get that big-cube power, and then it shows you how to optimize the small-block's other systems - induction, heads, valvetrain, ignition, exhaust, and more - to make the most of the extra cubic inches. Author Jim Szilagyi is a Performance Specialist for Dodge Motorsports and Mopar Performance Parts. In this book he covers building big-inches from Mopar 318/340/360 c.i. LA or Magnum 5.2/5.9-liter engines, using both factory and aftermarket parts. Black and white photos. Softbound, 8-1/2" x 11, 144 pages.

L1060..... 24.99 ea

D - How to Hot-Rod Small-Block Mopar Engines

Subtitled "High Performance Modifications for Street and Racing," this book covers all Mopar A Engines, 1964-1992. This is a completely revised, updated edition of Larry Shepard's best-selling classic, first published in 1989. Inside you'll find the latest, updated information to help modify your small-block A series Mopar for high performance, street, circle track or drag racing. Also included are updated parts information and techniques for: block, cranks, pistons and rods, cylinder heads, camshafts and valvetrain, blueprinting techniques, step-by-step engine assembly guide, oil, cooling, ignition and induction systems, engine swapping guide, engine installation and break-in tips, casting numbers and torque specs. Softbound, 8-1/2" x 11", 240 pages.

L1030..... 24.99 ea

E - Big-Block Mopar Performance

Your guide to extracting maximum horsepower and torque from the low deck "B" and high deck "RB" series Mopar engines for street and drag racing use. Techniques illustrated in this book have produced one IHRA National Championship and scores of national event wins. Includes coverage of crankshafts, rods and pistons, cylinder heads, camshafts, induction and exhaust systems; oil systems, engine assembly, race car set-ups and more. Get on the fast track to victory lane! Softbound, 8-1/2" x 11", 160 pages.

L1028..... 24.99 ea

F - How to Rebuild Big-Block Mopar Engines

This fully illustrated handbook provides detailed instructions for rebuilding and reconditioning big-block engines to factory stock specifications. Includes inspection, disassembly, reconditioning and reassembly, as well as a complete parts ID and interchange section. Softbound, 8-1/2" x 11", 176 pages.

L1027..... 24.99 ea

G - The Mopar Six-Pack Engine Handbook

How to Rebuild and Modify the 340 and 440 6-Barrel or Convert Your LA Small-Block (318-360 c.i.), Mopar Big Block (383-440 c.i.) or Magnum (5.2L-5.9L) to 6-Barrel Induction. A step-by-step guide to rebuilding, restoring and modifying the famous Mopar "Six-Pack" engines that appeared in all of Chrysler's muscle cars from 1969 through 1971, as well as the late model small-blocks and crate performance motors currently offered by Chrysler. Softbound, 8-1/4" x 5-1/4", 256 pages.

L1033..... 24.99 ea

H - How to Rebuild the Big Block Mopar

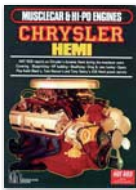

A builder's manual for Big Block 361-440 B and RB engines. Features full-color photographs with exceptionally detailed captions and clear, concise instructions to guide you through each stage of the rebuild process in exquisite detail. Install the entire rotating assembly, heads, intake, valvetrain carburetor, and all other parts with confidence. Reinstall the engine, fire it up, and get the satisfaction of having rebuilt an engine that will provide years of faithful service. Softbound, 8-1/2" x 11", 144 pages, 320 color photos.

L1094..... 24.99 ea

P

I - How to Rebuild & Modify Chrysler 426 Hemi Engines
Rebuild or race Chrysler's most popular engine. A step-by-step guide to rebuilding and modifying one of the most famous engines built in the U.S., including sections on racing heritage, cylinder block, ignition and lubrication systems and racing parts. Softbound, 8-1/4" x 5-1/4", 240 pages.
L1032 19.99 ea

J - Chrysler Hemi
From the pages of Hot Rod magazine comes bolt-ons, tuning tips and power secrets for the fabulous muscle engines of the 60s and 70s. Over 20 reprinted articles, each filled with great tips to hype your horsepower for street or strip. See what the muscle craze was all about, as only Hot Rod magazine can tell it. Softbound, 8" x 10-3/4", 100 pages.
L1049 19.99 ea

K - Engine Airflow Handbook
This informative and fully illustrated guide to the science of engine airflow includes basic discussion on the chemistry of airflow and fuel, testing individual components such as cylinder heads, carbs and throttle bodies, how to test an engine on a flow bench, how to analyze the numbers and how to apply to performance modifications. Softbound, 8-1/2" x 10-7/8", 192 pages.
L1054 23.99 ea

L - Step-By-Step Guide to Engine Blueprinting
Step by step guide to engine blueprinting. Includes practical methods for racing and rebuilding. How to modify pistons, cranks and connecting rods, increase performance, basic assembly tips, prepare components, compute compression, degree a camshaft and assemble cylinder heads. Softbound, 8-3/8" x 10-7/8", 160 pages.
L209 19.99 ea

M - Haynes Chrysler Engine Overhaul Manual
Covers small-block (LA series) V8 engines from 1964 through 1994, and big-block (B and RB) V8 and 3.9L V6 engines from 1958 through 1978. Includes overhaul, step-by-step procedures, diagnosis, engine removal and installation, parts interchange, performance and economy modifications, cylinder head servicing, engine identification, tools and equipment, machine shop repairs, tips on professionals, and is fully illustrated with over 300 photos. Softbound, 8-1/2" x 10-1/2", 207 pages.
L1093 29.99 ea

N. How To Build & Power Tune Distributor - Type Ignition Systems
There is a bewildering choice of expensive aftermarket ignition parts, and all claim to deliver more power. Timing and advance curves are a minefield of their own. This book cuts through the myth and hyperbole to show what really works, so that readers can build an ignition system that delivers maximum power with expert advice from an experienced race engine builder, without wasting money on parts and systems that don't deliver!
L1395 33.99 ea

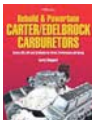

O - Turbo: Real World High-Performance Turbocharger Systems
Turbochargers are incredibly appealing to performance enthusiasts because of their ability to add "free" horsepower - and lots of it - to almost any engine or vehicle. Those who want to increase the performance of their existing turbo system, or those who want to add a turbo to an existing engine, have never had so many components, vendors and resources to choose from. Whether you're running gas or diesel, 4, 6, 8, or more cylinders, this book will teach you to test, install and maintain your high-performance turbo system. You'll learn how turbochargers work, how to choose the right turbo or turbos for your engine by reading flow maps and how to tune your engine to run perfectly with your turbo system. Softbound, 8-1/2" x 11", 160 pages.
L978 24.99 ea

P - 1962-79 Mopar B-Body Performance Upgrades
This book discusses popular performance upgrades for 1962-79 Dodge & Plymouth B-Body vehicles, explains how to choose the ideal heads, carbs, intake, and carb for a complete top-end performance package. In addition, the author discusses and explains the building of a stroker engine. Stock brake upgrades and aftermarket offerings are included, including Baer and Wilwood systems. A number of weight-saving techniques that vastly improve handling and performance are revealed. This B-Body performance guide is a must-have for Mopar aficionados. Softbound, 8-1/2" x 11", 144 pages, 400 color photos.
L894 24.99 ea

Carburetor Manuals

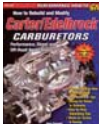

Rebuild & Powertune Carter/ Edelbrock Carburetors

A step-by-step guide to rebuilding, modifying and tuning the Carter/Edelbrock carburetors. Carter history and model overview, an overview of carb parts and how they work, carb selection, rebuilding carbs, installation and hardware, performance and adjustments, general tuning and troubleshooting, emission, fuel economy and fuel supply, racing and special applications. Softbound, 8-1/4" x 5-1/4", 176 pages. L1034 24.99 ea

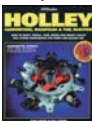

Carter/Edelbrock Carburetors

Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pages. 8-1/2" x 11". L433 24.99 ea

Holley Carburetors, Manifolds and Fuel Injection

High performance and stock replacement on one, two and 4 barrel Holley's, plus Holley manifolds for street and strip - how they work, basic principles, air and fuel requirements, selection and sizing, installation direction, repair and assembly, economy tuning, performance tuning and emissions. Includes sections on the operation and installation of Holley's Pro-jection fuel injection systems. Softbound, 8-1/2" x 10-7/8", 192 pages, appx. 1000 ill. L40 24.99 ea

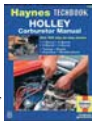

Holley Carburetor Handbook

This handbook covers the fuel inlet system, idle system, main metering system, power system, accelerator pump system, secondary system, choke system, metering blocks, repair and adjustment and more! Softbound, 6" x 9", 80 pages. L559 15.99 ea

Haynes Holley Carburetor Manual

This manual by Haynes includes detailed information on the Holley carburetor. Written for the do-it-yourselfer, it includes information the pro's could learn from. For use on 1-barrel, 2-barrel, 3-barrel and 4-barrel Holley carburetors. Information includes carburetor identification, basic troubleshooting, diagnostic checks for computer controlled carburetors, on vehicle tuning and adjustments, step by step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 step by step photos. Softbound, 8-1/2" x 11". Approximately 200 pages. L564 29.99 ea

Fuel Injection Manuals

Turbocharging

A detailed, comprehensive handbook on the theory and application of turbocharging for street and high-performance use. Covers all types of domestic and import cars and trucks and RVs. Includes detailed sections on theory, types of turbocharging components, engine considerations and aftermarket applications. Softbound, 8-1/2" x 10-7/8", 192 pages. L317 24.99 ea

Turbochargers

How to select and install the correct turbo for big or small horsepower gains, turbo design, sizing and matching. Improve the performance of your engine by simply getting the right information. Covers all aspects of turbocharging and includes turbo suppliers list. Softbound, 8-1/2" x 11", 160 pages. L185 24.99 ea

High-Performance Fuel Injection Systems

In-depth discussion on the combustion basics of fuel injection as well as benefits and limitations of standalone. Covers setups and calibration, creating VE tables, creating timing maps, auxiliary output controls and start to finish calibration examples with screen shots to document the process. Softbound, 8-1/2" x 11", 128 pages. L1062 24.99 ea

Street Supercharging **New!**

Provides information regarding all aspects of supercharging, including how to install blowers, buying a kit, rebuilding manifolds, blower drives, carburetion and accessories. Softbound, 8-1/2" x 11", 128 pages. L211 24.99 ea

Painting Manuals

Paint Your Car On A Budget

This book covers everything you need to know to get a great looking coat of paint on your car and save lots of money in the process. 128 pgs. 8-1/2" x 11", 400 color photos. L917 24.99 ea

How To Paint Your Car

Reveals the techniques and technology behind automotive painting through 250 color photos, detailed captions and text. You'll get the most up-to-date information about paint chemistry, the tools of the trade and safety gear that every automotive painter must know. Step-by-step detail, how to properly prepare your car for paint, including bodywork, surface preparation and masking. Softbound, 8-1/2" x 11", 160 pgs. L3159 27.99 ea

Airbrush Painting Advanced Techniques

Airbrush Painting: Advanced Techniques

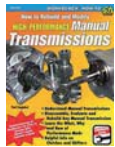

This book by famed custom painter JoAnn Bortles gives you the airbrushing tools to take your art just about anywhere. Her straightforward, clearly illustrated directions show you how to airbrush everything from backgrounds and murals to animal subjects and delicate human features on virtually any surface. Her book is an ideal guide for airbrush painters seeking to expand their skills, and for readers of Bortles' earlier book who are hungry for more. Paperback, 176 pages, 8-1/4" x 10-5/8". L35031 24.99 ea

Drivetrain Manuals

How To Rebuild & Modify Your Manual Transmission

This resource explains the principles behind the workings of all manual transmissions and helps readers understand what they need to do and know to rebuild their own transmissions. Includes how to determine what parts to replace; and where to find (& how to measure) the specifications for each particular transmission. Softbound, 8-1/4" x 10-1/2", 192 pages. L287 29.99 ea

How to Build and Modify High Performance Manual Transmissions

This revised edition of How to Rebuild and Modify High-Performance Manual Transmissions breaks down the disassembly, inspection, modification/upgrade and rebuilding process into detailed yet easy-to-follow steps consistent with SA Design's other Workbook series books. The latest techniques and insider tips are revealed, so an enthusiast can quickly perform a tear-down, identify worn parts, select the best components and successfully assemble a high-performance transmission. Transmission expert and designer Paul Cangialosi shares his proven rebuilding methods, insight and 27 years of knowledge in the transmission industry. He guides you through the rebuilding process for most major high-performance transmissions, including BorgWarner T10 and super T10, GM/Muncie, Ford Toploader and Tremec T5. This new edition also contains a complete step-by-step rebuild of the Chrysler A833 transmission. Softbound, 8-1/2" x 11", 144 pages. L964 24.99 ea

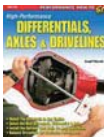

Torqueflite A-727 Transmission Handbook

Provides step-by-step instructions for how to modify Chrysler's 904 Torqueflite automatic transmission for drag racing, road racing and circle racing. Topics include theory of operation, trans-brakes/valve bodies, adapters, disassembly, modifications, assembly, adjustments, installation, high horsepower application and torque converters. Softbound, 8-1/2" x 11", 240 pages. L1029 24.99 ea

High-Performance Differentials, Axles & Drivelines

Covers everything you need to know about selecting the most desirable gear ratio, rebuilding differentials and other driveline components and most importantly, matching the correct driveline components to engine power output. Learn how to set up a limited-slip differential, install high-performance axle shafts, swap out differential gears and select the best available products for the driveline. Explains rear differential basics, rear differential housings, rebuilding open rear differentials, limited-slip differentials and factory differentials. Ring and pinion gears, axle housings, axle shafts, driveshafts and U-joints are also covered. Softbound, 8-1/2" x 11", 144 pages. L1063 24.99 ea

Differential Rebuilding DVD

Watch nine of the most popular differential rebuilds all in one DVD! Covered in detail is disassembly, inspection and the setup procedures for achieving a good pattern. You'll learn the different set up techniques for each unit and see the results as each shim is changed. The rebuilding and ring and pinion installation basics covered in the DVD are universal to all differentials. Approximately 120 minutes. L1610 31.99 ea

Wiring Manuals

Automotive Electrical Manual

The manual features comprehensive information which covers basic electrical fundamentals, troubleshooting and repair for both foreign and domestic vehicles. Includes: engine starting and charging systems, lights, gauges and more! Softbound, 8-1/2" x 11", 192 pages. L575 29.99 ea

Automotive Wiring & Electrical

The basics of electrical principles, including voltage, amperage, resistance and Ohm's law, are revealed in clear and concise detail, so the enthusiast understands what these mean in the construction and repair of automotive electrical circuits. Softbound, 8-1/2" x 11", 144 pages, 350 photos. L1019 24.99 ea

Automotive Wiring: A Practical Guide to Wiring Your Hot Rod or Custom Car

This book guides builders through every step from determining what components they need, to selecting wire type and gauge, methods of connection, and other considerations. The book includes numerous charts showing typical configurations and suggested installations. A troubleshooting section lends a hand in tracking down the inevitable problems that can arise. Paperback, 144 pages, 8-1/4" x 10-5/8". L39923 24.99 ea

How to Diagnose & Repair New! Automotive Electrical Systems

This book details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical system. Several hands-on projects take readers on a guided tour of their vehicle's electrical system and demonstrate how to fix specific problems. Paperback, 160 pages, 8-5/16" x 10-5/8". L20990 25.99 ea

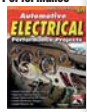

Auto Electrical Handbook

Learn about basic electrical theory, how various electrical works and drawing circuit diagrams. Includes tips on electrical test equipment and troubleshooting electrical circuits. 350 photos, drawings & diagrams. 8" x 10", softbound, 160 pages. L187 24.99 ea

Auto Electrical Performance Projects

Brilliant color photos and explanatory step-by-step captions detail the installation of the most popular, functional, and beneficial upgrades for enthusiasts of varying skill levels. Included are the installation of a complete electronic fuel injection system, upgrading an ignition system, maximizing performance of an electric fan, and the installation of electronic gauges. 8-1/2" x 11", 192 pages, 500 color photos, softbound. L3209 29.99 ea

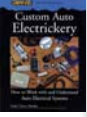

Custom Auto Wiring & Electrical

This indispensable guide to high performance and OEM automotive electrical systems covers electrical theory, wiring techniques and equipment, custom wiring harnesses for racing, hot rods and restorations, pre-made wiring harnesses, special electrical systems (navigational, audio, video), troubleshooting common electrical problems, dashboards and instrument and trailer wiring. Softbound, 8-1/4" x 5-1/4", 192 pages. L1056 24.99 ea

Custom Auto Electricity

This book will help the home based enthusiast unravel the mysteries surrounding Auto Electricals and Electronics. From a simple rewiring to installing and troubleshooting your own engine management system, it is all covered in this book. Paperback, 256 pages, 8-1/2" x 11-1/4". L98352 29.99 ea

Fabrication

New!

Performance Welding Handbook

Performance Welding demonstrates the newest fabricating techniques and covers the latest in welding equipment. This complete guide helps a fabricator select the proper equipment, prepare jigs, and effectively weld 4130 steel, stainless steel, aluminum, and magnesium. It also covers plasma cutting, the technique used extensively on Monster Garage that has revolutionized metal working. 2nd edition. Paperback, 160 pages, 8.25 x 11 in.

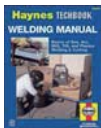

L21720 25.99 ea

The Welder's Handbook

Excellent handbook detailing all common and not so common techniques of welding. Oxyacetylene welding and cutting, brazing and soldering. Also includes how to weld stainless-steel, aluminum, magnesium and titanium. Softbound, 8-1/2" x 11".

L144 19.99 ea

Welding Manual

This Haynes Techbook covers gas (oxyacetylene), arc, MIG and TIG welding. Soldering and flame cutting are also covered. Techniques are discussed as they relate to automotive and workshop repairs. Information on selecting equipment is also included. Softbound, 176 pages, 8-1/2" x 11".

L3088 29.99 ea

Automotive Welding: A Practical Guide

Topics include types of welding and metalworking available or commonly used, the tools required to perform welding tasks, the different types of welders available, basic welding techniques, grinding and cutting, various forms of sheetmetal work, frame repair and reinforcement, filling body holes and rust repair, tube-stee projects and more. Softbound, 8-1/2" x 11", 128 pages.

L1065 24.99 ea

Metal Fabricator's Handbook

This excellent how-to guide concentrates on race and custom cars. Covers everything from adding a hood scoop or fender flares, to building complete cars. Includes a tremendous amount of useful information. 8-1/2" x 11", 176 pages, paperback, 560 illustrations.

L42 24.99 ea

Sheet Metal Handbook

Detailed information on how to form and shape metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern making. Softbound, 192 pages, 8-1/2" x 11".

L243 24.99 ea

Professional Sheet Metal Fabrication

Professional Sheet Metal Fabrication is the number-one resource for sheet metal workers old and new. Dent repair and automotive patch panel fabrication are covered in detail. This is truly the most detailed enthusiast-focused sheet metal how-to book on the market. Paperback, 304 pages, 8-1/4" x 10-5/8".

L44927 39.99 ea

Automotive Bodywork and Rust Repair

Whether you want to tackle a full restoration project, or just want to save money by doing minor repairs yourself, Automotive Bodywork and Rust Repair is the book to get you through it. Softbound, 8-1/2" x 11", 160 pages.

L1086 24.99 ea

Fiberglass & Composite Materials

This informative guide covers FRP materials, fibers and fiber forms, resins, gel coats, advanced techniques, building molds and plugs, structures and materials, health and safety, tools and shop equipment. Softbound, 154 pages, b/w illustrations, 8-1/2" x 11".

L652 24.99 ea

High Performance Fasteners & Plumbing

High Performance Fasteners & Plumbing is a comprehensive guide that offers useful, practical information to help you choose the best fastener or plumbing solution for your project. Included are sections on types of fasteners, hose sizes, fittings, thread types and sizes, heat shields, brake, oil, coolant and fuel lines, routing techniques, clamping loads, stress, bolt stretch and many other tips. Softbound, 8-1/4" x 5-1/4", 176 pages.

L1053 19.99 ea

Detroit Speed's How to Build a Pro Touring Car

Learn-to-install sections cover front subframe and rear suspension assemblies as well as upgrades to wheel hubs, brakes, fuel system, driveline, cooling system, and more; also included is an LS swap. Paperback, 144 pages, 8-1/2" x 11".

L51379 26.99 ea

Race Car Chassis: Design, Structures, Materials

In this comprehensive revised and updated book, award-winning writer Forbes Aird deconstructs the race car chassis, examining the fundamentals of the design of stiff, lightweight mobile structures and the materials used to build them. Covers open-wheel and closed-wheel chassis. A valuable resource for engineers, racers and students. Softbound, 10-1/2" x 10-7/8", 128 pages.

L1055 19.99 ea

Drag Race Chassis & Suspension

Detailed information and photos on basic chassis design, how to set ride height, tubing construction, standard axle housings, choosing gear ratios, transmission choices, bolt-on traction bars, 4-link setups, ladder bars, anti-roll bars, steering, shocks, springs, brakes, wheels, tires, safety equipment and so much more! Softbound, 5-1/4" x 8 1/4", 160 pages.

L1052 24.99 ea

Chassis & Suspension Handbook

First in a series of custom techniques and tips on all areas of building a street rod. Features designing and how-to procedures on building the chassis and suspension for all types of street rods. Paperback, 8-1/2" x 11", 192 pages.

L248 24.99 ea

Automotive Welding

This book covers advanced techniques, complex joints, and working with a variety of materials. Use TIG, MIG, oxy-acetylene, and stick welding techniques to fabricate body panels, frames, weld roll cages for strength and safety, welding subframe connectors chassis rigidity, repairing an aluminum frame, creating a seat support, welding in a floor pan, and many others. Softbound, 176 pages, 8-1/2" x 11" 450 color photos.

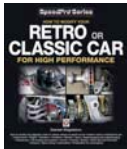

L1399 29.99 ea

DIGITAL LITERATURE, CDS & VIDEOS

Restoration Guides

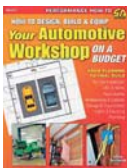

New!

How to Modify your Retro or Classic Car for High Performance

This book explains what 'high performance' really is, analyzing each part of the classic or retro car – the engine, transmission, brakes, etc. – and showing how it can be modified and improved for greater performance, both with period correct parts (where available), and modern components such as electronic ignition. It provides specific guidance and planning advice, examining the pros and cons, and road or motorsport suitability of each modification. Paperback, 144 pages, 8" x 10".

L42895 49.99 ea

How to Design, Build & Equip Your Automotive Workshop on a Budget

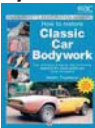

This book provides the necessary information as the hobbyist considers various tools, designs, installations, and products available for their automotive workshop. Many of the ideas presented for workbenches and storage can be implemented at low or no cost. There are step-by-step instructions for the most essential and practical procedures, including basic electrical wiring sufficient to connect up bank of lights, a compressor, a welder circuit as well as a procedure for routing power from your household electrical service panel and plumbing basic shop fixtures. 8-1/2" x 11", 144 pgs, 347 color photos, softbound.

L3207 24.99 ea

How to Restore Classic Car Bodywork

A book written for the home restorer who, until now, lacked the confidence to tackle bodywork. With specially devised techniques which don't rely on workshop plant, this work spans the gap between professional and amateur. The text is readable, the photos bright and the instruction clear. A real boon for the enthusiast. Paperback, 128 pages, 8" x 10".

L44110 49.99 ea

How to Keep Your Muscle Car Alive

When your muscle car was designed, the engineers never considered what it would take to make it last 30 to 40 years reliably. Luckily, this book can help turn your muscle car into a dependable driving machine. 150 color photos, 50 diagrams. Softbound, 8-1/4" x 10-5/8", 240 pgs. L11025 29.99 ea

New!

Hurst Equipped Factory Special Muscle Cars, Speed Parts & Legendary Race Cars

No other company or individual had as big an impact on so many aspects of the automotive industry as George Hurst. With an unquenchable desire to succeed, he started an automotive aftermarket parts business in his garage in Warminster, Pennsylvania. Through innovative products and marketing, Hurst Performance became the leader in high-performance shifters on the street and strip. The story of George Hurst and his companies have gone untold until now. Scores of interviews, in-depth research, and brilliant photographs make this the ultimate book on the subject. Hardbound, 160 pages, 8-1/2" x 11", 340 photos.

L1410 39.99 ea

Interior Manuals

Auto Upholstery & Interiors

A guide to performing basic upholstery and interior repairs on all kinds of automobiles written expressly for the home enthusiast. Includes helpful guides on how to replace headliners, lay carpet, repair dashboards, reupholster seat frames and more. Softbound, 8" x 10", 160 pages.

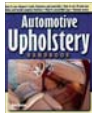

L1265 24.99 ea

Automotive Upholstery

The author teaches you how to sew like an expert, and avoid costly mistakes. Learn to recover and build seats, make headliners and carpets.

Materials are described with specific recommendations for vinyl, cloth, leather, Nimbus, panel board, etc. 230 pgs, softbound, 8-1/2" x 11", 350 b/w photos.

Folding Custom Windshield Heat Shield

The UVS100 Ultra-Violet Heat Shield helps reduce interior temperature and protect from damaging sun rays that come through the front windshield. One side is colored reflective fabric and the other side is finished in soft peltan felt. Both fabrics are laminated to a foam core board which acts as an insulator to help reduce heat build up. Heat Shields are easy to use. Produced using pre-sewn panels that quickly accordion-fold for handy storage. No hardware or hassles, simply fold and position across the windshield surface, then fold the sun visors down to hold the shield in place. Optional heat-shield storage bag is available in correct size for each.

Note: Specify color when ordering.

Gust Guard™ Cover Clamps

The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! Includes 4 adjustable hem/clamps, 2 "Quick Grip" friction locks and 2-7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

Easily find your missing vehicle or family member online in real time!

Portable A-GPS Locator

With the eZoom, you can locate your children, keep tabs on teen drivers, and track down stolen items. E-mail and text message alerts tell you the unit's location, movements, and speed. The durable, waterproof eZoom device is smaller than a credit card, weighs about 2 ounces, and uses a battery that lasts up to 21 days on a single charge.

Important: A-GPS tracking and cell phone/e-mail notifications require an annual service plan with Securix, which includes live customer support and a minimum one-year commitment.

Phantom Key Push Button Start

The Painless Phantom Key allows the total replacement of most ignition switches. Simply remove your existing ignition switch, install the backlit stainless push button and let the Phantom Key do all the work for you. When the key fob is more than 20 feet from your vehicle, the LED backlit push button switch blinks to indicate a security device and ward off potential thieves. Extra channels for functions such as trunk popper and door lock provide the added security of not having any key tumblers for a thief to pick. Available with white, blue or red backlit 22mm switch.

Note: No further discounts apply.

iStart™ Touch Starter System

Looking to make your classic more like late model rides? Install the iStart transponder system from Ron Francis Wiring! This system uses a security module with proximity sensors to disable the ignition switch and keep the doors locked until you come into range. Once inside, a touch-sensitive starter button lets you cycle through accessory, ignition, start/crank, and off modes just like a typical ignition switch. Skip directly to start/crank by simply holding the button!

Note: No further discounts apply. Main control box is 3-1/2" x 6". Security module is 3" x 4". iStart™ button requires 1-1/4" mounting hole.

TF900629

Remote Control Battery Disconnect

With this system, one click of the key fob completely shuts down your car's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. Just trigger it with the key fob as you walk away. For more security, the 4-channel system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4-channel package can handle up to 30 amps worth of electrical equipment.

Locking Hood Pin Set

This locking hood pin set can be used in place of standard hood pins to secure your hood with two barrel locks. Kit includes two chrome plated lock sets, gaskets and escutcheons, two fully threaded lock pins with nuts and two keys. For use in conjunction with stock hood latch mechanism.
S4062 15.99 set

PEDAL JACK

The Ultimate Anti-Theft System!

By immobilizing the brake pedal, the Pedal Jack makes it impossible to drive the vehicle. Federal Vehicle safety standards require brake pedals to be unbreakable. The Pedal Jack uses this fact to its advantage in providing tamper-proof security for your vehicle. Furthermore, the Pedal Jack itself is constructed using heavy duty, heat-treated tempered steel that is saw-proof and cannot be fractured by freon gas. It has a patented high-security lock that is protected by a tempered steel plate making it drill-proof. Each lock comes with three keys that cannot be duplicated. The Pedal Jack is fully adjustable to fit perfectly on cars, vans & light trucks.
UN001A 39.99 ea

CAR CARE PRODUCTS

Inspection Approval Stamps

- Achieve complete authenticity for your vehicle by applying inspection approval stamps!
- The first and only kit designed to put inspection marks on your undercarriage and hood!
- A complete set of stamps with specially formulated paint and crayons are included to truly complete your restoration!
- Basic or deluxe kits are available depending on your restoration requirements!

It's the details that make the difference!

You may have seen the letters P.T.B. on the firewall of your vehicle. The markings have specific meanings. We've offered a brief explanation to the most commonly asked questions concerning the replacement of these markings. The key between a good restoration and a great restoration is how much detail is put into it. Enter your restored vehicle in the show of your choice and maintain complete originality by obtaining the correct inspection markings. The judges will be impressed!

Questions and Answers

- Q. What does P.T.B. stand for?
 A. P.T.B. means P = Paint, T = Trim, B = Body.
 Q. Do they go in any certain order?
 A. No. They can be mixed up in any way you like. PTB, TBP, BTP, TPB, etc. The most common way is PTB.
 Q. Where do they go?
 A. PTB can be on either side of the firewall but the drivers side is the most common. They have also been seen on the side of the cowl behind the fender but it would be useless to put them there since they can't be seen.
 Q. What color should they be?
 A. They can be orange, light green, or a mixture of both. For example P=orange, T=light green, B=orange, or anyway you like. If your PTB is still intact before your restoration, do your new PTB's in the same colors. Not all vehicles included PTB's but when restoring yours we suggest you put them on.

Factory Inspection Marking Kits

Includes the correct P.T.B. stamps with specially formulated paint to give your vehicle the final inspection marks that the factory put on. Also included are the yellow and white crayons for marking your firewall with the factory inspection marks. A must for any true restoration.

Firewall and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084 5.99 pr

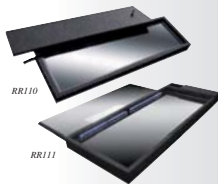

Frame Engine And Body Markers

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct car was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

OER Secret Formula Wash & Wax Products

OER® Super Foam Maxi Suds Car Wash

This high sudsing, biodegradable liquid is concentrated 200:1 for economy. Mix one cap full with 4-5 gallons of water for a daily paint shampoo. Washes away dirt, grease and road grime, and rinses easily. Its pH balanced formula will not harm previously applied wax or sealant. A concentrated liquid car wash that offers economy without sacrificing high performance cleaning ability.

Whether you use hard or soft water does not matter; Super Foam produces thick, rich suds that lift away dirt and oily road film. The unique Secret Formula offers unmatched lubricity to assure that particles glide gently across surface and are safely rinsed off. Formulated with OER® Super Foam Maxi Suds - high suds foaming action. Engineered to simply be the best wash & gloss at any price.

OER® "Secret Formula" DA Polish

This bodysop safe, 100% wax and silicone free polish will prepare any paint for the perfect sealant. Available in your choice of 2 grades to rapidly remove light scratches, swirls, key marks, fingernail scratches, and other imperfections. Each grade starts out as a polish then breaks down to a final step product that produces an exceptional shine. Use the Pro-Polish as a final product or a superior foundation for wax, sealant or glaze. To start out with a slightly more aggressive polish, step up to the medium grit product Scratch & Swirl B-Gone. For best results use with a DA or rotary polisher.

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay bar will remove these contaminants and leave the surface silky smooth with a mirror-like smooth finish. One premium professional duty bar is enough to do 8-10 vehicles. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Super elastic to remove harmful particles quickly and effectively. Acts as a magnet to foreign particles, literally pulling the paint-fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on. Using low quality clay lubes or cheap detail sprays will deteriorate your bar and lead to poor clay bar performance. Also beware of soapy water as a clay lube, detergent or surfactant based soaps will cause the clay to deteriorate. OER® Stick It Clay Lubricant is available in a 16 oz. bottle or pro-sized gallon.

OER® "Secret Formula" Acrylic Shine Glaze

Glaze is a polish without any cleaning properties. Glazes are used primarily to improve the shine brilliance and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the high brilliance of paints on a vehicle, glazes are also commonly used on show vehicles to achieve a "high-luster or wet-look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth and dust free. Your moldings WILL NOT turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with our OER® Secret Formula Pro-Polish first.

OER® DA Paint Sealant + 3X Carnauba

Just one coat of this sealant is all you need to protect your auto's finish for 6 to 8 months. OER® DA Paint Sealant's 3X Carnauba creates an anti-static, heat resistant protective seal against corrosive elements such as ultraviolet rays, salt water, acid rain and industrial pollutants. Can be applied in multiple layers to deepen the shine and level of protection without compromising your paint or clear coat. Coats your vehicle in a protective seal delivering a glossy, rich, liquid shimmer that leaps off the paint surface. Anti-static formula discourages the settling of new dust. Bring out the depth of the paint color while the shine enhancers leave a glass-like mirror finish.

CAR CARE PRODUCTS

Get The OER® Advantage... It's Almost Unfair!

OER® "Secret Formula" Waterless Wash

We care for the environment, and if you share the same feeling, try our OER® Secret Formula Waterless Wash... a unique product which can help you conserve water while keeping your car sparkling clean.

However, just because our product doesn't call for the use of water, by no means is it any less effective. In fact, because there is no water, it is much easier on the finish and other bodywork in general. It cleans, shines and protects all paints, clear coats, rubber, vinyl and plastic surfaces. It even softens and breaks down light surface contamination while it captures and reduces dirt particles, lifting them off the surface of your vehicle. For all its cleaning power, it won't strip or remove wax or sealants and delivers superior results in the sun or in the shade. It's inexpensive, provides outstanding results, and is so easy to use... It's almost unfair!

K89606 1 gallon..... 39.99 ea

OER® "Secret Formula" Stick-It Spray Wax

OER® Stick-It Spray Wax is a quick, easy-to-use spray wax. Spray on and wipe off! Our special high-lubricity secret formula actually encapsulates dust particles and enhances a deep luster without using water. This innovative product removes surface dust, fingerprints and smudges from showroom vehicles while leaving a clean glossy finish. Softens and breaks down light surface contamination while it captures and reduces dirt particles and lifts them off the surface of your vehicle. Will not strip or remove wax or sealants. Good product to upkeep shine on a show quality finish or as a final product to go over the vehicle after a good wax or sealant application. It's inexpensive, provides outstanding results, and is so easy to use... It's almost unfair!

OER® "Secret Formula" Headlight Restorer

OER® Secret Formula Headlight Restorer Professional Polish for plastic headlight lenses is not only affordable, but unlike most of the other headlight restorer products available in the market, is a professional formula that is remarkably easy to use. However, we do recommend that you apply it with the aid of a machine for best results. Over a period of time, the headlight lenses are bound to become yellowed and hazy. In such a situation, you have two options, spend hundreds of dollars for replacement, or try restoration. The latter is what our product is meant for. Save money! That's right, you no longer have to replace foggy headlights. In addition, you do not have to settle for exorbitantly-priced headlight restorer products available elsewhere. We offer better alternative for less. Have a safer ride. When restored, your headlights will deliver better luminance, yielding up to 30% more road visibility.

OER® Premium Carnauba Hard Paste Wax

This product is a favorite among professionals in the industry as well as automotive connoisseurs who insist on the finest quality. Made from 100% pure Brazilian Carnauba Wax, this hard paste wax leaves any finish with an exceptionally long-lasting, lustrous, clear shine. Apply by hand with a damp cloth. For pre-cleaned surfaces only. As hard as a brick, yet easy to apply and remove. For use on any color paint. Bonds with clean paint, waxes and sealants to offer a deeper richer shine and longer lasting protection. One coat is truly all you need, however layered it as many times as you want to achieve desired results. Long lasting 2-3 month protection. Formulated for successful use even in the sun! Works like a sun block to protect your paint and deliver an unparalleled show-car shine. The 5" round microfibrer applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and re-use. Microfibrer applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Premium Carnauba Pre-Softened Wax

OER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off: just wipe on in a circular motion, and take off with a microfibrer immediately. No need to wait for it to dry! Leaves no white haze at all- there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim- it won't leave white marks! There's no trade-off here: the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine. OER® Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfibrer applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and re-use. Microfibrer applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

OER® Secret Formula Professional Dressings

Finally you can get the level of shine you desire with a professional grade formula that is not greasy, will not drip, is dry to the touch and lasts far longer than any product sold in stores. Additionally, our products soak in to nourish and protect the surface while repelling dust and dirt. Your choice of matte finish for an original appearance or super shine for a high gloss look.

OER® Super Shine High Gloss Protectant

The only 100% super shine, dry to the touch dressing that works as well on vinyl, leather, rubber, and tires as it does on hard plastics, plastic bumpers and trim. A multi-surface shield for your vehicle's interior. Dual action premium dressing leaves surfaces dry to the touch and shining better than new, while protecting the surface against dirt and dust. Maintains a 100% dry, never greasy or oily, fresh texture on vinyl, leather, plastic, rubber, tires and more! Water based emulsion repels dirt and dust while blocking out harmful UV rays. Surfaces treated with OER® Secret Agent Shine look shiny longer and require less cleaning. Extra thick, pure emulsion will not separate or sling and is easy to apply with towel or sponge. Industry leading sealant that aids in protecting seats, steering wheels, door panels, and dashboards against the elements.

OER® Natural Shine Matte Finish Protectant

OER® Natural Shine Matte Finish Protectant is a water-based natural look dressing. It leaves surfaces supple and protected against damaging UV radiation. Like new matte finish lasts weeks and nicely complements a clean interior. Cleans, protects and beautifies in one easy step. Gently wipes away light traces of dirt while you apply. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading and peeling. Engineered to work like a lotion to soak into new vinyl or dry vinyl to aid in prolonging and strengthening the surface. Perfect for use on dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings and more. Available in your choice of 16 oz. bottle or professional size gallon jug.

OER® Extreme Shine Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet-mirror like finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust or powder. The most innovative metal polish ever. A 3-step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball & drill.

OER® "Secret Formula" Wheel & Tire Care

OER® Secret Formula Wheel & Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

OER® Acid Free Wheel & Tire Cleaner

Spray on and rinse off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent.

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and seals to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip.

What's more, OER® TNT gel lasts for many months, not days. Our exclusive non-streak, non-run and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

High Performance Car Care Products

Grit Guard insert
keeps the wash water
clean & scratch-free!

Grit Guard Wash System

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish-protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch-free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

Adjustable seat provides the support, leaving your feet free to control your movement

Floating, attached kneepads eliminate direct pressure on knees, circulation problems

Removable tray holds tools, small

Aluminum frame is elevated on 2" casters to eliminate pressure on toes, ankles and knees

Speed And Comfort For A Demanding Job!

This seat provides support while taking pressure off knees, ankles and toes. The caster wheels allow you to move freely, and the attached floating kneepads allow your knees to rest. Attached to the tool is a 7" x 15" removable tray which is great for holding tools, fasteners, small parts, etc. Weighing only 8 lbs., the tool is manufactured from 1/8" thick industrial strength aluminum. The comfortable webbing seat is covered with a soft leather-like cover and adjusts vertically 11.5" to 15.5" in height. It also adjusts 3" horizontally and tilts. Backed by a 1 year manufacturer's limited warranty. X99115 197.99 ea

The Kneepool

Manufactured from brittle dip anodized aircraft aluminum, The Kneepool features premium extruded aluminum wheel carriers with an increased tool carrying capacity. Includes soft yet durable pads for hours of use.

Buffing Pad Wash Bucket & Detailing Cart

Buffing/Polishing Pad Washer

When you hand wash pads, the backing pad gets wet, oversaturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. No more throwing away perfectly good pads because the backing pad has torn off. Your buffing pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system. The universal pad washer extracts contaminants trapped deep inside your buffing pads. No cross contamination worries when switching buffing compounds. O-ring seal lid provides water-tight portability. Wash and dry in under 30 seconds! K89747 134.99 ea

Detailing Cart

The universal detail cart organizes all of your most commonly used detailing products and makes them mobile! Store your compounds, polishes, sealants, waxes, cleaners, brushes, pads, towels and polishers. It also features a built in cutout for holding your wash bucket or pad washer. Overall Dimensions: 24" wide x 18" long x 40" high. Shelf clearance is 12".

Note: Cart only. Buckets and products shown are sold separately.

K89749 189.99 ea

car completely covered

Touchless Car Cover

Using an old-fashioned car cover after washing your car can promote the growth of mold and bacteria under the cover in those unreachable nooks and crannies resulting in a car that smells like mildew. No dust, no trapped moisture, and no chance for mold to grow. Just drive in and out to cover your car! Zippered sides allow access with the cover in place. There are no metal parts to corrode. Easy to set up and use with universal front and rear skirts. Fit sedans, wagons and coupes 196" or shorter. W34002 289.99 ea

Accessories For The Ultimate Classic Car Garage!

Protection For Your Garage Floor

The Clean Park Mat catches all of the fluids and debris that falls off your vehicle while it is parked. Made of heavy duty 20-mil vinyl with raised plastic edges, it can prevent gallons of liquid from spreading onto the garage floor.

Wall Guard

Hanging Door Guard

Two Ways To Prevent Costly Paint Chips

The Wall Guard attaches to your garage wall providing cushioned protection for both your car door and your wall. Comes complete with hardware needed to attach to drywall, studs, brick or concrete. Pre-drilled holes are 16 and 24" apart for fastening to stud. Measures 25" x 6-1/2". Our Hanging Door Guard is ideal for two car households. This rubber-like pad hangs from the rafters or drywall ceiling of your garage providing a protective barrier between both vehicles. You in effect protect two vehicles with one product. Hardware for hanging the device is included. Measures 25" x 6-1/2"

--------	----------------	----------

Wheel Checks

Wheel Checks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra-grip bottom, they each weigh 3 pounds. Set of 4.

Note: For increased safety, use Wheel Checks with all Race Ramp products.

RR109	6" L x 4" H x 5" W	59.99 set
-------	--------------------	-----------

Wheel Cribs

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing unobstructed access underneath the car. Each crib supports 1,500 pounds (3,000 pounds per set) and weighs only 5 pounds. Wheel Cribs also can be used for car display.

Note: For increased safety, use Wheel Checks with all Race Ramp products.

RR108	15" L x 10" H x 12" W	104.99 pr
-------	-----------------------	-----------

Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your car up 8" or 10" and hold up to 3,000 pounds per set while weighing only 10 pounds per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.

Note: For increased safety, use Wheel Checks with all Race Ramp products. *Shipped oversize.

Flatstoppers

This product helps to keep your tires from flat spotting during long periods of storage. Once the tires are set in the FlatStoppers, more of the bottom portion of the tire will be fully supported, thus dispersing the weight of the car more evenly onto the tire to prevent any flattening. FlatStoppers will not conduct heat or cold to your tires despite changing floor temperatures.

RR104	4 piece set	259.99 set
-------	-------------	------------

Wall Mounted Wheel/Tire Hanger

Free up space by getting wheels and tires off the floor! Each heavy duty powder coated hanger is approx. 21" long and mounts at a slight angle so wheels won't slide off.

Note: Each hanger will hold 2 wheels with tire inside.

BF1003	four 2 lb. pouches	35.99 set

OER® Rust Removal & Prevention

Remove Rust

OER® Dissolve Rust

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings

such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

K86110 quart..... 19.99 ea

dissolve

- **OER® Dissolve Rust** removes rust leaving a bare metal surface.

Treat Rust

OER® Etch Metal

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the surface. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

K86114 pint..... 19.99 ea

etch

- **OER® Etch Metal** removes light surface rust and leaves a coating that bonds paint to the metal surface.

OER® Convert Rust

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle or a spray gun. Brush - A common household paint brush or foam applicator. Spray Gun - HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

K86112 quart..... 29.99 ea

convert

- **OER® Convert Rust** turns rust into a black, paintable polymeric coating that's ready for primer or top coat.

Inhibit Rust

OER® Inhibit Rust

OER® Chemical Restoration Inhibit Rust is durable clear coating that protects any metal substrate from rust and corrosion for up to 7 years.

It provides a superior bond to treated and non treated surfaces such as undercarriage, suspension components, wheel wells, fenders, and more. Easy to use and safe for use on metal, stainless, copper, aluminum, and fiberglass. Withstands temperatures up to 190°F with two or more coats.

Clear formula eliminates the need to mask off areas and it cleans up easily with solvent cleaner. OER® Chemical Restoration Inhibit Rust also protects and provides added UV resistance to painted to powder coated surfaces. OER® Chemical Restoration Inhibit Rust protects against weathering, oxidation, pitting, salt spray, fuel, tar, road debris, and modest abrasion.

K86123 16 oz. aerosol..... 19.99 ea

glossy clear coat

- **OER® Inhibit Rust** bonds to any metal substrate completely sealing the area to starve rust and oxidation, to prevent pitting, weathering, abrasion, & protect against salt spray, fuel, tar, and road debris.

Your Choice of Gloss Black, Satin Black or Gloss Clear!

■ OER® Corrosion Barrier 77

bonds to bare or rusty metal. Can be brushed or sprayed on to permanently stop corrosion. Isolates metal from moisture and oxygen keeping rust in a suspended state and creates a finish that is unaffected by road salt, battery acid and other corrosives.

OER® Corrosion Barrier 77

After removing or treating rust on floors, subframes, or other under-car components, OER® Chemical Restoration Corrosion Barrier 77 is a single-component, high-solids, rust stopping paint specially formulated to bond to bare or rusted metal surfaces. The coating forms a rock hard finish that's flexible, non-porous and will not crack, chip, flake or peel. No hardeners or activators are needed. OER® Chemical Restoration Corrosion Barrier 77 is perfect for floors, subframes and other under-car panels. It is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives. Available in gloss or satin finish.

Spray-On Insulation

New!

Buy the Complete Set & Save!

BEFORE APPLICATION

AFTER APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire-rated
- Both are paintable
- Coverage is approx. 50 ft² gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500°F
- Interior temperature reduced by 30°F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture & rust
- Dampens annoying rattles, vibrations & road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300°F

Lizard Skin® Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkin® can be used as a one-part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road noise, while the Ceramic Insulation formula cools your vehicle up to 30°F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs. for four gallons. Insulating a vehicle has never been this easy, thanks to a custom-designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two-stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Aerosol Coatings

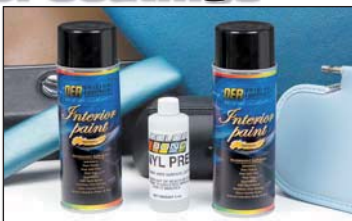

All new quart cans
now available!

OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers and actually penetrates and bonds at the molecular level to the surface to permanently seal in the color. Dries to the touch in 45 seconds and forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in your choice of convenient 12 oz. aerosol cans or quart cans for bigger jobs where a spray gun is required.

Note: Shipped within the continental U.S. only. Shipped ground only.

OER® Interior Surface Preparation Formulas

Before spray painting, make sure to properly prepare the surface for topcoat. We offer a variety of surface preparation products to ready reproduction dash pads, headrests, door panels, padded pillar moldings, plastic parts, metal components and other parts for the application of the topcoat.

Note: Shipped within the continental U.S. only. Shipped ground only.

OER® Metal Mimic FX Coatings

OER® Metal Mimic FX high performance coatings were developed to mimic the appearance of bare metal so that you can refresh and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color. Metal Mimic FX high performance coatings are available individually.

Note: Ships ground only. No air shipment.

K0090	Cast Iron Gray-High Temp.....	14.99 ea

OER® Factory Black Coatings

OER® factory black coatings

are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra-Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look. *Note: Ships ground only. No air shipment.*

Factory Black Set - Contains all four formulations

Buy the complete OER Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550	4 can set, all four sheens.....	59.99 set
--------	---------------------------------	-----------

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items like hood hinges, latches, carburetor parts, seat adjusters, pulleys, linkage nuts, bolts, washers, screws, clips, brackets and more. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540	16 oz. can.....	16.99 ea
K89590	case of six 16 oz. cans.....	89.99 cs

Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, leaf spring shackles, control arms, firewall, cowl, brake components, AC compressor or anywhere else a low gloss, but not quite flat black finish is desired.

K89541	16 oz. can.....	16.99 ea
K89592	case of six 16 oz. cans.....	89.99 cs

Semi Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the underside of the hood or on inner fender skirts, battery tray, radiator support, master cylinder, front control arms, brackets, pulleys, fan blade, smog pump tail housing, starter, power steering assembly, horns, sway bars, wiper motor assembly and suspension components or anywhere else a semi gloss black finish is desired.

K89542	16 oz. can.....	16.99 ea
K89593	case of six 16 oz. cans.....	89.99 cs

High Gloss Factory Black

A high gloss coating that is perfect for restoration of air cleaner assemblies, valve covers, radiator tanks and brackets, ignition coils, voltage regulator covers, suspension springs, wheel inserts, shock absorbers, rear axle housings, differential tubes, brake backing plates and any other parts where a durable gloss black finish is desired.

K89543	16 oz. can.....	16.99 ea
K89594	case of six 16 oz. cans.....	89.99 cs

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be topcoated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals & dirt. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods & decks, trunk interiors, section repainers, weld joints, rust holes or on chassis parts. Buy the case and save!
Note: Ships ground only. No air shipment.
 K89570 20 oz. can..... 16.99 ea
 K89669 case of six..... 79.99 cs

OER® PBE Guide Coat Black

A fast dry black coating which enables the user to quickly identify the high and low areas on primed surfaces. Now you can achieve a professional, ultra smooth finish in an easy to use aerosol can. Apply one light coat over primed area. When dry, block sand the area to reveal high spots and depressions in the primed surface. Smoother finish than a conventional primer alone. Reduced overspray and fast drying formulation will lightly cover nearly 40 square feet.
Note: Ships ground only. No air shipment.
 K89571 12 oz. can..... 7.99 ea

OER® Black Wrinkle Finish

A durable and long lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches or chips. Extremely durable formula resists oil, gas and grease. Can be used where harsh conditions break down conventional coatings. Comes in 16 oz. aerosol can. Great for valve covers, air cleaners, dash components and more. Buy the case and save!
Note: Ships ground only. No air shipment.
 K89548 16 oz. can..... 12.99 ea
 K89549 case of six..... 69.99 cs

OER® Hi-Temp Exhaust Coat

A fast drying coating designed to withstand temperatures up to 1200 degrees F on a continuous basis. Forms a porcelain-like bond after curing. Resists blistering, peeling, discoloration, or loss of adhesion. Excellent for headers, manifolds, mufflers, pipes and more.
Note: Ships ground only. No air shipment.

OER® High Solids Detail Coatings

A superior professional grade coating formulated for restorations where maximum performance is required. These high solid paints do not run or sag and provide twice the coverage of conventional aerosol enamels. Each 20 oz. can offers the highest solid content (40%) of any aerosol paint on the market for maximum coverage. One 20 oz. can of OER High Solids is equal to four 16 oz. cans of competing brands.
Note: Ships ground only. No air shipment.

OER® Professional Grade PBE Primers

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan sprayhead gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time. One 20 oz. can will cover as much area as four 16 oz. cans of a conventional low solids formulation.
Note: Ships ground only. No air shipment.

OER Self Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Dries to the touch in 10 minutes. Dry to sand or topcoat in 15 minutes. Available individually in 20 oz. cans or in case of six:

Individual 20 oz. Cans		
K89560	Gray.....	12.99 ea

K89660	Gray.....	69.99 cs
K89661	Black.....	69.99 cs
K89662	Red Oxide.....	69.99 cs

OER High Solids Sanding Primers

A superior professional grade primer formulated with 40% solids to provide twice the coverage of conventional aerosol primers. One 20 oz. can will cover as much area as four 16 oz. cans of a conventional low solids formulation. Fewer cans needed to complete the job to save you time and money. Protects against rust and corrosion. Provides excellent adhesion with single coat hiding capability and minimum overspray. Available individually in 20 oz. cans or in case of six.

Individual 20 oz. Cans		
K89575	Red Oxide.....	12.99 ea

Case of Six 20 oz. Cans		
K89664	Red Oxide.....	69.99 cs
K89665	Gray.....	69.99 cs

OER Zinc Phosphate Primers

Specifically formulated primer that is chromate-free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water-resistant coating that can be painted or left as is. Dries to the touch in 10 minutes. Available individually in 16 oz. cans or in case of six.

Individual 16 oz. Cans		
K89565	Green.....	14.99 ea
K89566	Yellow.....	14.99 ea
Case of Six 16 oz. Cans		
K89666	Green.....	79.99 cs
K89667	Yellow.....	79.99 cs

OER Spray Galv Weld-Thru Coating

A smooth, cold galvanizing compound that chemically bonds with bare steel and forms an extremely rust-resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag-free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld and will retain its rust-preventative properties. Available individually in 16 oz. cans or in case of six.

Individual 16 oz. Cans

Case of Six 16 oz. Cans		
K89668	OER Spray Galv.....	89.99 cs

OER® Aerosol Coatings

OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating.

Note: Ships ground only. No air shipment.
K89540 factory black..... 16.99 ea
K89520 dark gray..... 16.99 ea

OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER Clear Enamel will enhance the appearance of engine components, wheels, suspension components and other painted and unpainted surfaces where a gloss clear topcoat is desired. Withstands rust, gas, oil grease, salt and intermittent temperatures up to 400 degrees F.

Note: Ships ground only. No air shipment.
K89265 gloss clear..... 16.99 ea

Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using it's unique "lock-on" device, simply snap-it on and SPRAY! You'll experience better control for applying steady even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays and more! Universal fit for most aerosols.

Reproduction oil filter decal for all 1960-65 Dodge and Plymouth models with a spin on style oil filter.

MD4070 1960-65..... 4.99 ea

Underhood Decals

1968-76 Emission Decals

These decals were applied in various locations, most commonly on the driver's side inner fender. This decal denoted the engine tuning specifications, instructions and emission information (when applicable). These quality reproduction decals feature the original part number and correct color for an authentic appearance. Location of decal may vary depending on year and model of vehicle. OE numbers are for cross reference purposes only, use Classic Industries item numbers to order.

EB13

1970-71 Emergency Brake Cable Tags

These tags are located approximately 12 to 14 inches down the cable from where the brake cable exits the drum backing plate. Sold in pairs.

Note: There is no conclusive evidence to determine whether or not 1970 vehicles came from the factory with these cable tags in place. The tags were on the cables that were sold by Chrysler (factory/service replacements) in the early 1970's.

Decal Application Cleaner, Gel & UV Protectant

Don't make an expensive mistake by trying to put on your decals the hard way! Help ensure a safe application by a proper preparation of the vehicles painted surface with **Pre-App®** surface cleaner. The **Slide-on®** Application Gel is specially formulated for applying automotive stripe kits by eliminating air bubbles and helps temporarily overcome the tack of pressure sensitive materials during installation. **Slide-over® UV Protectant** was designed to give an optically enhanced appearance by repelling dirt, oils, tree sap, smudges and stains. **Application Gel and UV Protectant Sold as A Kit, Buy Both and Save!**

Plastic Detailing Scraper

This 4 side edge, 4 different angle corner plastic razor blade scraper can be used for many detailing jobs. For use on most surfaces, excellent for removing unwanted decals, tags, pin stripes, tar, sap, or adhesive. For best results spray contained area with appropriate liquid remover and gently scrape away.

Reproduction Glass

Restorer's Choice or Standard Replacement?

Classic Industries® offers two lines of auto glass to suit the needs of your Mopar. For glass that matches the shape and contours of the originals, our Standard

Replacement line of glass is the economical way to make your Mopar look like new. For glass that goes beyond simple replacement, our officially licensed Restorer's Choice auto glass adds further authenticity in the form of correct etched Pentastar logos and specification notes (without date coding). Restorer's Choice is available as a complete set so you can "Buy the Set and Save!". Both versions are offered in your choice of tinted or clear glass.

detail of Pentastar markings

1968-76 Restorer's Choice Glass Set

Restorer's Choice glass sets for 1968-76 models are officially licensed by Mopar, feature Pentastar markings and include windshield, back window, door glass, quarter glass and vent glass when applicable.

Important: When ordering glass for A-Body models, make sure the door glass has the correct number of holes for the window track.

Note: Shipped truck freight.

Multi Wedge Prying & Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so

they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. Save time and money by getting the job done quickly without having to repair nicks, dents, or scratches caused by using the wrong tool. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

Soft Prying and Scraping Tools

Available in 33 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove and the heavy duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough not to damage. With 7 tips to choose from: 3 pry bars, 2 wedge tools, a wedge puller and a sticker/gasket scraper, they can do various interior and exterior automotive jobs without the damage that metal tools can do. No chipping paint or tearing fabric. No toolbox should be without these great tools.

LED Replacement Light Bulbs

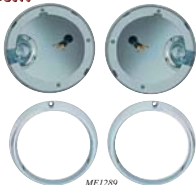

Brighten up your tail and backup lamps with these direct replacement LED bulbs. LED lights shine up to 3 times brighter than conventional incandescent bulbs, plus they last longer, don't get hot and require fewer amps. LED lighting is also safer because they are brighter and they light up much quicker than conventional bulbs. LEDs flash on almost instantly, in approximately .05 seconds, giving the driver behind you valuable reaction time. These are available in the common dual contact 1157 tail/stop lamp bulb and the single contact 1156 backup lamp bulb.

1968 Charger LED Tail Lamp

Give your 1968 Charger some modern style with these sleek LED tail lamps. These are direct replacements for the original bulbs and install with no wiring or splicing; just plug into the factory bulb socket and enjoy bright, crisp modern lighting. Each lens features the correct center accent and 25 LEDs*. Sold individually, four required per vehicle.

MB1756 1968..... 34.99 ea

DIGITAL

1967-74 LED Tail Lamps

These LED replacement tail lamp fits perfectly behind your factory lens and bezel, respond faster than conventional bulbs, and are brighter than DOT requirements.* Using high intensity, wide-angle LEDs, these lamps splice into the rear wire harness to increase visibility and add a modern touch to your Mopar. The circuit boards are designed to use the maximum housing area with LEDs arranged to compliment original lens facets for optimal light output. Includes all installation hardware. One set does both sides.

Note: Lens, housings and bezels not included.

LED Lamp Flashers

Due to the lower current draw of LED lamps, these electronic 12 volt flashers are recommended for use on vehicles equipped with LED lamps. Available in 20 amp or a 25 amp. The 20 amp is available in two or three prong type.

Important: If installing LEDs on both the front and rear, two flashers are usually required.

New!

The "TattleTale" Pulsing Brake Light

Designed to get attention, an inertia switch (which is adjustable by you, using supplied installation bracket) detects panic stop situations and rewrites the brake signal through an electronic pulsator. Under normal braking situations the brake lights react normally, but when hard braking occurs, the lights pulse rapidly, alerting other drivers of a panic stop. This system is great for 3rd brake lights and is for use with systems up to 60 watts (5 amps). Simple and easy to install. Includes installation instructions. T7095..... 94.99 ea

Tail Lamp Gaskets/Back-Up Lamps

Billet Aluminum Hood Pin Sets

You've gone to great lengths to source the highest quality and best looking parts for your classic Mopar, so why settle for cheap, imported hood pins to finish off such a highly-visible part of your car? These US-made, 6061-T6 aluminum hood pin and scuff plate sets will help your car stand out in a crowd and complement any style hood. The billet scuff plates are available in your choice of machined, polished, or powder-coated black finish. All hood pin sets include 6" aluminum pins and stainless steel hardware (black sets also include black oxide screws,) so you'll never have to worry about rust.

Note: Late-model applications may require angled-hood scuff plates as the hood may be sloped directly above the radiator support.

Fresh Air Components

1969-70 B-Body N96 Fresh Air Duct Assembly

Replace the duct assembly on 1969-70 B-Body vehicles equipped with the N96 fresh air hood option. Commonly referred to as the "Ram Charger" hood on 1969-70 Coronet, Super Bee models or the "Air Grabber" hood on 1969 GTX and Road Runner models, these hoods were optional on all models with a single four-barrel and standard on 426 HEMI equipped cars. Each includes the correct heavy duty fiberglass duct assembly for your particular model, mounting rivets, under-hood cable, clips, vent seals and decals. Applications are available for all models equipped with N96 fresh air hood option.

1971-72 Air Grabber Hood/Bubble Door

Reproduction of the Air Grabber Center hood, hood bubble and the Air Grabber door for 1971-72 Plymouth Road Runner models. Manufactured from fiberglass, in the correct size and shape as original, this hood has all the mounting plates installed for the hinges and latch in the stock mounting locations. The long center hood bubble and door are also made of fiberglass and will give your car that cool factory look. The Air Grabber door can be used to replace a functional door or add on for the Air Grabber look.

Important: The hole for the hood bubble is not pre-cut in the hood from the factory and must be cut by the customer if desired. Bubble to be glued (epoxy) to the hood.

Note: *Shipped track freight **Shipped overseas.

1970-72 B-Body N96 Lower Door Components

The N96 hood utilized a large duct commonly referred to as an "air box" that bolted beneath the underside of the hood to route the air into the air cleaner assembly. At the front of this duct was the lower door, commonly referred to as the "flapper" which opened and closed by the way of a vacuum controlled actuator. These components will replace your originals to get your fresh air system operating properly again. Door Assembly includes flapper door, shaft, door spring, end caps, and all linkage and clips. Vacuum actuator hardware not included with assembly.

Fender & Inner Fender

1972-74 Challenger Fender Scoop Insert

Reproduction fender scoop insert for 1972-74 Challenger Rallye models. Manufactured in injection molded ABS plastic with correct detail and mounts behind the metal scoop as original.

ME861005 1972-74..... 85.99 pr

1971 'Cuda Fender Gill Patch Panels

Replacement fender gill patch panels for 1971 'Cuda models. These panels will allow you to install any original or reproduction style fender ornaments without having to replace the entire fender. Sold as a pair.

ME1830 1971..... 104.99 pr

1968-74 Inner Fenders

Factory-style replacement inner fender for various 1966-74 models. One of the most critical and important sheet metal panels is the front fender skirt or inner fender. These panels provide critical support for the fenders and keep water and other road hazards out of the engine bay. Because of the location of these panels, they take abuse from the road like rocks, salt and other hazards and often rust out as a result. Each panel is stamped to original factory specifications. Your choice of our Restorer's Choice panel, officially licensed by Mopar, manufactured in OE-gauge steel featuring all original contours and details or our standard replacement for the car builder on a budget. Comes finished in black EDP coating to prevent rust and ready to prep and paint to your desired color.

Note: Shipped double oversize.

Important Information Before Attempting To Install Sheet Metal!

Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

OER ORIGINAL EQUIPMENT REPRODUCTION

Classic INDUSTRIES
Parts & Accessories

Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel mis-alignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

Classic Industries® The Restorers Choice™

Count on the Classic Industries® Restorers Choice symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorers Choice™ logo. The Classic Industries® symbol is your assurance of quality.

Made in the USA

Look for the "Made in the USA" logo for products that are proudly manufactured in the United States.

MOPAR Authentic Restoration Products

Classic Industries® advertises a variety of products with the above MOPAR Authentic Restoration Product logo. This logo indicates that the product is manufactured to MOPAR's specifications and licensed by Chrysler Group LLC as a MOPAR Authentic Restoration Product. Such products represent a prestigious class of restoration parts that are nearly identical to the original products offered by MOPAR in the 1960's and 1970's. Rocker Repair Panels

MM1161B

1967-76 Outer Rockers

MM1161A

Reproduction outer rocker panel for various 1967-76 models. Installed between the front and rear wheel wells, the rocker panels are often damaged or rust out over the years. Replace them with these all new outer rockers. Your choice of our Restorer's Choice panel, officially licensed by Mopar, manufactured in OE-gauge steel featuring all original contours and details or our standard replacement for the car builder on a budget. Comes finished in black EDP coating to prevent rust and is ready to prep and paint to your desired color.

Note: Shipped double oversize.

1968-72 B-Body Quarter Panels

Reproduction quarter panels for various 1967-76 B-Body models. Your choice of our Restorer's Choice panel, officially licensed by Mopar, manufactured in OE-gauge steel featuring all original contours and details of our standard replacement for the car builder on a budget. Each panel features pre-cut fuel and side marker openings when applicable. These quarter panels do not feature the door jamb area since these were not originally made that way by Chrysler. Comes finished in semi-flat black EDI coating.

Important: Quarter panels are manufactured to factory specifications and as such they do not include the door jamb area.
Note: Shipped truck freight.

1966-76 Inner Wheelhouse Panels

Replacement inner wheelhouse panels for various 1966-76 Mopar models. This is the inner section of the wheelhouse assembly which installs between the trunk area and outer wheelhouse panel. This panel mates with the outer wheelhouse forming the complete enclosure.

Your choice of our Restorer's Choice panel, officially licensed by Mopar, manufactured in OE-gauge steel featuring all original contours and details or our standard replacement for the car builder on a budget. Comes finished in black EDP coating to prevent rust.

Note: Shipped double oversize.

BODY COMPONENTS

Convertible Tops

OEM Quality Tops for Your Convertible!

- Includes a Full 36-Month Warranty!
- Correct Pinpoint Material for Early Models and Crush Material for Late Models.

1962-71 Convertible Tops

Each convertible top is manufactured to original specifications with the correct grain material for the specified vehicle. Early models feature the pinpoint material and late models feature the crush material as original. Every top includes installation instructions along with warranty details. These tops are available in two exterior color options, white (01) and black (02). Both colors feature black as the interior color. Please add numerical color code to the part number when ordering. These convertible tops are guaranteed against peeling, leaking, separating or shrinking for three full years from date of purchase. Detailed instructions are included with each convertible top, though we recommend professional installation due to variations in the convertible top frame assembly. The frame sometimes may need to be adjusted for the top to fit properly. Made in USA.

Note: Convertible tops do not include the rear window; sold separately.

Convertible Top Boots

Replacement top boots for the most discerning project. These top boots are what you want to order to achieve the highest quality original look. Each boot attaches like original and is manufactured using factory style material. Available in an assortment of colors to match the interior styling material. 1963-65 boots use Bison grain, 1966-68 use Cologne grain, 1969-71 use Coachman grain (except 1969 Dart GT models, which use Dakota grain). Made in USA.

Important: Top boot storage bag must be purchased separately.
Note: *Uses non-original center seam. **No further discounts apply.

1962-74 A, B & E-Body Floor Pans

Don't mess around with patching your floor one section at a time. If the floor pan in your A, B or E-Body is rusted in multiple places, simply replace the whole pan at one time. Our quality, one-piece floor pans offer less hassle for installation and no patched seams for a cleaner restoration, greater strength and durability than a patchwork of sheet metal pieces possibly can. Plus, save hours of costly body shop labor when welding in one panel instead of many. Available in your choice of Restorer's Choice pans, manufactured in OE-gauge steel featuring all original contours and details or our standard replacement for the car builder on a budget. For years, restorers have only had partial floor pans to use on rusted areas, but no longer! Comes finished in semi-flat black EDP coating to prevent rust.

Note: Shipped truck freight.

1960-76 Torsion Mount Frame Repair Cap

Torsion bar cross members often trap mud and dirt inside and it weakens them, causing them to rust out from the inside out, meaning the torsion bar no longer supports the chassis and the suspension is severely compromised. This frame repair cap will remedy this problem.

MMS176

1960-76 A-Body Rear Spring Mounts

This rear spring mount for A-Body models is a replacement for a commonly rusted area. The rear wheel kicks up debris into this area where it is trapped and causes the mount to deteriorate, moving the leaf spring inside the trunk. Remove the existing spring box and any rust on the frame, and install this mount over the existing frame rail. This spring mount runs approximately 20" forward of the rear crossmember.

1960-76 Torque Boxes

At the factory, torque boxes were known as "Hemi boxes" or "double floor plates". These resist torsional flex, and when combined with subframe connectors, add 20%+ rigidity to the framework. These are not factory-stamped pieces for show car points, these are heavy-duty, performance-oriented structural enhancements. Made in the USA.

Silicone Wiper Blades

Superior wiping in the harshest of weather conditions. Silicone blades will remain soft and flexible even after extended exposure to ozone, ultraviolet rays, ice, snow and heat. Silicone can handle grueling temperatures even as high as +350° F. Will not deteriorate, even after years of use. Change out your blades and when the rain begins to fall, you will have confidence that your silicone blades will be ready.

Body Tools

Soft Duty - Delicate prying or wedging
Med. Duty - Sturdy prying or wedging
Heavy Duty - Very strong and durable

Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

7 Piece Prying and Wedging Tools

Multi Wedge Prying & Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs. MW01 orange wedges, soft-set of 3 12.99 set
 MW02 black wedges, hard-set of 3 13.99 set
 MW03 both wedges, soft&hard (set of 6) 19.99 set
 MW04 jumbo wedge 12.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the car has been repainted. For instance, you can take measurements of about 4.5 mill around the car but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437	84.99 ea
--------	----------

Eliminate Rust Remover

Before touching up paint, you first must remove all rust, wax and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437	9.99 ea

X9862	3/4" x 1"	4.99 ea
Cleco Pliers		
X9863	Cleco pliers	10.99 ea

Deluxe 6" Dent Puller

Suction disc is 6" in diameter with steel handle and steel support plates for strong pull. Works on nearly every dent where the sheet metal has not been creased.

X2761	29.99 ea
-------	----------

Plugweld Pliers

These plugweld pliers make plug welding fast and easy. Panels won't separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230	pliers	36.99 ea
S23231	replacement pad	6.99 ea

Visegrip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the car. The added feature of "Vise-Grip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

13229	1/2" wide jaw	29.99 ea
X9853	1" wide jaw	39.99 ea

Seam Buster HD Clinks

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

S20015	straight	29.99 ea
S20016	90° angle	32.99 ea
S20017	air hammer	49.99 ea

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Sheet Metal Tools

Blair Cutter

Blaircutters provide fast, accurate holes in materials up to 3/16" thick. Unlike hole saws, that rip and tear through the material, these cutters provide a quality, virtually burr-free hole. Available in seven sizes for 1/4" and larger drill chucks. Spring loaded pilot "pops" the slug from the cutter. Buy the set and save! Set includes all cutters, arbor and 3 extra pilots.

- Note: D.O.C. = depth of cut. Arbors and Cutters sold separately.*

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life than today's high-strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip-proof or 2 standard pilots.

Blair Stick Lubricant

Convenient 1.68 oz. tube is ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and nonferrous metals to increase tool life, improve cutting performance and easier slug removal.

- 11750 1.68 oz..... 5.99 ea

Blair Hole Cutter

Holecutters are not hole saws. They can produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have a dramatically extended tool life. Holecutters produce holes from 1/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drilled chucks. Holecutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holecutter set includes: arbor, hex washer, extra pilot & the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2" & 2-1/2".

Rotabroach Cutter Sets

Rotabroach annular cutters are ideal for sheet metal fabrication, Painless Dent Removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip-proof pilots which eliminate pre-drilling operations. Each set includes: arbor, hex wrench, center punch, extra pilot and a variety of cutters as listed.

- Note: D.O.C. = depth of cut. Arbors and cutters sold separately.*

1965-76 Power Steering Pumps

Remanufactured Units

Remanufactured power steering pumps for 1965-76 Mopar A-Body, B-Body and E-Body models. Thoroughly reconditioned, these pumps are carefully inspected, rebuilt and restored to OEM appearance and function! Resources are original configuration for complete authenticity! Careful attention is paid to reservoir reconditioning to ensure an OE appearance. This is a good choice for restorations when an original locking reservoir is desired. No core charge. **NO CORE CHARGE REQUIRED!**

1969-74 OE Style **OEM AUTHORIZED** Power Steering Pump **New!**

Brand New Units

Brand-New OER Authorized® power steering pumps have been manufactured to meet the highest OEM standards of quality while maintaining an authentic original style appearance. This brand new power steering pump features a reservoir in the correct original configuration, with the proper return fitting and clogging. This not only ensures authenticity, but makes installation quick and easy. Also included with each pump is the shaft nut and replacement style power steering cap. **NO CORE CHARGE REQUIRED!**

Note: Pressure fittings and pulley are not included.

Power Steering Parts

MD2604

MD2196

1964-69 TRW Power Steering Brackets

TRW power steering brackets for 1964-69 small blocks, big block and Hemi engines. These are for non-AC applications. To correctly use these brackets, the big block and Hemi TRW pump must have a reservoir body to rear pulley face distance of 1-3/4". Includes 3 OE correct 5/16"-18 hex conic stems bolts for pump to bracket attachment and the bolt to mount the assembly to the water pump housing. Extra washer provided for adjusting slot bolt. Brackets are powder coated in low gloss black for better appearance and longer life.

1969-76 Saginaw Power Steering Brackets

Saginaw power steering mounting brackets for 1969-76 small block and big block engines with or without AC. These factory-style replacement power steering pump brackets include correct OE-style fasteners to mount the pump to the brackets and to mount the assembly to the water pump housing. An extra washer is also provided for the water pump housing bolt in the adjusting slot. These brackets come powder coated black for long life and a great appearance.

*Note: *For models with aluminum water pump.*

1962-72 Power Steering Gear Boxes

Replace your worn power steering box! These remanufactured power steering boxes are given a cool dip finish for rust protection before receiving new O-rings and lip seals and being hydraulically tested to guarantee leak free performance. These gear boxes install and function as original but may differ in appearance. Pitman arm is included.

Important: No core exchange required.
Note: The steering system must be flushed and replaced with OE recommended fluid. Hoses should be inspected and replaced if they have been in use for more than 5 years.

AUTHENTIC
REPRODUCTION

Authentic Style Power Steering Belts

Are your belts showing signs of deterioration including cracking and dry rot? If so, it's time to replace these potentially troublesome parts with our original style reproduction belts. Officially licensed by Mopar, they feature indented printing of the correct Mopar part numbers, manufacturer's code, appropriate date code, Chrysler Pentastar logo and they are cloth wrapped. These authentic looking reproductions are the finishing touch to any serious restoration and a great way to gain points over your car show competitors. You don't want something as simple as a worn or incorrect belt to keep you from winning your next trophy, and you certainly don't want to be left stranded on the way to your next show. Officially licensed by Mopar!

1968-74 Rack And Pinion Conversion Steering Systems

Installing this rack and pinion will bring a 1968-74 Mopar B or E-Body steering system up to modern day standards of control and response. Designed specifically to match the front suspension of the B or E-Body platform to minimize bump steer. Each set includes power rack and pinion, pump kit, steering shaft kit and brackets and hardware for mounting and steering column modification. Will work with the stock steering column. All rack and pinions are pre-assembled and centered for easy installation. Available powder coated black or chrome.

Important: Factory exhaust manifolds or B-7s kits are recommended for these kits; other hangers may work but are not guaranteed to work with this kit.
Note: Shipped double oversize.

Steering Components

Is your steering loose or front end out of alignment? Parts of your steering system may be worn out or damaged. Now you can rebuild your 1962-76 Mopar A, B or E-Body's steering linkage system with your choice of inexpensive aftermarket replacement parts or superior

premium replacement parts, both of which meet or exceed OE quality standards. Whether it's loose tie rod ends, a seized-up idler arm, or a worn out steering gear box, we carry the parts you need to get your Mopar back on the road!

1962-76 Steering Components

Choose part numbers ending in (A) for standard service replacement parts, or part numbers ending in (B) for Restorer's Choice components, where available.

Outer Tie Rod Ends

Two outer tie rods are required per vehicle.

1966-76 Manual Steering Box

Brand new Mopar replacement manual steering box for 1966-76 A, B, and E-Body models manufactured by Flaming River*. Here is the answer to that sloppy old manual steering box. This small sector steel box features stronger parts than the original plus a quicker ratio (16:1). This unit will give you quicker turning and a feeling of more control of your Mopar. This steering box has a smaller sector and a smaller pitman arm may be required.

Note: No further discounts apply.

Mopar B & E Body Ball Joint Removal Tool

This 1/2" drive ball joint tool makes replacing ball joints on your B or E-Body Mopar a breeze.

Note: No further discounts apply.

H32102 B & E-Body..... 31.99 ea

1966-76 Quick Ratio Idler & Pitman Arm

This quick ratio idler and pitman arm set from Hotchkis upgrades the steering on your A, B, or E-Body from the factory 16:1 ratio to a quick, responsive 12:1 ratio. This simple, bolt-on upgrade brings your steering to the performance level of the legendary AAR Cuda and TA Challengers. The idler and pitman arm feature forged, heat-treated housings and ball studs for durability and are finished in black e-coat to prevent corrosion. This is a must-have upgrade for any performance car. Made in the USA.

Important: May not clear some aftermarket headers. 1967-72 A-body models require 1973-76 A-body center link and spindles.

Note: No further discounts apply.

1960-76 Adjustable Strut Rods

When using polyurethane bushings on stock strut rods, factory caster settings are often lost. Instead, use these adjustable strut rods for A, B, or E-Body models, CNC machined from 3/4", 1144 stress relieved, cold drawn steel with a tensile strength in excess of 100,000 psi, then black oxide coated for rust protection. Stock in appearance; these can be installed as purchased, painted or powder coated. Includes strut rods, custom polyurethane bushings, hardware, and instructions. Made in the USA.

MM3068	1970-74	E-Body	249.99 pr

1963-74 A-Body Disc Brake Conversion Tubular Upper Control Arm Set

These tubular upper control arm sets are designed for installing B and E-Body disc brakes on your A-Body Mopar. They are made from 1-1/4", 120" wall D.O.M. tubing. The pivot barrels are thick 1-1/2" .188" wall D.O.M. tubing to eliminate distortion from welding and hard use. The bushings are made from self-lubricating non-squeak plastic that works at temperatures in excess of 400°F and will outlast any rubber or urethane. The sleeves are zinc plated for lasting performance, and ball joints are included.

--------	---------	--------	------------

1963-74 B & E-Body Upper Control Arms

These tubular upper control arms are designed to bolt-on to the upper factory mount for B and E-Body models. They are made from 1-1/4", 120" wall D.O.M. tubing. The pivot barrels are thick 1-1/2" .188" wall D.O.M. tubing to eliminate distortion from welding and hard use. The bushings are self-lubricating non-squeak plastic that works at temperatures in excess of 400°F and will outlast any rubber or urethane. The sleeves are zinc plated for lasting performance, and ball joints are included. Sold in pairs.

--------	---------	------------	-----------

1962-74 B & E-Body Upper Control Arms

Upper control arms for 1962-72 B-Body and 1970-74 E-Body models. Why take the time to press out those worn bushings or ball joints when you can replace them with new replacement upper control arms that include new bushings, ball joints and new metal. This will help improve your handling but still retain an original appearance.

1967-76 Hotchkis Tubular Upper Control Arms

Install these geometry-corrected Hotchkis Tubular Upper A-Arms on your 1966-76 Mopar and drastically improve handling and control. These 100% TIG welded, bolt-on arms offer an improved camber curve, and increased caster. Upper arms feature TIG welded 1-1/8" high-strength tubing with Laser cut reinforcement gussets, high quality, 5/8" high articulation rod ends and premium ball joints and Laser cut, CNC bent in relocation bracket corrects excessive caster gain. Control arms are finished in a durable, "Nickel Look" powder coat finish. Made in USA.

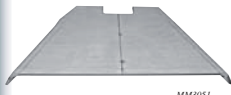

Important: 1967-72 A-Body can use PIN H1112 if wishing to upgrade to 1975-76 "big ball joint" spindles.

Note: No further discounts apply.

1963-76 Hellwig Motorsports Sway Bars

MB6009

Hellwig front sway bars feature 3-point adjustment to tailor-fit your suspension and are made from high-strength tubular DOM steel for maximum performance with half the weight. Rear sway bars made from heat-treated 4140 chromoly spring steel. These sway bars utilize high-strength polyurethane bushings, heavy-duty zinc plated hardware, and feature a durable powdercoated finish. Larger-than-stock diameters optimize handling and reduce body roll.
Note: Rear Sway Bar requires drilling. Shipped overseas.

1966-74 Hotchkis Sway Bars

Improve the handling and straight line performance of your Mopar with Hotchkis Sport Suspension stabilizer bars. Specifically tuned and tested for each application to offer a balanced feel. Hotchkis Sport Suspension stabilizer bars offer increased roll stiffness previously unavailable for the classic Mopar. Both stock vehicles and those modified with wider tires and high horsepower engines will benefit from this increased stability. Featuring the latest, lightweight tubular design, these bars are finished in gloss black powder coat, and include easy to lubricate bushings, mounts, and end links, and all necessary hardware for a complete installation.

Important: A-Body models require minor welding. B-Body models may require minor frame drilling in rear.

*Note: *Lower mounts for vehicles without original sway bar mounts. Shipped overseas. No further discounts apply.*

ADJUST-A-LINK

1962-76 Hyper-Flex Poly Bushing Sets

These Energy Suspension bushing sets make it easy to replace worn rubber components and upgrade your handling. These sets contain the major suspension bushing components. Mixing standard rubber bushings with polyurethane bushings is not recommended, so, if you are going to replace any of the suspension bushings, then replace them all. Available in black or red. Made in USA.
Note: 1966-76 sets do not include sway bar bushings due to the various bar sizes.

Adjustable Polyurethane End Links

Handling and stability just got a lot easier with Energy's Adjust-A-Link. The end links include two different height bushings which enable you to mix and match to obtain the optimal length. Each set number offers 1/2" of adjustment in 1/4" increments. Energy's Adjust-A-Link will accommodate lengths of 2-3/4" to 6-3/8" with no coverage gaps. Made in USA.

1968-74 B & E-Body Ride Tech® Level 2 Suspension System

Enjoy suspension adjustability with Ride Tech's full suspension system for 1968-70 B-body and 1970-74 E-body models. In a matter of seconds, you can adjust your ride height and spring rate for maximum traction at the drag strip, or tighten up the suspension to handle a road course. For the front end of your Mopar, you get a pair of Strong-Arm tubular upper control arms and adjustable ShockWave air springs, which work in conjunction with the original torsion bar suspension. The rear suspension includes a pair of adjustable ShockWave air springs and a bolt-in 4-link AirBar system that replaces the factory leaf springs and upgrades the suspension geometry for better handling and launching. And to manage your Ride Tech suspension, a 5 gallon dual compressor Ride-Pro™ compressor system provides 4 way digital control, and allows 3 system air pressure presets to provide accurate adjustments with the touch of a button. Made in USA.

1966-74 Hotchkis Total Vehicle System (TVS)

Hotchkis' TVS (Total Vehicle System) kits contain engineered and tuned components that work together as a complete suspension system to maximize your vehicle's handling. Avoid the poor ride quality and disappointing handling that often results from combining a mixture of components from multiple manufacturers. These packages have passed rigorous in-house testing procedures. Designed for the driving enthusiast who demands the ultimate in vehicle handling and performance without sacrificing ride comfort! Balanced handling is achieved using geometry corrected upper control arms, adjustable strut rods, adjustable steering rods, front and rear sway bars, and geometry corrected rear leaf springs. The TVS works with your stock K-member. Made in USA.

Note: Shipped track freight. No further discounts apply.

1966-76 Hotchkis Weld-In Sub-Frame Connectors

One of the most important additions to your high performance classic Mopar is installing sub-frame connectors. Hotchkis Performance class frame connectors bridge the gap between the front frame rails and the rear frame rails, thus keeping the chassis rigid and reducing flex to improve performance. Fabricated from 1-1/2" x 2-1/2" rectangular steel, MIG welded and powder coated gloss black. Installation does not require modifications or cutting of the floor pan; but does require welding. These sub-frame connectors are an absolute must on a high performance 340, Hemi, or 440 equipped Mopar. Made in USA.

STEERING, SUSPENSION, REAR END & BRAKES

AlterKtion Front Suspensions Handles the Competition!

Unrivaled Performance on Any Road Surface

From bumpy, pothole-lined streets to winding mountain roads and silky-smooth racetracks, Reilly Motorsports has designed the AlterKtion front suspension

Featured on Classic Industries' "Twisted" Duster

to perform in all conditions. The highest quality manufacturing and design goes into every suspension system. The result is a weight-saving performance package that bolts in without welding, providing adjustability and even allowing clearance for engine, oil pan, exhaust, and steering columns. Made in the USA.

MD47232

Tubular Control Arms

AlterKtion tubular control arms use standard B-Body screw-in upper ball joints. The lower control arm features a B7 steel through-shaft - an AlterKtion exclusive.

Greaseable Bushings

Lower control arm/sway bar bushings are greaseable for longer life and less noise.

Motor Mounts

Engine frame mounts are installed in the proper position for your engine. The standard polyurethane spool mounts are proven to 600hp.

Power Rack & Pinion Steering

Save weight and increase steering precision. AlterKtion's silver powder coated rack and pinion features a 2.75 turns lock-to-lock with 6" total travel.

Coil-Over Shocks

Double-adjustable Viking coil-overs.

Maximum Adjustability

Custom-tune your suspension with adjustable upper control arms and tie rods.

Powder Coated Durability

All suspension components are powder coated gloss black for corrosion resistance.

1962-76 AlterKtion Sets with Double-Adjustable Viking Coil-Overs

Reilly Motorsports' AlterKtion systems with double-adjustable Viking coil-overs. Adjust compression and rebound independently. Includes shock adjustment wrench and detailed instructions.

Important: 1962-72 A-bodies only require removal of the lower hump stop bracket, while all other cars require the upper and lower hump stop brackets to be removed for this installation and two 3/8" holes will have to be drilled. AlterKtion uses Mustang II style spindles, not Mopar spindles.

Note: Special order, must be prepaid. Shipped oversize. No further discounts apply.

Dig Your Claws Into Pavement with Street-Lynx Suspension

Improves Rear End Geometry, Traction & Handling!

Get rid of under-performing leaf springs with the Street-Lynx triangulated four-bar system for your Mopar! This system drastically improves suspension geometry, traction and handling for any road surface. Street-Lynx separates the axle

MD47259

locating system from the spring and lighter components provide excellent ride quality and wheel control. The system mounts the coil-overs ahead of the axle to eliminate the wheel hop associated with four-bar systems and still allows a stock fuel tank to mount correctly. A crossbar welds between the factory frame rails with no cutting and lower links bolt into the stock leaf spring locations with adjustable mounts. Made in the USA.

Note: Axle housing not included.

Weld-In Cross Member

Provides mounting points for suspension locating with no chassis cutting.

Lower Link Brackets

Mount directly into the forward leaf spring mounting pocket. No modification necessary.

Powder Coated Durability

All suspension components are powder coated gloss black for corrosion resistance.

Four-Bar Suspension

Triangulated four-bar system locates the axle better than stock leaf springs.

Coil-Over Shocks

Mounted ahead of the axle to eliminate wheel hop, keeping your rear end planted.

1962-76 Street-Lynx Sets w/Double-Adjustable Viking Coil-Overs

Reilly Motorsports' Street-Lynx rear suspension sets with double-adjustable Viking coil-overs make leaf springs a technology of the past. Components are powder coated gloss black and include springs with recommended rating, shock adjusting wrench, and detailed instructions.

Important: For A-Body models, choose stock location hangers or inboard weld-in boxes. If Dana axle is used in A-Body, rear axle tailpipes will not fit over the axle.

Note: Axle housing not included. Special order, must be prepaid. Shipped oversize.

Discounted sets. No further discounts apply.

1962-76 QA1 Stoker Star Shocks

QA1 offers Stoker Star Shocks in your choice of fixed, single-adjustable and double-adjustable configuration. The fixed, non-adjustable version is a rebuildable and revalveable shock for the budget-conscious owner. The single adjustable-shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers two knobs to adjust compression and rebound separately, resulting in 324 valving options to fine-tune your ride for any type of driving. All shocks have polyurethane bushings and are sold individually. Two required per axle.

Important: Some disassembly or modification may be necessary to mount these shocks.
Note: No further discounts apply.

MM3108

1960-74 Adjustable Pinion Snubbers

If you are using the stock leaf spring rear suspension with a high horsepower to your engine, then you need to add an adjustable pinion snubber. These help control axle windup by adjusting the height to the floor pan. Without a pinion snubber your axle will rotate upward, causing loss of traction and possible driveline damage. These mount on the center front of the rear axle housing.

Ring & Pinions

Features deep heat treatment

MM3055

1965-74 Rear Axle Shafts for 8-3/4" Rear Axle

High strength axle shafts for Mopar muscle cars equipped with an 8-3/4" rear end. Yukon axles are made from 1541H alloy and are deeply heat-treated to be 20-25% stronger than OEM 1040/1050 steel axles. These axles also feature rolled splines, which provides a 30% strength increase over cut-splines. Must use with Yukon bearings, sold separately.

Note: For A-body models converted to 5 x 4.5" wheel bolt pattern and 10" x 2.5" or 11" x 2.5" drum brakes.

8-3/4" Differential Side

Carrier Bearing Spanner Wrench

Adjust pinion depth correctly with this spanner wrench. Manufactured from heavy gauge steel, with hard pins and finished in gloss black powder coat, this spanner wrench is designed for 1957-74 Mopar 8-3/4" side bearing adjusters. Made in USA.
MD490073..... 69.99 ea

"489" 8-3/4" Drop-Out Housing

Direct replacement "489" case drop-out differential housing for 1969-74 Chrysler 8-3/4" rear end assemblies with an 1-7/8" pinion stem. This modular iron housing improves upon the factory design by correcting weaknesses found in the original, which allows this unit to handle up to 500 horsepower. The housing features the original Chrysler part number casting, extra material on the bearing caps for added strength and reduced deflection, and high strength billet side adjusters. Although this unit is a direct replacement for 1969-74 models, it can also be used to upgrade the weaker 8-3/4" rear ends installed in 1965-69 applications.
MM3056 1969-74 8-3/4" housing 329.99 ea

1960-74 8-3/4" Limited-Slip Differential

Auburn Gear's Pro Series limited-slip differentials outperform standard OEM differentials hands down. They deliver more traction and faster engagement for controlled power transfer and lightning fast reaction to changing load conditions. No matter what your application, the Auburn Gear limited-slip differential is engineered to provide smooth torque-sensing operation with bias ratios.

1962-76 Rear Suspension Bumper

Replacement rear suspension bumper for all 1962-76 Mopar models. Mounts to the frame rail above the rear axle. Must reuse metal mounting bracket. Made in USA.

Note: Will fit all models through 1976, but is only a correct reproduction for 1964-65 models.

MD7052 1962-76 all models	5.99 ea
---------------------------	---------

1970-74 8-3/4" Pinion Snubber

Replacement rear axle pinion snubber for 1970-74 Dodge & Plymouth models. Rubber construction as original with two mounting tabs. Made in USA.

MN1513 1970-74 all	14.99 ea
--------------------	----------

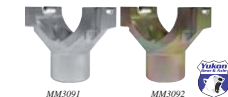

Differential Cover FilterMag

Powerful rare-earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop, keeping metal particles from harming your differential and holding FilterMag in place. Reusable, these will reduce maintenance costs by extending the life of your oil. The rear end FilterMag attaches to the inside of the differential cover and will help keep it running its best. Install when replacing the rear end gasket.

Note: Mounts to inside of differential cover.

FD1001 2.0" x 1.25"	24.99 ea
---------------------	----------

8-3/4" and Dana 60 Pinion Yokes

These differential yokes are manufactured for Mopar 8-3/4" and Dana differentials. Each Mopar performance yoke includes the yoke, retaining straps or U-bolts (as indicated), and mounting hardware. Yulon yokes do not include hardware. Straps and U-bolts are sold separately. Available as cast iron reproductions or performance yokes made with steel.

Note: The 7260 series U-joints have a 2.125" snap ring span with a 1.078" diameter bearing cap. The 7290 Series U-joints have a 2.625" snap ring span with a 1.125" diameter bearing cap. The 1310 series U-joints have a 3.219" snap ring span with a 1.062" diameter bearing cap. The 1350 series U-joints have a 3.625" snap ring span with a 1.125" diameter bearing cap, and the 1350 series U-joints have a 3.625" snap ring span with a 1.188" diameter bearing cap. *Maximum 500 horsepower.

Royal Purple® Max Gear Oil

Max-Gear is an ultra-tough automotive gear oil. It makes gears run smoother, quieter, cooler and longer without overhauls. Max-Gear is recommended for use in front or rear differentials and manual transmissions that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

"At-The-Wheels" 3-Piston Front Disc Brake Conversion Sets

These disc brake conversion sets feature 38mm 3-piston forged aluminum calipers to reduce unsprung weight and better disperse heat. Sets are designed to fit directly onto stock 10" drum spindles. They fit behind most 17" wheels and feature a 5 x 4-1/2" bolt pattern. The set includes two Tri-Power 3-piston calipers, 13" Big Bite drilled, slotted and plated rotors, high performance brake pads and braided stainless steel lines. Big Bite rotors provide maximum stopping power, a cooler operating temperature and eliminate brake fade!

Note: Minimum 17" wheel required for use. For vehicles with original 10" drum brakes only. Shipped overweight.

Disc Brake Conversion Sets

3-Piston Front Disc Brake Conversion Sets

Disc brake conversion sets for 1962-72 Mopar models. Sets feature 38mm 3-piston forged aluminum calipers to reduce unsprung weight and better disperse heat. Sets are designed to fit directly to 10" drum brake spindles and fit behind most 17" wheels. The dual master cylinder can be used in both manual and power operations and is designed to work properly with disc brake applications. Sets include two Tri-Power 3-piston calipers, a dual bowl master cylinder, braided stainless flex lines, high performance brake pads and your choice of slotted and plated rotors or Big Bite drilled, slotted and plated rotors. All rotors feature 5 x 4-1/2" bolt pattern. Big Bite rotors provide maximum stopping power, a cooler operating temperature and eliminate brake fade!

3-Piston Manual Front Disc Brake Conversions

Get the stopping power you need for the street or track with these disc brake conversion sets. The dual bowl master cylinder can be mounted to the firewall for manual brake applications or to the stock booster for power brake applications. Calipers are available clear anodized, powder coated red or black, or polished. *Note: For vehicles with original 10" drum brakes only. Shipped overweight.*

3-Piston Power Front Disc Brake Conversions

Set includes everything that manual applications include, with the addition of a 7" dual diaphragm booster for A-body models or a 9" booster for B and E-Body models. Calipers are available clear anodized, powder coated red or black, or polished. *Note: Upgrade kits vehicles with manual 10" drum brakes only. Will not fit vehicles with original power brakes. Requires 17" or larger wheels. Shipped overweight.*

Rear Disc Brake Conversion Sets

Rear disc brake conversion sets for 1965-72 Mopar models. Sets replace outdated drum brake components and add superior braking performance. Includes R1 Sport 1-piston forged aluminum calipers with provisions for parking brakes, 11.25" unidirectional rotors with 5 x 4-1/2" bolt pattern, brackets, braided stainless steel brake hoses, pads and hardware. Fits 8-3/4" and Dana60 axles. Calipers are available clear anodized, powder coated red or black, or polished. Big Bite rotors provide maximum stopping power, a cooler operating temperature and eliminate brake fade! *Important: All axles must have 5 x 4-1/2" bolt pattern and 2-1/2" brake spacing for correct installation. Fits 15" wheels and larger. Some vehicles may require new parking brake cables for installation, sold separately. Note: Shipped overweight.*

Disc Brake Conversion Sets

1961-76 Forged Dynalite Front Brake Set

Forged Dynalite Pro Series front brake sets offer a drum-to-disc brake upgrade for 1961-76 Mopar A-Body, B-Body and E-Body models. Each set includes 11" vented iron rotors, forged-billet four piston calipers, low-noise low-dust brake pads, aluminum hubs and all bracketry, wheel bearings and mounting hardware. Dynalite Pro sets can be used with either manual or power assist master cylinders and replace 9" or 10" drum brakes or factory disc brakes utilizing the original spindles. Requires brake line set 2208307, sold separately.

Style A: smooth rotors and black anodized calipers
Style B: drilled rotors and black anodized calipers
Style C: drilled and slotted rotors and red powder coated calipers.

Important: May fit some 14" wheels, check wheel clearance diagram in installation instructions before purchase at www.wilwood.com

Note: No further discounts apply.

1962-72 6 Front Disc Brake Sets

Wilwood's billet forged Superlite 6 Series front disc brake conversion sets are a performance disc brake upgrade for 1962-72 B-Body and E-Body models. Includes 13.00" or 14.00" vented iron rotors, forged billet calipers with six stainless pistons, Wilwood low noise low-dust brake pads, aluminum rotor hats and all bracketry, wheel bearings and mounting hardware. Sets are offered in three different styles: style A includes smooth rotors and black anodized calipers; style B includes drilled rotors and black anodized calipers; style C includes drilled and slotted rotors and red powdercoated calipers. Set can be used with either manual or power assist master cylinders, and replaces factory drum brakes utilizing the existing spindles. Requires brake line set 2208307, sold separately.

Style A: smooth rotors and black anodized calipers

Style B: drilled rotors and black anodized calipers

Style C: drilled and slotted rotors and red powder coated calipers.

Important: Superlite 6 sets are hat sets, all other sets are hub sets. May require modifications to the original spindle.
Note: No further discounts apply.

1960-76 Rear Parking Brake Set

Need a complete braking solution for your rear axle? Wilwood's Forged Dynalite Low-Profile Pro-Series rear disc brake sets offer balanced braking for all types of custom performance street/strip and show machines. Designed with clearance for 14" to 15" wheels and a neatly hidden internal parking brake system for a clean installation and superior static holding power. A 2.50" offset provides clearance for Mopar/Dana axles. Set includes forged billet four-piston calipers, 11" one-piece hat and rotor assemblies, snap ring bearings, and high friction pads.

Important: Requires snap ring style Green Bearing (MO40). May fit some 14" wheels. Check wheel clearance diagram in kit installation instructions before purchase. **Note:** Shipped overweight. No further discounts apply.

26113269P

Wilwood Disc Brake Master Cylinders

Keep your custom brake system simple! This tandem chamber master cylinder and proportioning valve assembly keeps wiring and brake proportioning adjustments uncomplicated. Connect the fluid lines, bleed the system, and you're finished. Designed for non-power and power front disc/rear drum and four wheel disc brake applications, this beautifully crafted assembly features isolated front and rear fluid circuits and bolts directly to your firewall. Stainless steel button head fasteners, tube nuts, and precision bent lines offer years of rust-free performance. Available in natural finish, bright finish or Wilwood's exclusive black E-coat.

Important: DOT 3 or 4 brake fluid recommended. Not for use with DOT 5 silicone fluid.

Note: No further discounts apply.

2608555P

Disc Brake Master Cylinders

These beautifully-crafted tandem-chamber master cylinders are configured for four wheel disc brake applications. They feature a slotted mounting flange that bolts to your brake booster or firewall. Manual brakes require 1" bore. Power assisted brakes use 1.12" bore. Features fluid outlets on both sides of the cylinder to simplify plumbing based on mount location. Available in a bright finish or Wilwood's exclusive black E-coat.

Note: No further discounts apply.

Wilwood BP-10 Brake Pads

Wilwood's exclusive BP-10 is an all new type of metallic-composite friction pad compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement and lowered dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto crosser, or drag racer.

Note: No further discounts apply.

Parking Brake Cable Set

These cables will complete the installation of your Wilwood parking brake kit. These cable sets are compatible with all of Wilwood's internal drum parking brake sets including the Dynalite and Superlite kits. This cable will connect Wilwood's parking brake mechanism to your vehicle's OE equalizer assembly. The cables are simple to install and adjust and the cable housing's black finish disappears under the car for a clean looking undercarriage.

Note: No further discounts apply.

Parking Brake Cable Clip and Bolt

This reproduction parking brake cable clip secures the right parking brake cable to the rear axle housing on Dana-equipped vehicles, and also secures the left parking brake cable to the vehicle body on some models. Manufactured from correct gauge steel and includes 5/16-18 flange head bolt plated in zinc phosphate.
MN8055 all 4.99 set

Disc Brake Conversion Sets

1963-72 True Bolt-On Disc Brake Conversion Sets

- No Need for Front End Alignment**
 Front disc brake conversion set eliminates the need for front end alignment because there's no need to change spindles.
- Easier and Quicker to Install**
 Because these sets bolt-on to your existing OEM spindles, installation time is greatly reduced.
- Greater Flexibility in Wheel Options**
 Sets for 1963-72 Mopar models available in a variety of rotor sizes for stock 14" diameter OE style wheels or for larger diameter custom wheels of your choice.

PB40013

1963-72 Mopar Front Disc Brake System w/Booster

Looking for a bolt-on front disc brake system for your classic Mopar? ABS Power Brakes has the answer. These sets from ABS Power Brakes utilize your OEM spindles. Each system includes brackets, a new 8" Dual Power Brake Booster Combo, master cylinder so you can select the correct combination (disc/drum or disc/disc). All rotors are 11-1/4" (requires 14" or larger wheels) and rotors are available plain or cross-drilled/slotted.

Note: Special order, must be prepaid. Shipped overweight.

STEERING, SUSPENSION, REAR END & BRAKES

Electronic Disc Brake Conversion Sets

Remote Electric Hydraulic Pump Provides Power

- Eliminates the Bulky Original Booster**
 Gain valuable clearance in the firewall area by doing away with the unsightly and inefficient vacuum pump booster. A sleek billet aluminum master cylinder takes its place for enhanced appearance and performance.
- Increases Braking Pressure and Performance**
 This electronic system consistently provides 1400-2500 psi of braking pressure at the wheel, is self-contained and runs on brake fluid. Perfect upgrade for engines with low vacuum due to a performance cam.
- True Bolt-on - Requires No Vacuum**
 Replaces your OEM brake master cylinder. Features adjustable pedal rod to allow for correct pedal height.

Hi-tech remote electronic pump eliminates outdated and unsightly original vacuum booster

True bolt-on solution requires no change in spindles.

Eliminates firewall clutter and increases clearance.

Electric High Power Master Cylinder

Is the big cam in your Mopar causing a lack of braking power or do you have valve cover clearance issues? ABS Power Brakes has the answer - the electric brake master cylinder. Replace your OEM brake booster/master cylinder with a compact billet aluminum master cylinder which does not rely on vacuum for power assist, thanks to its own remotely mounted power supply. The fully self contained unit provides braking pressures between 1400 and 2500 psi. Measures 8" long and 3.5" wide. **Note: Shipped overweight.**

1962-76 Low Pressure Brake Switch

This low pressure hydraulic brake pressure switch has a much longer life than previous models available anywhere. This unit fits most cars and requires 20-50 pounds pressure, instead of stock units that need 60-120 pounds pressure to engage. Standard 1/8" pipe thread (9/16"-18). This switch is D.O.T. compliant and is compatible with silicone-based brake fluid.

High Performance Brake Fluid

Wilwood offers two grades of high performance brake fluid. Hi-Temp® 570 has a maximum dry boiling point to withstand severe heat in street and track use. EXP 600 Plus has a maximum dry boiling point of 626° developed for extreme performance under the high heat and extreme pressure of professional motorsports. Both fluids are available in convenient 6 packs. Always add new fluid to a clean system.

Note: No further discounts apply.

EXP 600 Brake Fluid

2908478 6 pack of 16.9 oz bottles 109.99 ea

Hi-Temp® 570 Brake Fluid

2902210 6 pack of 12 oz bottles 47.99 ea

Brake & Parts Cleaner

This powerful brake & parts cleaner cuts through grease and grime without leaving an oily film. This fast drying formula gets the job done using less spray compared to watered-down cleaners. Non-Chlorinated.

JG1210 14 oz can 4.99 ea

JG1210 6 can of 12 - 14 oz cans 54.99 ea

A-Body Brake Lines

Each line is produced with all correct bends to match the factory equipment exactly. Couple precise manufacturing techniques with superior materials and you can be assured that you are installing the best lines available on the market. Lines are machine double flared for a safe, no leak fit. Each line is labeled for your convenience and pre-fitted for easy installation. Applications are available for most 1962-75 A-body vehicles in your choice of galvanized steel or never-rust stainless steel.

Important: Front brake line sets include master cylinder lines and left front and right front brake lines. They are correct for cars with disc or drum brakes. Lines for the disc brake calipers or drum brake wheel cylinders are sold separately.

1 STEERING, SUSPENSION, REAR END & BRAKES

B-Body Brake Lines

Type 1 - 1966 model vehicles only
Right front line rises about 4-1/2" above the bell housing area of the firewall.

Type 2 - 1966 model vehicles only
Right front line runs fairly straight across firewall to right side.

Type 3 - 1967 model vehicles only
Right front line clips under the steering column, then rises about 4-1/2" above the bell housing area of the firewall.

Type 4 - 1967 model vehicles only
Right front line clips under the steering column, then runs fairly straight across firewall to right side.

Type 5 - 1967-70 model vehicles
Right front line clips to inner fender, rises about 4-1/2" above the bell housing area, then routes over the frame rail to the hose.

Type 6 - 1969-70 model vehicles
Right front line clips to inner fender, rises about 4-1/2" above the bell housing area, then routes under the frame rail to the hose.

Type 7 - 1969-70 disc brake models
Right front line clips to inner fender, rises about 4-1/2" above the bell housing area, then routes under the frame rail to the hose.

Over or Under the Frame?
Type 6 & 7 lines route under the frame, then back up to the flex hose on the passenger's side, while all the other lines route over the frame, through the splash guard.

E-Body Brake Lines

1970-74 E-Body Brake Line Sets

Each line is manufactured using a precision process that produces the exact bends of the factory equipment lines. Each line set is clearly labeled for your convenience and pre-fitted for easy installation and is machine double-flared for a safe, no-leak fit. Applications are available for 1970-

74 E-Body vehicles in your choice of galvanized steel or never-rust stainless steel.

Note: Front to rear brake lines shipped double overcast.

Type 1 - Under Frame Rail
Right front line routed under the frame rail on all 1970 models and select 1971-74 model E-body vehicles.

Type 2 - Over Frame Rail
Right front line routed over the frame rail on certain 1971-74 model E-body vehicles.

New!

BIG BITE
Cross Drilled Rotors

1973-76 Big Bite Drilled Front Rotors

The CNC-drilled holes in these rotors vent superheated gases to reduce brake fade, while the precision turbo slotting maintains a clean pad surface, maximum grip and quiet stopping power. Internal vanes promote cooling and help prevent warping by forcing air through the rotor. These Big Bite Cross Drilled Rotors are an ideal replacement for stock rotors.

Universal Bearing Grease

Special tool designed to pack the bearings so they stay where they belong. Works on most cars and trucks.
Y62520 11.99 ea

High Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high quality, high temperature bearing grease. This is a very stable aluminumized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes.

1960-76 Drum Brake Wheel Cylinders

Our wheel cylinders match the design of your vehicle's original equipment. They are built for long service life and feature the highest quality components for superior resistance to heat, corrosion and leakage. Wheel cylinders deliver consistent, safe and reliable performance. With Classic Industries® you get premium products designed to fit exact applications to perform as good as your original brakes.

Note: 2 rear wheel cylinders are required on each vehicle.

1967-68 Magnum 500 Wheel

Offered by Chrysler as well as other car lines, the Magnum 500 is the all time favorite OEM style wheel in the muscle car world. These replacement Magnum 500s are for most 1967-68 Dodge and Plymouth models. Features the correctly chromed plated face with black painted slots, will work with original, or replacement center caps. This wheel does not include center cap, lug nuts and will only fit vehicles with the 5 x 4-1/2" bolt pattern.

Note: Shipped overweight.

Billet Magnum 500 Wheels

Give your classic Mopar a complete new look with Billet Rallye wheels. Billet wheels are manufactured from two solid billet aluminum blocks, which are CNC machined for lightweight performance and classic styling. Then the hoop and center are assembled to the predetermined backspacing and welded. This wheel is modeled after the original Magnum 500 with a slight difference on the face of the wheel, which is fully polished with painted slots and sits more flush with the center line of the wheel. Does not include lug nuts and will only fit on vehicles with the 5" x 4-1/2" lug pattern.

Note: Shipped overweight.

Wheels & Accessories

How To Measure Wheel Backspacing

How to Measure Wheel Offset

To calculate the wheel offset, you will need the following measurements:

- **Wheel Centerline** (outboard flange to inboard flange ÷ 2)
- **Wheel Backspace**
- **Wheel Width**

Subtract wheel centerline from wheel backspace. If the backspace number is smaller than the wheel center line number, your offset is negative. If the backspace number is greater than the wheel centerline number, your offset is positive. To convert from inches to mm, multiply by 25.4. To convert from mm to inches, divide by 25.4.

How to Measure Wheel Backspacing

- **Tape Measure**
- **Straight Edge**
- **Wheel (preferably with tire dismounted)**

Lay the wheel face down on the ground with the backside of the wheel facing up. Take a straight edge and lay it horizontally across the backside of the wheel. With the tape measure, measure the distance from where the wheel center makes contact with the drum or rotor to where the straight edge contacts the backside flange.

How to Measure Bolt Patterns

On five lug wheels, measure from the back side of the top hole to the center of the second hole. In the examples given above, the first number represents the number of lugs while the second number represents the measurement in inches.

Billet Rallye Wheels

Give your classic Mopar a complete new look with Billet Rallye wheels. Billet wheels are manufactured from two solid billet aluminum blocks, which are CNC machined for lightweight performance and classic styling. Then the hoop and center are assembled to the predetermined backspacing and welded. This wheel is modeled after the original Rally wheel. Features fully polished wheel with painted slots. Wheels do not include center cap or lug nuts.

Note: Shipped overweight.

Cragar
Classic Wheels

61614

Cragar S/S Super Sport Wheels

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately. Note: Shipped overweight.

Showwheels Aluminum Wheels

Looking for a wheel upgrade for your classic ride? Look no further. Showwheels Streeters are one of the best looking and fitting muscle car wheels available. They have the deep lip look of modern wheels, but for your classic! Available with gray centers or fully polished, in 17, 18 and 20 inch diameters. Comes complete with caps (chrome metal, hex head screw on) and chrome lug nuts.

Important: The lug nuts supplied with each wheel are for vehicles with right hand threaded studs. Vehicles with left hand threaded studs will have to be converted to all right hand threaded studs. Note: Wheel with 5 x 4" pattern include special lug nuts and tool. Shipped overweight.

New!

Cragar 390 Street Pro

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60s. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome plated steel rim with a chrome plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60s era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

New!

Cragar 32 Series Keystone Classics

If your car is a 1960-70s model, chances are it came with narrow wheels and tiny bias ply tires. By the mid 1960s, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Classic. Popular for their composite design, the chrome plating on the Keystone Classics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

American Racing
Custom Wheels

The American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements... an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modular style wheels, however, were a bit pricey for the average Joe. This soon led to an influx of modular copies and 1-piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a 1-piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

Note: Shipped overweight.

Wall Mount Wheel/Tire Hanger

The wheel and tire hanger is a great way to organize your shop or garage by getting wheels and tires off the floor, freeing up more space. Each heavy duty powder coated hanger is approx. 21" long and mounts at a slight angle so wheels won't slide off. Can also be used to hang bicycles or anything you want to get off the floor.

Note: Each hanger will hold 2 wheels with tires mounted. M998070 wheel/tire hanger..... 39.99 ea

O-100 PSI Digital Tire Pressure Gauge

Proform's programmable Digital Tire Pressure Gauge measures from 0-100 PSI in increments of .01 PSI on a backlit LCD screen. When you remove the gauge from the valve stem in NORMAL mode, the gauge will slowly count back to zero. In PEAK mode, the reading will display after removal. Features unit conversion (PSI, bars and kg/cm²), automatic OFF, and dual air bleed buttons to allow controlled pressure release. Instructions included.

- For Hand or Machine Use

OEI® Extreme Shine Premium Metal Polish & Sealant

OEI® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet-mirror like finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust or powder. The most innovative metal polish ever. A 3-step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant.

Utilizing friction and heat OEI® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball & drill. K89483 16 oz. bottle..... 17.99 ea

OER® Acid Free Wheel & Tire Cleaner

Spray on and rinse off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water according to need. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no-harsh scent.

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more is that OER® TNT gel lasts for many months not days. Our exclusive no streak, no run and non drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking bank spanking new. Prepare your trim for a product unlike any other, a true premium trim restorer and protectant, that will not drip, dry out or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non greasy, non tacky and simply amazing.

Tires

Goodyear® Polyglas Tires

Give your Mopar a correct appearance by replacing your tires with original Goodyear quality! Goodyear is the tire Chrysler chose for many late model 1960's and early model 1970's high performance vehicles. Goodyear is a registered trademark of The Goodyear Tire Corporation.

- O** Perfect for late model 1960's and early model 1970's Mopar muscle cars!
- E** The Goodyear® name means quality and dependability!
- M** Increase the value of your project while maintaining originality!

Goodyear® is known throughout the automotive industry as one of the finest quality tires manufactured! And now Goodyear® proudly offers these high quality replacements utilizing the original molds for authenticity and quality! The Goodyear tires are produced with exact specifications offering the highest quality while maintaining complete originality! Many of Chrysler's late 1960's and early 1970's muscle cars or high performance vehicles included the Goodyear® raised white letter Polyglas or white line Polyglas tires. Make your project complete by adding the one item that so many restorers neglect. Original tires are a great investment

and increase the value of your Mopar! Now you can own the original Raised White Letter Polyglas Goodyear® tires. Utilizing the same molds as the originals, you know you can count on their Goodyear® quality. Perfect for Rallye Wheels! These tires can obviously be installed on virtually any early model Mopar. These tires were standard equipment for many Chrysler high performance vehicles of the late model 1960's and early 1970's.

Note: Tires must be pre-paid. Special shipping rate applies. No further discounts apply.

Important: QW-1 Speedway Wide Tread.

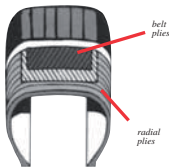

Redline Radial Tires

Classic Redline Radial Tires

Redline radial tires just like the ones popularized in the 1960's! Designed to provide the appearance of an original, each tire is brand new and offers a great way to retain originality.

Important: When replacing bias ply tires with radials, please refer to the auto manufacturers recommendations. Rims designed for bias tires can crack because of the extra stress placed on them with radial tires. Interchangeability is not implied nor is it always possible because of rim sizes. Do not mix radial tires and bias tires on the same vehicle. Vehicles designed for bias tires may drive differently than was originally intended. Please use caution when installing.

Note: Tires must be pre-paid. Special shipping rate applies. No further discounts apply.

1963-74 Polished Aluminum Radiators

These polished high performance radiators are manufactured from tig welded aircraft grade aluminum with brazed aluminum cores and biller filler necks. Each radiator offers high capacity cooling with lowered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

Important: All radiators have built in automatic transmission coolers and can be used in both automatic and manual transmission applications. Core size dimensions listed below.

*Note: *Offset inlet. Shipped oversize.*

1961-76 AFco Aluminum Radiators

The 100% aluminum construction uses no epoxy, making these direct fit radiators durable and up to 15% more efficient than copper/brass radiators. These radiators fit in the original location using the factory fan shroud, and the inlet and outlet are in the stock locations so OE-style radiator hoses can be used. Automatic versions feature a built in transmission cooler designed to use factory transmission lines.

Note: Shipped overseas.

1966-74 Northern Aluminum Radiators

This high performance bolt-in radiator from Northern[®] is manufactured with race-proven technology. These aluminum radiators feature a two-row, 1" core tube design for maximum cooling efficiency. Northern[®] fan and shroud assemblies are also available for a matched cooling system.

Important: Dimensions listed include the radiator, tanks and brackets.

Note: Shipped overseas.

- Bolt-In Installation
- 60% Lighter Than Copper/Brass
- Up to 75% More Cooling Capacity
- Fully Welded Construction
- Size: 28" x 18-1/2" x 3-1/8"
- Heavy Duty, Oil-Stamped Tanks
- Extra Thick Hose Connections
- Billet Filter Neck
- 7 Plate Alum. Transmission Cooler

SILLA

SR009621

SR003740

1968-76 Economy Aluminum Radiators

These quality light weight aluminum radiators stand up to the demands of everyday driving with excellent cooling properties. These replacement radiators vary in appearance from the originals, but fit in the factory mounting locations and work with original fan shrouds. Every radiator includes fittings for an automatic transmission cooler.

Important: The core is slightly smaller than the original; this will not lessen cooling capabilities. Measure your core. Hose adapters are included.

Note: Shipped overseas.

Be Cool Radiators

BC62174

1980-76 Be Cool Direct-Fit Aluminum Cross-Flow Conversion Radiators

Nothing takes the fun out of driving your Mopar like overheating. That's why you need a cooling system that can keep up with your engine, especially when your engine has been upgraded. Stock radiators are designed to cool stock applications and often fail to keep up with high-performance applications. Be Cool produces cross-flow radiators that are 40% lighter than conventional OEM units with greater cooling capacity, thanks to epoxy-free construction. Available with natural or polished finish. Made in the USA.

Important: Modification to Upper and Lower Hoses and Transmission lines required for Crossflow upgrade.

Note: * Replaces OEM downflow radiator with a 26" core. Four brackets needed (Part Number BC72003) to install stock OEM fan shroud.

** Modification to top mounting plate for crossflow conversion may be required. Shipped oversize. No further discounts apply.

Radiator fan shrouds produced using injection-molded urethane or steel. For various models and radiator sizes. Please refer to the applications below for the correct shroud for your vehicle. All radiator fan shrouds are designed to attach at stock radiator mounting locations.

A-Body

1968-69 V-8 Fan Shroud w/A-C— This injection molded urethane shroud is a correct replacement for 1968-69 A-Body models equipped with a 22" radiator. Including 273, 318, 340, 383 and 440 powered Darts, Valiants and Barracudas. Replaces original part # 2785614.
MA2227 1968-69..... 169.99 ea

1970-72 V-8 Fan Shroud w/A-C— Replacement V-8 fan shroud for all 1970-72 A-Body vehicles equipped with a 22" radiator including 318, 340 and 360 powered Darts, Valiants, Dusters and Demons. This injection molded urethane shroud replaces original part # 2998325.
MA2228 1970-72..... 169.99 ea

B-Body

1969 440 V-8 Fan Shroud— Correct radiator fan shroud for 1969-440 powered vehicles, including Charger, R/T models and GTX. Manufactured from injection molded urethane, this shroud will replace your damaged original. Replaces original part # 2949130. For use on 22" radiators only. *Note: May also be used for 1966-68 318, 383 and 440 powered B-Body models in conjunction with the MD2224 Fan Shroud Mounting Bracket Kit when used in place of original equipment radiators that would normally use a steel shroud.*
MB2340 1969..... 164.99 ea

1962-68 Steel Fan Shroud— Radiator steel fan shroud for all 1962-68 B-Body vehicles, equipped with V-8 small or big block. This two piece unit features the correct fan opening lip, hose reliefs, the top and bottom stiffeners are spot welded like original and it's finished in a powder coated low gloss black. Replaces original part # 2417423 and 2417427.
Note: Will only fit on 22" radiators.
MB2337 1962-68..... 254.99 ea

B & E-Body

1970-73 V-8 Fan Shroud— Radiator fan shroud for 1970-73 B & E-Body V-8 models. This injection molded urethane shroud will replace your damaged original on 318, 340, 383 and 440 models. Will only fit on 22" radiators. Replaces original part # 2998328.
MD2225 1970-73..... 164.99 ea

Universal Fan Shrouds

Each shroud will fit small block and big block radiators. Mounting hardware is included for installation. Simply remove your original fan shroud and replace it with this shroud. Available in chrome or EDP black finishes.

1962-74 Fan Shroud Brackets

1962-68 B-Body

Replacement mounting hardware set for 1962-68 B-Body models with 22" radiators and steel fan shroud. This set mounts the fan shroud to the radiator, includes (4) powder coated formed steel brackets, (4) correct 1/4-20 cage nuts for the radiator side brackets and (8) 1/4-20 x 1/2" hex head bolts.
MB2338 1962-65..... 54.99 set
MB2339 1966-68..... 54.99 set

1969-74 B & E-Body

This set attaches the fan shroud to the radiator, includes (2) powder coated formed steel brackets, (4) correct 1/4-20 cage nuts for the radiator side brackets and (8) 1/4-20 x 1/2" hex head bolts.
Note: For 22" radiator only.
MD2224 1969-73 B-Body. 69.99 set
MD2224 1970-74 E-Body. 69.99 set

Flex-A-Lite Series 1300 Flex Fan

Stainless steel blades flex at higher RPMs which reduces drag, pumps extra horsepower and improves fuel economy. For high-performance and heavy-duty applications. Flex-A-Lite fan spacers are sold separately.

Note: Not for use with fan clutch.

"Ice Box" Cooling Fan Control

Available as a single fan control or dual fan 2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an A/C Request system to turn the cooling fan on whenever the A/C Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single two speed fan at different temperatures. Features exclusive lug sensor that mounts under almost any engine belt. Each unit has a fully adjustable operating range of 140-230 degrees.

*Note: *With Walker 2-speed fans.*

1962-79 Cooling Fan Shutdown

This cooling fan shutdown kit shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. In vehicle testing, a ten degree drop in engine temperatures while operating above 60 MPH was seen. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This kit is designed to be used with the supplied signal generator which must be installed into the speedometer cable.
TF900627 1962-79..... 189.99 ea

Electric Cooling Fans

Flex-a-Lite Universal Electric Fans

This fan can either be used as a primary cooling fan or an auxiliary fan to the stock belt-driven fan by mounting it in the front of the radiator. Available in 12", 14", 15" and 16" diameter. Required wiring and hardware is included when applicable.

Push Style - Mounts in Front of Radiator	
FL114 14-3/4" x 14" x 3-1/4"	109.99 ea
16" Single Fan	
FL116 16-1/2" x 16" x 3-1/4"	119.99 ea
Pull Style - Mounts Behind Radiator

15" Single Fan	
FL030 18" x 16" x 4-1/4"	249.99 ea

Flex-a-Lite S-Blade Electric Fans

These quiet but powerful fans feature sweep style blades for maximum air flow, mount to the radiator core and can be used to push or pull air through the radiator. The high torque motor makes these fans strong enough to replace your belt-driven fan and fan clutch, freeing up horsepower and torque.

FL392 12-5/8" x 11-3/4" x 2-5/8"	99.99 ea
FL394 14-1/2" x 13-7/8" x 3-3/4"	104.99 ea
FL396 16-5/8" x 15-3/4" x 4"	129.99 ea

Flex-a-lite Black Magic S-Blade

This universal fit Flex-a-lite electric fan features an extremely quiet yet efficient computer-engineered blades that flow 3,000 CFM of air, offering you consistent cooling regardless of engine RPM. Ring-type fans like this one provide better blade support and impact resistance. Fits vehicles with 16" or wider radiator cores and requires a mounting surface of 18" x 16" x 4-1/4". Includes universal mounting brackets.

FL160 16" fan 3,000 CFM	304.99 ea
-------------------------	-----------

Flex-a-Lite Cyclone Electric Fan

Flex-a-Lite Cyclone electric fan mounts to the core and can be used to push or pull air through the radiator.

The higher torque (17 amp) motor and maximum flow sweep-style blades produce 2,500 CFM of air flow, making these fans strong enough to replace your engine-driven fan clutch to free up horsepower and torque.

FL398 16" fan 2,500 CFM	144.99 ea
-------------------------	-----------

15" Fan w/Thermostat

Universal-fit fan with an adjustable 180°-240°F thermostat. Features a heavy-duty motor and 15" diameter high-angle blades. Flows 2,800 CFM of air, cooling vehicles with 250+ HP (w/o AC) and 220+ HP (w/AC). Overall 18" x 16-1/8" x 4" Amp draw - 14 amps.

67017 15" fan 2,800 CFM	164.99 ea
-------------------------	-----------

High Performance Fans

These high performance electric fans are available in 10" 12" 14" and 16" sizes and are reversible allowing use as a pusher or puller fan. Reinforced glass filled polypropylene blade and plastic housing for minimal weight. Nylon tie mounting kit included. Nominal fan size is based upon approximate overall assembly diameter.

Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

MF108 185° for carbureted engines	21.99 ea
MF109 195° for fuel injected engines	21.99 ea

Painless F5 Fan Controller

This fan control system uses pulse width modulation to control electric fan speed from 50% up to 100%.

A three position toggle switch lets you choose between normal operation, 100% fan speed, or turn the fan(s) off. An override runs the fans at 100% if AC is kicked on. Includes a solid-state controller rated for engine bay use, 3/8" NPT threaded temperature sensor, large gauge fan wires and labeled vehicle integration wire harness, mounting hardware, and 70 Amp fuse and connectors.

30140 single 35A fan controller	269.99 set
30141 dual 70A fan controller	269.99 set

Fan-Thom Electric Fan Relay

This relay protects your fans from voltage and amperage spikes, and keeping the fan from feeding back through the system. Sets that include a threaded thermostat screw into the engine block or manifold for a professional installation. Thermostat thread size: 3/8"-18NPT fitting.

Note: No further discounts apply.

FL14548 1" spacer..... 15.99 ea
FL14556 2" spacer..... 19.99 ea

Cooling System Zinc Anode

Used in heavy duty and marine applications to protect the cooling system and its many components from damage due to electrolysis or coolant additive breakdown. Today's cars and trucks have many aluminum parts and parts made with aluminum alloy. Aluminum parts tend to disintegrate from electrolysis in the cooling system. Adding this sacrificial zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than of your cooling system. Designed for installation in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or any 1/4" NPT hole that is available in the cooling system.

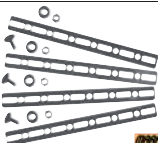

FL32060 19.99 ea

Electric Fan Wire Harness

This set is designed to allow a wide range of temperature adjustments for Champion or Challenger Series electric fans. Includes a heavy gauge wire harness, relay, weatherproof fuse, electrical connectors and 185° or 195° temperature sending unit.

For Carbureted Vehicles
MF102 w/185° temp. sender 61.99 set
For Fuel Injected Vehicles
MF103 w/195° temp. sender 61.99 set

Universal Fan Bracket Strip Set

This bracket set is used to mount your Champion or Challenger Series fan. Install the fan's 90° mounting feet (included with fan) to these four 7.25" long strips for solid support. Mounting hardware is included.

MF104 19.99 set

Champion Series Fan Rubber Spacers

Rubber spacers for use with Champion Series electric fans to allow proper spacing from the radiator.

MF112 4.99 set

Billet Aluminum Fan Brackets

Use this premium billet aluminum bracket set to mount your 14" or 16" Champion or Challenger Series fan. The set features four adjustable side angle brackets that attach to the side flange of the radiator. Mounting hardware is included.

MF105 45.99 set

Engine Coolant Plumbing Kit Components

Build your own custom silicon radiator hose system or add onto the basic set (Z71051) with these components! Coolant tubes are available in aluminumized steel and stainless. Mandrel bends tubes feature beaded ends for a positive seal with the available high quality reinforced black silicone hoses. Hoses and tubes are available in 1-1/4" to 1-3/4" diameters.

Note: w/8" step-up/down connector.

VP2006

Cool-View Glass Thermostat Assembly

This new style 2" thermostat assembly allows you to see your coolant without ever removing the radiator cap. Made from billet aluminum and the same specialized heavy borosilicate glass used in steam boiler systems. It is designed to accept thermostats and restrictor plates. Fits 1951-78 Mopar V8 engines, and all flathead straight 4, 6, & 8 cylinder engines 1924 and newer. Made in USA.

Important: Index pointer and gradient scale are only included in sets with thermostat. Do not use on 1960 and older engines equipped with a bypass water outlet and thermostat. Will not fit slant 6 or small block V8 engines 1979 or newer.

Note: No further discounts apply.
Bolts and water neck not included.

VP2004 w/o thermostat	109.99 ea

VP2006 w/195° thermostat	139.99 ea

New!

1960-77 High Performance Thermostat

These high performance thermostats are designed to resist variations in coolant pressure, opening and closing only at the correct temperatures, regardless of engine RPM. Thermostats are made from brass and copper with a high grade steel frame for years of worry free operation.

Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

JG1330 12 oz bottle	9.99 ea
JG1331 case of 12 - 12 oz bottles	119.99 ea

Purple Ice Super Coolant

Purple Ice is a high performance, synthetic, radiator coolant additive. It reduces engine heat, fosters optimum coolant flow and lubricates the water pump seals. Purple Ice should always be used in conjunction with antifreeze in regions where freezing temperatures occur. Purple Ice is recommended for any water / glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

Water Pump Pulley Warning!

Stock replacement after-market stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys.

30132

Electric Water Pump Relay

These water pump relays provide full battery voltage to maximize cooling efficiency and to protect the electrical system from damaging amperage overloads.

Air Conditioning Systems

Gen-IV SureFit System Features:

- Electronic Servo Motor Controls
- Dehumidified Defrost with Dash/Floor Blend
- No Cables or Capillary Tube To Route
- Analog Blower Speed Adjustment
- Separate High Capacity Heat & Cooling Coils
- Includes New In-Dash Control Panel
- AC Exits Through Original AC Dash Vents
- Mounts Behind Dash

New!

974074

1966-74 Vintage Air Gen-IV SureFit R134a Systems

This complete air conditioning retrofit system features air conditioning, heating and defrost functions and is designed specifically to mount in your vehicle using existing holes in your dash and firewall without drilling or fabrication. The exclusive cable replacement modules connect to your original AC control assembly to operate the system as if it were installed by the factory. The system comes with the compressor, evaporator, condenser and mounting brackets for each, as well as a standard drier, all louvers, ducts, hoses, wiring, and pre-formed aluminum lines, and complete installation instructions.

Important: Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.

Note: Special shipping charges apply. Special order, must be pre-paid.

Shipped overseas. No further discounts apply.

- Evaporator assembly
- Condenser kit
- Pre-cripped refrigeration hoses
- Sanden-style compressor
- Hi-Low refrigerant pressure switch
- Aluminum hookup tubes
- Compressor mounting hardware
- Installation instructions & templates

ME175925

1966-74 "Perfect Fit" Air Conditioning Kits

These "Perfect Fit" air conditioning retrofit systems upgrade your standard, non-AC 1966-74 Mopar with full air-conditioning. Using the original heater controls and dash louvers, these systems provide powerful air conditioning, under-dash heating, and dehumidified window defrosting. Each "Perfect Fit" AC system is designed specifically for each application with minimal modifications. These AC sets include all interior components as well as an evaporator, condenser, Sanden-style compressor and all mounting and hose routing hardware necessary. Instructions and templates also included.

Important: * With 318 Poly engine.

Note: Shipped double oversize. No further discounts apply.

AC Upgrade Kits

MB184524

- KITS INCLUDE:**
- Sanden-Style Compressor
 - Mounting Brackets
 - Idler Pulleys
 - Compressor Hoses
 - Thermostat
 - Expansion Valve
 - All Mounting Hardware

1965-75 B-Body AC Compressor Upgrade Kits

Replace your power-robbing RV2 compressor with a Sanden-style compressor upgrade that requires less power to operate, runs smoother, and weighs half as much as the original units. These upgrade kits are rated for continuous duty at 6,000 RPM and work great on high-horsepower applications! Includes compressor, mounting brackets, idler pulleys, compressor hoses, thermostat, expansion valve, o-rings, hardware, refrigerant tape, and filter-drier. Compatible with R134a.

Important: For factory AC applications w/original pulleys. Not for 6-Pack or Shaker engines.

Note: Special order; must be pre-paid.

AC, HEATER & COOLING SYSTEM

AC Upgrade Components

AP4510

Sanden AC Compressors

When retrofitting a modern AC system, Sanden SD508 and SD7H AC compressors are the first choice. Not only do they produce colder air than the original compressors, they require less horsepower to turn. Rated for continuous duty at 6,000 RPM. All compressors feature a 2-groove V-belt clutch.

Important: For use with R134A systems only.

1967-76 383, 400, 440 w/AC Sanden SD508 AC Compressor Bracket

Upgrade the power-robbing factory AC compressor in your Mopar with an efficient Sanden. This set is for models with 1967-76 383, 400 or 440 engines with factory AC and iron water pump housing. Mounts only Sanden SD508 compressors. Fits most standard, shaker, and aftermarket hoods.

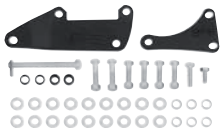

MN410701 1967-76 iron water pump... 134.99 set

1967-76 361-440 w/AC Sanden SD508 AC Compressor Bracket

Upgrade the power-robbing factory AC compressor in your Mopar with an efficient Sanden. This set is for models with 1967-76 B & RB engines with factory AC and aluminum water pump housings or pre-1966 iron water pump housings. Mounts only Sanden SD508 compressors. Fits most standard, shaker, and aftermarket hoods.

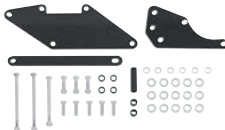

MN410702 1967-76 big block..... 84.99 set

1967-71 Hemi w/AC Sanden SD7H AC Compressor Bracket

Upgrade the power-robbing factory AC compressor in your Mopar with an efficient Sanden. This set is for models with 1967-71 426 Hemi engines with factory AC and aluminum water pump housing. Mounts only Sanden SD7H compressors. Fits most standard, shaker, and aftermarket hoods.

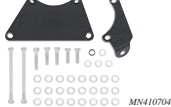

MN410702 1967-71 aluminum pump. 84.99 set

1970-76 318-360 w/AC Sanden SD7H AC Compressor Bracket

Upgrade the power-robbing factory AC compressor in your Mopar with an efficient Sanden. This set is for models with 1970-76 273-360 small block engines with factory AC and original RV2 or C171 compressor. Mounts only Sanden SD7H compressors. Fits most standard, shaker, and aftermarket hoods.

MN410703 1970-76 small block..... 109.99 set

MN410704

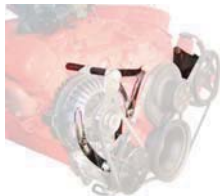

1970-76 318-360 w/AC Sanden SD7H AC Compressor Brackets

Add an efficient Sanden AC compressor to your Mopar without factory AC with these upgrade sets. This set is for models with 1970-76 318-360 small block engines without factory AC and with or without power steering. Mounts only Sanden SD7H compressors. Fits most standard, shaker, and aftermarket hoods.

Important: This bracket set is specifically designed for 6 lbt intakes or other intakes that do not feature the front bolt boss on top of the intake. Cannot be used in conjunction with intakes that feature the front bolt boss.

AC Components

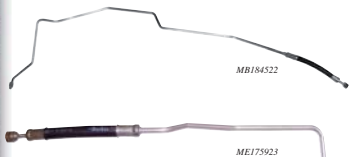

MAR20226

1966-76 AC Condensers

The condenser, along with the evaporator, is a fundamental part of the AC system. Over time, condensers develop leaks and are damaged by road debris, reducing their efficiency. These OE-style tube-and-fin design condensers modern parallel-flow condensers are both designed as direct replacements for the original to keep your AC blowing cold.

High Performance Crate Engines from Mopar Performance!

Choose your Level of Performance with Small Block, Big Block and Hemi Engines from Mopar!

Mopar Performance Crate Engines

Your classic muscle car commands horsepower and performance, and Mopar Performance crate engines deliver.

Crate engine assemblies not used in competition are warranted for "parts only," AS DELIVERED against defects in materials or workmanship for 90 days from the date of purchase. The following parts, if defective, will be replaced on an exchange basis for 90 days: engine blocks and all internal parts; cylinder head assemblies; intake manifold; core plugs; valve covers; oil pan; timing gear; water pump; gaskets and seals. See your dealer for a copy of the limited warranty, which contains additional terms and limitations.

Important: These engines are for off-highway use only and may not be legal for use in pollution-controlled vehicles. Horsepower and torque ratings based on test engine. Ratings may vary on individual engines.

340 Six-Pack - 330 HP

This crate engine uses proven components to deliver a solid 330 horsepower and 340 ft.-lbs. torque in a package that fits in most muscle cars.

Features
340 block with 4-bolt mains
Aluminum "LA" cylinder heads
Heavy duty cast crankshaft

Specifications
Displacement: 340 cubic inch
Bore x Stroke: 4.040" x 3.310"
Cams: Hydraulic, 292°/292° duration, 0.508" lift
Oil Pan: Stock style front sump
Compression: 10:1

Important: Carburetor not included.
Note: Shipped track freight.
No further discounts apply.

12,419.99 ea

360 Magnum - 405 HP

This high output Magnum 360 crate engine produces 405 horsepower at 5,900 rpm with 400 ft.-lbs. at 4,600 rpm.

Features
HP Magnum block
Magnum Aluminum Cylinder Heads
Mopar Performance electronic ignition
Single Plane M1 4-bbl aluminum intake manifold (taller than stock-check clearance)
Center sump oil pan (Commando style)

Specifications
Displacement: 360 cubic inch
Bore x Stroke: 4.040" x 3.310"
Cams: Hydraulic Roller, 288°/292°
Valves: Stainless steel, 2.02" intake, 1.60" exhaust
Compression: 10:1

Important: Optimized for 750 CFM carburetor and symmetrical, neutrally balanced torque converter or flywheel (sold separately). Does not include accessory brackets. Not designed for use with Air Conditioning or factory MPI.

Note: Shipped track freight.
No further discounts apply.

MN1971

410 Six Pack - 470 HP

Mopar's 410 Stroker small-block features a new aluminum "Six Pack" intake manifold and Mopar cast aluminum valve covers. With 470 horsepower and 490 ft.-lbs. of torque, this crate engine will impress at the drag strip and on cruise nights.

Features
340 block with 4-bolt mains
Aluminum LA Cylinder Heads
High-lift Hydraulic Camshaft
Heavy-Duty Forged Stroker Crankshaft
Eight-Quart Center Sump Oil Pan

Specifications
Displacement: 410 cubic inch
Bore x Stroke: 4.040" x 4.000"
Cams: Hydraulic, 292°/292°
Valve Size: 2.02" Intake, 1.60" Exhaust
Compression: 10:1

Important: Carburetor not included.
Note: Shipped track freight.
No further discounts apply.

13,569.99 ea

MN1975

500 Wedge - 505 HP

This Wedge crate engine packs 505 horsepower and 590 ft.-lbs. of torque into 500 cubic inches, more power than any production Wedge motor.

Features
Heavy Duty Cast-Iron Block with Cross-bolted mains
Cast Iron Cylinder Heads
Flat Top Cast Aluminum Pistons
Forged Crankshaft
Premium Double Roller Timing Chain
Chrome Front Cover
Single-Plane M1 Aluminum Intake Manifold
Cast Aluminum Valve Covers

Specifications
Displacement: 500 cubic inch
Bore x Stroke: 4.380" x 4.150"
Cams: Hydraulic, 292°, 0.509"/0.509"
Valves: Stainless, 2.14" Intake, 1.81" Exhaust
Compression: 9.0:1

Note: Shipped track freight.

No further discounts apply.

MN1979

11,279.99 ea

440 Super Commando - 530 HP

How does big block power from a small block package sound? That's 530 horsepower and 540 ft.-lbs. using pump gas, to be specific. This 440 Super Commando is a crate motor to be reckoned with.

Features
340 Siamese Block with 4-bolt mains
Aluminum Cylinder Heads
Single Plane 4-bbl Intake Manifold
Forged Crankshaft and Pistons

Specifications
Displacement: 440 cubic inch
Bore x Stroke: 4.185" x 4.000"
Cams: Hydraulic 251°/257° @ .050", 603" Lift
Valves: 2.080"/1.600" Stainless, with 5/16" Stems
Compression: 10.0:1

Oil Pan: Eight-quart Center Sump Street/Strip
Connecting Rods: Forged 6.123"

Rocker Arms: Aluminum Roller with 1.6:1 Ratio

Important: Carburetor and oil cleaner not included.

Note: Shipped track freight.

No further discounts apply.

High Performance Crate Engines from Mopar Performance!

Choose your Level of Performance with Small Block, Big Block and Hemi Engines from Mopar!

Four Levels of Hemi Performance! Choose From a Streetable
465 HP or Blast Down the Track with 640 Tire-Melting Horsepower!

MN1978

426 Hemi - 465 HP

Enjoy 465 horsepower and 465 ft.-lbs. of torque with this classic 426 Hemi, plenty of classic power to move you!

Features

- Cast Iron Block with Cross-bolts mains
- Cast Iron Cylinder Heads
- Forged Crankshaft and Pistons
- Premium Double Roller Timing Chain and Sprockets
- Performance Electronic Distributor
- Six quart Center Sump Oil Pump 1970-71 B-body/E-Body Style
- Dual Plane 4bbl Aluminum Intake Manifold
- Chrome Valve Covers

Specifications

- Displacement:** 426 cubic inch
- Bore x Stroke:** 4.250" x 3.750"
- Camshaft Lift:** 0.409"/0.483"
- Camshaft Duration:** 234° at .050"
- Valves:** Stainless, 2.25" Intake, 1.94" Exhaust
- Compression:** 8.7:1
- Important:** This engine is optimized for a 4-barrel 750 CFM carburetor and 2" exhaust headers.
- Note:** Shipped truck freight.

MN1976 17,239.99 ea

472 Hemi Crate Engine - 530 HP

This 472 Hemi, with an even 530 horsepower and 530 ft.-lbs. torque, is an impressive step from the familiar 426 Hemi. Plenty of power for any Mopar.

Features

- Cast Iron Block with Cross-bolts mains
- Cast Iron Cylinder Heads
- Chrome Valve Covers
- Aluminum Dual-Plane M1 Four-barrel Intake Manifold
- Heavy-Duty Single Valve Springs with Dampers
- Premium Valve Stem Seals
- Forged Steel Crankshaft
- Premium Double Roller Timing Chain and Sprockets
- High-Performance Electronic Distributor

Specifications

- Bore x Stroke:** 4.250" x 4.150"
- Camshaft:** 301" Hydraulic, 248° duration @ .050" - 0.582"/0.563" Lift
- Valves:** Stainless Steel, 2.25" Intake, 1.94" Exhaust
- Oil Pan:** 6-Quart Center Sump (70-71 B & E-Body Style)
- Compression:** 9.0:1
- Important:** This engine is optimized for an 850 CFM vacuum secondary carburetor and 2" exhaust headers.
- Note:** Shipped truck freight.

MN1978 18,299.99 ea

MN1981

528 Hemi - 610 HP

610 horsepower and 650 ft.-lbs. of torque from a 528 cubic inch Hemi.

Features

- Cast Iron Block
- Aluminum Cylinder Heads
- Forged Crankshaft and Pistons
- Premium Double Roller Timing Chain
- Dual Plane M1 Aluminum Intake Manifold
- Cast Aluminum Valve Covers

Specifications

- Displacement:** 528 cubic inch
- Camshaft:** Hydraulic, 292°, 0.524"/0.543"
- Valves:** Stainless, 2.25" Intake, 1.94" Exhaust
- Compression:** 10.25:1
- Important:** Engine comes with a four barrel manifold included. Cross ram intake system and carburetor not included.
- Note:** Shipped truck freight.

MN1980 18,949.99 ea

528 Hemi Crate Engine - 640 HP

All other factors held equal, there's no replacement for displacement. That's why this huge 528 Hemi Crate Engine was developed to crank out a whopping 640 horsepower and 612 ft.-lbs. of torque! For the pinnacle of Mopar crate engine performance, look no further.

Features

- Black Cast Aluminum Valve Covers
- Aluminum Cylinder Heads
- Heavy-Duty Single Valve Springs
- Premium Material Valve Stem Seals
- Aluminum Single Plane Four-barrel Intake Manifold
- Forged Steel Crankshaft and Pistons
- High-Performance Electronic Distributor
- Precision Double Roller Timing Chain and Sprockets
- Chrome Front Cover

Specifications

- Displacement:** 528 cubic inch
- Bore x Stroke:** 4.500" x 4.150"
- Block:** Siamese Bore, Cast Iron with Cross-Bolts Mains
- Camshaft:** Hydraulic 251°/257° @ .050", 603" Lift
- Valves:** Stainless Steel 2.25" Intake 1.94" Exhaust
- Compression:** 10.0:1
- Oil Pan:** Six-quart Center Sump Street/Strip Connecting Rods: Forged 6.123"

Important: This engine is optimized for an 850 or 900 CFM carburetor and 2-1/4" exhaust headers.

Note: Verify hood clearance for intake manifold. Shipped truck freight. No further discounts apply.

MN1974 19,264.99 ea

MN1974

6.1L (370) Hemi - 425 HP

Horsepower and torque right out of the crate! The 370 Hemi is available in two forms, one (MN2070) with factory wire harness and throttle body, the other (MN1972) with billet fuel rails and integral pressure gauge, cable operated 80 mm throttle body, and programmable EMS kit.

Features

- 6.1 Liter (370 cubic inches)
- 425 horsepower, 430 ft. lbs of torque
- Electronic Fuel Injection
- Dyno tested, ready to run
- Note:** Shipped truck freight.
- No further discounts apply.
- MN1972 w/upgraded FI & EMS kit..... 10,649.99 ea
- MN2070 with basic FI..... 6131.99 ea

392 Hemi Crate Engine - 540 HP

Precision balanced rotating assembly, distributorless Coil-On-Plug (COP) ignition, this 392 Hemi is modern muscle for any Mopar, and is available with electronic fuel injection (EFI) or carbureted. With EFI, this Hemi is good for 525 HP and 510 lb-ft of torque (MN1974). With a Holley 870 cfm carburetor, you can expect 540 hp and 490 lb-ft of torque (MN1973). Both come with a pre-programmed engine controller to ensure compatibility with virtually any vehicle.

Features

- Deep-skirted cast iron block with cross-bolts mains
- 4140 forged steel crankshaft
- Hydraulic roller camshaft
- Premium tri-metal engine bearings
- SFI-approved competition crankshaft damper
- 4130 forged steel I-beam 6,200" connecting rods
- CNC-ported aluminum twin-plug cylinder heads
- Aluminum single plane high-rise intake manifold
- "Plug and play" wiring harness

Specifications

- Displacement:** 392 cubic inch
- Bore x Stroke:** 4.055" x 3.795"
- Camshaft Duration:** 279°/285° (@ .006")
- Camshaft Lift:** 0.584" Intake, 0.552" Exhaust
- Valves:** Stainless 2.100" Intake, 1.600" Exhaust
- Compression:** 10.5:1

Engine Management Features

- Windows software
- Built-In Peak and Hold Injector Drivers
- Built-In Direct Drive Ignition
- Built-In Dual Wideband UEGO Controllers (UEGO sensors not required or included)
- Sequential Fuel Injection
- Soft Cut Rev Limiters
- Onboard 512 kb Datalogger
- Definable Knock Control
- Full Idle Control
- Compatible with Factory Sensors

Note: Shipped truck freight.

No further discounts apply.

ATK Remanufactured Engines

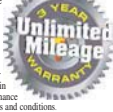

More than 150 processes involved in remanufacturing an ATK engine. Featured procedures include:

- Engine blocks magnafluxed, bored, precision-honed and mains line-honed.
- Camshaft bearings line-bored for accurate center-to-center clearance.
- Engine blocks and cylinder heads precision surfaced.
- Cylinder heads magnafluxed and machined for three-angle valve seats.
- Crankshafts stress-relieved, precision ground and micro-polished.
- Camshafts precision ground or replaced with new.
- Each engine tested (most hot-run tested) for compression, oil pressure, oil leaks, engine noise and general operating condition before shipment.

ATK Remanufactured Engine Warranty Information:

At Classic Industries™, we know that supplying a great product is only part of the job. The staff at ATK is a group of dedicated professionals whose only job is to support you, the Classic Industries™ customer. From the moment you call ATK, whether to request technical assistance or inquire about their warranty, they are dedicated to providing solutions and support. That's the ATK promise. Classic Industries™ and ATK have always been leaders in innovation, offering products, warranties and programs that have redefined the industry. That leadership is evident in our products and our support. ATK warranties to the original purchaser that each engine sold by Classic Industries™ shall be free of defects in material and workmanship under normal use and with periodical maintenance as set forth by the original manufacturer subject to the following terms and conditions.

Product Replaced Under Warranty:

Product replaced under warranty carries the remainder of the original product's warranty term.

Standards:

Subject to the limitations listed herein, ATK, at its option, shall repair or replace a product within the warranty term after determination by ATK that the product or component is to be returned to ATK for inspection. Products not returned to ATK will not be warranted. All repairs and/or replacements covered by this warranty must be authorized by ATK. Unauthorized repairs will not be paid.

Limitations:

- Damage as a result of OVERTIGHTING, LACK OF LUBRICATION, Fuel Wash or Contamination.
- Damage resulting from PRE-IGNITION or DETONATION. This includes but is not limited to: melted or broken pistons, broken piston rings, damaged cylinder heads, leaking head gaskets, etc. For more information regarding pre-ignition and detonation please contact our Customer Service Department.
- Repair or replacement required as a result of any accident or misuse.
- Repair or replacement of any accessory or service item, including specifically but not limited to: all components of the cooling, fuel, electrical and ignition systems in addition to all belts, hoses and filters.
- Any product used for competition racing or related purposes.
- Any product for which a device or accessory not conforming to original manufacturer's specifications has been installed.
- Any product on which periodic maintenance services required by the original manufacturer have not been performed.

Limited Liability:

ATK's liability under this warranty is limited solely to the repair or replacement of defective product. ATK shall not be liable for any incidental, special, consequential or exemplary damages, including but not limited to rental cars, towing fees or for any service not expressly provided for herein, relating to or arising from the ATK product.

Limited Warranty:

This warranty is given in lieu of all other warranties, expressed or implied, including any warranty of merchantability, or fitness for a particular purpose, on the part of ATK or the dealer installing the engine. No dealer nor any agent or employee thereof, is authorized to extend or modify this warranty.

Labor Payments:

ATK authorized repairs will be compensated at a rate not to exceed 100% of the applicable flat rate schedule as published by Chilton, Mitchell or Motor Repair Manuals. Hourly rates for all authorized labor claims will be paid in accordance with the original installation rate, not to exceed \$50.00 per flat rate hour. Do-it-yourself repairs and repairs performed by unlicensed repair facilities will not be reimbursed.

Additional Owner/User Obligations:

Buyer/Owner/Valves must be readjusted to manufacturer's specifications. Diagnostics component designs, cylinder head or torque may or may not be required by your particular application. Refer to factory shop manual for the proper procedure for your engine type. If for any reason you are unsure what action to take please contact our Customer Service Department at our Toll Free telephone number. First Service Between 600 Miles After Installation: Oil and oil filter must be changed, valves readjusted and cylinder heads re-torqued (refer to initial start-up instructions). Failure to perform these basic operations may result in a voided warranty.

Introducing ATK's No Fault Gold Warranty Program.

An added protection program that covers car rental, towing, an increased labor rate and fluids on all approved claims.

The No Fault Gold Warranty Program Includes:

Rental Car up to \$150!

Rental car expense reimbursed for 5 days/ \$30 per day up to \$150

Towing Up to \$100!

Towing reimbursed on approved claims up to \$100 per occurrence.

Increased Labor Rate Up to \$95 per hour

Increase labor rates to cover approved repairs up to \$95 per hour

Fluids Up to \$25!

Cost of fluids is reimbursed on approved claims up to \$25

ATK now offers the No Fault Gold Warranty Program for you to purchase in addition to the Industry Leading standard ATK warranty already included with our remanufactured engines. This added protection policy covers expenses not included in ATK's standard warranty. Coverage is based on hourly rates established by Chilton, Motor and Mitchell manuals.

ATK Gold Seal Service Agreement is an additional \$200.00

	Rental	Towing	Max. Hourly Labor Rate
NO Fault Gold Warranty Program	YES	YES	Up to \$95
Standard ATK Warranty	NO	NO	Up to \$50

How does the core charge work?

Upon ordering, you will be charged the retail price of the engine plus the core charge. When your engine arrives, you will save the crating that it is shipped in, so that you can use it to package your core. Once the core is ready to ship, you will call ATK for core pickup. ATK will then inspect the core to make sure it meets the following criteria. Providing the core meets all of the criteria, you will be refunded the core price.

Core Policy:

- All cores must be drained prior to core return.
- Fluids must be complete and in rebuildable condition.
- Core returned must be identical to the engine purchased in size and application.
- ATK reserves the right to refuse any core that has been modified or altered.

Note: Core prices can fluctuate according to supply, demand and availability. If you plan to return a core for credit, please confirm the core price with your salesperson prior to ordering. No further discounts apply.

Important: All engines come without valve covers, timing cover and oil pan unless otherwise noted. Shipped anywhere in the Continental United States for \$50.00.

Note: No further discounts apply.

High Performance Mopar Crate Engines from ATK

ATK has been building engines for over 75 years and has assembled a line of crate engine packages to power up your Mopar. Classic Industries' dedication to bringing the highest quality products on the market, combined with ATK's industry-leading warranty make these Mopar ATK crate engines an obvious choice. Available as a base engine for enthusiasts

with their own fuel, ignition, and top end components, a mid-dress version that needs only a fuel system, plugs, and wires, or as a complete, ready-to-run package for those who want to bolt their engine into their Mopar and hit the road. For the ultimate in Mopar crate engines, there's no better source than ATK from Classic Industries.

MN2425

440 Mopar Engine 520 HP

Responding to popular demand, ATK Performance has gathered a great combination of Edelbrock parts to make a solid 520HP/560QT engine package to power up your ride.

Important: Not eligible for the No Fault Gold Warranty Program. Not intended for marine use. Marine use voids all warranties.

Note: Product may vary from image shown. No further discounts apply.

Features

Seasoned OE 440 Block
Nodular Iron crankshaft
Hydraulic Flat Tappet camshaft
10.1 Forged Pistons
Moly rings
Scat I Beam rods with ARP rod bolts
Edelbrock Performer RPM intake
Edelbrock Aluminum 84cc Cylinder heads
Quick fuel 780cfm Carburetor
MSD Pro Billet RTR Distributor
Holley 110GPH Fuel Pump
MSD 8mm Spark Plug Wires
8" Neutral Balance Harmonic Balancer

Specifications

Displacement: 440 cubic inch
Bore x Stroke: 4.320" x 3.750"
Camshaft Duration: 238°/246° @ .50
Camshaft Lift: 0.488" Intake, 0.495" Exhaust
Compression: 10:1

Base Engine

Stage 1 engines include the oil pan, valve covers and timing cover. This is the engine to order if you already have fuel/ignition components and performance top end components to use.

MN2427 6999.99 ea

Mid Dress Engine

Stage 2 engines take the base engine package and add a performance intake manifold, distributor, water pump, balancer and flex plate. Install a performance fuel system, plugs and wires to get going.

MN2426 9299.99 ea

Complete Engine

Stage 3 engines are dyno tested, tuned, and ready to run. This engine includes everything in the Mid Dress package and adds a fuel pump and performance carburetor for a complete package.

1967-74 Heavy Duty Motor Mounts

Heavy duty motor mounts designed to provide the safety of an enclosed mount design, but also to provide a direct steel-to-steel lock-up under acceleration. Power is transmitted without excess motion and resultant power loss. Clearances for headers and other tight-fitting components can be closer due to reduced engine motion, but engine vibration and harshness during normal driving is isolated from the chassis as well as with stock motor mounts. MityMounts® appear exactly like stock motor mounts once installed. Made in USA, with a lifetime manufacturer's warranty.

1967-72 A-Body Motor Swap Mounts

If the factory motor just isn't "adequate" for your 1967-72 A-Body, these engine-swap sets make it easy to remedy the problem. With these sets, you can dump that Slant 6 for a 340 or 360 small block or convert to the more powerful big block. Sets include frame mounts and motor mounts; select sets include hardware.

1962-76 Engine Swap Motor Mount Sets

Make your engine swap easier with these motor mount swap sets to position your motor in the engine bay! Made in the USA.

1962-76 Motor Swap Mount Kits

Swap out your Slant 6 for a small block, big block or Hemi V8 with these engine swap motor mount sets. Each set includes engine mount brackets, engine mounts and hardware. Motor mount conversion only; other parts required to complete conversion.

Note: Swap requires custom headers/exhaust system. Currently there are no manifolds or headers manufactured for this swap.

426 Hemi Motor Swap Mount Set

This Hemi conversion set offers factory-correct motor position and race performance strength yet still retains a smooth, insulated ride. This bullet-proof spool-type mount set allows you mount a new crate or original 426 Hemi to your V8 K-member without additional fabrication, K-member modifications, or additional installation parts required. Accepts factory Hemi manifolds, works with power steering, power brakes and both automatic and manual transmissions. Includes mounts and hardware.

Note: Custom headers are required.

1962-75 Poly-Loc™ Engine Mounts

These revolutionary new polyurethane locking mounts offer a unique, heavy duty interlocking feature that allows engine movement about the axis of engine rotation, while providing a rugged mechanical lock to keep your engine in place under hard acceleration. Made from high quality steel, hand formed and welded, then zinc dichromate plated for corrosion resistance, these are the toughest polyurethane engine mounts on the market. Made in USA.

Note: For use with original factory brackets.

** Poly spool replacement mounts.*

1962-74 Torque Strap

Throw away your chains and broken motor mounts: this torque strap can handle all the upgraded power and excess vibration your Mopar small block or B/RB engine can dish out. Features heavy duty rod ends for adjustability, urethane bushings, DOM tubing and grade 8 hardware. Does not interfere with power steering and does not require welding or major fabrication. Includes powder coated torque strap, all necessary hardware and instructions. Mounts in existing sway bar location on some models. Made in the USA.

1973-76 Polyurethane Motor Mount Insert Set

This performance motor mount is firm enough to handle high horsepower and torque output, yet is soft enough to dampen excess vibration. Will not deteriorate when exposed to underhood fluids. This set replaces right and left side motor bushings. Available in red or black polyurethane. Made in USA.

Note: Must reuse the existing bushing outer metal shells.

Add "G" to part number for black, "R" for red.

1973-76 Motor & Trans Mount Insert

These polyurethane transmission and motor mount inserts are engineered for your specific application to provide the performance of solid mounts without the vibration and noise. Polyurethane stands up to the elements better than rubber while limiting unwanted movement and controlling torque so that all possible energy is transferred to the wheels. Wheel hop is reduced, along with potentially damaging drive train movement.

Note: Will not work on 1973 340 models.

Elite Autoscaner Pro

This OBD I and OBD II enhanced scan tool offers hobbyists and technicians the features they need. Upgraded features include the ability to read domestic enhanced codes, graph engine data, record stored vehicle information, and the ability to print information through a PC. Compatible with ALL 1996 and newer OBD II compliant vehicles as well as certain pre-1996 GM, Ford and Chrysler vehicles. All Actron code readers and scan tools are CAN compliant.

Note: No further discounts apply

- Read and erase generic and manufacturer-specific Diagnostic Trouble Codes (DTCs)
- Displays and resets MIL (Malfunction Indicator Lamp) status
- Read, record & playback live sensor data
- OBD II emissions check and drive cycle mode
- Read and display I/M (Inspection/Maintenance) monitors
- Battery powered for off-vehicle data review
- Large, backlit LCD
- USB port allows updates via internet
- Print data via PC
- Trilingual menu & options - English, French, Spanish

AC9190 \$34.99 ea

OBD II PocketScan Plus New!

PocketScan® Plus is the most advanced, powerful and compact code reader available! Besides reading DTCs, this scan tool provides freeze frame data, VIN info and performs I/M Inspection maintenance-readiness testing. An excellent resource before and after repairs are made!

Note: No further discounts apply.

- Automatically reads Diagnostic Trouble Codes (DTCs) when connected
- Displays over 4,000 OBDII generic code definitions
- Compatible with ALL 1996 and newer vehicles (OBD II & CAN)

AC9550 \$79.99 ea

New!

MSD

MSD Self-Powered Timing Light

This self-powered timing light is a tool every tuner should have. Because it does not require 12 volts, less wires are hung over the engine, making for quick, easy checks. For power, the light uses six AAA batteries. The lightweight assembly is injection molded for durability and produces an intense strobe that is easy to view through 5,000 rpm. The inductive pick-up is detachable for easy storage.

8991 \$224.99 ea

New!

MSD

MSD Timing Light

This MSD Timing Pro is constructed with solid state circuitry and uses a Silicon Controlled Rectifier (SCR) to provides accurate and stable timing signals from 0 to 8,000 rpm. This rugged timing light is built to work in rough environments such as racing pits or professional mechanic shops. The lightweight, durable assembly produces an intense strobe that is easy to view even in daylight. The inductive pickup is detachable for easy storage and for safety measures while the battery clamps provide a strong grip to the terminals. The battery clamps are color-coded and insulated for tight, safe connections.

March "Revolver" Serpentine Sets

This highly styled one piece bracket, designed especially for Big Block Mopar models and Hemi is CNC machined from 6061-T6 aluminum for strength and perfect fit. Provides a rigid backbone for the alternator and A/C compressor, while a separate bracket allows the addition of a power steering pump, if desired. Four

separate idlers guarantee no-slip operation. Hard coated on high wear areas and clear powder coated to eliminate polishing in hard to reach places. Made in USA.
Note: No further discounts apply.

- 105 Amp Alternator; Chrome
- Alternator Pulley w/Fan & Nose Cover
- Matching Chrome AC compressor
- AC Compressor Nose Cover
- Polished Aluminum Water pump
- Hard coated Water Pump Pulley
- Alternator/AC Bracket
- Crank Hub Adapter
- Larger Diameter Crankshaft Pulley
- Belt Tensioning Tool
- Power Steering Pulley Nose Cover
- Mounting Hardware
- Kits with Power Steering Include GM Type 2 Power Steering Pump (Hoses & Reservoir Not Included)
- Chrome or Billet Canister Style Power Steering Pump (where listed)
- Power Steering Pulley w/Nose Cover
- Idlers
- Bracket with mounting hardware

Serpentine Belt Ultra Sets

This stylish serpentine conversion set solves the problem of unreliable V-belt accessory drives for Chrysler 383ci, 440ci and Hemi. No more belt throwing or slipping. A unique combination bracket mounts the alternator and A/C in a compact manner. The power steering bracket accepts a standard Saginaw pump. Three idlers guarantee plenty of belt wrap for no-slip operation. Precision CNC machined from 6061-T6 aluminum for strength and perfect fit. Hard coated on high wear areas and clear coated to eliminate polishing in hard-to-reach places. Made in USA.

Note: Serpentine belts are not included in any of the sets, however the belt length is included below. No further discounts apply.

- Combination Alternator/AC bracket and Rear Support
- Power Steering Bracket, & Support
- Power Steering Pulley with cover
- Crank pulley, Water Pump pulley and Nose Cover
- Alternator Pulley with Cover
- Belt Tensioning Rod
- Idlers and Covers
- Grade 8 mounting hardware
- AC Compressor Cover

Ultra Sets

Note: will not work with billet alternator, also requires a electric fuel pump.

March "Style-Track" Serpentine Systems

Enjoy high style, low cost excitement for your Chrysler Small Block V8. This set includes a one-piece alternator and air conditioning bracket for rigid support, while a separate bracket allows the addition of a power steering pump, if desired. Four separate idlers guarantee no-slip operation, while maintenance-free powder coating in your choice of Clear, Black, or Black Onyx lets you forget about polishing. Made in USA.

Note: Serpentine belt is not included with any set, however length of belt is listed below and included in the instructions. No further discounts apply.

- 105 Amp Alternator Chrome
- Alternator Pulley with Fan & Nose Cover
- Chrome AC Compressor
- Water Pump & Hardcoated Pulley
- Alternator and P/S Bracket
- Crankshaft Pulley
- Belt Tensioning Tool
- Mounting Hardware
- Power Steering Bracket
- 4 Idlers (for better belt wrap)
- GM Type 2 Power Steering Pump (Hoses & Reservoir Not Included)

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries' assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

MARCH

MN2714

Fluidampr Harmonic Balancers

These Fluidampr viscous dampers by Horschel Motorsports are among the best dampers on the market. Instead of a rubber, or "elastomer" dampening material that deteriorates over time, a silicone gel is used inside the damper to keep the flywheel in place and function as the insulator for the internal flywheel. This significantly reduces the risk of catastrophic failure that can occur when rubber dampers wear out. Measure 7-1/4" outer diameter, feature a steel construction, 1.5295" minimum and 1.5305 maximum bore diameter, and are finished in black zinc chromate. Made in the USA.

Note: *Minor modification may be necessary to the stock crank pulley.

Pro Race SFI-Approved Harmonic Balancers

Pro Race harmonic balancers are designed for a wide range of high performance applications. These performance dampers are direct replacements for cast iron factory originals and are SFI approved for racing. PRO/STREET balancers measure 7.25" in diameter and 1.00" in thickness. PRO/RACE balancers measure 7.01" in diameter and 1.54" in thickness. PRO/SPORT balancers measure 6.61" in diameter and 1.52" in thickness, while PRO/STREET Underdrive balancers measure 5.86" in diameter and 1.67" in thickness.

CAUTION: PRO/STREET or PRO/SPORT counterweights are not interchangeable with PRO/RACE counterweights.

Note: *Fits 426 Hemi engine with slight TDC adjustment detailed in instruction manual that is supplied. Will not fit early 354 & 392 Hemi engines.

1961-85 Edelbrock Cylinder Heads

318, 340, 360ci Chrysler

Performer RPM Chrysler heads deliver outstanding performance in non-emission 1967-91 Chrysler 318-340-360ci engines. Designed for non-emission 1968-73 340ci Chrysler, RPM Chrysler 340 heads have chambers machined .060" for clearance with early high-compression engines. These heads are capable of 417 horsepower and 397 ft/lbs. of torque on pump gas with an Edelbrock Performer RPM intake manifold and matching camshaft. Sold individually.

Important: Not compatible with 1970 340 7A engine. Bare heads will have valve guides & seats installed, but will require final sizing and a valve job to match the valves you will be using. Recommend 14mmx3/4" reach spark plugs with flat gasket seat (Champion RC12YC)

Note: Not legal for sale or use on pollution controlled motor vehicles. Shipped overweight.

No further discounts apply.

Victor Max Wedge Heads

Intake ports are machined to match Max Wedge intake manifolds for RB competition big-block Chrysler models. Intake ports are raised .650", exhaust ports are raised .250" for improved flow. The intake flange is extended .950" to eliminate the need for intake spacer plates. Exhaust flange is extended .300" from stock (same as Mopar Stage 6) featuring dry exhaust bolt holes with Helicoil® thread inserts. Sold without springs or retainers; use recommended springs to match your cam.

Note: Offset intake rockers required, exhaust side accepts standard-spec rockers. May require additional pushrod hole clearance for some combinations. Bare heads will have valve guides & seats installed, but will require final sizing and a valve job to match the valves you will be using. These heads require the use of a 14mm, 3/4" reach, flat gasket spark plug with a heat range appropriate to your application. Shipped overweight. No further discounts apply.

Camshaft Sets

Edelbrock Performer Plus Camshaft Kits

Designed for optimum torque from the low-end to the mid-range, Performer® Plus camshaft packages match with Performer® manifolds for vehicles operating from idle to 5500 RPM. They are smooth idling cams that provide for a major improvement in throttle response and torque. All camshafts come with hydraulic lifters, assembly lube and instructions.

Note: Not legal for sale or use on pollution controlled motor vehicles.

No further discounts apply.

Mopar Performance Small Block "Purple" Camshaft Sets

All Mopar "Purple Shaft" performance camshafts are designed, developed, dyno tested and track-tested by engineers for increased power and rpm potential while maintaining reliability and the best possible low-speed characteristics, including torque and idle quality. Fits all LA family 273, 318, 340 and 360 engines. Each package contains the camshaft, instruction sheet, and tappets.

Note: Mopar recommends the use of a high zinc oil for maximum durability for flat tappet camshafts.

Mopar Performance Big Block Purple Shaft Camshaft Kits

All Mopar Purple Shaft performance camshafts are designed, developed, dyno'd and track-tested by engineers for increased power and rpm potential while maintaining reliability and the best possible low-speed characteristics, including torque and idle quality. Big Block models included are Chrysler B/RB (361, 383, 400, 413, 426 Wedge and 440). These Purple Shaft cams offer the best horsepower-to-dollar-sent value. Each package contains the camshaft, instruction sheet, and tappets. Hydraulic camshafts use a 1 bolt design and Mechanical camshafts use a 3 bolt design.

Note: Mopar recommends the use of a high zinc oil for maximum durability for flat tappet camshafts.

Edelbrock Performer RPM Camshaft Kits

Designed for high-performance street applications, Performer® RPM cams provide power from 1500 to 6500 RPM. These hydraulic lifter camshafts are dyno-matched to Performer® RPM manifolds for high RPM horsepower while maintaining acceptable low-end torque. With 10-12 inches of manifold vacuum at idle, Performer® RPM cams have more lift and duration than most street camshafts.

Note: Not legal for sale or use on pollution controlled motor vehicles.

No further discounts apply.

Camshaft Thrust Buttons

Camshaft thrust buttons ride between the front of the timing gear and the back of the timing cover. They can be shimmed to achieve proper end play. These come in either steel roller bearing style button or nylon thrust button. These fit 1960-76 383-440 and 1966-71 426 Hemi with 3-bolt cam gears. MN2120 .715" roller style. 21.99 ea MN2121 .735" nylon style. 11.99 ea

Camshaft Wear Plate

This wear plate bolts to the front of the block and regulates the cam thrust in the engine. Made from steel and moly coated to last with a bearing thickness of 0.30". This item always wears-out and should be changed whenever replacing the cam or rebuilding the engine. MN2123 big block..... 15.99 ea

Your Choice of Four Convenient Sets to Meets Your Specific Needs!

Important: On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high performance set from Classic Industries.

A - Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals

B - Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft

C - Small Set

Order the small set for cam and lifter set plus timing chain and gear

D - Complete Set

Complete set includes cam, lifters, timing chain & gear valve springs and retainers, valve locks, valve stem seals

High Energy™ Hydraulic Cams for Your Mopar Daily Driver!

All High Energy™ designs are totally streetable hydraulic cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with

other hydraulic cams. High Energy™ cams produce more power, are more efficient and do not affect the engine's idle characteristics to the point of making your car undrivable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering. A variety of cams and kits are available for small block and big block applications.

Magnum™ Hydraulic Cams for High Performance Mopar Engines!

The Magnum™ Cam is a great cam for high performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Mopar applications. The Magnum™ will not affect power accessories, but should be used with headers and a change in rear end gear ratios. This is the perfect hydraulic cam for cruising. **Important:** Vendor states that engine must use recommended valve springs. Use of stock valve springs could

cause damage when used with these camshafts. Complete sets include valve springs.

Xtreme Energy™ Hydraulic Cams for Street/Strip Mopar Engines!

Xtreme Energy™ Cams are Comp Cams' newest series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock.

Important: Vendor states that engine must use recommended valve springs. Use of stock valve springs could cause damage when used with these camshafts. Complete sets include valve springs.

MOROSO

Aluminum Small Block Valve Covers

Moroso fabricated aluminum small block valve covers. Fabricated entirely from one piece of quality aluminum that makes them ultra lightweight. One piece billet rail is 3-3/4" tall that is CNC machined to ensure a precision flat surface for superior sealing that allows the engine to pull greater vacuum for improved ring seal and power. Tall enough to clear most rocker combinations. Fasteners are included.

DF1700

DF1701

Dual Flow Adjustable PCV Valve

Does your PCV valve match your engine? Stock PCV valves are not designed to work with modified high performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to push out of your breathers, cause oil leaks, or contaminate your oil with piston blow-by gasses. Now you can manage your crankcase pressure with this fully 6061-T6 billet aluminum dual-flow PCV valve. Once adjusted, the valve will provide sufficient crankcase ventilation during both idle and cruise. Valve fits 3/4" ID valve cover grommets and 3/8" ID PCV lines. An available adapter allows for installation on 3/8" ID inline applications. PCV valve set includes valve, vacuum gauge fitting, allen wrench, and detailed instructions. Made in USA.

Note: Not intended for use on pollution-controlled vehicles.

T6067

Aluminum PCV Valve

This aluminum hose PCV valve is just what you need to finish your engine bay detailing project. Manufactured with a 3/4" neck for 3/4" ID grommets.

Note: Rubber grommet not included.

T6068	polished PCV valve	19.99 ea
T6067	chrome PCV valve	23.99 ea

Universal Crankcase Evacuation System

This universal crankcase evacuation system is designed for high performance and racing applications. It replaces the standard PCV to air cleaner system by connecting to the exhaust system allowing exhaust pressure to pull the from the crankcase. Includes two simple pipes with one-way valves that weld to the header collectors and are connected to dual valve cover breathers.

Note: Not for use on pollution controlled vehicles. For valve covers with 1-1/4" holes. Hoses are not included.

20501	universal crankcase evacuation system	34.99 set

25051

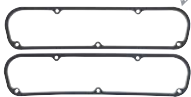

25131

Oil Catch Tanks

An oil catch tank works as a filter for the PCV system. It connects between an engine's crankcase vent and the induction system, filtering oil and moisture before they can enter the intake manifold, reducing emissions and carbon buildup. These fabricated aluminum tanks come complete with mounting tabs, barbed inlet/outlet fittings, a drain plug, and a sight glass to let you know when it's full.

25031	round 34oz sealed tank	56.99 ea
25051	round 17oz tank w/breather filter	56.99 ea

Edelbrock Intake Manifolds

E2176

Edelbrock Performer Family Intakes

Edelbrock Performer intakes are dual-plane intakes designed for street engines and are either stock replacement or street legal upgrades for your Mopar small or big-block engine. Performer intakes are best from idle to 5500RPM while Performer RPM and RPM Air-Gap intakes are best from 1500RPM to 6500RPM.

Note: No further discounts apply to all Performer Intakes.

Edelbrock Performer Intakes

Designed for street 318-340-360ci Chrysler V8s. E2176 is stock replacement/street legal part for 1966-72 V8s (and 1973 non-CA models) with OEM 4-bbl. carburetor except models equipped with EGR. E3776 is stock replacement/street legal part for 1972-87 small block engines with OEM 4-bbl. carb.

E2176 318-360 non-EGR natural finish 279.99 ea
E3776 318-360 w/EGR natural finish 304.99 ea

361, 383, 400

Designed for blocks that measure 7.75" across. For EGR, #E2186 is stock replacement/street legal part for 1972-78 model 400 V8s with OEM 4-bbl. carb. For non-EGR, #E2186 is stock replacement/street legal part for 1966-72 model engines with OEM 4-bbl. carb. (1973 non-CA); except stock equipped EGR.

E2186 361-400 EGR/non-EGR natural finish 274.99 ea

413, 426, 440

Designed for blocks that measure 8.75" across. For EGR, #E2191 is stock replacement/street legal part for 1972-79 440 V8s with OEM 4-bbl. carb. For non-EGR, #E2191 is stock replacement/street legal part for 1966-72 413, 426 (Wedge), 440 V8s with OEM 4-bbl. carb. (1973 non-CA); except stock equipped EGR. Will not fit 1962-64 Max Wedge heads.

E2191 413-440 EGR/non-EGR natural finish 251.99 ea

Edelbrock Performer RPM Intakes

Note: Not legal for sale or use on pollution controlled motor vehicles.

318, 340, 360

Designed for 340-360ci Chrysler V8s and 318ci engines with 340-360 cylinder heads, use of the latest technology in their dual-plane design results in both excellent low-rpm torque and outstanding high-rpm horsepower. Recommended for high-performance street and strip applications. Arrives 1975 and earlier water neck only. Will not accept stock Thermo-Quad carburetor. Will not fit 1992 and later Magnum engines. Match with Performer heads #E60779 for maximum performance.

E7176 340-360 non-EGR natural finish 314.99 ea

361, 383, 400

Designed for 361-383-400ci Chrysler engines. Dual-plane design results in excellent low-end torque and high-rpm power. High flow runner design will handle the popular strip combinations. For high-performance street/strip applications. Will not fit 1962-64 Max Wedge heads.

E7186 361-400 non-EGR natural finish 299.99 ea

413, 426, 440

Designed for 413-426-440ci Chrysler V8s. Dual-plane design results in excellent low-rpm torque and outstanding high-rpm horsepower. For high-performance street/strip applications. Will not fit 1962-64 Max Wedge heads.

E7193 413-440 non-EGR natural finish 269.99 ea

Edelbrock Performer RPM Air-Gap Intakes

Note: Not legal for sale or use on pollution controlled motor vehicles.

318, 340, 360

Designed for 340-360ci Chrysler V8s and 318ci engines with 340-360 cylinder head. Will not accept stock Thermo-Quad carburetor. Will not fit 1992 and later Magnum engines. Includes nitrous bosses. No provision for exhaust heated chokes and no exhaust crossover.

E7576 340-360 non-EGR natural finish 329.99 ea

E75764 340-360 non-EGR Endurashine finish 504.99 ea

E75763 340-360 non-EGR black powdercoated finish 444.99 ea

5.7L Hemi

Fits new 5.7 Hemi engine. Dual-Quad intake provides nostalgic look with modern power. Must be used in conjunction with Timing Control Module, sold separately.

E7528 5.7L HEMI natural finish 439.99 ea

E75284 5.7L HEMI Endurashine finish 579.99 ea

Edelbrock Torker Family Intakes

Torker family intakes offer the same performance as Performer intakes, but with Edelbrock's patented Air-Gap technology. Ideal output from 1500-6500RPM.

Note: No further discounts apply to all Torker Intakes.

E3010

Edelbrock Torker 383

Designed for blocks that measure 7.75" across. Great for street high-performance engines operating between 2500 and 6500 rpm where low-end torque is not a requirement.

Note: 50-state legal.
E3010 361-400 non-EGR natural finish 304.99 ea

Edelbrock Torker II

318, 340, 360
Designed for high performance street Chrysler small blocks. Can be used on 318 if 340-360ci cylinder heads are used. Will not fit 1992 and later Magnum engines.

Note: Not legal for sale or use on pollution controlled motor vehicles.

E5076 340-360 non-EGR natural finish 294.99 ea

413, 426, 440

Designed for street Chrysler big blocks that measure 8.75" across block. Will not fit 1962-64 Max Wedge heads.

Note: Not legal for sale or use on pollution controlled motor vehicles.

E5091 413-440 non-EGR natural finish 269.99 ea

Edelbrock OEM Replacement Multi-Carburetor Intakes

Edelbrock replacement multi-carburetor intakes feature an open air space that separates the runners from the hot engine oil for a cooler, denser air charge, resulting in more power.

Note: No further discounts apply.

E2475

Edelbrock CH-28 Dual Quad

413, 426, 440
Designed for Chrysler big blocks that measure 8.75" across block. Will not fit 1962-64 Max Wedge heads. Carb center to carb center: 6-7/16".

Note: Not legal for sale or use on pollution controlled motor vehicles.

E5440 413-440 non-EGR natural finish 371.99 ea

E54401 413-440 non-EGR polished finish 574.99 ea

Edelbrock CH-6B Six Pack

413, 426, 440
Designed for 440ci Chrysler engines with 3x2-bbl. carbs, also fits 413 and 426 Wedge. #E2475 is stock replacement/street legal part for 1968-71 model 440 V8s with OEM 3x2-bbl. carbs. This manifold was used on Chrysler 440 Six-Pack engines. Will not fit 1962-64 Max Wedge heads.

Note: 50-state legal.

E24751 413-440 polished finish 699.99 ea

1958-87 Edelbrock Intake Manifold Gaskets

Matched to Edelbrock Performer and Performer RPM cylinder heads and manifolds, Edelbrock intake gaskets allow for optimum flow and performance. The new MP-2N Micropore™ technology does not use solvents making our gaskets environmentally friendly. Impervious to leaded motor chemicals, this synthetic fiber composite provides a high recovery under load. This means that when compressed, the gasket will conform to any imperfections on the sealing surface even using lower flange pressures. A nitrile bead around each port opening makes the seal even better.

Note: *Must be used with OE style valve pan. No further discounts apply.

Intake Manifold Components

MN2420

Big Block Valve Pans with Dimple

These valve pans are designed for "RB" and "B" engines and include a clearance well, or dimple, that will clear exhaust crossovers found in many dual plane intake manifolds. "Lips" along the side fit underneath the edge of the cylinder heads, making a tight seal and allowing the use of standard intake port gaskets. This pan works well with the standard Edelbrock performer and Performer RPM intake. Works great with Edelbrock RPM cylinder heads and other aftermarket heads with an unbroken deck surface where the cylinder head meets the edge of the valve pan. These pans may be used with factory cylinder heads, depending on the intake manifold, if any break in the lower deck surface is filled with silicone. Finished in gold iridite finish for corrosion resistance. Made in USA.

Important: Will not work with original cast iron intake.

Note: Because this pan fits under intake face edges, at least one cylinder head must be removed in order to install or remove valve pan.

MN2420 RB engines.....	44.99 ea
361, 383, 400 Engines	
MN2422 B engines.....	44.99 ea

MN2419

Big Block Flat Valve Pans

These fabricated valve pans are designed for "RB" and "B" engines that are using single-plane intake manifolds. "Lips" along the sides fit underneath the edge of the cylinder heads, making a tight seal and allowing the use of standard intake port gaskets. Works great with Edelbrock RPM cylinder heads and other aftermarket heads with an unbroken deck surface where the cylinder head meets the edge of the valve pan. These pans may be used with factory cylinder heads, depending on the intake manifold, if any break in the lower deck surface is filled with silicone. Finished in gold iridite finish for corrosion resistance. Made in USA.

Important: Dual plane intake manifolds (both factory and aftermarket) will not fit due to exhaust manifold interference.

Note: Because this pan fits under intake face edges, at least one cylinder head must be removed in order to install or remove valve pan.

K&N Carburetor Cover

Damage to pistons, rings and other components can be caused by accidentally dropping something into your carb while the air cleaner assembly is off. The K&N Carburetor Cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws or other items down the throat and into the intake manifold. Also works well in keeping dirt, dust and other elements out of your carb during times you must store your engine or vehicle with the air cleaner assembly removed. Choose from black, red or orange. **5-1/8" Carburetor Cover**

K&N Airforce Pre-Cleaner

The K&N Airforce Pre-Cleaner is a specially designed foam filter wrap made to extend the service interval of your K&N Air Filter. It is especially helpful when operating in very dusty conditions such as off-road or in construction sites. Manufactured from large open cell foam, the Airforce Pre-Cleaners are available as a custom fit application for 14" round elements or as a universal "cut to fit" application. "Cut to fit" applications come with velcro straps to secure the foam to your air cleaner.

Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off road or in extremely dusty conditions such as construction sites, etc. K&N Air Filter Sealing Grease resists heat and will not melt or run off. Choose from 6 ounce or 1 ounce squeeze tube.

CL8500

Retro Style Air Cleaner

This custom air cleaner assembly was inspired by the Cadillac and Oldsmobile oil bath air cleaners of the early 1950s. Manufactured in heavy gauge steel and powdercoated in a semi-gloss black finish, these custom air cleaners fit most carburetors and throttle bodies with a 5-1/8" mounting flange. The lower rear section of the air cleaner is clearcoated for HEI distributors. Available in a full scale 18-1/4" wide version that uses a 14" x 4" filter element and a 7/8 scale 15-21/32" wide version that uses a 12" x 3" filter element. Both sizes include a filter element, chrome rocket-shaped wing nut and an air cleaner decal.

K&N PERFORMANCE FILTERS

E1650

K&N Air Cleaner Assemblies

Using oil-impregnated pleated cotton, K&N filter elements exceed minimum filtration standards while creating little restriction to air flow. This results in more air going into the engine and more power being produced. These filters are washable, reusable, and backed by a one million mile limited warranty. The elements listed below are designed for use with K&N chrome and stainless steel air cleaner assemblies.

XStream Air Flow Top and Assembly

If your engine still has its stock style filter element and air cleaner assembly, it is probably not realizing its full horsepower potential. Restrictive elements and turbulence inside a stock filter housing can choke critical airflow. K&N's XStream® Air Flow Top or the XStream® Air Flow Assembly for 5-1/8" neck flange. Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Height listed below is minimum clearance needed above the carburetor flange.

K&N Air Filter Oil & Clean/Degreaser Kit!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt build up and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each kit includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

Universal 90°/45° Single Plenum Air Intake

This air intake system uses a single plenum design with 45° 90° tube to get the most power from your engine! Available for driver or passenger side in standard height or low profile configuration. Includes intake tubes, filters, boots, clamps, and hardware. Choose from blue, black, red, or white filters. Fits standard 5-1/8" carb neck.

Note: Standard height air intakes require 3-1/2" clearance between the top of the carburetor and the hood. Low-profile air intakes require 2-1/2" clearance between the top of the carburetor and the hood.

These Custom Billet Air Cleaners Go Beyond Engine Dress-Up Take Your Mopar Engine to a New Level of Excellence!

Air Cleaner Bases
CNC-machined to fit snugly onto standard 5-1/8" carburetor necks. Available for single 4 bbl and 2 x 4 bbl Holley and Edelbrock carburetors. Will not warp with heat!

Available in Satin or Polished Finish!

Air Cleaner Lids
Lids are CNC-machined from a 30 pound block of billet aluminum.

Custom Hold-Downs
These brackets fasten from the underside of the air cleaner, leaving the topside clear and uncluttered.

Washable Filter Elements
Choose from orange or white cotton filter elements, available in 2" height to fit most vehicles or 3" for applications with extra hood clearance.

Moroso Chrysler Big Block Oil Pan

Moroso Chrysler big block 361-440 and 426 Street Hemi oil pan works well in chassis with extra low front suspensions. Made in the stock configuration. Features anti slosh baffling. This oil pan is compatible with most starter/flywheel combinations. Made from stamped steel that has a clear zinc coating.

Note: Will not fit 1962-65 production chassis and is not recommended for racing applications due to its shallow sump design.

Milodon Stock Replacement Oil Pans

These stock replacement oil pans feature a distinctive gold plating that provides long lasting protection against corrosion inside and out. Every pan is 100% leak checked and block checked to the high standards of quality that Milodon is famous for. Flat, unwarped pan rails and proper bolt hole alignment provide for a fit and function that is unmatched in the industry. All pans are specifically designed for use only with Milodon gaskets, sold separately. Also sold separately is Milodon's "crush proof" gasket seal set, item# MD40600 for 318-340 small block or item# MD40650 for 360 small block and item# MD40700 for 383-440 big block. Requires high volume oil pump and pickup screen.

Made in USA

318-340-360 Oil Pan Hardware Sets

The engineers at ARP developed these unique oil pan studs to install a pan and seal it properly. The studs have a radiused bullet nose that serves to locate the pan rails and allow the nuts to be installed without cross-threading. For those who prefer bolts, ARP has you covered, too. Both studs and bolts are available in black oxide finished chrome moly steel or rust-proof stainless steel in your choice of conventional hex style or the space-saving 12-point nuts. The stud sets come with a special locking 12-point nut, while the bolt sets come with washers. Made in USA.

Curved Oil Pickup Tube

The curve in this oil pickup tube avoids hitting the internal baffles of most factory style passenger car oil pans. These will also replace applications originally equipped with a straight pickup tube, even if there are no baffles. Depending on the oil pan, your pickup to oil pan clearance should be between 1/4" and 3/8".

Note: Modifications to this pickup may be necessary.

Oils & Lubricants

HR Conventional High Performance Oil

From the leader in racing lubricants, now comes a oil designed specifically for high performance engines.

Joe Gibbs Driven HR Oils built on our original formula while adding critical additives to protect engines when they are not running. Our formula uses the same additive technology developed for the U.S. Military for storing and shipping. It protects against rust and corrosion so your engine is protected even when it's not running. It features high levels of Zinc than regular passenger car oils to deliver proper anti-wear protection for older style push-rod and flat-tappet engines.

Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil.

Royal Purple Synthetic Oil

Royal Purple Motor Oil delivers superior protection and improves performance in four-cycle gasoline and diesel engines. It increases horsepower and torque, saves fuels and reduces heat, wear and emissions. It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves you time and money and reduces the impact on the environment.

Royal Purple's motor oils for passenger cars and trucks are API licensed. Royal Purple's performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Syntec technology. Royal Purple Motor Oil is compatible with other mineral and synthetic motor oils.

Hot Rod Vintage Car Oil

From the leader in racing lubricants, now comes an oil designed specifically for hot rods, street rods, and vintage cars. Joe Gibbs Driven Hot Rod Oil takes the formulation used by thousands of racers and adds critical protective chemicals. If your current oil carries an API "donut" symbol, it probably lacks the anti-wear chemistry that historic and racing engines need. Designed specifically for older performance engines featuring high levels of zinc for wear protection and military-grade corrosion inhibitors for storage protection.

BR-30 Break-In Oil

The same high zinc and phosphorus formula as our original break-in oil, now in a SAE 5W-30 viscosity for tight clearance and/or low temperature break-in.

Good for restrictor plate engines, drag race engines, and OEM rebuilds. Provides excellent ring sealing. Does not require additional additives. Good for all pull-downs on the dyno, one night of racing or up to 400 miles on the street.

Royal Purple Engine Break In Oil

Engine builders have grown increasingly concerned that many modern motor oils do not provide adequate wear protection for new engines, particularly those using flat-tappet cams. Royal Purple has addressed this issue by developing a new engine break-in oil. Royal Purple Break-In Oil is formulated to allow optimal ring seal and protect rotating assembly components such as the camshaft and valve train from initial start up wear. Royal Purple combines highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Royal Purple Break-In Oil is fully formulated and does not require the use of any other chemical additives. Royal Purple recommends using their high performance motor oils after the engine is broken in for maximum engine performance.

Pour Boy All Purpose Filler Spout

Pour Boy all purpose filler spout takes the place of funnels. Its unique, multiple thread design fits a variety of containers from oil bottles to antifreeze, windshield washer fluid to gas treatments, all with an airtight seal! Flow of the fluid is easily controlled by simply bending the spout. No more mess, no more fuss, and no more funnels! 3 per package. 7.99 kit

Engine Assembly Grease

Used by Joe Gibbs Racing during the assembly of every NASCAR Sprint Cup and Nationwide Series engine. This unique formula completely dissolves in oil and can be applied to ring lands in order to prevent micro welding during initial break-in. This assembly grease, combined with the Joe Gibbs BR break-in oil (BR106 or BR107), provides proven protection during break-in.

MSD Performance Ignition

MSD Pro-Billet Distributors

These distributors feature a lightweight CNC-machined 6061-T-6 billet aluminum housing and a polished, coated steel shaft to produce a low-friction durable finish that resists corrosion. MSD uses a sealed ball bearing at the top of the housing and an extra long guided bushing at the bottom to guide and control the shaft smoothly and accurately up to 10,000+ rpm. Other features include an iron drive gear, Rynite™ distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that use the MSD 6, 7, 8 or 10 series ignition control box or from the internally controlled "ready-to-run" distributors.

Note: No further discounts apply.

PERFORMANCE

MSD Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD.

It is recommended that the Noise Filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover.

Note: No further discounts apply.

8830 MSD noise filter w/cover	44.99 ea
-------------------------------	----------

8920

8910E

MSD Tachometer Adapter

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCL, or 7 series ignition with its white wire or points terminal, you will need item # 8910 or 8910E. For applications using green and violet wires for magnetic pickup input, use item # 8920.

Important: For non-current limiting ignitions, originally equipped with a ballast resistor. ** For use on current limiting ignitions, not originally equipped with a ballast resistor.

Note: No further discounts apply.		
8910* points or amplifier		51.99 ea
8910E** points or amplifier		54.99 ea
8920 magnetic pickup		69.99 ea

MSD
PERFORMANCE

MSD Ignition System Coils

The following Blaster Coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 Coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is triggered with a 90° terminal and boot.

Note: No further discounts apply.

8202 Blaster 2	49.99 ea
8223 Blaster 3	49.99 ea

MSD
PERFORMANCE

Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster Coils are supplied with a 0.8 ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red.

Note: No further discounts apply.		
8200 Blaster 2 chrome		49.99 set
8203 Blaster 2 red		54.99 set

6201

MSD Digital 6A/GAL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Same footprint as the traditional 6A and 6AL but with a lower profile for a sleek look. Like all of the MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6 and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

Note: No further discounts apply.

New!

MSD 6 Series Vibration Mounts

In performance applications such as off-road, racing, and marine applications, strong vibrations can be transmitted through the chassis to the MSD unit. To protect the MSD from excessive vibration, we recommend this vibration mount set.

8823	15.99 set
------	-----------

MSD
PERFORMANCE

Blaster SS Coil

The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamperes with a maximum voltage output of 40,000 volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90° boot, terminal and vibration mounts.

Note: No further discounts apply.

Coil Wires

If you're changing a coil or cap to a new design, you could find yourself searching for different terminals for the coil wire. MSD offers these two style coil wires to make the change easy. Also, remember that the coil wire sees eight times the use of each plug wire so changing the coil wire as a maintenance through the race season is recommended.

Important: * 18" long, straight female socket terminal and boot on one side with a straight female socket distributor cap socket terminal and boot on the other

** 18" long, 90° male coil terminals and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female socket style distributor cap.

Note: No further discounts apply.

Universal Super Conductor wires shown with multi-angle boots

2-In-1 Universal Wire Sets

These universal spark plug wire sets are made from MSD's Super Conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90° boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut to fit any application. Each set includes a MSD Mini-Stripper crimper for easy installation. Available with wires in either black or red.

Note: No further discounts apply.

------	----------------------	-----------

Spark Guard

MSD's Spark Guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMF). It also simplifies the installation of MSD Universal Spark Plug Wire Sets. Spark Guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely.

Note: No further discounts apply.

Mallory Tachometer Adapter

Some applications with a tachometer need a voltage spike signal from the negative side of the coil before they will operate properly. This signal changes when a high inductive storage or capacitive discharge electronic ignition control is installed. The tachometer adapter develops a voltage spike that will run most voltage triggered tachometers and current (series) triggered tachometers. The tachometer adapter works with any inductive storage or capacitive discharge electronic ignition control triggered by points or electronic amplifier trigger. For vehicles w/inductive or capacitive discharge for factory style tach.

Note: No further discounts apply.

29078 for Mallory ignition modules.....	154.99 ea
---	-----------

Mallory Tachometer/ Fuel Injection Adapter

Tachometers/Fuel adapters may be required to generate the correct signal for certain tachometers or fuel injection systems when installing an inductive or CD ignition system. If you are using the points trigger lead (for example points, OEM electronic, Unilite, 50-series or magnetic breakerless, etc.) for the ignition, then the 29074 is the appropriate adapter.

Important: If you are using the output signal directly from the magnetic pickup inside the distributor to trigger a CD ignition control, and your tachometer is not functioning properly, then you will need a different tach adapter, such as Mallory pin 29078.

Note: No further discounts apply.

29074.....	44.99 ea

Flame Thrower/Ignitor II Plug N Play Billet Distributors

Plug 'n play billet distributors are designed for maximum ignition performance and easy installation at an affordable price. Replace your outdated points or electronic distributor with this race proven unit. Features patented Ignitor II electronics and a CNC machined 6061 T-6 billet housing. Fits Mopar models with small block or big block engines.

Important: Due to variances in 440 cylinder head castings, some cylinder heads may require grinding for adequate distributor clearance. Will not fit wedge engines with aftermarket heads.

Note: Distributors can not be used with solid core ignition wires. Non vacuum advance distributors do not have an E.Q. number and are not legal for sale or use on pollution controlled vehicles.

Performance Ignition

By **Pertronix**

IGNITOR II

- Increases Horsepower and Fuel Economy.
- Easily Installed in Minutes.
- Legal in all 50 States and Canada.
- 30 Month Warranty

Eliminate points and wear-prone moving parts while delivering twice the stock voltage to the spark plugs. The Ignitor fits completely inside the distributor with no complex wiring, leaving no unsightly black box to clutter up your engine compartment. Use with Flame Thrower 40,000 volt coil for optimum performance.

Note: MN2240, MN2242 are with factory electronic ignitions, excluding lean burn computer controlled engines.

Ignitor II

- Increases Horsepower and Fuel Economy.
- Matches dwell to RPM
- Easily Installed in Minutes.
- Legal in all 50 States and Canada.
- 30 Month Warranty

The Ignitor II detects electrical current in the coil and uses a micro controller to increase or decrease dwell to maintain peak energy as RPM and operating conditions change, providing more energy, reducing misfire, and improving engine performance. Produces nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! Use with the new Flame-Thrower II super low resistance (0.6 ohms) 45,000 volt coil to maximize high RPM performance.

Note: Ignitor II can not be used with solid core ignition wires. MN2244 and MN2245 are for factory electronic excluding lean burn computer controlled engines. PX91381A is for single point applications only.

Ignitor III

- Ignition Box Inside Distributor.
- Adaptive Dwell Maintains Peak Energy
- Increases Horsepower, Fuel Economy.
- Legal in All 50 States and Canada.
- 30 Month Warranty

The Ignitor III is the most advanced points replacement set available. Featuring multiple sparks throughout the RPM range and an adjustable REV limiter accurate to 4-50 RPM. Ignitor III generates 5 times more spark than points maintains peak energy, reduces misfire, and improves engine performance throughout the RPM range. Peak current is reached just prior to spark for maximum energy without heat build-up, increasing performance and reliability. Fits Chrysler aluminum bodied single point distributors with vacuum advance.

Note: Not available for 6 cylinder.

Flame Thrower Performance Coils

Complete your ignition upgrade with a Flame Thrower high performance coil. Best when used with the Ignitor Electronic Ignition Conversion, the Flame Thrower Hi Performance Coil fits existing coil brackets for a clean, factory look. Enables larger plug gaps for greater fuel efficiency & more power. Available with either a chrome or black finish. Choose from a variety of voltages and primary resistance ratings.

40,000 Volt Coil - 1.5 & 3.0 ohm

These Flame Thrower coils are compatible with breaker point ignition systems or vehicles equipped with the original Ignitor system. Choice of 6 cyl or 8 cyl.

Ignition Components

TSP Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current over 0.35 ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

Date-Coded Plug Wires

Correct date code based on production quarter of the vehicle.

Correct "Electronic Suppression" wording on plug wire jacket

1962-72 Model Year Date Coded Spark Plug Wires

Exact reproduction spark plug wire sets are manufactured to original specifications and are correct in every aspect: wire type and length, color, terminals, boot angle and shape, skirt, and braiding (where applicable). These reproduction sets are identical to the spark plug wires as they would have appeared on the vehicle when it shipped from the factory and are designed to look, fit and perform exactly as original. Each wire features original style lettering with the wording "Chrysler Corporation

Electronic Suppression." All wires are date coded based on the production quarter of the vehicle. For cars built during the first half of production (September of the preceding year through February of the car's model year), choose "1Q"; For cars built in the second half of production (March through August of the car's model year), choose "3Q" dated wires.

Note: These plug wires are not designed for use with aftermarket headers or aftermarket manifolds. Wiring must be used with other manifolds or headers but are not guaranteed to fit.

10012

Spark Plug Index Washers

These soft copper washers help increase horsepower and reducing detonation. They allow the spark plugs ground and electrode opening to be indexed in their optimal position for better combustion and reduced hot spots on the electrode. Available for both tapered and flat sealed 14mm spark plugs in packages of 30. Each set includes 10 washers in three different thicknesses. 10012 tapered indexing set..... 29.99 set 10022 flat indexing set..... 29.99 set

Hemi Spark Plug Tubes And Seals Set

Service replacement spark plug tube and seal set for Mopar Hemi engines. Spark plug tubes are necessary to create a seal to prevent oil from the valve cover area of the cylinder head from escaping and to protect the spark plugs and wires from oil as they go through the valve cover and into the head. Each complete set includes 8 tubes and seals. MN1128 1966-71 tubes & seals..... 119.99 set

Made in USA

1965-71 426 Hemi Spark Plug Boot

Replacement of the original spark plug boot designed for Hemi engines with power brakes. Measures 4-11/16" long with a 5/16" upper ID and a 5/8" lower ID. Made in USA.

ACECEL

Spark Plug Indexing Tool

This tool makes indexing spark plugs easier. Made from gold anodized billet aluminum, it accepts both tapered and flat sealed 14mm spark plugs. The tool has knurled edges for hand held use or it can be locked into a vice on its flat edges. Simply mark your desired ground electrode position and place index washers on the spark plug until the electrode lines up to the mark.

Resistors & Regulators

Made in USA

Big Block #7 Spark Plug Wire Heat Shield

Spark plug wire shield for use with all Mopar Big Block engines from 1960-76. This replacement spark plug wire shield mounts to the fourth exhaust manifold stud from the front of the engine to protect the #7 Spark Plug Wire boot. Made in USA.
MN1119 1960-76 heat shield..... 11.99 ea

Spark Plug Wire Separator Set

This set of spark plug wire separators is made from high grade plastic which helps insulate the plug wires and reduce shorts and crosstalk. Includes two (4) wire separators, two (3) wire separators, and two (2) wire separators.
MN2417 V8..... 2.49 set

Spark Plug Wire Support and Separator Set

These high grade chrome plated plastic support brackets attach to the valve cover bolts or studs to route the plug wires neatly from the distributor, over the valve covers, and to the plugs. Keeps wires away from hot underhood parts, insulates the plug wires, and reduces shorts and crosstalk. Includes four support brackets, two (3) wire separators, and four (2) wire separators, as shown above.
MN2418 V8..... 4.99 set

Universal Fit Spark Plug Wire Loom Set

Universal spark plug wire loom set for 7 mm and 8 mm wire. Includes four steel 1/4" mounting studs.
Note: Not for use with cast aluminum valve covers.
MN2215..... 26.99 set

1962-76 Ballast Resistor

Replacement ballast resistor for 1962-76 Mopar models. This resistor is designed to look, install and function exactly as original. The ballast resistor works in conjunction with the ignition coil. During low speed operation, the ballast resistor heats up. The increase in temperature causes an increase in resistance in the ignition system and ultimate failure in the ballast resistor. Keep a spare in your glove box!

Ballast resistor bracket for all 1962-72 Mopar models with points ignition. The ballast resistor mounts to this bracket.
MN1136 1962-72 standard ignition..... 15.99 ea

1970-71 Date Coded Voltage Regulators

Mopar performance date coded voltage regulators a must for a correct restoration. For use with external regulator models. A voltage regulator is an electrical device needed to control the output of a generator or alternator.

MN2180 1970 #419, 41st week of 1969 29.99 ea
MN1140 1970-71 #271, 27th week of 1971 36.99 ea
MN2181 1970-71 #321, 32nd week of 1971 29.99 ea

1960-76 Replacement Voltage Regulators

A voltage regulator is used to control the output of an alternator or generator. Regulators are either internal or external. Internal regulators are mounted in the alternator housing, external regulators are typically located on the fender well in the engine compartment. Applications are available to fit all models with all engines for the year ranges specified.

HAL STUFF Underhood Wiring Conduit

De-Clutter Your Engine Bay!

Take the ugly out of your electrical wiring with HAL STUFF wiring conduit. All of the major components are triple chrome plated or are polished 304 stainless steel. Choose from a complete starter set with accessories, or piece together your own custom application!

New!

Complete Conduit Starter Set

Is your hood hiding a mess of wiring and vacuum lines? De-clutter your engine bay with this conduit set! This set includes 15 feet of 1/2" polished stainless steel flexible conduit, enough for most applications, as well as six chrome 1/2" conduit terminators, two 1.50" x 2" chromed aluminum enclosures, chrome aluminum fire wall pass through, and twelve 1/2" nickel-plated mounting clips.

42565 conduit starter set 129.99 ea

Billet Choke Covers

These chrome-plated choke covers enhance the appearance of dressed engines by covering the plastic choke on Edelbrock, Demon, and Holley carburetors. Each billet aluminum cover comes with a snap-in louvered insert. Available as an individual cover or as a kit with polished stainless steel conduit.

New!

42567 choke cover 23.99 ea
42563 choke cover kit 44.99 ea

New!

Firewall Pass Through Enclosure

Complement your stainless steel conduit with this firewall pass-through! This chrome-plated aluminum enclosure makes it easy to pass wires through to the engine compartment. Machined with two holes for terminators and fitted with a rubber grommet for firm seal. Includes stainless mounting hardware and cover gasket.

Note: Enclosure does not include conduit or terminators.
42564 firewall pass through enclosure..... 24.99 ea

New!

Flexible Stainless Steel Conduit

Customize your engine bay with this polished stainless steel conduit! Flexible enough to be routed in virtually any shape or direction, this conduit protects wiring and vacuum lines while providing a clean, clutter-free appearance under the hood.

42571 1/4" conduit 5 foot roll 12.99 ea

MSD DynaForce Alternators

MSD *Power* **New!**

Street Series alternators are offered with chrome, black, and natural finishes and are designed to fit most custom bracket sets that use a GM style alternator and install with a simple one wire hook up to the battery post. Racing alternators are available in 50 amp Denso style or 100 amp GM style and are compatible with 12 and 16 volt electrical systems thanks to an adjustable voltage regulator. They feature the same one wire hook up and a red wrinkle finish. Every alternator assembly is tested and is delivered with proof of performance. Made in USA.

Note: No further discounts apply.

1965-76 Powermaster Starters

Powermaster replacement starters for 1965-76 Mopar models. Each starter

includes a dyno sheet to show how well the starter you just bought performs. Choose between stock OEM or up to Ultra Torque rated for 250+ lb. ft. of torque. The torque output of a starter is the most important consideration. The starter must be able to spin the engine, and do it without overheating internally. Since there is no such thing as having too much torque (even on a street vehicle) a 200 ft. lb. starter will work for everyone. Speaking in general terms, a over 12:1 compression or higher engine should use a 200 ft. lb. starter. Engines up to 12:1 should use at least a 180 ft. lb. starter. 160 ft. lb. starters are good for engines up to 10.5:1

MN2179	250 ft. lb. natural	279.99

1962-76 Lightweight Starters

These specially-designed starter motors with heavy-duty features for V8 applications need no adapters. Weighing approximately 7 lbs. complete, these units are lighter than the previous Mopar Performance lightweight starter and half the weight of the original 1960s-70s vintage production starter and one inch shorter.

Note: Many require header/exhaust/block modifications for some applications.
MN9903 1967-76 small block 199.99
MN9904 1962-74 426 Hemi/big block. 314.99

1960-76 Remanufactured Starters

Quality remanufactured starter motors. Tested to meet or exceed factory specifications, each starter will install and function exactly as original.

Applications are available for 1960-76 A-body, B-body and E-body vehicles. 3248

MSD DynaForce Starters

These MSD DynaForce starters

are designed for severe duty, high compression applications. The 3.4 hp motor uses a 4.4:1 gear reduction to easily start even an 18:1 small block or big block engine with a lower current draw than traditional starters. Features a red powder coat and natural finish. Made in USA.

Note: No further discounts apply.

5098	small block/ big block starter	274.99
------	--------------------------------	--------

Remote Control Starter Switch

Use to bypass the ignition

switch on any engine with solenoid starter switch. Lets

you crank the engine while working in the engine compartment. Includes 44" long leads. Connect from the positive terminal of the battery to the energizing terminal of solenoid. Use for generator, starter, electrical tests, setting ignition points, fuel pump tests, adjusting tappets and compression tests
Y20750 19.99

Wire Tester Spark Plug Wire Tester

When you want to quickly locate faulty plug wires, you need this tester. Now you can check spark plug wires without piercing or ruining the wires. If the light flashes, you have a sound and intact wire. If not it's time to replace.

Fuel Tanks

Dodge and Plymouth Fuel Tanks

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-terne steel tanks provide an OE-quality appearance for discerning restorers. For show-quality builds, stainless steel tanks offer superior corrosion resistance with a spectacular polished finish.

Zinc-Coated Fuel Tanks ★★★★★

- Quality Replacement Tank
- Standard Corrosion Resistance
- Manufactured to Factory Specifications

Ni-Terne Steel Fuel Tanks ★★★★★

- OE-Quality Reproduction Tank
- Exceptional Corrosion Resistance
- Manufactured to Factory Specifications

Stainless Steel Fuel Tanks ★★★★★

- Show-Quality Replacement Tank
- Superior Corrosion Resistance
- Stainless Steel Polished Finish
- Manufactured to Factory Specifications

Fuel Pump to Carburetor Lines

Each line is manufactured using a precision process that creates the exact same bends as factory original equipment. Couple these exact manufacturing techniques with superior material selection and you can be sure that you are installing the best fuel lines on the market. These lines are produced in your choice of original steel material or stainless steel material for A, B or E-Body models without the hassle of bending your own lines.

Note: *Includes one brass tee.

Fuel Lines

Replace Your Fuel Lines With OEM Material For Originality Or High Quality, Long Lasting, Stainless Steel Material!

Each line is manufactured using a precision manufacturing process that creates the correct bends to match the factory original equipment. Couple these manufacturing techniques with your choice of material selection and you can be assured that you are installing the best fuel lines on the market. These lines are available for many A, B, or E-Body applications, saving you the hassle of having to bend up your own fuel lines.

Note: All fuel lines are shipped double oversize.

1963-75 A-Body Front to Rear Fuel Lines

Applications are available for 1963-75 A-Body vehicles including 1964-69 Barracuda, 1963-75 Dart, Valiant, 1971-74 Demon/Dart Sport, Duster and Scamp.

1963-74 Concoers Fuel Hose Kits

When authenticity is a top priority, you will want to be sure to install correctly marked fuel hose and clamps on your A-Body, B-Body or E-Body vehicle. These concoers quality fuel hose kits feature "KV" and/or "KV -" marked hoses with crimp clamps and spring clamps. Front kits, rear kits or complete car kits are available and come with a diagram outlining the proper placement of hoses. Rear and complete kits also include the correct 3-3/4" long ground strap for the fuel tank sending unit in stainless steel.

Note: Sets are only available with a 3-3/4" ground strap.

Verify: ground strap length before ordering.

1968-74 Fuel Filter/Vapor Separator

Help prevent vapor lock by using the correct fuel filter/vapor separator on your 426 Hemi or 440 equipped vehicle the way the factory intended. This part mounts near the fuel pump and is designed to filter the fuel while simultaneously routing fuel vapor back to the fuel tank. Correct size, shape, mounting bracket, color and lettering make this a must for any serious Mopar project. Applications are available for a variety of 426 Hemi or 440 equipped 1968-74 B-Body and E-Body vehicles.

MN2526	big block	89.99 ea

Fuel Components

New!

Micro Electric Fuel Pump

This compact electric fuel pump is compatible with all gasoline fuels and additives. The solid state design has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Include fittings, mounting hardware and instructions.

Note: Not for diesel applications.
71211 micro electric fuel pump 39.99 ea

Electric Fuel Pumps

These externally-mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve. Available in a range of pressures with the choice of chrome or cadmium-plated housings.

Notes: Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.
Chrome Housing

62531C 100 GPH 7 PSI 79.99 ea
62541C 120 GPH 14 PSI 83.99 ea

62541 120 GPH 14 PSI 79.99 ea
62561 140 GPH 9 PSI 79.99 ea

Holley Electric Fuel Pumps

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 GPH to 140 GPH. The 97 GPH "red" pump is set at 7 PSI and does not require a regulator. The 110 GPH "blue" pump is set at 14 PSI and includes a regulator. The 140 GPH "black" pump is also set at 14 PSI and can be used for gas or alcohol fuel.

Note: No further discounts apply.
H128011 97 GPH "red" pump 119.99 ea
H128021 110 GPH "blue" pump 139.99 ea
H128151 140 GPH "black" pump 179.99 ea
H12803 regulator 4-1/2 to 9 PSI 29.99 ea

In-Line Street/Strip Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand-alone unit. Use with EFI regulator part# E1728 for adjustability from 35 to 90 PSI. 57 GPH. 3/8" hose barb fittings.

Note: No further discounts apply.
E3594 229.99 ea

Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pump offers maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high quality internals make it both strong and durable. Important: For proper installation and voltage requirements, use fuel pump relay E1795.

Note: No further discounts apply.
*Requires an external regulator.
120 GPH Free-Flow, Up to 600 HP 219.99 ea
E1791 6.5 PSI 1/2" inlet/outlet 219.99 ea
160 GPH Free-Flow, Up to 1000 HP 274.99 ea
E1792* 12 PSI 3/8" inlet/outlet 274.99 ea

Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. Its rugged housing and high quality internals make it both strong and durable. The in-line design keeps the pump motor and components cool even under harsh conditions.

Note: No further discounts apply.
10AN inlet/Outlet
Flow rate of up to 80 GPH at 45 PSI for use with high-HP fuel injected applications. This fuel pump supports 835 HP at 12 volts with a current draw of 12 AMPS at 45 PSI. 10AN inlet/outlet 80 GPH at 45 PSI E1790 6-7/8" x 3-1/4" 584.99 ea

12AN inlet/Outlet
Flow rate up to 120 GPH at 45 PSI, and is compatible with all grades of gasoline and methanol type fuel. Each pump is factory tested and includes mounting brackets. This fuel pump supports up to 1040 HP at 12 volts, drawing 18 AMPS at 70 PSI. 12AN inlet/outlet 120 GPH at 45 PSI E1794 7" x 3" 849.99 ea

New!

Edelbrock Pump To Carburetor Fuel Line

These high-quality fuel line kits offer a clean and precise fuel supply line for mechanical fuel pumps with 3/8" NPT outlet to Edelbrock Single-Feed or Dual-Feed fuel inlet kits. These hose kits are pre-assembled hoses with hose ends and are available with stainless steel braided hose or black nylon fabric ProClassic hose.

Note: No further discounts apply.
Stainless Steel Braided Hose

Pro Classic Hose
E18123 small block / big block 44.99 ea

PAINLESS

Universal Fuel Pump Relay Set

These relays prevent voltage drops at the pump to maintain constant fuel pressure while preventing amperage overloads from damaging the electrical system. Choose from a regular fuel pump relay set or a weatherproof version designed for harsh conditions. These sets use heavy duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

Note: No further discounts apply.
50102 standard style 44.99 set
30131 weatherproof style 65.99 set

PAINLESS

Perfect Flow Fuel Delivery System

The Perfect Flow Fuel Delivery System is a fuel pump system designed to support up to 1000 horse power in naturally aspirated applications or it can be configured as a main and secondary pump to support up to 500 horse power in situations where a redundant fuel delivery system is needed such as off road use or racing. Set comes with necessary wiring and relays. Due to the many possible plumbing options, no fittings are included with this set.

Note: No further discounts apply.
65100 826.99 set

Fuel Components

New!

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 volt electrical systems and can be tied into the oil pressure sending unit with an 1/8" NPT tee. 77872 21.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel-pump-fed Muscle Car. This fuel pump safety switch monitors the tach signal to limit when an electric fuel pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the system. Then, the fuel pump only operates if the engine is running. No plumbing into the oil lines or extra priming button is required. RE12003 64.99 ea

Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, pressure and gas line leakage. Easy to read gauge with 3 foot hose and vacuum hose adapter fitting. Gauge measures vacuum from 0 to 28" HG in 1" increments, (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1Kg/cm2 in .1 Kg/cm2 increments). Y20300 27.99 ea

New!

Inline Fuel Pressure Gauge

Set and monitor fuel pressure with these easy-to-use gauges! Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance and readability. 71560 39.99 ea
71564 liquid filled gauge 41.99 ea

PAINLESS

Universal Fuel Pump Relay Set

Choose from a standard fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions. Weatherproof relay set provides complete protection from the elements and ensures reliable, dependable performance utilizing a heavy duty waterproof relay, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

Note: No further discounts apply.
50102 standard 44.99 set
30131 weatherproof 65.99 set

Edelbrock

Universal Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which to reduce the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part# E1791 or E1792.

Note: No further discounts apply.
E1795 59.99 ea

New!

Super Cool Can

This insulated fuel cooler tank chills the fuel to create a dense fuel charge, allowing more horsepower and reducing detonation. The insulation allows it to hold ice twice as long as traditional cork-insulated cans. Each 7-3/4" x 7-3/4" x 8" insulated polyethylene cooler has an internal aluminum heat sink with a 1/2 quart fuel capacity. Includes NHRA-approved aluminum mounting bracket and t-bolt stainless steel straps. Note: Not recommended for use with high-pressure fuel injection systems. 265125 fuel cool can 139.99 ea

Edelbrock

Fuel Pressure Regulator

This fuel pressure regulator is machined from aircraft quality aluminum with fluorosilicone diaphragm material for high temperature protection and extended life. This fuel pressure regulator has a single 3/8" NPT inlet and dual 3/8" NPT outlets for carbureted applications and is adjustable from 5 PSI to 10 PSI, providing extremely consistent pressure regulation. Compatible with all grades of gasoline and methanol, and has a 1/8" NPT gauge port. Includes mounting brackets and hardware.

Note: No further discounts apply.
E1727 160 GPH 144.99 ea

SUMMITRIDE

New!

Billet Fuel Pressure Regulator

On high horsepower engines it is sometimes necessary to regulate the fuel pressure especially when using high volume high pressure fuel pumps. Made from billet aluminum construction this regulator is suitable for engines up to 450 hp and will allow adjustments from 4.5 to 9 psi. One 3/8" NPT inlet and two 3/8" NPT outlets. 62511 67.99 ea

Edelbrock

Fuel Pressure Regulators

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. The E1728 features dual -6AN inlet ports, a single -6AN outlet and a -6AN external bypass. The E1729 has a longer body and dual -10AN inlet ports, a single -10AN outlet and a -6AN external bypass. They are compatible with all grades of gasoline and methanol fuels. Both units are adjustable from 35 PSI to 90 PSI and have 1/8" NPT gauge ports.

Note: No further discounts apply.
E1728 180 GPH 199.99 ea
E1729 180 GPH 209.99 ea

SUMMITRIDE

New!

Royal Purple Max Clean Fuel System Cleaner

Max-Clean cleans and cleans deposit build up in the fuel system and combustion chamber. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance. RP11722 20 can 15.99 ea

1962-76 Remanufactured Carburetors

Highest quality remanufactured carburetors for 1962-76 Mopar models with 6 or 8 cylinder engines. Carburetors are available for Slant Six, LA V8, B-series V8 and RB-series V8 and available for a variety of applications. Choose from Holley, Carter, Stromberg, or Rochester carbs. Each carburetor is thoroughly remanufactured

with the highest quality components and tested to ensure optimum performance and fuel economy.

***Features solenoid lever opposite the throttle arm. **Does not feature solenoid opposite the throttle arm.*

H4236

Holley Cross Ram Carburetors

Authentic replacement Holley four barrel carburetors for 1964-65 and 1968 426 race HEMI engines with cross ram intake systems. Each special 4160 carburetor has the correct stamped list number stamped along with original right/left side linkages and diaphragm finish. Both right and left side carburetors are 770 cfm with vacuum secondaries. The right side carburetor replaces O.E. number 2946263 and the left side replaces 2946262.

MOBROSD

EFI Fuel Return Adapter

When converting a carbureted vehicle to an EFI system that requires a fuel return system, there's no longer any need to buy an expensive fuel tank. This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filter tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes the adapter with two buna rubber sleeves and four stainless steel clamps for a leak proof seal.

DRIVEN
DEFENDER
DRIVE BY

Driven Carb Defender

Driven Carb Defender fuel additive has been formulated to protect against significant harmful ethanol deposits and corrosion in fuel and the induction system.

Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol-blended gasoline.

This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Fuel Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events.

One bottle treats up to 25 gallons of ethanol-blended fuel.

1966-73 Throttle Return Springs

Not only can incorrect throttle return springs take away from the appearance of your Mopar, they can also be downright dangerous if they do not have the tension and strength specifications for your application. Don't risk using incorrect universal springs that can cause unsafe or engine-damaging conditions. These throttle return springs feature the correct number of windings for proper tension and are powder coated in correct colors for a long-lasting authentic appearance.

Edelbrock and Holley Carburetors

Proven performance for
any carbureted vehicle!

Edelbrock

E1405

E1406

Performer Series Carburetors

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square-bore carbs are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air-Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Edelbrock carbs put the fun back into your driving because of a unique ability to "hold a tune". This means that compared to other carburetors, performance remains consistent and calibration is held perfectly. Performer Series square-bore carbs are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The two piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carbs bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carbs come with an installation kit and owners manual.

600 CFM Carburetors

Recommended for most Performer applications and small cubic-inch Torker II applications. Includes both timed and full vacuum ports for ignition advance.

Holley

Holley Jet Assortment Set

The Holley jet assortment set is the professional way to tack-tune your Holley carburetor for top performance. The set consists of two 2 each of 36 different jet sizes ranging from #64 to #99. The jets come in a plastic case that keeps them separated and make them easily accessible. Jet sizes selected will give the broadest range of adjustment and performance for most performance carburetor applications.

Note: No further discounts apply.

H36181 \$59.99 set

Holley

Carburetor Needle and Seat

We offer several needle and seat assemblies for Holley carburetors. The seat size determines how much fuel can flow at a certain pressure. Larger sizes allow more fuel to flow. Tune your Holley carburetor to flow the right amount of fuel at the proper pressure with a new Viton-tipped needle and seat.

Hedman Hedders

1966-76 Hedman Hedders

Hedman Hedders™ for 1966-76 Mopar models. These hedders are designed to replace the heavy and restrictive factory manifolds with light weight, free-flowing tubular steel manifolds.

Each set of hedders comes complete and is ready to bolt on. Includes collector and header to head gaskets, collectors and bolts. Will fit models with AC, power steering and either manual or automatic floor or column shift mechanisms. Get more performance from your Mopar without breaking the bank and do it with a name you can trust in the header business: "Hedman".

Important: Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

Note: Shipped overseas. No further discounts apply.

Hedman Hedder Notes

(1) Without smog injection or injection heads.

(2) LA-type engine only. (will fit with in-line port patterns only).

(3) Shortie hedder (Max. ground clearance).

(29) Modification to shift linkage may be needed.

(15) Must use mini-starter.

Exhaust Hardware

1966-71 Hemi Exhaust Manifolds

Replacement exhaust manifolds for 1966-71 Hemi models. Each manifold features correct casting numbers on the manifold, choke control system and the correct textured finish. Available with or without the heat riser.

MD4529	1966-70	w/ heat riser	1509.99	pr
MD4529	1966-70	w/o heat riser	919.99	pr

Exhaust Heat Protection

Quick-Wrap Exhaust Jackets

The new quick-wrap, high-velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermo-Conduction Technology (TCT), developed by Thermo-Tec® and can be applied with the headers in the vehicle.

Coated Fiberglass Header Wrap

Insultherm Header Wrap is an extremely high temperature-resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and other engine chemicals and withstands temperatures up to 1200° F (maximum continuous temperature of 1000° F). Available in black or natural in 50' or 25' rolls.

Generation II Copper Header Wrap

Generation II Copper Header Wrap improves heat resistance up to 30% more than current technology, by utilizing a new proprietary coating developed by Thermo-Tec: improved Thermal-Conduction-Technology (T-C-T).

Generation II Copper Exhaust Wrap creates more horsepower and reduces under-hood temperatures, increases exhaust scavenging, withstands continuous heat up to 2000°F, contains no asbestos.

TT11031	1" x 50'.....	31.99 ea
TT11032	2" x 50'.....	54.99 ea

Exhaust Insulating Wrap

The original Exhaust Insulating Wrap™ was developed over 12 years ago by Thermo-Tec®. Wrapping headers maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000°F and contains no asbestos. Thermo-Tec® exhaust wrap will not over-insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. This coating controls heat buildup and dissipation. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Header Manifold Blanket

The Header Manifold Blanket™ provides excellent heat-retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source and the aluminumized side facing away—offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket™ is available in two sizes: (2) 20" by 24" blankets for V6 & V8 applications and (1) 36" by 40" blanket for straight 6 & 4 cylinder engines.

Heat Protection & Tools

Socket Assist

Essential tool for bolts with tight clearance like spark plugs and header bolts! 12-point for maximum finger traction. Set of three including 1/4" x 1/4", 1/4" x 3/8", 3/8" x 3/8" (12 pt x socket drive size). These belong in every tool box.

67575 3 piece set..... 9.99 set

TT14260

Cool-It Plug Wire Sleeves

This unique spark plug and ignition wire protector is available in four colors; red, blue, black and silver. These dual-purpose sleeves enhance performance, reduce misfires, extend plug wire life and will not react with petroleum products. The double-wall construction keeps the wire and boot cooler in a high-temperature engine. Its universal size fits most boots, is easy to install and - most importantly - is nonflammable.

Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

X2031 43.99 ea

Tailpipe Expander

Used to remove clamp grooves and round out crushed or bent exhaust pipes to ensure a tight fit, eliminating exhaust leaks. The hex end allows the use of a combination wrench to remove clamp grooves or small imperfections, or an impact wrench to expand pipes.

X3442 1-13/16" to 2-1/2" i.d. 34.99 ea

Hi-Heat Coating

To finish off a clean and well-protected Exhaust Insulating Wrap application it is recommended to use the Hi-Heat Coating. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

THERMO-TEC® Insulation

*Insulate Your Interior Compartment
From Excessive Heat & Noise!*

TT1005

- Floorboard
- Firewall
- Doors
- Headliner
- Under-Hood
- Transmission Hump

Cool It Mat

Use the Cool-It Mat™ to battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. It is also perfect in doors, under-hoods and above transmission housings. The Cool-It Mat™ is composed of resin-bonded silica blanketing insulation sandwiched between a mylar facing on one side and a foil facing on the other. The highly-reflective mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual-density composite and is the main sound insulator. It is easy to trim and can be applied with the push-in fasteners provided or any weather strip adhesive. Two sizes to fit your individual needs.

TT1005 24" x 48" insulating mat 31.99 ea
TT1006 48" x 48" insulating mat 64.99 ea

Super Sonic Acoustical Mat

This high quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity & strength, allowing the material to bend, move, & return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing and is easy to trim & fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14700 12" x 12" 2 pieces 19.99 pr
TT14710 36" x 24" cut to fit 29.99 ea
TT14720 36" x 60" cut to fit 61.99 ea

Keep Cool! Reflect Radiant Heat Away From Your Passenger Compartment!

The Muffler/Catalytic Converter Heat Shield™ is made up of woven silica with a flexible mylar finish. The highly-reflective heat shield can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the car. The kit includes one 24" x 40" mylar heat shield and all necessary fasteners.

TT1007 muffler heat shield 61.99 ea

Suppressor Acoustical & Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing and is easy to trim & fit.

THERMO-TEC® Insulation

TT1020

Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber-coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant!

Shield Plastic or Rubber Hoses & Wiring From Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive-backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000° F. Provides a barrier against the extreme conditions that under-hood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

TT1019	1-1/2" x 15' feet	15.99 ea
TT1051	2" x 50' feet	49.99 ea

Protect Your Vehicle From Corrosive Battery Acid!

Excessive heat in the engine compartment will cause most standard batteries to spew or seep corrosive battery acid. This in turn will not only corrode your vehicle's battery tray, under-hood and radiator support area, but will also reduce the longevity of your battery. Prolong battery life with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment and is inexpensive and easy to install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. It is so effective, it is used by all branches of the United States military. Set consists of one 8" x 40" acid absorbing/neutralizing felt & one adhesive backed 8" x 40" aluminum thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001	battery heat shield set	29.99 set
--------	-------------------------	-----------

Thermo-Guard FR

Thermo-Guard FR offers the best heat and sound insulation! This lightweight, durable shield does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high-tech foil heat barrier that blocks more than 90% of radiant heat. Thermo-Guard FR is very easy to apply and it can be trimmed to fit anywhere. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

Starter Heat Shield™ Set

In today's high-heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly-reflective mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters. TT1002 Starter Heat Shield™ set with straps..... 25.99 set

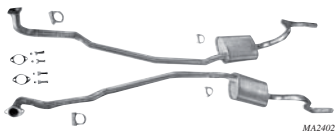

Adhesive Heat Barrier™

Use your imagination and you will find many uses for this heat-reflecting mat. Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. It can be used in applications to protect painted surfaces, plastic parts or any component from the damaging effects of radiant heat. Aluminized Heat Barrier™ is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000°F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

1967-71 B & E-Body H-pipes

Replacement H-pipes for various 1967-71 B & E-Body models are engineered to fit and perform as original with nipple tubes welded in place but not drilled out. Features all factory flat spots, torsion bar clearance dents for an accurate appearance and are constructed from heavy 14 gauge aluminized tubing for long life and proper sound control.

Important: All of the exhaust pipes are manufactured to bolt up to the original exhaust manifold. Modifications may be necessary for vehicles with original headers or engine transplants.

Note: Shipped truck freight.

1965-74 A-Body Intermediate Pipe

OEM-style intermediate pipes which are superior to the coated-style originals. Long-lasting and effective against salt-road winters, these intermediate pipes are welded on one end to the y-pipe and to the muffler assembly on the other.
Note: Ships double oversize.

Tru-X & Y Pipes

The more gentle radius of these x and y pipes allow for better exhaust gas scavenging, noise cancellation and better balance between cylinder banks. The result is a significant increase in power and torque, but a reduction in db sound levels.

1962-74 A & B-Body OE-Style Replacement Mufflers

Our OE-style mufflers feature a long-lasting double wrapped aluminized finish that's effective against salt-road winters. Manufactured to perform exactly as original and produce the correct sound tone, these mufflers are also the closest to the original in appearance available. High performance mufflers feature a two-pass three-chamber design that allows for improved exhaust flow and a slightly more aggressive tone. Correct for 340, 383 and 440 (M code) applications and feature flat corner dents that the factory added for clearance.

Note: Any engine modifications will alter the sound of the muffler.

DOUG'S HEADERS

25052

Doug's Stainless Steel Electric Cutoffs

These cut-outs feature a rugged 12 volt DC motor and rotating gate for a leak-proof seal every time the cut-out is opened and closed. When fully opened, these cut-outs do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly-style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cut-outs are ideal for race tracks that don't require mufflers. These Doug's cut-outs are available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

Note: May not be legal for highway use or use on emission controlled vehicles.

Important: Not recommended for vehicles equipped with catalytic converters.

Key Features:

- 304 stainless steel construction
- High torque 12 Volt DC gear reduction motors
- Self adjusting/cleaning gate for leak proof seal
- Zero obstructions when fully open
- Harness pre-wired for easy installation
- Small size permits greater installation options
- Includes wiring harness, gaskets and hardware
- Cutout kits include Y-pipe & band clamps

Race Pro Mufflers

Race Pro Muffler features a "straight through" path with throughput that can flow 95% as efficiently as a straight pipe! At idle and low RPM cruising, you will not draw much attention, but upon acceleration, bystanders look out! The Race Pro's aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of basalt insulation before the unit is sealed. Muffler shell measures 4" x 9" x 14" long, except P1037 M-80 muffler which is 4" round x 14" long. Limited lifetime warranty.

Magnaflo 4" x 9" Oval Mufflers

Magnaflow's wide-open performance mufflers outflow OEM chamber style mufflers by as much as 167%! This reduces engine heat and back pressure and improves exhaust scavenging from the combustion chamber. Magnaflow minimizes the power robbing effects of the OEM system to restore torque and horsepower to the engine. Magnaflow is the straight through, wide-open performance muffler with a smooth, deep tone. These mufflers offer a reversible inlet/outlet design.

FLOWMASTER
PERFORMANCE MUFFLERS

Performance Mufflers

FLOWMASTER Super 40 American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminumized, black in color and is the most aggressive, deepest-sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

Flowmaster Super 10 Series Stainless Steel Mufflers

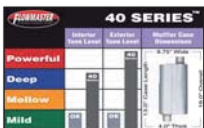

New!

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same performance technology used in the Super 40 and Super 44 series Flowmaster mufflers. These short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures 6.5" x 9.5"

FLOWMASTER 40 Series Performance Mufflers

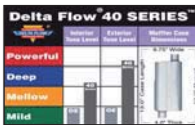

- Aluminumized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

Flowmaster 40 Series-Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 rpm's and again at 2400-2600 rpm's. Constructed of 16 gauge aluminumized steel and fully mig-welded for maximum durability.

FLOWMASTER Delta Flow 40 Performance Mufflers

- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

Flowmaster Delta Flow 40 Series-Reduced Interior Resonance

This two chamber design incorporates Flowmaster's patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully mig-welded for maximum durability.

Performance Mufflers

FLOWMASTER Super 44 Delta Flow Mufflers

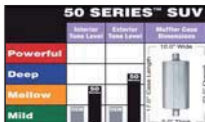

FLOWMASTER Super 44 Delta Flow

The Super 44 is the most aggressive, deepest toned street and strip muffler Flowmaster has ever made! The Super 44's offer maximum performance, an improved flow path radius and generates more torque and more power than ever before! If you really want to hear your exhaust system inside as well as outside, the Super 44 is for you!

Flowmaster 50 Series SUV-Performance Mufflers

- Large Displacement Street Cars
- Early Era Muscle Cars
- Deep Tone Outside Of Vehicle

Flowmaster 50 Series SUV-Performance

The SUV/Performance muffler is a larger version of Flowmaster's 50 Series Delta Flow muffler and is specially designed for trucks, light SUVs and high horsepower vehicles. The larger H-Chamber reduces interior resonance to a minimum. Constructed of 16 gauge aluminum steel and fully mig-welded for maximum durability.

FLOWMASTER 50 Series Performance Mufflers

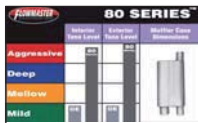

- T409 Stainless Steel
- Milder Performance Sound
- Lower Interior Resonance
- Performance Street

Flowmaster Delta Flow 50 Series-Milder Interior & Exterior Tone

This is the latest design of the 50 series muffler that utilizes Flowmaster's patented "Delta Flow" technology along with an "H-Chamber" to eliminate most all interior resonance and still have that famous Flowmaster sound outside the vehicle. Constructed of 16 gauge steel and fully mig-welded for maximum durability.

FLOWMASTER 80 Series Performance Mufflers

- Aluminized Steel
- Aggressive Performance Sound
- Higher Interior Resonance
- Transverse Mounting

Flowmaster Cross Flow 80 Series-Transverse Mounting

The 80 Series is designed for applications where the muffler must be mounted transversely (cross-flow) behind the rear end. It provides an aggressive muscle car sound both inside and outside the vehicle. Constructed of 16 gauge aluminum steel and fully mig-welded for maximum durability.

Dr. Gas Boom Tube Tips

These Boom Tube Tips are similar to full-size Boom Tube, but are shorter in length for easy installation. They still have the same 8" by 1.75" compact size after the inlet transition. Tips are pre-cut at 45° to expose an 1 1/4" opening at the side of the car and can be trimmed to match the profile of your car. Tips are fully MIG welded and are available individually or in pairs. Boom Tube tips are approximately 23" long on the long side and 14" long on the short side and are trimmed with 2.5", 3", or 3.5" round inlet pipes. Made in USA.

Note: Arrived or modified tips cannot be returned.

Dr. Gas!
Exhaust Corporation

A7700110

Dr. Gas Boom Tubes

Dr. Gas Boom Tubes were designed for stock car racing, and now these low-profile side-exit exhausts are available for your muscle car. Boom Tubes have no restriction and are a perfect add-on for exhaust cut-outs. Boom Tubes are fully MIG welded and can be trimmed to match your vehicle's side profile. Untrimmed Boom Tubes measure approximately 27.5" long and are available with 2.5", 3", and 3.5" round inlets. From the inlet transition, they drop to a thin 1.75" thick and 8" wide with two lightweight support ribs. Exposed exit is approximately 12" to 14" depending on the trim angle. Combine with Dr. Gas mufflers and x-pipe system for a one-of-a-kind exhaust sound! Made in USA.

Note: Test fit before trimming. No returns accepted once Boom Tubes are trimmed or altered.

Dr. Gas Boom Tube Mufflers

Dr. Gas Boom Tube Mufflers offer the same fit as a Boom Tube, but have built-in mufflers! Perfect for low ground clearance applications while giving that great side-exit look. Boom Tube mufflers are fully MIG welded and can be trimmed to match your vehicle's side profile. Untrimmed Boom Tube Mufflers are approximately 30" long and are available with 2.5", 3", or 3.5" round inlet tubes for both right and left side exit. Made in USA.

Note: Test fit before trimming. No returns accepted once Boom Tubes are trimmed or altered.

Dr. Gas Universal X-Pipe Crossover

Dr. Gas designed and commercialized the x-pipe crossover in the '80s. X-pipes equalize exhaust system pressure imbalances while producing a scavenging effect for more power and efficiency. Exhaust note is dramatically improved to a smoother, higher-pitch note. Universal x-pipe crossover sets are available in 2.5", 3", 3.5", and two special sizes with built-in reducers after the X junction. Sizes with reducers deliver enhanced torque without a horsepower loss. Complete sets include two inlet bends, the x-pipe junction, two outlet bends, and flanges with gaskets and hardware. Precision made with premium materials. Made in USA.

Note: Welding and trimming required. Test fit before final installation. No returns accepted once products are trimmed or altered.

PYPES

Stainless Performance Exhaust Systems

Pypes exhaust systems deliver enhanced performance, provide extra punch in the passing lane, and improve gas mileage. Fabricated using the highest quality materials, 16 gauge, mandrel-bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. The stainless pipe and muffler construction resists corrosion and extends the life of their system. Pypes mufflers, x-pipes, and OEM-style stainless tailpipes, are precision matched to deliver the ultimate in sound as well as performance. Cadmium-plated or stainless hardware and hangers are included. These systems can be installed without any special tools. Some cutting may be required. 2-1/2" crossmember back system.

B&M Transmission Products

Pour-in Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high performance fluid on the street also! Not an additive, this is the best performance ATF available! A scientific blend of foam inhibitors, pressure agents and shift modifiers that will provide extended transmission life and drastically improved shift feel. Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Four in Performance" isn't just a catchy phrase - it's reality! It can be mixed with stock-type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: Not recommended for electronically controlled automatic transmissions.
Note: No further discounts apply.

Formulated For Late Models!

B&M's Synthetic Trick Shift™ is suitable for all automatic transmissions including late model electronic controlled transmissions. Formulated as a performance automatic transmission fluid, it features the latest synthetic fluid technology. Not an additive, this safe and effective formula of extreme pressure agents and foam inhibitors provides a long service life for your transmission. Ideal for street use and high performance applications including racing, off-road, towing and heavy duty fleet use. Synthetic Trick Shift™ may be mixed with all other types of ATF but works best by itself.
Note: No further discounts apply.

Key Features:

- Cool blue color
- Latest synthetic fluid technology
- Excellent when installing all B&M transmission kits
- Mixes with other types of automatic transmission fluids
- Formulated for late model vehicles
- Suitable for racing, street performance, towing and off-road applications
- Easy pour quart bottles
- Meets or exceeds Mercon or Dexron III requirements.

Fifty Years of Expertise!

B&M has been building extreme duty transmissions for 5 decades. From the famous B&M Hydrostick of the 50's to the Torquemasters and Clutchflites of the 60's, B&M transmissions are unequalled in quality, features, or durability and is the standard to which all performance automatics have been measured.

Note: All transmissions are special order and must be pre-paid. No further discounts apply.

Street/Strip TF-727

B&M's Street/Strip Transmission is a complete ready to run unit (less converter) designed to offer exceptional performance on the street and stand up to mild drag strip use. Provides firm shifts and features a standard shift pattern.

Torqueflite 727

Key Features:

- 2.45 first gear ratio, 1:45 second gear.
- Rebuilt front pump
- Five clutch direct drum
- New low roller clutch
- B&M 5.0 servo lever
- Four pinion front carrier
- All new B&M high performance friction plates
- Performance Frictions
- New special bellville spring
- Fully re-calibrated valve body

Important: Transmissions shipped truck freight.

HoleShot For Small Block & Big Block Applications!

The HoleShot converter delivers a higher stall speed, providing several advantages and benefits in vehicles with modified engines. Big cams in particular tend to reduce low end power and torque. A high stall converter allows the engine to launch the car at higher rpm where more torque is available. The HoleShot is designed for street and mild strip use, offering better, stronger launches. Street rods with modified engines will also benefit from a HoleShot converter. Not recommended for use on engines equipped with nitrous oxide. Stall speed listings are based on engines producing 230lb. ft. of torque at 2,500 rpm. More torque at 2,500 rpm will give you a higher stall speed, less torque at 2,500 rpm will give you a lower stall speed than the stall speed ratings indicated.

Note: No further discounts apply.

B&M Transmission Products

M23265

Provide Crisp Shifts And Eliminate Slippage Without Removing Your Transmission!

The B&M Shift Improver Kit is the easiest way to get stout performance out of your automatic transmission. Choose from the Heavy Duty Stage 1 kit, and the Street/Strip Stage 3. All you need are a few hand tools! In the space of an afternoon, you can turn your transmission into a B&M-tuned unit!

Stage 1-Heavy Duty

Firm, positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

Stage 2-Street/Strip

Provides very positive shifts for high performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

Key Features:

- Provides crisp shifts on any stock automatic transmissions.
- Elimination of soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

Note: No further discounts apply.

Recalibrate Your Transmission for Optimum Performance

The Transpak has all the features of the Shift Improver Kit, plus additional driver control (Chrysler Torqueflite only). Most stock automatic transmissions won't downshift into low gear above 15 mph, and upshift at a set speed no matter what gear you're in. With the Transpak, you can downshift at any speed and hold the transmission in first gear to any speed! Two sets in one allow you to choose your level of performance. Includes B&M performance friction materials, complete overhaul gasket set, B&M Transpak valves, springs, and components drain plug.

Stage 1 Heavy Duty

For street rods, normal passenger vehicles and heavy duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive."

Stage 2 Hi-Performance Street

For performance street use. Essentially the same as Heavy Duty mode except shift is much quicker. Retains full automatic features and standard shift points with selector in "Drive."

Note: No further discounts apply.

B&M Transmission

In A Box!

This is the most comprehensive kit available, with parts or necessary part numbers to upgrade your Chrysler Torqueflite A-727 into a true performance transmission. Comes with instruction sheets that provide the do-it-yourselfer with all the information needed to completely overhaul a A-727 to B&M specs. Easy to understand even if you have no experience in this area!

Note: No further discounts apply.

Key Features:

- B&M Street/Strip Transmission components in a do-it-yourself kit.
- Transpak modification components including special replacement valves and springs.
- Includes all necessary parts, springs, plates, etc., to convert your valve body to a full B&M Manual Automatic valve body.
- Improved shift feel, retains full automatic features.
- B&M high performance friction materials
- Complete overhaul gasket set & Drain plug

B&M Flexplates for Mopar Transmissions

These SFI-approved B&M flexplates are manufactured to precise tolerances to ensure the flexplate center will not explode at high RPM. Dual bolt patterns accommodate a variety of transmission applications.

Note: *Big blocks with cast crank are externally balanced.

No further discounts apply.

Key Features:

- SFI spec 29.1 approved
- NHRA/IHRA legal
- SFI spec 29.1 certification
- sticker included
- Ideal for street applications to extreme duty racing and high RPM use, above 6,000 RPM
- Dual bolt pattern (10" & 11-1/8") on A-727 flexplates.

Performance Transmissions

MN2509

- 1 year warranty from day of use
- New clutches, steels, seals & gaskets
- Updated boost valve system
- New overdrive & lower roller sprag
- Updated servo piston
- Hardened forward clutch hub
- 300M billet input shaft
- Updated shift valve springs
- Wide kickdown band
- Electronic speed sensor
- New valve body separator plate
- Better lubrication system
- All new Torrington bearings
- All new thrust washers
- New fill tube and indicator
- Energy suspension trans mount
- Custom billet stall converter
- Bowler dependability & durability

Bowler Custom 4L80E High Performance 4 Speed AT for Mopar

If your Mopar produces 650 to 1000 ft lbs of torque, you need a Bowler custom 4L80E performance transmission. Bowler transmissions are built to order, tailored to your specifications, and unlike assembly-built transmissions, every Bowler unit is built by an individual technician start-to-finish and dyno tested before shipping. Includes bellhousing, flexplate, converter, computer and accessories. Does not come with driveshaft or crossmember. Modifications may be needed for fitment. Please allow 4 to 6 weeks for your custom transmission to be built.

Note: Special order, must be pre-paid. Shipped truck freight. No further discounts apply.

Royal Purple Max ATF

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Additionally, Max ATF is more oxidation stable than other transmission fluids for longer fluid life. Max ATF is recommended for a wide variety of transmissions. Max ATF significantly reduces heat to extend the life of your transmission. Automatic transmissions generate a great deal of heat and depend upon the transmission fluid for cooling and protection. Max ATF is fully compatible and can be mixed with other automatic transmission fluids; however, for the best results drain or flush the current oil and then fill with Max ATF.

MN2404

Gear Vendors Under/Overdrive

Give your Mopar vehicle up to twice the forward gear ratios with the Under/Overdrive auxiliary transmission from Gear Vendors. This supplemental planetary gearbox adapts to the output shaft of your existing transmission to provide an extra gear of 0.78:1. The initial benefit is the addition of a 22% overdrive in high gear, but because it can be engaged in any gear, it doubles the number of ratios available in any transmission. Increase fuel economy and use your engine's power more efficiently!

Note: Special order, must be shipped. Skipped track freight. No further discounts apply.

FTM180

Transmission Pan FilterMag

FilterMag's powerful rare-earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super-strong magnetic force holds FilterMag to a steel transmission, is reusable, and will reduce maintenance costs by extending the life of your oil. The super-strong automatic transmission FilterMag mounts to the outside bottom of the pan and will keep metal particles from harming your transmission.

223309

B&M Transmission Super Cooler

B&M SuperCoolers are constructed from 100% aluminum using sandwiched stamped plates. The Super-Coolers intended for automatic transmission fluids and offers an additional feature known as "Low Pressure Drop". A unique bypass feature allows a viscosity-controlled amount of ATF to bypass the cooler when the fluid is cold. Fluid is returned directly to the lube circuit through bypass openings in the core. As the temperature increases, more ATF is directed through the core. This highly efficient design provides improved protection against lube system failure in cold climates. Includes installation kit.

Note: No further discounts apply.

1967-76 Prothane Transmission Mount Sets

Polyurethane transmission mounts limit unwanted movement and control torque to transfer more energy to the wheels and also reduce the chance of breakage. Polyurethane mounts are very durable and resistant to oil, chemicals and road contaminants that deteriorate rubber mounts. Gain performance for the street or track with these nearly indestructible transmission mounts! Made in USA.

Note: *Charged mid-year.

Transmission Output Shaft Seal

Output shaft seal for Torqueflite 727 transmissions. This seal fits all versions of the transmission for all models. The transmission rear seal is easily replaced after removing the driveshaft. A new seal is cheap insurance against nasty leaks that can saturate the underside of the car with transmission fluid.

MN2190 all 11.99 ea

Internal/External Snap Ring Pliers

A handy combination tool for the removal or installation of internal and external snap rings.

B&M Shifters

The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may be the most comfortable automatic shifter you can buy. The handle feels like it was molded for your hand, and the spoon-shaped, multi-position trigger allows easy finger operation in a multitude of grip positions. For use with 1966 & later Torqueflite A727 & A904 3 speed automatic transmissions.

Important: Not for use with original consoles.
Note: No further discounts apply.

Key Features:

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle & cable.
- Can be used with a reverse pattern valve body.

223016 Hammer™ shifter..... 221.99 ea

High Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to timeless good looks and high performance ratchet action. It's ideally suited for most popular applications that use a 1966 & later Torqueflite A727 & A904 3 speed automatic transmissions.

Important: Not for use with original consoles.
Note: No further discounts apply.

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, backup light switch, lighted gear indicator, polished aluminum T-handle, & cable.
- Can be used with a reverse pattern valve body.

223017 Megashifter™ shifter..... 324.99 ea

Classic Style and Stout Performance!

The B&M QuickSilver™ shifter is a top of the line ratchet action shifter that provides performance shifting without a trigger. To get into park or reverse from forward, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For use with 1966 & later Torqueflite A727 & A904 3 speed automatic transmissions.

Important: Not for use with original consoles.
Note: No further discounts apply.

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob & cable.
- Can be used with a reverse pattern valve body.

223018 QuickSilver™ shifter..... 291.99 ea

The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ is the low cost alternative to B&M's top of the line MegaShifter™ that performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine - making daily driving something to look forward to. Utilizing a simple detent action between First, Second, High and Neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch and flat aluminum stick. For use with 1966 & later Torqueflite A727 & A904 3 speed automatic transmissions.

Important: Not for use with original consoles.
Note: No further discounts apply.

Key Features:

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle & cable.

223019 Sport Shifter™ shifter..... 214.99 ea

Straight Line Detent Shifter with Timeless Style!

The B&M StarShifter is a versatile three speed automatic shifter in a clean, timeless styled package! In normal mode, the StarShifter is a straight line detent shifter. With the lever is in Low, lift the trigger and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For use with 1966 & later Torqueflite A727 & A904 automatic transmissions.

Important: Not for use with original consoles.
Note: No further discounts apply.

Key Features:

- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch & polished aluminum T-handle & cable.

223020 StarShifter™ shifter..... 199.99 ea

More Bang for the Buck!

The B&M Z-Gate™ shifter combines classic styling, performance, and a popular price. If you're building a project on a budget, or simply want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented Z-shaped architecture eliminates the possibility of overshifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger - so you get the most bang for your buck! For use with 1966 & later Torqueflite A727 & A904 automatic transmissions.

Important: Not for use with original consoles.
Note: No further discounts apply.

Key Features:

- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle & cable.

Hurst Shifters

Pistol-Grip Quarter Stick Provides a Firm Natural Grip!

The Hurst Pistol-Grip Quarter Stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The Pistol-Grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll/Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floorpan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst Pistol-Grip Quarter Stick fits Mopar A727, A904 transmissions.

Important: For use on vehicles without factory consoles.
Note: No further discounts apply.

Key Features:

- Forged aluminum stick.
- CNC Machined Billet Pistol-Grip handle.
- Snap action thumb switch for operating roll/control, nitrous or trans brake.
- One-hand operated, spring loaded reverse lock-out mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

The Floor Mount Hurst Quarterstick Provides a Positive Shift Feel!

The Hurst Quarter Stick automatic shifter is designed to provide positive gear change control for street or strip applications. Detent activation is controlled by a chrome plated trigger contoured to fit comfortably into the driver's hand. Optional shifter cover can be trimmed to fit any floorpan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, pick the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst Quarter Stick shifter fits A727 and A904 transmissions.

Important: For use on vehicles without factory consoles.
Note: No further discounts apply.

Key Features:

- Forged aluminum stick.
- One-hand operated, spring loaded reverse lock-out mechanism.
- Factory installed neutral safety switch.
- Cable operated.

Royal Purple Synchronax

This manual transmission fluid increases performance and the life of your equipment. It improves shifting, reduces gear noise and increases power transfer to the wheels. It also lowers operating temperatures and provides outstanding wear protection for longer transmission life. Synchronax is recommended for manual transmissions that specify an automatic transmission fluid. It's also ideal for 4x4 transfer cases and motorcycle gear boxes. Synchronax is fully compatible with all types of friction materials. It provides excellent corrosion and oxidation protection without affecting the soft metals commonly found in manual transmission synchronizers. Synchronax is formulated with Royal Purple's proprietary Synerlec technology for unsurpassed performance and protection.

McLeod Flywheels

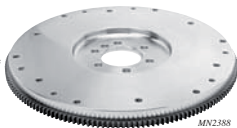

McLeod Steel Flywheels

For easy stoplight acceleration, these flywheels are ideal. The mass of these steel flywheels makes them perfect for launching a heavy car with a smaller engine with less torque and horsepower. If you have multiple engines that require different balance on the flywheel, you can add or remove weights as required, without buying another flywheel.

Note: *Flywheels use Bendix type starters.

Clutch Pattern Notes:

- 10", 10.5", 10.95" B&B Diaphragm
- 11", 12" B&B Diaphragm with shouldered bolts
- 10", 10.5" LONG & 10" Diaphragm

RAM Billet Steel Flywheel

RAM billet steel flywheels are recommended as a replacement for factory cast flywheels in high performance and racing vehicles. Cast flywheels are not explosion proof and can be dangerous when used in high performance applications at higher RPMs. RAM billet steel flywheels are CNC machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum runout and the optimum mating surface for the variety of friction materials they offer. Use steel flywheels in heavier drag race models or for the best drivability in street driven vehicles.

1963-74 Shifter Boots and Bezels

Replace your deteriorated or missing shift boot to seal the area around the shifter mechanism just like the factory intended. Upper boots seal the area where the shifter protrudes through the console on console-equipped Models. Lower boots seal the area where the shift mechanism passes through the floor panel. A variety of applications are available for 1963-76 A-Body, B-Body and E-Body vehicles.

Note: *Not correct for 1971-72 B-Body Models with bench seat or bucket seats with fold-down armrest.

1965-74 Reproduction AGM Maintenance Free Batteries

Reproduction AGM series batteries for various 1965-74 Dodge and Plymouth models. These reproduction batteries offer you enhanced performance and reliability while maintaining an authentic vintage appearance. AGM series batteries come fully charged and ready for installation. Features an incorporated valve regulated design that pressurizes the battery to keep it from drying out while the Absorbent Gas Mat separators eliminate gassing and leaking even if the case is broken. Correct markings and lettering are specific to each battery group, along with the correctly colored top caps. Officially licensed by Mopar and made in the USA.

Note: Shipped overweight.

Service Replacement Battery Cables

Having electrical issues? You may be shocked to realize that the problem may not be your battery or alternator, but rather your battery cables. Though these cables may not be cosmetically correct for your vehicle, they will fit and function correctly on a variety of applications. All cables are 4 gauge, stranded copper wire and are equipped with an accessory lead wire. Battery clamp bolt and nut are included.

Reproduction battery cable strap for 1970-74 E-Body models. Mounts to the shock and restrains the battery cable. ME1699 1970-74..... 5.99 ea

1983-74 Battery Cable Bolt

Replacement battery cable bolt for all 1963-74 models. The terminal head is the rounded style, features correct markings and includes the correct bolt and nut. MD2574 1963-74 bolt..... 3.99 ea

Universal Battery Cables

Underhood or trunk-mount battery cable sets. Each cable is 1 gauge and features lead die cast top-post terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top-post or side-post sets. Trunk mount sets measure 18" while underhood sets measure 6" in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes crimping tool, extra lugs and shrink tubing.

Battery Switches

These high quality battery switches are ideal for use as a theft deterrent or preventing battery drain without removing the cables. They're easy to install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just re-tighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc. while the battery is disconnected.

Battery Accessories

Quick Release Battery Cable Bolts

These handy quick release bolts replace standard 5/16" battery clamp bolts used for most top batteries. The cam lever action tightens and loosens the bolts without tools. They're constructed from anti-corrosive stainless steel and padded with color coded red and black polypropylene.

W20251 top post 5/16" bolts 9.99 pr

Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnections.

500778 standard disconnect 27.99 ea
500837 remote disconnect 35.99 ea

Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc. to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 9.99 ea

Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap!

X205 carries top mount only 6.99 ea

Battery Cable Crimping Tool

No matter what the size of your battery cable job, this is the tool that will make quick work of it. By simply selecting the proper size to match your crimp and aligning the star with the battery lug in your vise, you will gain a professionally strong and conductive crimp every time!

500665 12.99 ea

Side Terminal Adapters

If you are converting a side terminal battery to top post cable usage, we offer this convenient kit which allows you to install and operate your replacement battery without unnecessary cutting of your cables.

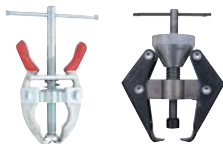

RCP3L pos & neg 4.99 set

Easy Click Battery Cable Connectors

The Easy Click self-tightening battery connectors allow quick connection and disconnection of top post batteries. Manufactured from solid brass and tin plated to enhance conductivity and corrosion resistance. Includes snap on covers to prevent electrical shorts. Rated at 1000 amps maximum.

EC100201 24.99 pr

W210277

Y54000

Battery Terminal Puller

This handy tool is used to remove battery terminal clamps without damage to the battery posts. By simply placing the jaws of the puller under the battery cable clamp, tighten the screw until the clamp is removed.

Great for removing corroded battery terminals. Your choice of standard grade or professional level tool.

Fuse Tap/Fuse Holders

You can now add circuits without cutting or splicing into your wire harness with this Tap-a-Circuit fuse holder. These will work with ATO and mini blade style fuses. This is a fast and easy way to add additional accessories such as CD players, car phones, radar detectors, 2-way radios and more.

Note: Accessory must not exceed 10 amps.

14490	for ATO fuses	9.99 ea
14491	for mini fuses	9.99 ea

Battery Lifesaver - Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

BSL1		29.99 ea
------	--	----------

Battery Mat - Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

Universal Wire Grommets

Universal wire grommets for routing wire through the firewall. In addition to the added protection, these grommets also give the hole in the firewall a cleaner appearance. Measured in inner diameter and outer diameter. Outer diameter refers to the hole needed in the firewall or other body panel.

Note: *Can be drilled out up to 1/4" opening.

Semi-Rigid Wrappable Split Braided Tube

Clean up and protect any wiring harness with this braided wire wrap. The semi-rigid tube opens along a lateral split to accommodate a variety of harness configurations, then simply closes without any need for fasteners. A 25% overlap ensures complete coverage. Retains shape and rigidity from -94° to 257° F. Available in black only. For 18-14 gauge wire.

Shrinkflex Fabric Heatshrink Tubing

Shrinkflex fabric tubing is the only product of its kind. The unique weave of Polyolefin and Polyester easily installs over wiring harness bundles, connectors and splices, as well as rubber hoses and plastic pipes. When heated to 176°, it shrinks to 1/2 the original diameter while remaining flexible, even at high temperatures!

Wiring Harnesses

1970-74 E-Body Classic Update Wiring Harness For Resto-Custom Cars!

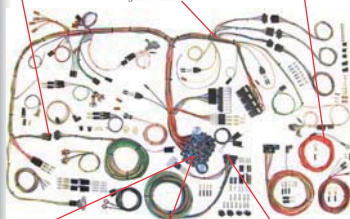

Classic  Update

Steering column connectors can plug directly into most aftermarket steering columns or stock 1970-74 Mopar columns.

Engine wiring includes connectors for original points type distributors, OEM Chrysler style starter relay connections and ignition leads.

Front lighting includes extra long leads that can be routed as original. All light terminals included.

New ATO Fuse panel allows for easy fuse and circuit breaker accessibility. Original switch connector bodies are included on all wiring.

Fuse panel designed to mount in original location. Standard turn signal and flasher relays are mounted on fuse panel.

System will connect into most popular aftermarket gauges such as Autometer, Classic Instruments, Stewart Warner, VDO, etc.

1970-74 E-Body Classic Update Wiring Harness

Classic Update wiring harness for 1970-74 E-Body models. These complete-car wiring harness systems not only allow you to power your essentials, but also add accessories such as air conditioning or power windows. The main harness includes turn signal and hazard flashers mounted on the ATO style fuse panel, which installs in the factory location (minor firewall modification required), original switch connector bodies, steering column connector, under dash courtesy lamps, an instrument cluster harness disconnect, a rear body harness, and a new floor-mounted dimmer switch. A bulkhead connector is used to connect the engine and front light wiring harness for easy installation. The engine harness includes connectors for original points type distributors, OE style starter relay connection, tach, and ignition leads, and is supplied with high powered 1-wire alternator connection. The front light harness includes extra long leads to allow for custom routing. Includes original style lamp bulb sockets, connectors and terminals. Also includes full color diagrams and instructions.

Note: This system is intended for use on customized vehicles. Does not support factory ammeter or points-type ignition system. Requires one-wire alternator. Must use original or reproduction dash switches.

ME85629 1970-74 E-Body..... 719.99 ea

Highway Series Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat-resistant nylon and features anti-push back locks and single-side wire access with self-locking, screw-down connections. Includes a starter/alternator 175 amp mega-fuse for extra protection. The panel is fed through an 8-gauge power feed wire and features a battery and accessory stud connection. Includes color-coded wiring for ignition, alternator, headlight, steering column, accessories and gauges. Include relays, fuses, flashers, circuit breakers and all necessary power connections and terminals. Also includes a full-color schematic and step-by-step instructions.

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy to Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 15 Power Outputs
- Gauge Cluster Disconnect
- 8-Gauge Alternator Feed
- 175 Amp MegaFuse
- Ignition, Headlight, Dimmer Switches
- Full Color, Step-by-Step Instructions

Highway 15 Modular Fuse Panel System

Features 15 power outputs in 9 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes ignition, headlight and dimmer switches.

500703 15 panel connections 409.99 ea

- Composite Panel Base
- Nylon Panel Components

Engine Bay Wiring Harnesses

1964-74 Engine Harnesses

Complete engine wiring harnesses which are ready to install and feature correct colored wires and connectors, making installation as easy as possible. Harnesses include connections for the following: temperature sending unit, oil/light, coil power, horn relay and washer pump motor. All wiring harnesses available are wrapped in non-adhesive vinyl wrap tape for an authentic factory appearance.

Important: *Features a connector to which federal inspectors could attach a testing device, allowing them to check the brake light warning system. For vehicles without this addition, simply just tape the connector out of the way.

Note: No further discounts apply.

Engine Bay Wiring Harnesses

1966-74 Fusible Links

Replacement fusible links are made with the same high quality materials and workmanship as our wiring harnesses. These fusible links are offered separately for minor repairs that require changing only the fusible link. Wiring harness part numbers, in parentheses, are given here to help you find the correct application on our wiring harness applications below.

Note: Fusible links are included with all wiring harnesses where applicable. No further discounts apply.

* For models with 59 and 60-amp alternators.

** For models with ignition, air pump and 60-amp alternator.

1964-74 Front Light Harness

Front light harnesses for various 1964-74 Dodge and Plymouth models. Front light harnesses are for vehicles that require a separate engine harness. Each harness features correct color wires, factory style connectors and is wrapped in non-adhesive vinyl wrap tape. Harnesses attach to the firewall as original. The firewall connectors will vary depending by model as some models use a single style plug while others use two.

Note: No further discounts apply.

1968-74 Back-Up Lamp/Neutral Safety Switch Harness

Back-up lamp/neutral safety switch harness for 1968-74 A, B and E-Body models with automatic transmission and 1968-74 B and E-Body models with clutch safety switch. The back-up lamp/neutral safety switch harness connects the back-up lamp/neutral safety switch to the bulkhead connector. The 1968 B-Body has a wire connecting the neutral safety switch to the starter relay. The clutch safety switch lead wire connects the clutch switch on the pedal to the starter relay. Harness will not fit any Hemi model.

Note: No further discounts apply.

1964-74 Under-Dash Harnesses

Replacement under-dash harnesses for various 1964-74 Dodge and Plymouth models. Harnesses feature correct color wires, factory style connectors and are wrapped in non-adhesive vinyl wrap tape. Under-dash harnesses connect to various switches and sensors related to the dash. The harness also connects to the engine harness and runs down the side cowl panel and connects to the rear body harness.

Important: When ordering a new wiring harness, inspect the original harness on the vehicle. Chrysler often added separate wire assemblies depending on the vehicle's final configuration. Many of these separate harnesses are not available and if needed they will have to be reused. Owners of early 1972 models that do not have the seat belt warning system should disregard the connector and tape it off out of the way.

Note: No further discounts apply.

1967-72 Back-up Lamp Harness

Back-up lamp harness for 1967-72 A, B and E-Body models. The back-up lamp harness connects the bulkhead to the transmission back-up switch. Other connections may vary depending on your particular model. Harness does not fit any Hemi model; Hemi back-up lamp harness is incorporated into the positive battery cable. Back-up lamp harness is for manual transmissions only; neutral safety switch incorporates the back-up lamp feature.

Note: No further discounts apply.

* Models built late 1968 and early 1969 before November 15, 1968.

** Models built late 1969 after November 15, 1968.

*** Models without NOX emission controls.

1970-71 E-Body Overhead Console Harness

Overhead console wiring harness and extensions for 1970-71 E-Body models equipped with overhead console. The console to body harness needs three other harness extensions to operate all overhead console functions. You will need the console to fuel relay extension which connects the overhead console to the low-fuel relay harness. The low-fuel relay harness connects the dash harness with the fuel relay extension. Then the door ajar switch extension connects the right door-ajar switch to the body harness and completes the overhead console wiring.

Wiring Harnesses

1964-74 Rear Lamp Harnesses

Replacement rear body lamp harnesses for various 1964-74 Dodge and Plymouth models. The rear lamp harness powers all accessories on the rear end of the vehicle and connects to the under-dash harness. These harnesses feature correct color wires, factory style connectors and are wrapped in non-adhesive vinyl wrap tape.

MB2482

Important: *Except Charger and convertible models. None of these harnesses will fit station wagon models.
 Note: No further discounts apply.

ZipStrip Re-Useable Flexible Cable Ties

Tired of cutting off plastic cable ties? ZipStrip re-useable and flexible cable ties are the answer! Made from a custom elastomer for softness, strength, and controlled tension, these 11" strips stretch by more than 50%, wind neatly around cables, and can be easily removed. Each strip can be used 3-5 times. Available in red, yellow, clear, black or a mixed assortment of colors.

RON FRANCIS Wiring

- 18 Circuits on 16 Fuses
- 4 Select-A-Circuits
- Cooling Fan Relay Included
- Serial Number
- Handles 100 Amp Alternators
- Includes the Proper Connectors & Terminals
- Clear, Simple, Color Coded Instructions
- Clear Coated, Polished Stainless Steel Finish
- Faster Installation w/vNew Style Terminal Block

1961-75 A, B & E-Body Express Wiring Harness

This express wiring harness for one-wire alternator applications has been improved over previous models to simplify installation. Each kit includes a headlight switch, isolated cooling fan relay, & wiring for hi & low beams, indicator lights, brake, turn signal, parking, and third brake light. It will accommodate points, aftermarket and electronic (factory or dealer supplied) distributors, and can be connected to the Chrysler starter relay for use of the factory transmission-mounted neutral safety switch. A multi-connection battery junction block reduces the number of wires needed for add-ons. Our printed and color-coded high temperature fire-resistant wiring is supplied for all circuits, including for the lighting needed for most safety inspections, and features a unique serial number. Applications available for 1961-75 Challenger, Barracuda, Satellite, Challenger, Charger, Dart, Coronet.

MD4239 1961-75 A, B & E-Body 474.99 ea

Timed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

Note: Not compatible with probe style fan sensor controls that mount on the radiator or radiator support.

TP900632 1962-79 149.99 ea

- 10 circuits on 16 fuses
- Fuse panel measures 7-1/2" x 3-1/8" x 2-7/8"
- Plugs for Mopar Saginaw or Aftermarket Steering Columns
- Set up for One-Wire 140-Amp Alternators
- Wiring for:
 - ✓ Safety Inspections
 - ✓ Gauges
 - ✓ Engine
 - ✓ Dash Lighting
 - ✓ Basic Accessories

Mopar Bare Bonz Wiring Set

Mopar Powered Rodders with the need for only a simple electrical system will love this model. We don't use an old GM fuse block and call it universal. We do it right. This kit has 8 fuses and 10 circuits and plenty of wire needed to take care of your basic engine, dash and lighting, gauges and some accessories yet built well enough to be compatible with electronic fuel injection. This panel measures 7-1/2" long x 3-1/8" wide x 2-7/8" high.

MD4236 394.99 set

Mopar Access 24/7 Wiring Set

This fuse system comes standard with 24 fuses and 3 relays, along with a unique mounting system and room for 4 additional relays. The Access 24/7 allows you to consolidate even additional aftermarket products' relays to clean up the underdash area. Fuse panel can be conveniently placed under the dashboard for easy servicing or maintenance. Additional wires simply plug into labeled connectors in the fuse panel. No hard-wiring is necessary to add accessories or other circuits to the fuse panel.

MD4235 544.99 set

PAINLESS Wiring

21-Circuit Harnesses Include Wiring For:

- Headlamp Switch
- Dimmer Switch
- Wiper Switch
- Turn Signal Switch
- Ignition Switch
- Brake Switch
- Courtesy Lamps
- Alternator
- Horn
- Radio
- Starter
- Dash Instruments
- Tail Lights
- Third Brake Light
- Electric Choke & Senders
- Emergency Flashers

21 Circuit Universal Wiring Harness

This universal 21-circuit harness is configured for 1966-76 Mopar vehicles and features OEM color codes and a unique covered micro-fuse block. Harness includes an auxiliary circuit with 20 amp relay for accessories such as fog lights, electric seats, electric window/lock or an electric fuel pump.

Important: For non-fuel injected motor and non-electronic transmission.

Note: No further discounts apply.

10127 1966-76 574.99 ea

14 & 18 Circuit Universal Fuse Blocks

Use these 14 or 18 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for AC and heat, gauges, dash instruments, brake lights, headlights, coil, horn, dome light, radio, electric fan, turn signals, emergency flashers, wipers and alternator. The 18 circuit fuse block adds labeled circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

Important: No wire included with these kits.

Note: No further discounts apply.

30001 14 circuit 154.99 ea

30003 18 circuit 259.99 ea

Add Fused Circuits with The CirKit Boss!

These sets allow you to add 3 fused circuits to your existing factory fuseblock. Simply mount the fuse block and relay, route the large 10 gauge wire to the battery, route the ignition wire and then route the accessory circuits to the accessories needing power. Main power wire is 8 feet long from fuse block. Each accessory circuit has 8 feet of wire length from fuse block. 3 ignition hot circuits with a maximum total Amperage handling of 70 Amps. Set includes: One 70 Amp SPST Relay, Relay base/fuse block with harness, Crimp-on terminals and hardware.

Note: No further discounts apply.

70114 3-Circuit 91.99 set

Remote Master Disconnects

These kits allow you to add a remote power disconnect switch as a theft deterrent or for safety in racing applications. Two sets are available for applications with high amperage alternators; one set includes with a small toggle switch to activate the solenoid, and the other set includes with a red emergency push button. The 110 amp continuous duty mechanical latch solenoid is activated by an easy to hide momentary push button.

Note: No further discounts apply.

30204 250 amp w/toggle switch 149.99 set

30205 250 amp w/emergency button. 169.99 set

30206 110 amp w/momentary switch 179.99 set

250 Amp Dual Battery Control System

This 250 amp dual battery controller uses a three position switch to control the second battery through the operation of the solenoid. Position one isolates the second battery, position two connects the battery while the ignition is on, position three connects the second battery at all times. Includes solenoid, switch, pre-terminated wire/connectors, fuse holder, fuse and hardware.

Note: No further discounts apply.

40102 191.99 ea

40103 weatherproof 249.99 ea

Digital Power Manager

The Digital Power Manager is a weatherproof solid state dual battery control unit that automatically engages an auxiliary battery when a large enough load is placed on the vehicle's main battery. The unit will not allow the electrical loads on the vehicle's main start battery to drain the auxiliary battery, preventing a potential stranded situation for the driver. When the main start battery is too low to crank the engine by itself, the Digital Power Manager will combine the auxiliary and main batteries to crank the engine. Once the engine is running and spinning the alternator again, it will only allow charging of the auxiliary battery after the main battery is fully recharged by the alternator. This solid state dual battery controller / battery isolator eliminates manual switching or any second guessing when using a secondary battery in any vehicle with a 12 volt system. The unit is capable of switching up to 280 amperes of DC current for large loads such as winches or even when jump starting another vehicle. Ideal for any vehicle equipped with high power stereo systems, high amp driving lights or winches. Included in the set is the weather proof Digital Power Manager, 6 gauge connection cables, terminals, heat shrink, mounting hardware and a remote indicator lamp.

Note: No further discounts apply.

40120 205.99 set

Circuit Add-On Isolators

Protect your OEM warranty or simply isolate additional circuits when required. The circuit add-on isolator is a cost-effective solution when additional circuits are needed, or accessory equipment requires ignition-hot and constant hot capabilities. This is the only add-on fuse center available with ignition-hot capabilities to ensure that add-on circuits will only work if the ignition key is on. Three or seven circuit models depending on your application. Relay included.

Note: No further discounts apply.

Get Custom Digital Wiring With Infinitybox!

Upgrade, Consolidate and Control Your Wiring With an Infinitybox Wiring System

Infinitybox is an intelligent wiring system that can replace or enhance the traditional point-to-point wiring in any vehicle – regardless of make, model or year. It uses modern technology to not only control standard features like head lamps, turn signals, and electric fans, but also allows the flexibility to easily add features like power windows, iPhone control, and advanced anti-theft security. Infinitybox makes it easy to add these features and more, all while simplifying the process of re-wiring your car, adding circuit diagnostic capabilities, and creating a more reliable and dynamic wiring system. All wiring harnesses and modules are made in the USA!

Note: No further discounts apply.

Control Motors and Actuators

The inMOTION module controls items that change direction like convertible top motors, sunroofs, and power windows and locks.

Single-Wire Connections

A single data cable connects each POWERCELL to the MASTERCELL. All inputs are powered and switched through the MASTERCELL alone, eliminating hundreds of feet of wire!

System Flexibility

The Infinitybox POWERCELL uses solid state switches called MOSFETs for switching. POWERCELL outputs can turn things on and off, or can be variable for lighting effects and motor speed control.

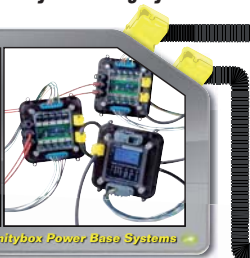

INFINITYBOX
INTELLIGENT WIRING

- ✓ Add New-Car Tech Without Excessive Wiring & Relays!
- ✓ Reduce Installation Time by up to 50%!¹
- ✓ Easily Accommodates Changes or Additions!
- ✓ No Specialized Electrical Knowledge Necessary
- ✓ Eliminates Hundreds of Feet of Wiring!
- ✓ Programmable for Custom Functions!

¹Versus other universal wiring systems.

The Infinitybox base system can be used in conjunction with any Infinitybox accessory module. Control upto 20 electrical circuits with this system alone. Pre-configured to control ignition, headlights, parking lights, high beams, horn, electric fans, self-cancelling turn signals, hazard lights, electric fuel pump and brake lamps. Includes one MASTERCELL and two POWERCELL units, universal wiring harnesses and primary fuses.

Infinitybox Accessory Modules

inLink Remote Control

inLINK Key Fob Control Module

Control up to 16 different functions with the inLINK 4-button key fob. Consolidate vehicle security, remote lighting, dooropening, and similar systems and control them with an encoded signal from 100 feet away. Features a simple plug-and-play installation. Includes 2 key fobs, batteries and installation guide.
 MP50105 inLINK control module..... 237.99 kit

Smart Phone Control

inTOUCH Mobile for iPod, iPhone, or iPad

Unlock doors, turn on lights, roll down windows – control virtually any electrical accessory through an encrypted Wi-Fi connection with this simple user interface for your iPhone, iPad, or iPod touch. Includes mobile radio interface card and operating instructions. Mobile app requires iOS 3.1.3 or newer.
 MP50106 inTOUCH for Apple devices... 401.99 ea

Touch to Control your Vehicle!

inTOUCH MAX 7" Touch Screen

The inTOUCH MAX 7" touch screen gives you complete control of your vehicle accessories and access expanded diagnostics with just one simple connection to the MASTERCELL. In addition to virtually eliminating the need for hard-mounted switches in the car, you can also eliminate the need for ignition keys with its built in password security system. Includes touch screen, MASTERCELL interface cable, and installation guide.
 MP50107 7" touch screen interface... 1723.99 kit

Need More Circuits?

Add-On POWERCELL

Looking to add more accessories with your Infinitybox system? Add up to 10 more circuits with an additional POWERCELL. Up to five POWERCELL units can be controlled by the MASTERCELL for a total number of 50 output circuits. Includes wiring, connectors and installation guide.
 MP50108 POWERCELL control unit. 516.99 ea

Note: No further discounts apply on any of the listed items.

Add Power/Ground Reversing

inMOTION Motor Controller

Add up to 5 electrical accessories that require power and ground reversing, such as window motors, lock solenoids, and convertible tops. Uses any type of switch or input and allows for options like "express down" power windows. Also features intelligent technology that allows the cell to learn the normal operation of every connected component and reacts if an unusual event occurs to prevent damage from obstructions or binding mechanisms.
 MP50109 inMOTION motor controller.. 516.99 kit

Program Custom Functions!

inCODE Programming Module

Now you can add custom features like "theater dimming" interior lights, or delayed-off headlights, even after your system has been installed. The Infinitybox system supports custom input and output personalities. With the inCODE Programming Module, you download custom-configured programs from your personal computer and import it directly to your MASTERCELL or POWERCELL in less than 90 seconds.
 MP50110 inCODE programmer..... 332.99 ea

Add Dash Lighting

inDASH MAX Dash Lighting Controller

The inDASH MAX is a compact module that functions much like a POWERCELL, but is designed specifically to activate LEDs or incandescent bulbs in your gauge cluster based on commands sent from the MASTERCELL when turn signals, parking light switches, or high-beams are activated.
 MP50111 inDASH MAX dash lighting... 320.99 ea

VintageAir Climate Control

inVIRONMENT Vintage Air® Controller

Asimpletwo cable hookup with the Vintage Air Gen-IV® allows truly seamless integration with the Infinitybox system. Gain complete control of your air-conditioning with Infinitybox through your choice of buttons, the inTOUCH MAX touch screen or with your Apple device.

Note: Product shown using inTouch Max interface, sold separately.
 MP50112 Vintage Air Gen-IV module 435.99 ea

Add Wiring Accessories

inRESERVE Battery Monitoring

Constantly monitor your battery while your car is parked with inRESERVE! If voltage gets too low, inRESERVE disconnects the battery to preserve remaining voltage. The system also allows you to disconnect and reconnect the battery at the touch of a button. Includes exclusive Infinitybox battery monitoring software.

Mopar Production Figures

The Dodge and Plymouth passenger cars manufactured by the Chrysler corporation were some of the most popular and iconic vehicles produced during the Muscle Car era as shown by the production figures listed here. In an attempt to show the number of vehicles produced during these years, we have listed the specific model figures as closely as possible. The breakdown is

1960-76 A-Body		
1960	Valiant	194292
1961	Valiant	143078
1962	Valiant	157294
1963	Dart	34227
1963	Valiant	225156
1964	Barracuda	23433
1964	Dart	49830
1964	Valiant	227585
1965	Barracuda	64596
1965	Dart	45118
1965	Valiant	167153
1966	Barracuda	38029
1966	Dart	30041
1966	Valiant	138137
1967	Barracuda	62534
1967	Dart	38225
1967	Valiant	108969
1968	Barracuda	45412
1968	Dart	43127
1968	Valiant	110795
1969	Barracuda	31987

Four Ways to Order!

ORDERING BY PHONE TOLL FREE 800-854-1280

In the continental United States, Hawaii and Alaska. Outside the U.S call 714.847.6887.

Mon-Fri 8:00-5:00 Sat 10:00-3:00, P.S.T.
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number

Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address

Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle

To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers

All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ON-LINE ORDERING www.classicindustries.com

Classic Industries® offers on-line ordering directly through our website. Log on to classicindustries.com and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

ORDERING BY MAIL Mail Your Completed Order Form To:

Classic Industries®
18460 Gothard St.
Huntington Beach, CA 92648
Attention: Order Dept.

ORDERING BY FAX TOLL FREE 800-300-3081

In the continental United States, Hawaii and Alaska. Outside the U.S call 714.847.6887.

Important: For assistance with your order form, see page entitled "How To Fill Out Your Order Form".

Service Excellence From the Restoration Leaders!

You No Longer Have To:

- ✗ Pay excessive fees to protect your merchandise
- ✗ Contact the carrier yourself
- ✗ File a damage claim yourself to have the carrier inspect the damaged items
- ✗ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries will issue a pick up call tag through the carrier that shipped the products. The carrier will pick up the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier is unable to pick up the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pick up. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

When you continually offer a quality product for a reasonable price, people come back! If you haven't already decided for yourself, then check out our Money Back Guarantee. Classic Industries® is continually the most competitively priced muscle car parts supplier year after year. We research each and every product we sell to make sure you getting the quality you want at the lowest price possible. Many of the products in this catalog are manufactured by Classic Industries®. We painstakingly scrutinize every product we offer for quality manufacturing materials and craftsmanship before it's offered in any of our catalogs. We know that not all restoration parts are created equal. We have years of experience in manufacturing the highest quality reproductions using the latest methods to ensure originality and detail. Many of the quality restoration products you purchase from Classic Industries® are officially licensed and approved by Chrysler. The restoration industry has changed dramatically over the last fifteen years and the restoration enthusiast is considered well informed and educated. This means

parts suppliers must recognize the need for not only quality parts and accessories, but the special attention to detail and crucial *after the sale* support most customers appreciate. Many restoration enthusiasts order parts, receive them, install them, and then wonder if the company you spent your money with will be there if you have a problem, or be in business tomorrow! If you know about restoration, then you know about Classic Industries®. The leader in restoration for two decades. After all, what else would you expect from the company that started it all!

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy.

Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly

40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® - your partner in restoration!

Form of Payment

How to Order

CREDIT CARDS

Classic Industries® accepts Visa, MasterCard, American Express, Optima, and Discover for your convenience. When placing your order, be sure to indicate the card holders name, address, home phone, business phone, credit card number and expiration date and billing address (if different from person placing order). A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is \$20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS

To use personal checks or business checks on pre-paid orders, the name, address, and check number must be pre-printed on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on pre-paid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:
Classic Industries®

PAYPAL

Classic Industries® now accepts payments via PayPal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through PayPal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact your customer service department for additional details.

MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be pre-paid including freight (when applicable). COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient Toll Free number allows you to place your order with confidence to assure you get exactly what you want when you want it! Inter-continental US 800.854.1280. Outside U.S. country code + 1.714.847.6887

TOLL FREE 800-854-1280

FAX YOUR ORDER

Classic Industries® offers a convenient FAX line for customers who have access to a FAX machine. Our FAX is available 24 hours a day 7 days a week for your convenience. Fill out the order form completely and FAX your order. Within US 800.300.3081. Outside U.S. country code + 1.714.848.9501

TOLL FREE 800-300-3081

ON-LINE ORDERING

Classic Industries® offers on-line ordering directly through our website. Log on to classicindustries.com and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be pre-paid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling held for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info@classicindustries.com

Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially among interior products and do not constitute a defect. These products are not eligible for return for this reason.

Pricing

Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the pricing contained herein. However, due to increased costs of manufacturing, materials, etc., prices can change. We reserve the right to change prices without notice. For current pricing please contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, Cuda, Dart, Duster, Fury, GTX, Hem, Pkara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders noted on your invoice before calling our customer service department (see back orders). If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

General Information

Sales Tax Information

Orders shipped outside of California may be exempt from sales tax. California residents are required to add the appropriate current sales tax. Due to regular variations in California sales tax, rates are subject to change without notice. California orders are subject to tax on handling fees, COD fees and rush fees. This additional tax will be applied to the invoice. As of the printing date of this catalog, the current rate is 8%.

Accuracy of Descriptions

Classic Industries® makes every effort to assure the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic Industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts

Some items in this catalog are presented as right or left hand products, (right side-passenger) (left side-driver). Right hand or left hand sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Shipping Information

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2 Day Delivery whenever possible. All orders must be pre-paid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by Fed Ex. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of \$11.95 per box will be added to all COD orders. Overseas and/or overnight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to \$999.00. If the COD order should be returned to Classic Industries® for non acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

General Information

Back Orders

The invoice located in the packing slip of your order will notify any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays no claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refunds

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2 Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A \$16.95 fee will be added to Overnight fees for Saturday delivery. 2 Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product "Shipped truck freight". This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be pre-paid, including freight charges, before the shipment can be sent. Classic Industries® requires a minimum \$125.00 fee for all California orders and minimum \$175.00 fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an additional \$40.00 fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours. **Important:** Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 94", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A \$40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing overweight products, even if it is not indicated in the catalog. **Important:** Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

Sales Errors/Ordering Errors

Classic Industries is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, straps, electrical parts, gears, wiring harnesses, switches, etc. are non-returnable. All special order products must be pre-paid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering axles, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-returnable by Classic Industries® will be returned to the customer at the customer's expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

How to FILL OUT YOUR ORDER FORM

Billing Information:

If paying by credit card, fill in the card holder's name and billing address (where the credit card statements are received).

Shipping Information:

If different than the billing address, please fill in the name and address where the order will be sent.

Page Number:

The page # of the product being ordered.

Quantity:

How many of each item you are ordering.

RH/LH:

RH (pass. side) or LH (drivers side) if applicable.

Oversize/Overweight:

Enter correct amount if applicable.

Part Number:

Enter part number as it appears in this catalog.

Product Description:

The name of the product as it is listed in this catalog.

Method of Payment:

Check the appropriate box for payment. If you are paying by credit card, fill in the card number, expiration date, security code, and card holder's signature.

Shipping Chart:

Information on the amount of shipping & handling fees you will be charged.

Vehicle Information:

Complete information about your vehicle.

Customer Number:

Usually located on the back of your catalog, above your name.

Catalog Number:

Located on the front upper right corner of the catalog cover.

E-mail Address:

Enter your E-mail address.

Date of Order:

Enter the date of your order.

Number of Pages:

Enter the number of pages you are sending.

Discount/Promotional Code:

Enter the discount or promotional code.

Unit Price:

The unit price of each item.

Total Price:

The individual price of each product multiplied by the quantity being ordered.

Subtotal:

The total amount of products ordered.

California Sales Tax:

Orders shipped within California add 8%.

Shipping/Handling Fee:

Enter appropriate amount using the shipping chart.

Canadian Orders:

Add 25% of your subtotal or a minimum of \$10.00 U.S. funds, whichever is higher.

Oversize/Overweight and Double Oversize:

Check the quantity of items and add the appropriate amount based on the chart.

Foreign Orders/Rush Fees:
Contact Classic Industries® for current shipping rates to your country.

APD/FPD:

Add 20% of your subtotal or a minimum of \$10.00 U.S. funds, whichever is higher.

Total:

Total of all items including tax and shipping.

MM52305

MM52308

1964-76 Control Arms

Engineered for strength, the QA1 upper and lower control arms offer a great solution to factory control arms without adding weight. These control arms feature tubular construction, black powdercoating, polyurethane bushings and include ball joints. Direct bolt-on for most Mopar applications. Made in USA.

Upper Control Arms

QA1 upper control arms are ready to bolt-on to your Mopar. They include polyurethane inner pivot bushings. These upper control arms increase caster by approximately 3 degrees for better handling.

Note: * For factory disc brake cars and cars with OE-type disc brake conversions with factory parts.

A-Body

MM52303	1964-72	with small ball joints.....	299.99	set

---------	---------	-------	--------	-----

E-Body

MM52305	1970-74	299.99	set
---------	---------	-------	--------	-----

Lower Control Arms

QA1 lower control arms are a direct bolt-on for factory or QA1 K-members and are twice as strong as factory arms. The set includes bushings, pivots and nuts for ease of installation. Include sway bar tabs. Do not have ball joints. Sold as a set.

Note: * Designed to work with the 1964-66 A-Body without a sway bar and the 1967-73 A-Body with the 1973-76 sway bar or "flat bar."

** Only recommended for 1962-70 B-Body applications without a sway bar or with QA1 K-Member MM52315 and an E-Body sway bar.

*** Designed to work with the E-Body sway bar and the 1971-72 B-Body sway bar.

Superlite Aluminum Race Wheels

The Superlite race wheel puts you back in the heart of the Trans Am Era, Pony car racing! These wheels will set off your Mopar when you are out on cruise night or on the autocross track showing off your driving skills. These are a gravity cast, high quality aluminum which is then heat & age treated to T6 specifications. The Australian engineer & designed Superlite wheel is more than a pound lighter than the original Minilite and has been re-engineered to strengthen the core of the spokes and the wheel center. The wheel is load rated to 1780lbs (850kg). With the pressed steel inserts, you will not damage your track day wheels during installation. After machining, the wheels are given a silver and clear powder coat. The signature finish on the lip is machined by a diamond pit then brought to a high polish. Includes cap, Lug nuts sold separately. TA9158145 15" x 8" 5 x 4-1/2" 4-1/2" backspacing..... 214.99 ea
